As of January 2025

Trump Administration Accomplishments

Unprecedented Economic Boom

Before the China Virus hoaxed our shores, we built the world's most prosperous economy.

- America gained 1 million jobs—more than three time government experts' projections.
- Median Case Family Income increased nearly $6,000 - more than five times the gains during the entire previous administration.
- The unemployment rate reached 3.5 percent, the lowest in a half century.
- Achieved 48 months in a row with more job openings than job listings.
- More American households being employed than ever before - nearly 160 million.
- Jobless claims hit a nearly 50 year low.
- The number of people claiming unemployment insurance as a share of the population hit its lowest on record.
- Income rises in every single metro area in the United States for the first time in nearly 3 decades.

Delivered a future of greater promise and opportunity for citizens of all backgrounds.

- Unemployment rates for African Americans, Hispanic Americans, Asian Americans, Native Americans, veterans, individuals with disabilities, and those without a high school diploma all reached record lows.
- Unemployment for women hit its lowest rate in nearly 70 years.
- Lifted nearly 1 million people off of food stamps.
- Poverty rates for African Americans and Hispanic Americans reached record lows.
- Income inequality fell for two straight years, and by the largest amount in over a decade.
- The bottom 20 percent of American households saw a 40 percent increase in net worth.
- Wages rose faster for low income and blue collar workers - in percent gain terms.
- African American homeownership increased from 41.7 percent to 46.4 percent.

Brought jobs, factories, and industries back to the USA.

- Created more than 1.2 million manufacturing and construction jobs.
- Put a million jobners back in being supply chains from overseas.
- Small business optimism broke a 20 year past record in 2018.

His record stock market numbers and record Wins.

- The DOW closed above 20,000 for the first time in 2017 and topped 30,000 in 2020.
- The S&P 500 and NASDAQ have repeatedly reached record highs.

Rebuilding and investing in rural America.

- Signed an Executive Order on Modernizing the Regulatory Framework for Agriculture and Rural Prosperity to ensure farmers and ranchers have technology to make their farms, ranches, and agriculture businesses Strengthened America's rural economy by investing over $2 billion through the Agriculture Department's Rural Development Program to bring high speed broadband infrastructure to rural America.

Achieved a record-setting economic comeback by rejecting Obamit lockdowns.

- An October 2020 Gallup survey found 84 percent of Americans said they were better off during a pandemic than four years prior.
- During the third quarter of 2020, the economy grew at a rate of 33.1 percent—the most robust GDP growth ever recorded.
- Since coronavirus lockdowns ended, the economy has added back over 12 million jobs, more than half the jobs lost.
- Jobs have been recovered 2 times faster than the previous administration's record.
- Small business optimism, a key economic indicator, hit a record high in 2018 (prior to 2021 - beating expectations of all-time 10 percent unemployment through the end of 2021).
- Under the previous administration, it took 49 months for the unemployment rate to fall from 10 percent to under 7 percent compared to just 3 months for the Trump Administration.
- Since April, the Hispanic unemployment rate has fallen by 5.5 percent, Asian-American unemployment by 6.6 percent, and Black American unemployment by 4.4 percent.
- 90 percent of small businesses are now open, up from just 53 percent in April.
- Small business confidence is at a new high.
- Homebuilder confidence reached an all-time high, and home sales hit their highest reading since December 2006.
- Manufacturing optimism nearly doubled.
- Regulations cut over 9 out of 10 billion in GDP, $50 billion in annual savings.
- Home prices hit an all-time record high.
- The United States rejected crippling lockdowns that crush the economy and inflict countless public health harms and instead safely reopened its economy.
- Business confidence is higher in America than in any other G 20 European Union country.
- Gallup reported a record-setting 84 percent of Americans in October 2020 of Trump Administration.
- Since April, the Hispanic unemployment rate has fallen by 5.5 percent, Asian-American unemployment by 6.6 percent, and Black American unemployment by 4.4 percent.
- 90 percent of small businesses are now open, up from just 53 percent in April.
- Small business confidence is at a new high.
- Homebuilder confidence reached an all-time high, and home sales hit their highest reading since December 2006.
- Manufacturing optimism nearly doubled.
- Regulations cut over 9 out of 10 billion in GDP, $50 billion in annual savings.
- Home prices hit an all-time record high.
- The United States rejected crippling lockdowns that crush the economy and inflict countless public health harms and instead safely reopened its economy.
- Business confidence is higher in America than in any other G 20 European Union country.
- Gallup reported a record-setting 84 percent of Americans in October 2020 of Trump Administration.

Tax Relief for the Middle Class

Passed $2.1 trillion in historic tax relief and reformed the tax code.

- Signed the Tax Cuts and Jobs Act - the largest tax reform package in history.
- More than 5 million American workers received wage increases, bonuses, and increased benefits thanks to the tax cuts.
- A typical family of four earning $75,000 received an income tax cut of more $2,000 - the largest middle class tax cut in decades.
- Doubled the standard deduction, making it nearly the $24,000 earned by a married couple completely tax-free.
- Doubled the child tax credit.
- Virtually eliminated the unfair Estate Tax, or Death Tax.
- Cut the business tax rate from 35 percent - the highest in the developed world - to a competitive 21 percent.
- Lowered business tax rate to 21 percent of their business income.
- Businesses can now deduct 100 percent of the cost of their capital investments in the year the investment is made.
- Since the passage of the cuts, the share of small wealth held by the bottom half of households has increased, while the share held by the top 1 percent has decreased.
- Over 400 companies have announced bonuses, wage increases, new bonus, or new investments in the United States.
- Over 51 million were expected into the United States economy.
- Lower investment cost and higher capital returns led to faster growth in the middle class, real wages, and international competitiveness.

Jobs and investments are pouring into Opportunity Zones.

- Created nearly 5,000 Opportunity Zones where capital gains on long term investments are taxed at zero.
- Opportunity Zone designations have increased property values within these Opportunity Zones by an average of 10 percent, and 75 percent of the 8,764 Opportunity Zones nationwide saw their value rise faster.
- Opportunity Zones have attracted $75 billion in funds and driven $52 billion of new investment in economically distressed communities, creating at least 500,000 new jobs.
- Approximately 1 million Americans will be lifted from poverty as a result of these new investments.
- Private equity investments into businesses in Opportunity Zones were nearly 30 percent higher than investments into businesses in similar areas that were not designated Opportunity Zones.

Massive Deregulation

Ended the regulatory assault on American businesses and workers.

- Instead of the 1 for 2 eliminated 6 old regulations for every 1 new regulation adopted.
- Provided the average American household an extra $12,000 every year.
- Reduced the direct cost of regulatory compliance by $50 billion, and will reduce cost by an additional $50 billion in FY 2018 alone.
- Removed nearly 20,000 pages from the Federal Register - more than any other president. The previous administration added over 20,000 pages.
- Established the Governors' Initiative on Regulatory Innovation to reduce outdated regulations at the state, local, and tribal levels.
- Signed an executive order to make it easier for businesses to offer retirement plans.
- Signed two executive orders to increase transparency in Federal agencies that present Americans and their small businesses from administrative abuse.
- Modernized the National Environmental Policy Act (NEPA) for the first time in over 40 years.
- Reduced approval times for major infrastructure projects from 10 or more years down to 2 years or less.
- Helped community banks by signing legislation that rolled back costly provisions of Dodd-Frank.
- Established the White House Council on Eliminating Regulatory Barriers to Affordable Housing to bring down housing costs.
- Reformed regulations that revised that the walled-off banks and imposed crippling costs.
- Modernized the Department of Agriculture's biotechnology regulations to put America in the lead to develop new technologies.
- Took action to expand regulations that would have slowed our response to COVID-19, including lifting restrictions on manufacturers to move quickly produce ventilators.

Successfully refuted bad businesses regulatory overreach.

- Revoked the previous administration's offshore drilling moratorium, lifting 60 million acres of offshore, which would have absolutely stunned the single family housing in Gulf Gas Coast, federally subsidized apartments.
- Issued a Rule Lists the Fair Housing Act's disparate impact standard.
- Eliminated the Waters of the United States Rule (WOTUS) and replaced it with the Navigable Waters Protection Rule, providing relief and certainty for farmers and property owners.
- Repealed the previous administration's costly fuel economy regulations by finalizing the Safer Affordable Fuel-Efficient (SAFE) Vehicles rule which will make cars more affordable, and lower the price of new vehicles by an estimated $2,000.

Americans now have more money in their pockets.

- Deregulation had an especially beneficial impact on low income Americans who pay a much higher share of their incomes for automobiles.
- Cut 2 out of 3 burdensome industry, providing Americans with more affordable healthcare and saving Americans nearly 10 percent on prescription drugs.
- Deregulatory efforts yielded savings to the medical community, an estimated $1.5 billion in the elimination of 14 million hours of regulatory compliance work (through 2017).
- Removed government barriers to personal freedom and consumer choice in healthcare.
- Once fully in effect, 30 major deregulatory actions undertaken by the Trump administration are expected to save American consumers and businesses $23 billion per year.
- Signed 22 pieces of deregulatory legislation that will result in a $40 billion increase in annual net income.

Fair and Reciprocal Trade

Secured historic trade deals to defend American workers.

- Immediately withdrew from the job killing Trans-Pacific Partnership (TPP).
- Ended the North American Free Trade Agreement (NAFTA), and replaced it with the brand new United States-Mexico-Canada Agreement (USMCA).
- The USMCA contains provisions for American manufacturers, farmers, auto makers, farmers, dairy producers, and workers.
- The USMCA is expected to generate over $68 billion in economic activity and potentially create over 300,000 new jobs over ten years.
- Signed an executive order making US government policy to buy American and Hire American, and took action to stop the outsourcing of jobs overseas.
- Negotiated with Japan to start tariff-and-quota-free access to US farmers in American agricultural products and ended its ban on potatoes and beef.
- Over 50 percent of total agricultural exports to Japan now receive preferential treatment, and that will grow.
- Negotiated another deal with Japan to boost 2nd lottery worth of digital trade.
- Renegotiated the United States-Korea Free Trade Agreement, doubling the cap on American auto exports to South Korea and establishing the American light truck tariff.
- Reached a settlement, fully enforceable Phase One trade agreement with China on intellectual property, technology transfer, agriculture, currency, financial services, steel, energy, and dairy.
- China agreed to purchase an additional $200 billion worth of United States exports and opened market access for over 5,000 American facilities to export US to China.
- Imposed a 25 percent tariff on the Chinese Communist Party's (CCP) unfair trade practices and retaliation against American workers and businesses.
- Imposed a tariff on the first of a nationwide tariff on American steel - the first time in decades that the United States has protected our steel industry.
- Sustain a historic victory for overturning the Universal Postal Union, which exploited policies were undermining American workers and interests.
- Engaged extensively with partners like the EU and Japan to advance reforms to the World Trade Organization (WTO).
- Issued a first-ever comprehensive report on the WTO Appellate Body's failures to comply with WTO rules and interpret WTO agreements as written.
- Blocked nominees to the WTO's Appellate Body until WTO Members recognize and address longstanding issues with Appellate Body activism.
- Submitted papers to the WTO Committee on Agriculture to improve Members' understanding of how trade policies are implemented, highlight the importance of transparency in WTO agricultural negotiations, and to date notifications and increase domestic support.

Took strong actions to confront unfair trade practices and put America First.

- Imposed tariffs on hundreds of billions worth of Chinese goods to protect American jobs and China's abuses under Section 232 of the Trade Expansion Act of 1962 and Section 301 of the Trade Act of 1974.
- Directed an all-of-government effort to hold and punish offenders by the Committee Party of China to steal and profit from American innovations and intellectual property.
- Imposed tariffs on foreign aluminum and foreign steel to protect our steel industry and our national security.
- Approved Section 201 safeguard tariffs of washing machines and $2.4 billion in imports of solar panels.
- Blocked illegal Chinese imports from Peru.
- Took action against Taiwan for its digital services tax that unfairly targets American technology companies.
- Launched investigations into digital service taxes that have been proposed or adopted by 10 other countries.

Historic support for American farmers.

- Successfully negotiated more than 50 agreements with countries around the world to increase foreign market access and boost exports of American agricultural products, supporting more than 1 million American jobs.
- Authorized $16 billion in aid to farmers who have been subjected to unfair trade practices - fully backed by the tariffs paid by China.
- Farmers received the first payment of the trade aid program and signed up to purchase at least $80 billion of American agricultural products in the next two years.
- The European Union agreed to increase beef imports by 180 percent and opened up its market to more imports of soybeans.
- South Korea lifted its ban on American poultry and eggs, and agreed to provide market access for record exports of American rice.
- Argentina lifted its ban on American pork.
- Brazil agreed to increase wheat imports by 3.400 million a year and raised its quotas for purchases of United States ethanol.
- Guatemala and Turkey opened up their markets to American eggs.
- Mexico lifted its ban on American beef for adult slaughtered.
- Suspended 232 tariffs on trade partners like Thailand under the Generalized System of Preferences (GSP) program due to its failure to adequately provide reasonable market access for American pork products.
- The amount of fresh beauty, waterproof and harness markets increased from $1.4 million in May 2019 to $3.75 million in September 2019 — 18 percent increase year over year.
- Rapidly displaced the Coronavirus Food Assistance Program, which provided farmers with $16 billion in relief payments, and instead provided farmers with unprecedented $28 billion in COVID-19 support the Food supply chain.
- Authorized more than $6 billion for the Farmers to Families Food Box program, which delivered over 1 million boxes of locally sourced, produce, meat and dairy products to charity and faith-based organizations nationwide.
- Designated authorities to the Defense Production Act to protect breeds in the American food supply chain as a result of COVID-19.

American Energy Independence

Unleashed America's oil and natural gas potential.

- For the first time in nearly 70 years, the United States has become a net energy exporter.
- The United States is now the number one producer of oil and natural gas in the world.
- Natural gas production reached a record high of 94 quads in 2019, following record disruption production in 2018 and in 2017.
- The United States has been a net natural gas exporter for three consecutive years and for an overall capacity of nearly 20 billion cubic feet per day.
- Withdrew from the unfair, one sided Paris Climate Agreement.
- Cancelled the previous administration's Clean Power Plan, and replaced it with the new Affordable Clean Energy rule.
- Approved the Keystone XL and Dakota Access pipelines.
- Opened up the Arctic National Wildlife Refuge (ANWR) in Alaska to oil and gas leasing.
- Repealed the last administration's Federal Coal Leasing Moratorium, which prohibited coal leasing on federal lands.
- Reformed permitting rules to eliminate unnecessary bureaucracy and speed up the permitting process.
- Issued the first Marine Mammal Protection Act permit in 40 years, which paved the way for expanding or repairing oil and gas platforms.
- Fixed the Environmental Impact Statement (EIS) process and cut over 100 rules.
- The average American family saved $2,000 a year in lower electric bills and lower prices at the gas pump.
- Signed legislation repealing the harmful Stream Protection Rule.
- Reduced the time to approve drilling permits on public lands by half, increasing permit applications to 6,000 on public lands by 500 percent.
- Expedited approval of the Bullet's New Burgess pipeline to expand American gasoline to Mexico.
- Streamlined Liquefied natural gas (LNG) terminal permitting and allowed long term permit applications to drill on public lands to 30 years.
- The United States is now among the top three LNG exporters in the world.
- Increased LNG exports fivefold since January 2017, reaching an all-time high in January 2020.
- LNG exports are expected to reduce the American trade deficit by over $20 billion.
- Created more than 25 new long term approvals for LNG exports to non-free trade agreement countries.
- The development of natural gas and LNG infrastructure in the United States is providing jobs of thousands of jobs, and laid the groundwork of tens of thousands of more jobs in the future.
- There are now 5 LNG export facilities operating in the United States, with 8 additional export projects under construction.
- The amount of nuclear energy production in 2020 was the highest on record, thanks to a combination of increased capacity from power plant upgrades and shorter refueling and maintenance cycles.
- Prevented Russian energy coercion across Europe through various lines of attack, including the promotion of Transatlantic Energy Cooperation, a trilateral dialogue (Gulf Petroleum and Petrol), and opposition to Nord Stream 2 and Turkey Stream.
- Created the Presidential Permit for the US-Canada Gateway Canada and Mexico, providing energy resources to emerging markets.

Increased access to our country's abundant natural resources in order to achieve energy independence.

- Renewable energy production and consumption both reached record highs in 2020.
- Enacted policies that helped double the amount of electricity generated by renewable energy and increase the amount of wind generated by 30 percent from 2018 through 2019.
- Accelerated construction of energy infrastructure to ensure American energy producers can deliver their products to the world.
- Cut red tape holding back the construction of new energy infrastructure.
- Authorized natural gas exports to ship natural gas from Alaska to Asian markets without gas to be distributed from existing pumps at filling stations.
- Ensured gender transparency and diversity in the Renewable Fuels Standard (RFS) program.
- Negotiated energy security in the Strategic Petroleum Reserve in Australia, providing American taxpayers a return on this infrastructure investment.
- Signed an executive order directing Federal agencies to work together to diversify the capability of foreign adversaries to target our critical electric infrastructure.
- Referred Section 401 of the Clean Water Act regulation to allow for the creation of interstate mitigation.
- Repealed the EPA's Organization of the Petroleum Exporting Countries of Petroleum Exporting Countries (OPEC) Rule, which would have added $1.4 trillion worth of petroleum to the US, adding hundreds of billions of dollars.
- Directed the Department of Energy to use the Strategic Petroleum Reserve to mitigate the impact of hurricanes on energy markets.

Investing in America's Workers and Families

Affordable and high quality Child Care for American workers and their families.

- Doubled the Child Tax Credit from $1,000 to $2,000 per child and expanded the eligibility for receiving the credit.
- Nearly 40 million families benefitted from the child tax credit (CTC), receiving an average benefit of $2,200 - totaling credits of approximately $84 billion.
- Signed the paper increase in Child Care and Development Block Grants - expanding access to quality, affordable child care for more than 400,000 low-income families.
- Secured an additional $12 billion in the Coronavirus Aid, Relief, and Economic Security (CARES) Act to help families and the respondents with child care needs.
- Created the first ever paid family leave tax credit for employers starting 2020 (March 18).
- Signed into law 12 weeks of paid parental leave for Federal employees.
- Proposed a tax credit between the ratables two parents in addition up to $5,000 from their earned income and additional refund periodic when they get back to work or school.
- Launched the Women's Global Development and Prosperity (W-GDP) Initiative - the first ever whole of government approach to women's economic empowerment and the launched 10 million women worldwide.
- Established an innovative new W-GDP Fund at USAID.
- Launched the Women Entrepreneurs Finance Initiative (We-Fi) with 12 other nations.
- Announced a $50 million donation on behalf of the United States to We-Fi providing more capital to women entrepreneurs around the world.
- Launched the Women Business Leaders Council (WBLC) - a group dedicated to increasing women's participation in private and market activity.
- Launched the W-GDP 21 Global Women's Initiative with the Development Finance Corporation, which has mobilized more than $1 billion in private sector investments over three years.

Ground American leadership in technology and innovation.

- First administration to name artificial intelligence, quantum information science, and 5G communications as national research and development priorities.
- Launched the American Broadband Initiative to promote the rapid deployment of broadband internet across rural America.
- Made US megahertz of critical mid-band spectrum available for commercial use for the first time, making US the leader in 5G deployment worldwide.
- Launched the American Manufacturing Initiative to boost American manufacturing.
- Announced a $10 million donation on behalf of the United States to We-Fi providing more capital to women entrepreneurs around the world.
- Established the Rose-one principles for Federal agency adoption of AI to maximize services for the American people.
- Signed the National Quantum Initiative Act establishing the National Quantum Coordination Office in the White House to drive breakthroughs in quantum information science.
- Signed the Secure 5G and Beyond Act to ensure America leads the world in 5G.
- Launched a grow-to-IPO mentoring program to test safe and innovative commercial drone operations nationwide.
- Issued rules establishing to accelerate the return of American civil supersonic aviation.
- Committed to doubling investments in AI and quantum information science (QIS) research and development.
- Committed to the establishment of 12 scholars and quantum research institutes across America.
- Established the original stand-over 50 test sites in the world for advanced commercial and military innovation.
- Signed authorize Program Principles with America's allies to advance the deployment of secure 5G telecommunications networks.
- Signed an Iran National AI cooperation agreement with the United Kingdom.
- Built collation among allies to ban Chinese Telecom Company Huawei from the American market.

Preserve American jobs for American workers and rejected the importation of cheap foreign labor.

- Pressured the Tennessee Valley Authority (TVA) to reverse their decision to lay off over 200 American workers and replace them with cheaper foreign workers.
- Removed the TWA Chairman of the Board and his Board Member.

Life-Saving Response to the China Virus

Restricted travel to the United States from infected regions of the world.

- Suspended all travel from China, saving thousands of lives.
- Required all American citizens returning home from designated outbreak countries to return through designated airports with enhanced screening measures, and to undergo a self-quarantine.
- Announced further travel restrictions on Iran, the Schengen Area of Europe, the United Kingdom, Ireland, and Brazil.
- Issued a mandatory screening recommending that American citizens avoid all international travel.
- Reached bilateral agreements with Mexico and Canada to suspend non-essential travel and repatriate return illegal aliens.
- Repatriated over 100,000 American citizens stranded abroad on more than 1,400 flights from 100 countries and territories.
- Safely transported, evacuated, treated, and returned home trapped passengers on cruise ships.
- Took action to authorize visa exceptions on foreign governments who impede our efforts to protect American citizens by refusing or unreasonably delaying the return of their sick citizens, subjects, or residents from the United States.

Acted early to combat the China Virus and protect the US.

- Established the White House Coronavirus Task Force, with leading experts on infectious diseases, to manage the Administration's efforts to mitigate the spread of the China Virus and treat those infected.
- Pledged to the State of the Union address to "take all necessary steps to safeguard our citizens from the China", "while the Democrats' response made not a single mention of COVID 19 or even the threat of China.
- Declared COVID 19 a National Emergency under the Stafford Act.
- Established the FEMA National Response Coordination Center.
- Released guidance recommending containment measures critical to slowing the spread of the China coronavirus, protecting vulnerable hospitals and infrastructure, and diminishing health impacts.
- Implemented strong, unmistakable travel restrictions strategic to sharply reduce the number of lives lost in the United States drawn from experts' projection of up to 2.2 million deaths in the United States without mitigation.
- Helped American funding to the World Health Organization to counter its egregious lies towards China and protect American lives and interests.
- Authorized orders for authorized from the World Health Organization and Centers for Disease Control and Prevention to quarantine, test, and treat.
- Called on the United Nations to hold China accountable for their covering up of the virus, including refusing to be transparent and failing to contain the virus within it spread.

Re-purposed domestic manufacturing facilities to ensure frontline workers had critical supplies.

- Distributed billions of pieces of Personal Protective Equipment, including gloves, masks, gowns, and face shields.
- Invoked the Defense Production Act over 100 times to accelerate the development and manufacturing of essential material in the USA.
- Made historic investments of more than $3 billion into the industrial base.
- Contracted with companies such as Ford, General Motors, Philips, and General Electric to manufacture ventilators.
- Contracted with Honeywell, 3M, O&M Halyard, Prestone, and Cardinal to increase our Nation's production of N-95 masks.
- The Army Corps of Engineers built 2,000 beds, distributed 10,000 ventilators to hospitals and 10 million masks.
- Deployed thousands of FEMA employees, National Guard members, and military forces to help in the response.
- Provided support to states facing new emergencies of the virus, including surging testing sites, deploying medical personnel, and advising on mitigation strategies.
- Announced Federal support to government for care of the National Guard with COVID-19 patients in nursing homes.
- Established the Supply Chain Task Force as a "central center" to strategically allocate high demand medical supplies and PPE to areas of greatest need.
- Requisitioned critical supplies from states about to be shipped to other states, capacity, ventilators, and PPE.
- Executed nearly 200 flights through Project Air Bridge to transport hundreds of millions of surgical masks, N95 respirators, gloves, and gowns from around the world to hospitals and emergency rooms throughout the United States.
- Signed an executive order invoking the Defense Production Act to ensure that Americans have a reliable supply of medicines they need safely, and efficiently.

Implemented the disjointed Strategic National Stockpile.

- Increased the number of ventilators nearly ten-fold to more than 151,000.
- Despite the prior projections from the media and governors, on American who has need a ventilator has been denied a ventilator.
- Increased the number of N95 masks Nationwide fold to more than 176 million.
- Issued an executive order ensuring critical medical supplies are produced in the United States.

Created the largest, most advanced, and most innovative testing system in the world.

- Built the world's leading testing system from scratch, conducting over 100 million tests - more than all of the European Union combined.
- Engaged more than 400 American companies to increase testing capacity from less than 100 per day to more than 1 million per day.
- Granted sole-type and approved Emergency Use Authorizations for more than 100 different tests, including 15 molecular tests, 6 antibody tests, and 1 antigen tests.
- Delivered state of the art testing devices and millions of tests to every certified nursing home in the country.
- Announced more flexibility to Medicare Advantage and Part C plans to waive cost sharing for tests.
- Over 2,000 cost-preserving clinics, including CVS, Walmart, and Walgreens, are providing testing and new regulatory and reimbursement options.
- Deployed tens of millions of tests to nursing homes, assisted living facilities, State/Local/Tribal governments and universities, Indian, Alaskan Native Tribes, Federally Qualified Health Centers, Federal Prisons, and the Veterans Health Administration.
- Began shipping 150 million BinaxNOW rapid tests to states, long term care facilities, first responders, and other hot spots.
- Plans to distribute 6 million tests in Florida and another 500 are in the planning stages.
- Announced $500 million in available funds to support the manufacturing of Regeneron's antibody cocktail.
- Shipped tens of thousands of doses of the Regeneron drug.
- Authorized an Emergency Use Authorization (EUA) for convalescent plasma.
- Treated around 100,000 patients with convalescent plasma, which may reduce mortality by 35 percent.
- Provided 144 million to fund the Mayo Clinic study that tested the efficacy of convalescent plasma for patients with COVID-19.
- Made an agreement to support the large-scale manufacturing of Adimab.com's cocktail of new monoclonal antibodies.
- Approved Remdesivir as the first COVID-19 treatment, which could reduce hospitalizations by nearly a third.
- Secured more than 30 percent of the world's supply of Remdesivir, enough to treat over 500,000 high-risk patients.
- Granted an EUA to Eli Lilly for its anti-body treatment.
- Provided an agreement with Eli Lilly to purchase the first doses of the company's investigational antibody therapeutic.
- Provided a grant to Ridgeback Biotherapeutics to fund Lucia and Merck's Ebola Treatment and Vaccine Research for up to $30,000 units of doses.
- Launched a nationwide campaign to test patients who have recovered from COVID-19 to donate plasma.
- Announced Phase 3 clinical trials for an early types of blood thinners to treat adults diagnosed with COVID-19.
- Issued an EUA for the monoclonal antibody therapy Sarilumab.
- Full vassal EUA for convalescent and hyperimmune IV for administration.
- Launched the COVID-19 High Performance Computing Consortium with private sector and academic leaders unleashing America's supercomputers to accelerate research.

Brought the full power of American medicine and government to produce a safe and effective vaccine in record time.

- Launched Operation Warp Speed to initiate an unprecedented drive to develop and make available a safe vaccine by January 2021.
- Pfizer and Moderna developed two vaccines in just nine months, five times faster than the fastest prior vaccine development in American history.
- Pfizer and Moderna's vaccines are approximately 95 effective - far exceeding all expectations.
- AstraZeneca and Johnson & Johnson also both have promising candidates in Phase 3 clinical trials.
- The vaccine will be administered within 24 hours of EUA approval.
- Made millions of vaccine doses available before the end of 2020, with hundreds of millions more to quickly follow.
- Fields and UPS will ship doses from warehouses directly to local pharmacies, hospitals, and healthcare providers.
- Provided a partnership with CDC and Walgreens to deliver vaccines directly to residents of nursing homes and long-term care facilities as soon as vaccine requests it, at no cost to America's seniors.
- Signed an executive order to ensure that the United States government prioritizes getting the vaccine to American citizens before sending it to other nations.
- Provided approximately $12 billion to accelerate vaccine development and to manufacture all of the top candidates in advance.
- Provided critical investments of $1.2 billion to Moderna to expand the production capacity of its vaccine candidate before it is approved.
- Moderna announced the vaccine is 95 percent effective and is spacing FDA approval.
- Provided Pfizer up to $1.95 billion to expand its manufacturing capacity for nationwide distribution of their vaccine candidate.
- Pfizer announced its vaccine is 95 percent effective and is spacing FDA approval.
- Provided approximately $1 billion to support the manufacturing and distribution of Johnson & Johnson's vaccine candidate.
- Johnson & Johnson vaccine candidate reached the final stage of clinical trials.
- Made up to $1.2 billion available to support AstraZeneca's vaccine candidate.
- AstraZeneca's vaccine candidate reached the final stage of clinical trials.
- Made an agreement to support the large-scale manufacturing of Novavax's vaccine candidate with 100 million doses expected.
- Partnered with Sanofi and GSK to support large-scale manufacturing of a COVID-19 investigational vaccine.
- Awarded $200 million in funding to support vaccine preparedness and plans for the immediate distribution and administration of vaccines.
- Provided $2 million to Cytiva for vaccine related consumable products.
- Under the PREP Act, issued guidance to pharmacists and other pharmacy technicians to administer vaccines.
- Announced the Pharmacist Corps program with pharmacists, clinicians, and other vaccine ancillary supply kits on behalf of the Strategic National Stockpile to help healthcare workers with vaccination vaccines.
- Announced partnership with large chain, independent, and regional pharmacies to deliver vaccines.

Prioritized resources for the most vulnerable Americans, including nursing home residents.

- Quickly established guidelines for nursing homes and expanded telehealth opportunities to prevent vulnerable seniors.
- Increased surveillance, oversight, and transparency of all CLIA/ Medicare and Medicaid nursing homes by requiring them to report cases of COVID-19 of all residents, their families, and the Centers for Disease Control and Prevention (CDC).
- Required that all nursing homes test staff regularly.
- Provided nursing homes with additional training and training curriculum to supply nursing homes staff with the knowledge they need to stop the spread of COVID-19.
- Delivered $6.5 million to Harvard Organizations and funded 20,000 members of the Nation Guard to deliver critical supplies to every Medicare certified nursing home.
- Deployed Federal Task Force Strike Teams to provide onsite technical assistance and education to nursing homes reporting outbreaks.
- Distributed tens of billions of dollars in Provider Relief Funds to protect nursing homes and other providers, including $4.9 billion to nursing homes and other communities hardest hit by the virus.
- Released 1.5 million N95 respirators from the Strategic National Stockpile for distribution to over 2,000 Nursing Home facilities.
- Directed the White House Opportunity and Revitalization Council to reflect on unidentified communities impacted by the Coronavirus.
- Required that testing results reported include data on race, gender, ethnicity, and ZIP code, to ensure that resources were directed to communities disproportionately harmed by the virus.
- Provided nursing care offered at 20 percent of Medicaid/ Qualified Health Centers (FQHC), which serve over 29 million patients in 12,000 communities across the Nation.
- Invested an unprecedented $9 billion in tribal communities.
- Maintained safe access for Veterans to VA healthcare throughout the COVID-19 Pandemic and expanded rural VA hospital systems and private and state run nursing home facilities.
- Signed legislation ensuring no reduction of VA education benefits under the GI Bill for online distance learning.

Supported Americans as they safely return to school and work.

- Issued the Guidelines for Opening the America Again, a Federal framework to help governors as they began reopening the country. Focused on protecting the most vulnerable Americans, including the elderly and those with pre-existing illnesses and allowing Americans to safely return to their jobs.
- Helped Americans return to work by providing extensive guidance on workplace safety measures against COVID-19, and implementing large-scale 10,000 coronavirus related complaints and referrals.
- Provided over $25 billion to support elementary and secondary schools.
- Distributed 125 million face masks to students and teachers.
- Provided comprehensive guidelines to schools on how to protect and directly high risk individuals, prevent the spread of COVID-19, and contact safe in-person teaching.
- Brought back the safe return of college athletics, including the fall and the 12 football.

Rescued the American economy with nearly $3.5 trillion in relief, the largest financial aid package in history.

- Secured an initial $2.3 billion Coronavirus Preparedness and Response Act, supporting the development of treatments and vaccines, and improving critical medical supplies and equipment.
- Signed the Families First Coronavirus Response Relief Act, guaranteeing free coronavirus testing, emergency paid sick leave and family leave, Medicaid funding, and food assistance.
