>Last posts [self destruction] will immediately show the world the TRUTH.

>Instructions will be sent on how to preserve offline.

REMINDER: COMFY GOOD. PANIC BAD.

oy mates, calm down.

Q's not going to delete everything, you're not going to have to download 1.2 terabytes of data in 19 seconds.

Q's talking about HIS self destruction, done with his last posts, as they will complete the reveal of all/him/it/them/etc.

>Last posts [self destruction]

as in Q's last posts...

>will immediately show the world the TRUTH.

will... immediately show the world the TRUTH.

>Instructions will be sent on how to preserve offline.

is not a PANIC SIGNAL that we'll only have seconds to archive (we're pretty good at that already anyway) but just logical: when Q stops, this board no longer has purpose - maybe for a while, to help along, but ultimately we'll move on to other things, etc. (Think BIG/BIGGER/BIGGEST)...

I might be wrong, but this reading of Q seems to me to make sense and be consistent with precedent. Q's last posts ain't gonna be hit and run, bro, looks like they're gonna be SPECTACULARRRRR!

Sure, that will include more than his pics & posts, so by all means be fkn ready, but staaahp it with the shilly panic-mode, we're having a blast out here smelling clown fear.

Godspeed.

SHIIIT

Court documents recently filed by the government further rock the credibility of Russia Special Counsel Robert Mueller because they show that as FBI Director Mueller he worked to cover up the connection between a Florida Saudi family and the 9/11 terrorist attacks. The documents reveal that Mueller was likely involved in publicly releasing deceptive official agency statements about a secret investigation of the Saudis, who lived in Sarasota, with ties to the hijackers. A Florida journalism nonprofit uncovered the existence of the secret FBI investigation that was also kept from Congress.

TEMPEST is a National Security Agency specification and a NATO certification[1][2] referring to spying on information systems through leaking emanations, including unintentional radio or electrical signals, sounds, and vibrations.[3] TEMPEST covers both methods to spy upon others and how to shield equipment against such spying. The protection efforts are also known as emission security (EMSEC), which is a subset of communications security (COMSEC).[4]

The NSA methods for spying on computer emissions are classified, but some of the protection standards have been released by either the NSA or the Department of Defense.[5] Protecting equipment from spying is done with distance, shielding, filtering, and masking.[6] The TEMPEST standards mandate elements such as equipment distance from walls, amount of shielding in buildings and equipment, and distance separating wires carrying classified vs. unclassified materials,[5] filters on cables, and even distance and shielding between wires or equipment and building pipes. Noise can also protect information by masking the actual data.[6]

While much of TEMPEST is about leaking electromagnetic emanations, it also encompasses sounds and mechanical vibrations.[5] For example, it is possible to log a user's keystrokes using the motion sensor inside smartphones.[7] Compromising emissions are defined as unintentional intelligence-bearing signals which, if intercepted and analyzed (side-channel attack), may disclose the information transmitted, received, handled, or otherwise processed by any information-processing equipment

My roommate just had a flash insight, out of nowhere ... something that has never happened before ... hard copy needed because some broadcast signal will be sent to absolutely wipe every electronic device.

I personally have always wondered what signals can come through the power lines. But with that notwithstanding, there are other back doors into every system (I got banned last time I talked about specifics on that, but that was on CBTS).

So this won't be good for very much except something to look back on.

Yes, they'll try to coopt it, but it will fail because the evidence flying around will re-coopt it. So they're actually hurting themselves by normalizing the term. (Of course, they're in a no-win situation, so there's that.)

I spoke with a friend today who has been watching Hannity. I started off slow as usual when I try to redpill, but he was agreeing and buying everything I said. So I went deep and talked about Roths, pedos, cannibalism, RC, Vatican, attempts by HRC and deep state to start WW3, NK being held by CIA, Bushes in on this, 9/11 was false flag, etc. - he said yeah, makes sense. I was blown away since usually you have to go easy on the normies.

My point is we should support Hannity - he is reaching a large audience and conditioning them to be ready to hear whatever we can substantiate. My friend didn't know most of what I had said, but he was ready to hear what i told him. We are winning!

Hatch Act of 1939

The Hatch Act of 1939, officially An Act to Prevent Pernicious Political Activities, is a United States federal law whose main provision prohibits employees in the executive branch of the federal government, except the president, vice-president, and certain designated high-level officials from engaging in some forms of political activity. It went into law on August 2, 1939. The law was named for Senator Carl Hatch of New Mexico. It was most recently amended in 1940.

Dear Q, put up or STFU.

I feel like I've been patient with you for months now. Sitting fingers crossed hoping you were for real, NEEDING you to be real...tick after fucking tock...rinse and repeat....and still I sit waiting.

PATIENCE I said to doubters, patience, this needs time to unravel...tick after fucking tock, rinse and repeat and still I sit waiting.

Promise, it's happening you just can't see it...happening...what I see happening is more of the same lies, more of the same corruption, Chuck doesn't seem scared to me, looks like he's sleeping just fine.

Hot air blowing from Gowdy as usual, but nothing ever happens. Investigation after investigation, but no one is ever punished, theater, damn straight it's theater, we're starting to realize it's all damn theater. It's like you're continually sticking pacifiers in our mouths...Trust us you say, tick fucking tock you promise....

Clinton Crime Cartel jetting off to Hawai'i...watching them so close are you? They seem so damn worried. SO worried and SO scared of YOU all that they called in an airstrike and left.

Gefen, Singer, Speilburgh, Weinstein, still raping kids, still making movies, everything's fine here...CDCN says not...black mail houses EVIDENCE laying everywhere, and they walk free.

State reps blackmailed...still in office...no one resigning, everyone smiling...no one is fucking scared of you. No one has offed themselves, no tragic accidents...a few resignations....whooooooooo. Impressed. @Jack still censoring with vigor, he's so scared...you can tell how scared he is...

There is a long game, and then there is fucking ridiculous. Put up or shut up. You're worse than KimDotCom. Tick fucking tock....wake me when the clock strikes ANYTHING.

Now we get to sit back and listen to the President of PooInTheLoo diss our country, Castro's Rainbow Sock-wearing boy child diss our country, we all get to sit here and pretend something is going to happen to change this assbattery?

We can't release it all, it would cause wars you say....fuck 'em....not one they can win. We're sick of this shit. END IT.

WTF is wrong with you people. Rip the bandage off and stop dicking around.

I'd like to figure this out but I like to browse and read news not so much computer autistic, stopped doing that 15 years ago.

Something is encrypted there and someone else dropped a link in bold that looked like a bitlocker encryption key as well... that may or may not have something to do with it.

Barack Obama visited Pakistan stayed with Mohammed Hasan Chandoo, who are the Chandoo Brothers?

[www. mikefrancesa.com/wordpress/?p=1190](http://www.mikefrancesa.com/wordpress/?p=1190) ^ | September 18th, 2008

Posted on 10/2/2008, 1:14:51 AM by seastay

For some reason Barack Obama has never mentioned his three week stay in Pakistan in any of his writings. On the infamous San Francisco trip in which Obama called small town Americans "bitter" he also bragged that he had more foreign policy credentials than Hillary Clinton and John McCain. One of the things he listed on his resume was his extensive foreign travel including a 1981 trip to Pakistan. However since this admission, slip of the tongue, or however you would characterize it, Obama has never mentioned this trip again.

Although his campaign manager did discuss it when pressed:

As a freshman, he quickly became friends with Mohammed Hasan Chandoo and Wahid Hamid, two wealthy Pakistanis. In 1981, Obama transferred from Occidental to Columbia. In between, he traveled to Pakistan - a trip that enhanced his foreign policy qualifications, he maintained in a private speech at a San Francisco fundraiser last month. Obama spent "about three weeks" in Pakistan, traveling with Hamid and staying in Karachi with Chandoo's family, said Bill Burton, Obama's press secretary.

The Chandoo he was referring to is Mohammed Hassan Chandoo which this website claims is now a major campaign bundler for Obama:

Bundler: Hasan Chandoo

This is what I'd expect. They'll resist it until the conflicts in their belief system reach a critical point. At that point, they'll need an explanation so badly that they'll open up like a dam breaking. This is being scripted very well, IMO.

Good question - I'm not really sure. I kept going looking for pushback, but what I realized was that I was filling in holes in the framework that Hannity had established. I was worried about my friend accepting that Obama was as crooked as Hillary and the Bushes, but surprisingly the Magic N seems to have lost a lot of his luster among the masses. I think that is what the DS really fears (and Q told us as much) - our citizens no longer looking at O as a god. They are increasingly not doing that.

Would I be correct in assuming both Snowden and Manning were bad actors. Manning made our ROE ridiculous, then gets sentence commuted as attempt to have Assange give up, then runs for senate to continue undermining US.

AIDS is trending on Twitter. NYT ran this story today with sources saying POTUS said:

"Haiti had sent 15,000 people. They "all have AIDS," he grumbled, according to one person who attended the meeting and another person who was briefed about it by a different person who was there."

I am a lefty, we are much like those on the right, we have been divided by a game where good and bad things have been split between 2 partisan groups (anyone not brainwashed sees both sides are mixed), each side has positives and negatives.

It is of course Trump, who has been on the left at times himself, and independent, that has finally rebelled against the Cabal/NWO/Satanists/Illuminati.

So things have been extra divisive, so we should try and avoid using left and right stereotype memes that are designed to divide us.

We must recognize the true axis which is Good and Evil, we need to show that we are fighting on the side of good for those on the left, right, progressive, libertarian, center and not political or disillusioned, atheist, theist or agnostic etc...

Also, let's make this less about Trump, until he has rehabilitated his image and more about those behind the scenes that we believed approached Trump, make this about Adm Rogers etc...

Trump is largely just telling the white hats do their job.

A lot on the left are disgusted by Clintons and Obama just as many on the right are not fans of Dubya or Cheney.

We need to lose the cuck kek Trumpisms and anti left stuff and realize this is not about just Dems, it is not a right or left issue, it is a Good .vs Evil.

Q told us that POTUS would be overseas when the shit hits the fan. He is about to go to Davos.

Is Snowden about to release an encrypted dump of data which requires a key, which we just received today?

Remember that a GUID like the name of the .PNG file we just got, is only a text representation of a string of binary digits. So the binary digits could be an encryption key. Or a resource ID in a SAN or OS, or even a Bitlocker ID. We need more info to be sure.

>McCallum's interest was piqued. She asked Gowdy for additional details.

"You have this insurance policy in the Spring of 2016 and then the day after the election ... there's a text exchange between these two FBI agents – these two (supposed to be objective, fact-centric) FBI agents saying, 'perhaps this is the first meeting of the secret society,'" Gowdy explained. "So of course I'm gonna want to know what 'secret society' are you talking about – because you're supposed to be investigating objectively the person who just won the Electoral College."

John Carlin

John Carlin

Chair, Global Risk + Management and Partner, Morrison & Foerster

John P. Carlin, former Assistant Attorney General for the U.S. Department of Justice's (DOJ) National Security Division (NSD), chairs Morrison & Foerster's Global Risk and Crisis Management team and advises industry-leading organizations in sensitive cyber and other national security matters, white collar investigations, and government enforcement actions.

Mr. Carlin has served as a top-level official in both Republican and Democratic administrations, most recently as Assistant Attorney General for National Security, the DOJ's highest-ranking national security lawyer. In this capacity, for which Mr. Carlin was nominated by President Obama and overwhelmingly confirmed by the Senate on a bipartisan basis, he oversaw nearly 400 employees responsible for protecting the nation against terrorism, espionage, and cyber and other national security threats.

Prior to assuming his role in the NSD, Mr. Carlin served as Chief of Staff and Senior Counsel to Robert S. Mueller, III, former director of the FBI, where he helped lead the FBI's evolution to meet growing and changing national security threats, including cyber threats. Mr. Carlin also held positions as National Coordinator of the DOJ's Computer Hacking and Intellectual Property Program and Assistant United States Attorney for the District of Columbia, where he prosecuted cyber, fraud, and public corruption matters, among others, trying more than 40 cases to verdict.

Mr.Carlin is now chair of a new program on cybersecurity at The Aspen Institute. He has been featured or cited as a leading authority on cyber and economic espionage matters by numerous major media outlets, including The New York Times, The Washington Post, The Wall Street Journal, The Los Angeles Times,

USA Today, CBS's 60 Minutes, NBC's Meet the Press, PBS's CharlieRose and Newshour, ABC's Nightline and Good Morning America, NPR, CNN, and Vanity Fair, among others.

Mr. Carlin, who joined DOJ through the Attorney General's Honors Program, is a five-time recipient of the Department of Justice Award for Special Achievement and has drawn bipartisan praise, with U.S. Attorney General Loretta Lynch calling him "a trusted and tireless leader" and former U.S. Attorney General Michael Mukasey calling him "a superb civil servant." He earned his Juris Doctorate from Harvard Law School, where he received the Samuel J. Heyman Fellowship for Federal Government Service and served as Articles editor for the Harvard Journal on Legislation, and earned his Bachelor of Arts degree, magna cum laude, from Williams College, where he was elected to Phi Beta Kappa.

Excellent work by POTUS and his team. This is not a game. This is war.

We do not want high level arrests. We do not want perp walks. We want the crime to stop. We want the network of criminal conspiracy to be broken. We want their resources to be blocked or confiscated or destroyed.

Only when all this is done, and it is impossible for someone else to pick up the pieces, only then do we want the high ranking people arrested. But even then, not too quickly. Give them lots of time to commit suicide or murder each other. We will be happy because we are free.

I am against controlled political systems.

But we are in a system where you can pick left or right. My post wasn't about one side or any side being correct, or one system of government or no system of government.

But just the reality that our mission here is to help wake people up and make this go more smoothly for all people no matter their opinion on Trump and Republicans.

Indeed, it would be if anything more important to wake up those on the left because they would take Clinton's and Obama going down harder than Republicans might take the Republicans going down.

We need to unite, not divide, we need to say fuck off to the cabal not to those who want this to happen!

We were talking about that last night. Best guess was to extract as much intel from him as possible, while giving America a black eye, and getting positive publicity. Can't imagine he's being treated as favorably as he had in the past. Putin expelled Roth's from his country, and if NSA is working to take down Roth's, I think

that'd warrant an extradition. Maybe we gave him something in return as others have suggested, or what is currently happening was sufficient a bargaining chip to send him back.

A psychotherapist who also notes the parental abandonment Obama suffered in his childhood says that while she can't prove it, "the degree of Obama's disconnect reminds me of my sexually abused clients."

Writing under the pseudonym Robin of Berkeley, the psychotherapist says Obama's poem "evoked images of sexual abuse."

Many pundits who have examined Barack Obama's unconventional childhood have marveled at his ability to overcome significant personal obstacles to become the leader of the free world, but it's not hard to imagine there have been consequences.

Speculation about Obama's sexuality has roiled beneath the radar of establishment media, fed, among other things, by Larry Sinclair's sensational claims of cocaine-fueled homosexual acts with Obama in Chicago and reports of Obama's "transgender nanny" in Indonesia.

Now, the former radical activist from Occidental College who has recounted a 1980 encounter in which Obama affirmed revolutionary Marxist views tells WND in an interview his strong impression at the time was that Obama and the wealthy Pakistani roommate who accompanied him were homosexual lovers.

John Drew, who founded the Marxist-socialist club at Occidental to which Obama belonged, says he met the future president in December 1980 when Drew was a 23-year-old second-year graduate student at Cornell University.

See Sheriff Joe Arpaio's most recent press conference on Obama's eligibility

Obama, a 19-year-old sophomore at Occidental at the time, was with diminutive Pakistani roommate Mohammed Hasan Chandoo.

“I really had the feeling that Obama was Chandoo’s ‘boy toy,’” Drew told WND.

I dunno. I opened it in Gimp, set the fuzzy select tool to a threshold of 0% and composite (to select a contiguous region by color with no allowance for slight color differences), selected the black region, and it

selected everything that looked black. I inferred that to mean there was no hidden data in the black area; it was actually encoded with black pixels there.

Not sure what you think you're doing by adding noise to something that is pure black. The noise is an artifact added on your end?

You need to realize something.

The very fact that you call yourself a 'lefty' isn't simply a red flag.

It's a target.

"I am the retarded white kid wearing face masks and mouthing off"

If you want any measure of self-respect back in your bones, you had best change your tune.

YES, Q said to UNITE.

If what you said is sincere, do not try to justify your 'political stance' which is just a useful group of fucking man children and brats in 20 year olds body.

Wake up your 'buddies' if you are really sincere.

Your kind are not the 'decent' ones we needed. Your kind either need to be fully re-formatted or fall within 4-6% 'unsalvagables'

YES, I know how this sounds.

But there is a line and you think you can fucking hopscotch your way over that shit?

Fuck yourself. We forgive sin, we do not condone it.

change, or die.

Agree. I did the same thing graphically. I opened it in Gimp, set the fuzzy select tool to a threshold of 0% and composite (to select a contiguous region by color with no allowance for slight color differences), selected the black region, and it selected everything that looked black. I inferred that to mean there was no hidden data in the black area; it was actually encoded with black pixels there.

Not sure what you think you're doing by adding noise to something that is pure black. The noise is an artifact added on your end?

These are just GUIDs. Used by lots of apps to generate unique identifiers for stuff in a content management system database, or on a SAN or whatever. They are simply a human readable form for the long string of binary digits that represent numbers so big, that a random selection will never happen again until after our universe has collapsed into a single point and a new big bang occurs. This allows many computers to choose random IDs and be confident that nobody else is using the same id for anything, anywhere, forever and ever.

No special meaning. Just a string of x number of binary digits.

It would be great if Russia & US could work together and take down the cabal, among other things. (Snowden being part of the cabal...)

But it still seems Putin's interests are far from ours. POTUS supports Israel (for good reasons), and Putin supports Iran and the anti-semitic conspiracy (which includes NK, China, etc).

I think it is rather difficult to make this analysis right now. If the cabal has had the influence that they appear to have had, then the whole notion of the structure of countries is in question. Let that sink in....this could literally rewrite how the human species behaves structurally. Countries is what we have right now, but that can change over time in ways very few people have ever contemplated deeply.
