

The elites had to have the Branch Davidian Village eliminated because:

Remember Waco!

<http://video.google.com/videoplay?docid=5222146884463701020#>

The Branch Davidian compound in Waco, Texas, is shown engulfed by flames in this April 19, 1993, file photo. Retreating from its past denials, the FBI is acknowledging that federal agents fired one or more incendiary tear gas canisters during the standoff with Branch Davidians, while maintaining its stance that it did not start the fire that consumed the compound with Koresh and more than 80 followers inside.

POSTED APFN MESSAGE BOARD:

Bob on the Job, American's Bullentin wrote. Tue May 8 08:35:25 2001

- 01 Two of the Branch Davidian village members had been able to hack into the Pentagon/CIA/FBI Black Ops databases, and discovered that the CIA with the utilization of the CIA's Buffalo Airlines, were daily transferring Cocaine, laundered money, special operations agents, kidnaped children for CIA pedophile programs, and arms at the World War Two runway that bordered the Branch Davidian Village.
- 02 The entire village knew about the CIA's Buffalo Airlines activities that tied directly to George Bush Senior and his direct involvement with the CIA, the Mafia, Syria, Jordan, Iraq, Columbia, Panama, Nicaragua, Costa Rica, Mexico, Peru, and other global locations, that included the global elites intelligence operations, banking operations, drug transfers, arms transfers, child pedophile kidnaping and transfers, aircraft refueling, and global money laundering network.
- 03 In all of the Waco documentaries, all of the documentaries reveal that parked in front of the Branch Davidian village main building were observed several high speed go carts that were used by the branch Davidians who were carrying out the surveillance of the government Buffalo Airlines activity at the airport that bordered the Branch Davidian village, in order to identify and to log the Buffalo Airlines schedules with the two Branch Davidian members retrieval of the CIA's Guns for Drugs transfers that were going on daily.
- 04 The Branch Davidian village members' surveillance of the CIA Guns for Drugs transfers were known to the CIA due the CIA computer security having traced the hacking back to the Branch Davidian Village. Take note: the main incendiary device that was used by the Special Forces attack on the Branch Davidian Village was brought about where the commanders of the genocide were under the direct orders to take out the computer room first and then kill all of the inhabitants, and then use this genocide as warning to anyone else who may want to tamper with the CIA/Mafia/global elites clandestine drugs/money/arms/kidnaping operations.

- 05 The whole idea as to why the CIA/Mafia/government needed to burn the Branch Davidian Village down, and kill all of the peaceful inhabitants was to destroy the computer files, and kill the witnesses to the CIA/Mafia/George Bush Senior/elite global banking drugs/arms/money/ pedophile programs that were operating at the World War Two runway by the CIA's Buffalo Airlines.
- 06 The Waco siege BATF/FBI/CIA/Military/State Department/Pentagon/Mafia, commanders directives were to burn the village, and murder as many of the Branch Davidian Village members as possible, and destroy all of the evidence.
- 07 The Japanese American contract FBI sniper (one of four of the government snipers who were used to kill off the fleeing women and children from the burning Branch Davidian village complex) named Lon Horiuchi was the same sniper who had murdered Weaver's wife at Ruby Ridge Idaho. Lon Horiuchi like most FBI/CIA elimination operatives had been psychological profiled by the FBI/CIA for hating white Caucasians due to his having grown up in World War Two internment camp.
- 08 It was noted that the very first day of the Waco siege that David Koresh, and two of the other members had appealed to the attacking special military operation that they had the computer discs and they would turn them over to the BATF Special Forces commander and surrender, if the attacking force would cease fire. The commanders were under orders to kill as many of the inhabitants as possible and destroy the complex for three reasons, (A) So there would be as few witnesses as possible to the CIA/Mafia Buffalo Airlines Guns for Drugs operations, (B) To let this be a warning to anyone else who may want to mess with the elites global arms, drugs, and money laundering activities, (C) The elites are alleged practice Satanic type sacrifices and the murder of the Branch Davidian village was a good opportunity to make a sacrifice.
- 09 Take note: Part of this warning was to warn anyone else who may be have considered hacking into the government databases, whereas, the two Branch Davidian members had been continually entering into the pentagon/CIA Black Ops databases, and they were able to keep track of the drugs/laundered money/arms/kidnaped children/agents/ transfer that was going on. The high speed go carts with radio communication were able to stay under the runway radio, and the Branch Davidian village was observing and keeping track of the George Bush CIA/Mafia/elite's global money laundering operation that was going on. Bob on the Job, Robert E. Lee Lewis served the best interests of the American people for more the twenty seven years as Organized Crime Investigator. Bob on the Job served on the U.S. Senate JFK Assassination Committee. Bob on the Job is currently interned for life in a government detention facility having been set up by government informant named Vance Beaudreau, and Joe Izen who are alleged run a special CIA/Mafia operation that is disguised as a law firm in Houston Texas. Bob on the Job is interned for life for having only done his job of trying to warn the American people of the takeover of the American people's United States government by the global forces of tyranny who will eventually be bringing the consequences of the peaceful Branch Davidian Village to a neighborhood near every law abiding American Citizen soon.

<http://www.apfn.net/messageboard/149495.html>

Bob on the Job wrote in the American's Bulletin that three of the on loan BATF agents who were killed on the first day of the Branch Davidian siege were actually set up to be murdered and eliminated due to their having worked as personal security to Bill Clinton and they knew too much about Bill Clinton's drug activities, whoring, and who Bill Clinton had been interacting with.

The APFN program is doing the best job it can. Tue May 8 11:04:02 2001

The APFN on-line Posting Board is one of the most effective and responsible programs that is honestly, and efficiently allowing for the American People to be able to share their knowledge, and their thoughts about the current American dilemma of governmental anarchy and tyranny. Many thanks to the APFN program for their ceaseless concern and their sacrifice to help and to support the circulation of information to keep flowing for the benefit of the concerned citizens of this great country.

Branch Davidian Trial Update - Thursday, 13 Jan 94

Page 1A

Headline - RANGER SAYS FBI MOVED EVIDENCE AT DAVIDIAN SITE

Page 1 photo caption : "A postal worker loads mail for the federal courthouse in San Antonio on a conveyor on a portable X-ray van. All packages are screened during the Branch Davidian trial."

[Photo shows a man placing packages from a handtruck onto a conveyor belt feeding an X-ray machine mounted cross-wise in an apparently unmarked white van. Photo taken from 45 degrees off the front right of the van.]

Texas Ranger Captain David Byrnes testified that FBI officials destroyed evidence by moving several "bullet-riddled" vehicles away from the building, but that he "'might well have'" done the same if he had been an FBI agent, as a safety measure to protect officers working with/for him.

Byrnes is the first prosecution witness.

Prosecutor Ray Jahn, in opening remarks, says he plans to prove that the Davidians set the fire themselves.

He plans to introduce tapes made covertly just before the fire started.

Although unclear, the tapes appear to contain phrases such as "'spread the fuel'", "'start the fire'", and "'Well, you always wanted to be a charcoal briquette.'"

"Opening arguments painted opposite views of the same events and people.

Prosecutors said the defendants willingly followed their leader, David Koresh, in plotting to kill federal agents.

Defense attorneys countered that Koresh had instilled such fear of government agents in their clients that when the agents unwisely chose to attack the compound it triggered a defensive reaction.

But both sides appeared to agree that Koresh, who died April 19, was primarily responsible for the Feb. 28 debacle."

Although opening arguments did not contain much new information, prosecutor Jahn did claim that evidence will be presented showing that Davidians shot and killed those sect members wounded in the initial raid.

[continued page 7A]

Subhead - Prosecution to try to prove Koresh's theology of death

Photo 1 caption : "U.S. District Judge Walter S. Smith Jr. is escorted to the courthouse after lunch by federal agents."

[Shows Smith flanked by two men.]

Photo 2 caption : "Members of the prosecution appear to be in a good mood as they leave the courthouse for lunch. In opening testimony Wednesday, prosecutors said the 11 defendants willingly followed David Koresh in plotting to kill federal agents."

[Picture shows three male, three female, with jackets & briefcases. All are smiling or laughing.]

"On Feb. 28th the occupants of (the compound) not only killed ATF, they killed their own."..."People who were too wounded to fight were...put out of their misery...executed by their fellow Branch Davidians."..."David Koresh's theology was a theology of death." Prosecuting attorney Jahn

"David Koresh was paranoid and delusional... It is David Koresh who should be held accountable, and it is the leadership of ATF who should be held accountable, not these people." Defense attorney Joe Turner (representing Ruth Riddle)

"The two sides are deeply divided over why, or even if, the defendants fired at the federal agents raiding their communal home."

Jahn says that the prosecution will present evidence putting "a firearm in everyone's hands."

"It's going to come out, obviously people who are on trial had guns in their hands and shot... and the reason people shot was because they didn't want to die first." Defense attorney Rosen

Part of the opening arguments centered around an incident that occurred about 5 p.m. on the day of the raid., several miles from the compound. Two of the defendants, Allison and Kendrick, plus Michael Schroeder (who was killed in the incident), tried to move to the compound to check the status of Schroeder's family. Kendrick was separated from the party before the shooting. Allison surrendered to agents after the shooting, and gave up a gun that agents on the scene ascertained had not been fired. Kendrick was arrested later, without incident.

"Prosecutors said Kendrick fled the scene to avoid arrest, but [defense attorney] Morris said he will present evidence that an agent sharpshooter had Kendrick in his gunsight but didn't fire because he saw that Kendrick posed no danger."

Prosecution witness Byrnes described the search of the compound (after the fire) by Texas Rangers.

Defense brought out tensions between the various law enforcement agencies during the siege.

"We at times had competing priorities. ... They [the FBI] had the task of terminating the standoff. We had the task of doing the investigation (of the agents' deaths). We could not proceed with our jobs until they did theirs." Captain Byrnes, Texas Rangers

"Some of our conflicts were disagreements over what they were doing for tactical reasons to protect their people," Byrnes said, adding under cross-examination that if he had been working for the FBI at the time he might made the same decisions."

=====

Page 7A

Headline - DEFENSE DESCRIBES DAVIDIANS AS JUST FOLLOWING THEIR FAITH

Photo caption : "Branch Davidians Brad Branch, Clive Doyle and Woodrow Kendrick leave the federal courthouse after the first day of the trial Wednesday."

[They are accompanied by five unidentified men, presumably federal

agents]

"One gave bus rides to the elderly and handicapped as a teenager, a second played drums in a Christian rock band, a third was the perfect daughter who sang in the church choir and still another was a mild-mannered electrical engineer and schoolteacher."

[...]

"The first day of what is expected to be a two-month trial found the 10 defense attorneys using their 15-minute opening statements to humanize their clients to the jury."

[...]

"In truth, the lawyers said, rarely had a more ordinary, harmless and misunderstood group of people been gathered."

[Stories and anecdotes (approximately 18 column-inches) about the defendants deleted. Basically, the article could, in my opinion, be describing any randomly chosen group of eleven people in the United States. I could change the names to those of my friends and acquaintances and it would be accurate.]

"And so it went, as each attorney attempted to distance his client from Koresh and from being seen as a principle in the violent February confrontation.

But the case is not about character and good deeds, and government prosecutors are armed with at least one Branch Davidian-turned-federal witness, volumes of recorded evidence drawn from telephone conversations and planted bugs over the 51-day siege, and mountains of other forensic evidence."
