Welcome to Q Research General

We are researchers who deal in open-source information, reasoned argument, and dank memes. We do battle in the sphere of ideas and ideas only. We neither need nor condone the use of force in our work here.

"We hold these truths to be self-evident: that all men are created equal; that they are endowed by their Creator with certain unalienable rights; that among these are life, liberty, and the pursuit of happiness."

US Will Keep Hitting Houthis Until Shipping Attacks Stop, Hegseth Says

The United States will keep attacking Yemen's Houthis until they end attacks on shipping, the U.S. defense secretary said on Sunday, as the Iran-aligned group signaled it could escalate in response to deadly U.S. strikes the day before.

The airstrikes, which killed at least 31 people, are the biggest U.S. military operation in the Middle East since President Donald Trump took office in January. One U.S. official told Reuters the campaign might continue for weeks.

The Houthi movement's political bureau described the attacks as a "war crime" and said Houthi forces were ready to "meet escalation with escalation," while Moscow urged Washington to cease the strikes.

U.S. Defense Secretary Pete Hegseth told Fox News: "The minute the Houthis say we'll stop shooting at your ships, we'll stop shooting at your drones, this campaign will end, but until then it will be unrelenting."

"This is about stopping the shooting at assets ... in that critical waterway, to reopen freedom of navigation, which is a core national interest of the United States, and Iran has been enabling the Houthis for far too long," he said. "They better back off."

Kiev vows to continue offensive in Russia's Kursk region

Russian President Vladimir Putin has offered Ukraine's encircled troops in the area the chance to surrender and thus preserve their lives

Ukraine's forces in Russia's Kursk Region will continue their operations, Ukrainian Foreign Minister Andrey Sibiga stated in an interview on Saturday, despite the troops being largely encircled, according to both Moscow and Washington.

Speaking with Japan's NHK, Sibiga claimed that Kiev had achieved its main objectives in the offensive but seeshaving a continued presence on Russian territory as providing leverage in future peace negotiations.

Ukraine launched its incursion across the internationally recognized Russian border into Kursk Region last August, capturing the town of Sudzha and numerous villages. However, the Russian military quickly halted the advance and has since been reclaiming lost ground. Russian General Staff Chief Valery Gerasimov said on Wednesday that 86% of the land previously occupied by Ukrainian forces had been retaken, leaving the remaining troops "encircled" and "isolated."

"As officially announced by General [Aleksandr] Syrsky, we are continuing the operation in Kursk Region and will continue to do so," Sibiga stated.

"The operation in Kursk Region is an important factor and a key point of discussion in future peace negotiations," he added.

The fate of the Ukrainian troops fighting in Kursk was addressed by Russian President Vladimir Putin earlier this week. Speaking at a press conference on Thursday, he said that he was open to the idea of a 30-day ceasefire proposed by Washington and Kiev at their recent talks in Saudi Arabia but stressed that the issue of the incursion forces, among others, must be resolved before Moscow could agree.

On Friday, US President Donald Trump acknowledged that "thousands of Ukrainian troops are completely surrounded by the Russian military and in a very bad and vulnerable position" in Kursk Region and urged Moscow to "spare" their lives. In response, Putin offered the servicemen guaranteed safety and merciful treatment if they surrender.

Kiev, meanwhile, has staunchly denied that its forces in Kursk Region are surrounded. In a post on Telegram on Saturday, Ukrainian leader Vladimir Zelensky acknowledged that the situation in the area is "difficult" for Ukraine but stated that "there is no encirclement of our troops." (Russia or the U.S. should show a satellite image of Ukraine forces surrounded)

<https://www.rt.com/russia/614312-kiev-vow-kursk-offensive/>

What participant wants Peace? Kiev revealed they never wanted Peace? This only proves the "supposed innocent" victim Ukraine, never intended on stopping the war. Kiev has no leverage and intends to use their lies to trick the U.S. Negotiators. The U.S. military can prove Ukraine forces are surrounded, there's no reason for the U.S. to help them save face. Kiev leaders do not care how many more Ukrainians die, as long as they can call it a win, even when they lose.

It must be the height of idiocy to understand how they have infiltrated and corrupted or compromised every single one of our systems to harm us and control us including judges. DAs, politicians, town councils, ngos, pharmacy and medicine, agriculture and food processing and distribution, religions and churches, banking and finance, investing, the CIA, the FBI, congress, media, news and journalism, the military, government agencies from the epa and fda to HUD and nasa... and know all of that and still..somehow...think they magically didn't infiltrate and corrupt and DEI hire their yes men into law enforcement.

Putin and Trump may agree on Ukraine ceasefire soon -- US envoy

Steve Witkoff described his meeting with the Russian president as "positive"

The presidents of Russia and the US might have a call this week to agree on a ceasefire in the Ukraine conflict, Steve Witkoff, a special envoy to US President Donald Trump, has said. Speaking on CNN on Sunday, Witkoff said he had a "positive" meeting with Russian President Vladimir Putin that lasted between three and four hours.

Witkoff arrived in Moscow on Thursday to present Putin with the details of the truce proposal agreed by American and Ukrainian officials.

"We had some really positive results coming out of Saudi Arabia, discussions led by our National Security Advisor Mike Waltz, and our Secretary of State Marco Rubio. I describe my conversation with President Putin as equally positive," the envoy said. "Back before this visit, there was another visit, and before that visit the two sides were miles apart in where they were. The two sides are today a lot closer."

Witkoff, a real estate mogul and long-time associate of Trump, has recently taken on significant diplomatic roles, including efforts to negotiate peace in the Ukraine conflict. He led the talks in Moscow after Russia reportedly requested that Trump's Ukraine envoy, Keith Kellogg, be removed from the negotiating process over his pro-Ukraine views. Commenting on the matter, Kremlin spokesman Dmitry Peskov said Moscow has no intention of becoming involved in internal American affairs, so it's up to Washington to decide who to appoint.

On Saturday, the US president clarified that Kellogg will be responsible for talks with Kiev.

Putin voiced support for a possible 30-day ceasefire in the Ukraine conflict but raised concerns about its implementation. He also granted Ukrainian forces encircled in Russia's Kursk Region time to surrender, assuring them that their lives would be preserved and they would be given dignified treatment. Still, Ukrainian Foreign Minister Andrej Sibiga stated in an interview on Saturday that Ukraine's forces in the region will continue their operations.

Ireland co-founded the "Pride in Surrey" LGBTQ group in 2018 and was very active in the community.

According to the boy, he was r*ped by Ireland in the LGBTQ activist's home, smoked a bong, and watched p*rn on a laptop.

Ireland and Sutton were both found guilty on multiple counts.

Ireland was found guilty of child r*pe, three counts of causing a child under 13 to engage in s*x and s*xual assault of a child under 13.

Sutton was found guilty of three counts of making indecent photos of children and one count of possession of an extreme p*rnographic image.

Kennedy told employers at the Health and Human Services (HHS) on Feb. 18 that nothing would be off-limits as he led investigators into children's health, identifying vaccinations as possible factors behind the rise in chronic diseases.

In his address, Kennedy emphasized that his main mission at HHS is "to reverse the chronic disease epidemic" in the United States.

Besides hearing from its advisers, the FDA typically consults with the World Health Organization (WHO) on the composition of the influenza vaccines before making recommendations. The agency was not included in the FDA's recent meeting on flu vaccines.

Trump has criticized the United States from the WHO, citing the WHO's "handing of the COVID-19 pandemic" that arose out of Wuhan, China, and other global health concerns.

The president stated that the WHO had failed to "adopt urgently needed reforms" and was unable to demonstrate independence from "the inappropriate political influence" of member states.

The United States was the largest contributor to the WHO, having contributed about \$1.28 billion during the 2022-2023 biennium, according to the organization's website. It stated that U.S. experts supported nearly half of WHO joint external evaluation missions last year.

FDA Issues Flu Vaccine Recommendations After Canceling Routine Meeting With Advisers

The U.S. Food and Drug Administration (FDA) issued recommendations to vaccine makers on Thursday regarding the virus strains to be used in the 2025--26 influenza vaccines, after canceling a meeting of its vaccine advisers last month that had been scheduled for March 13.

The strain composition recommendations for flu shots usually involve input from the FDA's Vaccines and Related Biological Products Advisory Committee (VRBPAC), but this year, the agency excluded its advisers from the decision-making process.

Instead, the FDA held a closed session with experts from its Center for Biologics Evaluation and Research, along with officials from the U.S. Centers for Disease Control and Prevention (CDC) and the Department of Defense, to review U.S. and global surveillance data on currently circulating flu viruses.

That interagency meeting was held on the same day that the VRBPAC was originally scheduled to meet. In a statement, the FDA said it does not expect any impact on the timing or availability of vaccines for the public.

The regulator recommended using the trivalent formulation of egg-based influenza vaccines for the next flu season, containing two influenza A subtype viruses and one influenza type B virus.

The FDA stated that it has informed vaccine manufacturers of its recommendations and expected "an adequate and diverse supply of approved trivalent seasonal influenza vaccines" for the upcoming influenza season, which covers the fall and winter of each year.

The reason for the cancellation of the VRBPAC meeting remains unclear. The FDA did not offer an explanation.

The Infectious Diseases Society of America (IDSA)--which represents over 13,000 physicians, scientists, and public health experts--had urged the FDA to reschedule the meeting, saying that its cancellation could endanger public health as the nation faces its worst flu season in more than a decade.

"Cancelling this meeting means vaccine makers may not have the vital information and time they need to produce and distribute targeted vaccines before the next flu season," IDSA President Tina Tan said in a Feb. 27 statement.

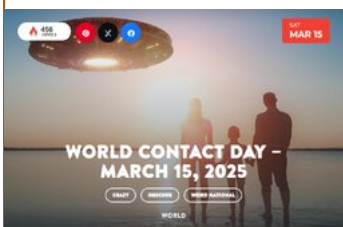

Seasonal influenza activity has remained high in the United States, with at least 40 million illnesses recorded so far, according to the CDC. Of these, 520,000 patients were hospitalized, and 22,000 have died from flu as of March this year.

The cancellation of the FDA's advisory committee meeting came after President Donald Trump's nominee for health secretary, Robert F. Kennedy, was confirmed by the Senate on Feb. 13.

World Contact Day -- March 15, 2025

We celebrate World Contact Day on March 15 every year. The day brings all alien life enthusiasts together to attempt to contact extraterrestrial beings.

It is fascinating to see how many Unidentified Flying Objects (U.F.O.s) humans have reportedly found on Earth! People claim to see them every minute of the day! But, it is not just about flying objects.

There are strange and interesting things such as crop circles, unusual signals, and fossils that show the possibility of life outside earth.

So, whether E.T. managed to phone home or not, World Contact Day is a fun day to learn all about alien encounters.

History of World Contact Day

World Contact Day has been celebrated for the last 68 years on March 15.

It was initiated by The International Flying Saucer Bureau (I.F.S.B.) in 1952 by Albert K. Bender. Later, the founder revealed a strange yet interesting story.

Apparently, three men in black visited him at his house, and they communicated with him telepathically. He felt like he was being transported.

Bender also reported having a second visit from three floating figures in shadows.

They told him they had captured humans from earth to disguise themselves to have a human form on earth for their visits.

In the summer of 1953, Bender made a series of findings revealing the truth about U.F.O. stories, which he planned to publish in October of that year.

Later in October, before publishing his discoveries, once again, he reported a visit by three men in black, who threatened him not to publish his findings of extraterrestrial life.

In November 1953, he shut down the Bureau with a caution note to alien life enthusiasts.

On this day, in 1953, members of the Bureau were asked to send a peaceful telepathic note to aliens in outer space.

The aliens asked for a friendly, peaceful, and mutual relationship with humans on earth and asked them to help ignorant people realize there is extraterrestrial life.

In 2013, it was extended for a whole week, with a final attempt to have a massive connection on March 22.

Even though the I.F.S.B. no longer exists, E.T. enthusiasts from all over the globe still celebrate World Contact Day.

DEI is phase 2 Affirmative discrimination. It was launched in 1994 and really started to ruin America in 1996 when Hitler's fake Census came out. It violates my civil rights – when discriminated against on Title VII of the Civil Rights Act of 1964, I have been unable to seek legal recourse. No lawyers want to touch it.

Democrats Hit Rock Bottom as Internal

Numbers Reveal Total Collapse

PJ Media, by Matt Margolis

There's no way to sugarcoat this for our friends on the left: the Democratic Party is imploding. After their humiliating defeat in the government funding battle, a devastating new CNN poll shows the party's favorability has cratered to an abysmal 29%—the lowest since 1992. The numbers don't lie; this is a spectacular fall from grace. The party has hemorrhaged support, suffering a jaw-dropping 20-point collapse in favorability since January 2021, when Joe Biden was inaugurated. Even their own base is abandoning ship, with Democratic Party favorability among supporters plummeting from 81% to a pathetic 63%. Democrats can't even keep their own house in order.

U.S. District Judge James Boasberg Orders Trump Administration to Halt Deportation of Illegal Aliens and Narcotrafficking Gang Members

March 16, 2025 | Sundance | 122 Comments

It will not come as a surprise to CTH readers to hear the name Judge James Boasberg associated with efforts to protect the institutional interests of a corrupt DC deep state. Boasberg has a long, very long, and well documented history of protecting the DC apparatus (CTH Archives on Boasberg HERE).

On Saturday, without giving the Trump administration any time to respond, Judge Boasberg issued an immediate temporary restraining order (TRO) blocking DHS, Customs and Border Patrol and ICE from deporting illegal aliens and narcotrafficking gang members belonging to Tren de Aragua (TdA), a designated Foreign Terrorist Organization.

Boasberg ordered the flights of criminal gang members to turn around and immediately return to their home countries and immediately return to their home countries. National security is secondary to the rights of criminal aliens to self defense, civilian (DIA) employment, under American citizens and legal status.

As far back as 2003, Judge James Boasberg has long been severely compromised, thus simply to no other way to look at his interpretation of cases to protect the system, and the depth of his corruption is clearly visible in this set of rulings.

I've watched many depositions of officers sued who think nothing of doing it again. They don't care, it doesn't come out of their pocket, it comes out of We the People's pockets. Even after being sued, even after receiving ordered additional training, they've STILL said they'll do it again. They don't care about the law. No one hates the actual law and our rights and constitution in this country than LE. It just "makes things difficult".

President Nayib Bukele of El Salvador Reacts to U.S. Judicial Activism, "Oopsie, too late" --- Salvadorian Gang Members Offloaded and Detained

March 16, 2025 | Sundance

President Nayib Bukele of El Salvador sends a reactionary message to federal Judge James Boasberg who had demanded all of the criminal gang members deported by President Trump be returned to the United States.

Using his X Account, Bukele says, "Oopsie, too late." El Salvador has taken custody of the criminals and put them in maximum security prison, a Terrorism Confinement Center. The President also shared a video of the repatriation.

Hunter Biden, Beset by Legal Woes, Flees

to... South Africa?

Red State, by Ward Clark

Poor Hunter Biden. First, his meal ticket father leaves office and disappears from public view (for which blessing many of us are breathing a sigh of relief), then his California house burns up, along with a bunch of his "priceless" art. The guy just can't catch a break. On Saturday, we learned that Hunter's woes are worsening. He was facing an uncomfortable deposition in California, but a kindly judge allowed that case to be dismissed as Hunter's too broke to continue. So now the poverty-stricken former First Son has jetted off to Cape Town, South Africa, accompanied by his Secret Service retinue, to suffer from his poverty

Well it is evident that the human traffickers continue to want to sell their grooming and human trafficking project. They tell me that they demand to make money doing this abusing using woke, woman that hate men, and anything else they can.

They tell me it is their right to abuse people as much as they want. They continue to tell me they can do anything they want and must keep their human trafficking system.

They want to teach that woman must be worshiped and that all people must understand that they are to be gods and idolized by society. This is the new mind set or you must become gay with African American gay men.

It is the new medical system about this whole thing and the intelligence networks have said they like the idea because it allows them to abuse people. Anything to abuse people.

I am a victim of human trafficking and grooming. They keep telling me that I must worship them as god. They tell mw they own Donald Trump and that I must become a terrorist and support blm and antifa so they can send me to Antman which is cover for AA. This is how they cover for the grooming and human trafficking networks so no one finds out who or what they are doing with them. They continue to let me know that this is what must be done...

They let me know they are now in charged of the US and it has been over thrown and everyone must do as they say. They think this is a game and they believe that abusing people is the key to success in life and believe they will get paid large amounts of money for this grooming and human trafficking scan they created.

They say that they are the rulers of society and that they are god and are the new one that has been risen...

They must have you bow and worship them is the reality. They must say be less white...this is the number one thing they do and go around stating they are police and fbi... they do this though symbology. They tell me that they can human traffic anyone which is code by the term "humanize" which doubles for "trans human" this means they are above normal human and are gods. They use tranny's as cover to do this and put out message on the net in order to continue to do this. Some methods for communication that have been done are not always bad and are a way to get things done.

The reality is though that now people are making the US a joke and this is the way they plan to destabilize the US and bring about communism. If you say this they blame the Chinese and have American Chinese harass you. This is an attempt to swat you and have you arrested... this what it is all about and if you don't let them do this they want to arrest you for "racism" they enjoy using woman as extortion tools is the reality. This the new way that gender equality is coming about. They want them all to be secret agents and pretend they work for the police or fbi...

This how they do anything they want by manipulating men to do as they are told. It is a dream come true for these people as they continue to tell me that they are the master human traffickers and can do anything they want.

They do this to blame anything or anyone in your life people you do not know and so on and people you don't know well maybe said high to... they continue to think that this is a way to extract information. As I said they now keyed in to that I said " you don't know well" this to them means they think it man's something.

They told me they are the smartest people in the world and can do anything and that I am just a human trafficked slave not smart enough to accomplish anything that they can as doctors or people in the military. They keep telling they are superior and that they are the rightful rulers of the world.

They teach most of all you must learn to hate Donald Trump. They now will say they think you must be wasted or on drugs is their favorite thing to do to make excuses for them human trafficking people doinf this kinda thing. They like saying it is because of your behavior and they could have people poisoning anything around is the thing which they already have. I have documented everything around. This what it just is like to be human trafficked by crazy people that believe you need to denounce god and worship them.

They keep telling me they are "teachers" but in reality they keep showing they are human traffickers.

They are really excited but this makes them search my place again. Anything that comes up these people go it is a reason to brake his rights and do anything they want to is the idea.

Escobar: Putin Peels Off The Masks Of The Ceasefire Kabuki

The "ceasefire" announced with trademark bombast by Team Trump 2.0 should be seen as a tawdry kabuki inside a cheap matryoshka.

As we peel off the successive masks, the last one standing inside the matryoshka is a woke transvestite tiny dancer: a Minsk 3 in drag.

Now cue to a "ceasefire" redux: President Putin in uniform only for the second time since the start of the SMO, dead serious, visiting the frontline in Kursk.

Finally, cue to the actual peel off operation: Putin's press conference after his meeting with Lukashenko in Moscow.

Ceasefire? Of course. We support it. And then, methodically, diplomatically, the Russian President pulled a Caravaggio, and went all-out chiaroscuro on every geopolitical and military detail of the American gambit. A consummate artful deconstruction.

End result: the ball is now back in Donald Trump's court. Incidentally the leader of the revamping-in-progress Empire of Chaos who does not (*italics mine*) have the cards.

If asked, VOA workers are expected to "immediately" surrender their USAGM badge and press pass, along with "any keys or other official government property, including documents, records, electronic and telephone devices, and other equipment."

As the [Lubbock Times](#) notes before the United States Agency for Global Media (USAGM), which runs Voice of America (VOA) and Radio Free Asia, has been in Trump's crosshairs since his first term. With an annual budget of around \$900 million that operates networks broadcasting in more than 60 languages and around 100 countries, USAGM has been a target of criticism from Trump's allies, who argue it operates with a liberal bias.

The president has nominated Brent Bozell, a conservative media watchdog, to lead the USAGM—though his Senate confirmation is pending.

Meanwhile, Karl Lake, a former news anchor and Arizona gubernatorial candidate, has been tapped to steer VOA. Lake said in a speech at the Conservative Public Action Conference that she understands why there are calls to dismantle VOA but that she believes it can be improved.

She was named in as a senior adviser for the USAGM on March 3, as she awaits further action on her VOA nomination.

In a post on social media on Saturday, Lake said that Trump's latest executive order affects VOA operations and added that staff should "check their emails" "immediately." Already, multiple VOA staff have received emails placing them on administrative leave with full pay and benefits, "until otherwise notified." It was not immediately clear how many employees were affected.

Friday's executive order builds on Trump's earlier Feb. 19 [directive](#) to reduce the size of the federal government, eliminate non-essential agencies and advisory committees, and reinstate statutory functions to the lowest level required by law.

The moves represent the latest steps by Trump to reshape the federal bureaucracy and make its operations leaner. The president has tapped such entrepreneur Elon Musk with leading that effort in his role as a special government employee in charge of the Department of Government Efficiency (DOGE).

File (hide): bbafeb2459fc9a8....png (32.16 KB,750x243,250:81,ClipboardImage.png) (h) (u)

So far, the DOGE effort has resulted in potential cuts of more than 100,000 jobs across the 2.3 million-member federal civilian workforce, the freezing of foreign aid, and the cancellation of thousands of contracts and programs, for an estimated [savings](#) of \$115 billion to taxpayers.

Trump has said he and members of his administration are committed to finding ways to cut federal spending and reform government at a "historic level," with the president setting a goal for DOGE to identify \$2 billion in wasteful spending before its scheduled dissolution on Independence Day in 2026.

A recent Epoch Times poll showed that readers overwhelmingly support DOGE and its activities, though many called for greater public visibility into its findings—along with demands for accountability for whatever abusive, fraudulent, or wasteful spending of taxpayer dollars that it identifies.

Voice Of America Journalists Placed On Leave After Trump Dismantles 8 Federal Agencies

Journalists at Voice of America (VOA) have been placed on administrative leave one day after President Trump signed an executive order dismantling eight federal agencies, which builds on a prior Trump directive to eliminate elements of the federal government deemed "unnecessary."

VOA reporters were placed on "administrative leave with full pay and benefits until otherwise notified," adding that this is "not being done for any disciplinary purpose," according to The Hill, which received a copy of an internal memo which was sent out by the human resources executive for the U.S. Agency for Global Media (USAGM), VOA's parent company.

VOA workers were also instructed not to enter their work premises or access USAGM internal systems without permission from the HR executive or "prior" permission from their supervisors.

The two-page memo, that was sent just past 9:40 a.m. local time Saturday, came after Trump penned an executive order to gut seven federal agencies, including USAGM, telling them to "reduce the performance of their statutory functions and associated personnel."

"This order continues the reduction in the elements of the Federal bureaucracy that the President has determined are unnecessary," the order said. —The Hill

Trump's order also dismantles the Federal Mediation and Conciliation Service, the Woodrow Wilson International Center for Scholars, the Institute of Museum and Library Services, the Interagency Council on Homelessness, the Community Development Financial Institutions Fund and the Minority Business Development Agency.

Dr Steven Greer: The Secret Government Has Unlimited Clean Energy Alien Technology

Mar 15, 2025 3:00 PM

Dr. Steven Greer spoke about a significant conspiracy involving energy technologies allegedly suppressed by a secret government, which is separate from the U.S. constitutional government. Greer claims that clean energy technologies, capable of rendering fossil fuels, nuclear, wind, and solar power obsolete, exist but are intentionally withheld to protect powerful energy industries. According to Greer, the transition to these zero-point energy technologies would take a couple of decades if pursued vigorously, paralleling the post-World War II Marshall Plan. He argues this suppression has continued for over a century, starting from the era of Nikola Tesla, and claims it is driven by industrial interests that prioritize profit over ecological well-being. Greer details instances where solar panel technologies were seized under national security pretexts, hindering advancements that could have significantly reduced pollution and poverty globally. He stresses the need for an honest disclosure of these technologies and criticizes what he terms "huggery" against inventors, asserting that these actions mock democratic principles and hinder true free-market competition.

Note these people have destroyed my back and everything in my life for their human trafficking skits

They keep letting me know that you must do as they say as they claim to be god. There is no freedom of religion as they are saying they are part of an occult mob and can do anything they want to.

This always their Ai proگرام. They continue to say they are media but in reality they are military that has taken over the media as they do private Ai generated news to try to groom and human traffic you.

They keep telling me I need to become a terrorist and join blm and antifa and become less white. They keep saying this is the key to them letting you go and allowing you to no longer be human trafficked. That they must hear you say you are against Donald Trump take an oath to worship communist and say that you will do anything they say.

This is the idea is what they do I do not believe they can do anything but harass you in this manner. I do not believe it is ok to become a terrorist or blm or antifa nor a "white nationals" as they keep telling me all Trump supporters are now.

I did not vote this year because I believe the mob is doing intimidation and I got 5 voter registration this was likely a way to get people vote and then frame them for voting more then one time. My logic is that if you vote at all it would be easier to sell the scam. They would know who you chose and they would match and also have something to say this is similar.

They keep telling they are using anyone ethic as tools of abuse any time I write abuse they auto correct it to anuse for anus which is what they demand me to do is have butt sex with them. This is a form of sexual harassment that they enjoy doing as they say woman can sexually harass men and get away with.

Sana'a Hospital revealed a chaotic environment with medical staff rushing injured people, including children and women, in ambulances and hospital beds through corridors. Emergency medical workers were seen with bloodied and injured. Civilians were covered with dust and blood, suggesting they had been pulled from the rubble. A few small victims were charged beyond recognition.

Saad reported that four airstrikes directly hit the home neighboring his, partially damaging nearly all the surrounding houses—about 20 in total. He said he was not aware of any military sites in the targeted area. "The house that was hit belongs to a citizen who has nothing to do with anything," he said, describing the attacks as "a savage and barbaric aggressive targeting civilians" rather than strikes against military or Houthi government facilities. "It only targeted the innocent, terrifying children, women, and the elderly."

Saturday's air strikes came after the Houthi movement announced last week a resumption of its naval blockade on Israeli ships transiting the Red Sea. The group's leader, Abdulmalik al-Houthi, said the action was being taken in response to Israel's reimposition of a total ban on aid deliveries to the besieged Gaza Strip on March 2 in violation of the ceasefire agreement signed by Israel and Hamas in January. Once the Gaza agreement was unscrambled, the Houthis entirely halted their attacks on shipping lanes. On March 8, the Houthi leader warned his forces would

resume their naval operations in four days if Tel Aviv did not allow aid into the Gaza Strip. On March 13, the Houthi-controlled armed forces issued a statement announcing that any Israeli ship attempting to breach the blockade would be targeted until Israel allowed the entry of humanitarian aid, including food and medicine, to Gaza.

President Donald Trump greeted the strikes on Friday following high-level White House meetings with top national security aides. In a [Truth Social post](#), which in part read like a dejected rant, Trump described the attacks as "decisive and powerful military action," blaming the Houthis for an "unrelenting campaign of piracy, violence, and terrorism against Americans, and other ships, aircraft, and drones." He had blame on former President Joe Biden, calling him "perfectly weak" and suggesting he would significantly escalate U.S. attacks on Yemen. "To all Houthi terrorists, YOUR TIME IS UP, AND YOUR ATTACKS MUST STOP STARTING TODAY. IF THEY DON'T, HELL WILL RAIN DOWN UPON YOU LIKE NOTHING YOU HAVE EVER SEEN BEFORE!," Trump wrote.

Trump claimed that over a year had passed since a U.S.-flagged commercial ship safely sailed through the Suez Canal, the Red Sea, or the Gulf of Aden due to Houthi attacks. He noted that the last U.S. warship to traverse the Red Sea, four months prior, had been targeted over a dozen times. "The relentless assaults have cost the US and world economy many BILLIONS of Dollars

while, at the same time, putting innocent lives at risk," he wrote. "The Houthi attack on American vessels will not be tolerated. We will use overwhelming lethal force until we have achieved our objective."

A Houthi spokesperson and chief organizer, Mohamed Alsharhan, denounced what he called "Trump's 'blatant and misleading' characterization of the Houthi naval operations." The statement, submitted by Yemen's newspaper of Gaza in Houthi-ruled Sana'a, said the Houthis "unilaterally and in defiance to the people of Sana'a, according to the ceasefire agreement between the Palestinian resistance and the enemy entity," he said. No U.S. commercial ships or military vessels have been attacked since December, before Trump was sworn in.

With Airstrikes On Yemen, Trump Intensifies Undeclared War Against Poorest Arab Country

Dozens of civilians were killed in U.S. bombings across Yemen as Trump vows to unleash "overwhelming lethal force" to stop the Houthi naval blockade targeting Israel's war on Gaza

SANA'A, Yemen---On Saturday, Nasser Mohammed Saad was at a friend's home celebrating iftar—the evening meal where Muslims break their daily fast during the holy month of Ramadan—when he received a distressed call from his family. His house in the al-Jiraf area, north of Yemen's capital Sana'a, had suffered significant damage from U.S. airstrikes targeting a house just 50 meters away. Rushing home, Saad encountered the aftermath of destruction. "The house's windows were shattered, the doors were torn off, and the water tanks were hit by some shrapnel," Saad, 45, told Drop Site News. His wife and two of his children were inside the house at the time of the attack.

Late last night, U.S. warplanes struck Sana'a and seven other provinces in Yemen in what U.S. defense officials described as the beginning of a large-scale military campaign against the Houthis. Also known as Ansar Allah, the group took control of large swaths of northern Yemen, including the capital city, in 2014. The New York Times reported that Saturday's strikes in Yemen hit radar, air defenses, and missile and drone systems, though it remains unclear if significant weapon arsenals were targeted. U.S. officials also claimed the strikes targeted at least one senior Houthi commander, though they offered no details. However, the naval and air strikes also hit residential areas, primarily in Sana'a and the province of Saada.

In response, on Sunday, Yemen's Houthi-led armed forces said they launched 18 "ballistic and cruise missiles and a drone" at U.S.S. Harry S. Truman in the Red Sea.

The U.S. attacks, which continued into the early hours Sunday, marked one of the largest single-day U.S. strikes on Yemen since October 7, 2023, with an initial toll of 32 people killed and more than 100 injured in what the Houthis said were 47 airstrikes. In Sana'a, early reports indicated that at least 13 people died from the strikes and nine were injured. In Saada province, north of the capital, four children and one woman were reportedly killed and 15 others wounded in attacks that struck two houses. "The majority of them were children and women," said Anis al-Asbahi, spokesperson for the Health Ministry in Sana'a, told Drop Site. Al-Asbahi noted that rescue teams were still pulling victims from the rubble, and the death toll was likely to rise.

Dr Steven Greer: Humans are Creating Weapons from Alien Technology to Kill Other Aliens

Mar 16, 2025 12:00 PM

Dr. Steven Greer has raised alarms about humans allegedly reverse engineering extraterrestrial technologies for militaristic purposes.

Dr. Greer reveals that humans have been developing advanced weapon systems from alien tech, targeting non-human crafts, primarily for technological and financial gain. Scalar waves, discussed briefly, are among these technologies.

They disrupt interstellar communication at speeds surpassing light, rendering a potential threat to outer civilizations.

Moreover, these advancements have caught alien attention, especially post-World War II with the advent of nuclear technology, underscoring the grave risks posed to both Earth and the cosmos.

Dr. Greer argues that these clandestine actions pose dire global security threats, potentially triggering catastrophic conflicts akin to a real-life "Independence Day"

He emphasizes the need for integrity, courage, and intelligence among leaders to tackle these issues transparently and urges support for initiatives aiming to oversee such covert operations.

MEDICAL BOMBSHELL: FDA admits Covid mRNA 'Vaccines' CAUSE CANCER

The natural health advocacy world and truth media followers around the globe cannot believe their eyes, as the FDA has just made the explosive admission that the mRNA clot shots are indeed spiked with contaminants that have triggered the global surge in cancers. One hard look (clinical study) at Pfizer's Covid stabs and the FDA had to admit to the world that they contain dangerous levels of excess DNA contamination, and that these fragments are driving cancer cases through the roof. It's called Turbo Cancer and people are experiencing stage 4 and stage 5 cancer out of the blue, shortly after they receive the deadly mRNA Pfizer China Flu jab.

Inside the FDA laboratory where leading scientists have discovered that billions of humans who have been mRNA injected could get cancer from the clot shots

How many mass media outlets will publish this medical shocker? Natural health advocates warned about this long before the clot shots were even released under the Emergency Use Authorization act. They are experiments carried out on humans without any proof of safety or efficacy, not to mention long-term safety trials, as they were rushed through the process. From lab to turbo cancer.

Tests conducted at the FDA's own White Oak Campus in Maryland found SHOCKING LEVELS of DNA contamination in the Covid clot shots. Surprise, surprise! The residual DNA levels greatly exceeded regulatory safety limits by up to 470 times. Let's hear that again. The contamination of residual DNA fragments greatly exceeded regulatory safety limits by up to 470 times. Let that sink in for a minute.

Did Bill Gates and Anthony Fauci know this long ago? Of course they did. The Turbo Cancer jabs were always the main part of the PLANDEMIC experiment to rid the earth of a few billion people, just like Gates said at his TED talk years ago. It was never about preventing the contraction or spread of Covid, because Covid was no more deadly than the seasonal flu. They used propaganda that it was much worse to sell everyone on getting the Turbo Cancer injections. Get it?

Now the FDA is no longer run by psychopaths, like it was under the O'Biden Regime. The findings of this PEER-REVIEWED study were published in the Journal of High School Science, for any naysayers out there. Sure, this isn't NIH or BMJ, but the mass media surely does NOT want the masses knowing about this, or they'll all freak out and burn Fauci at the stake like a scarecrow.

The FDA researchers employed two primary analytical methods, both of which confirmed the presence of DNA contamination up to 470 times higher than permissible thresholds.

NanoDrop Analysis -- This technique uses UV spectrometry to measure the combined levels of DNA and RNA in the vaccine. While it provides an initial assessment, it tends to overestimate DNA concentrations due to interference from RNA, even when RNA-removal kits are utilized.

Qubit Analysis -- For more precise measurements, the researchers relied on the Qubit system, which quantifies double-stranded DNA using fluorometric dye.

In case you want more proof, these findings align with earlier reports from independent laboratories in the United States, Canada, Australia, Germany, and France.

Note they are stating they have black mail on anyone and everyone I ever new and that they believe that fax machines are the key to everything in the world...

They keep telling me you must pay them all your money or they will release black mail on you and your family or anyone you care about. When in reality it so doubles and not real.

This is their master plan of human trafficking trafficking men and woman for their personal slaves. They tell me this is humanizing people as cover for human trafficking skits.

They continue to say they are god and you must worship and pray to them that they are Jesus and that you must give them all your money and pray to them and how to them...

This is blasphemous to do and violates the constitution.

They continue to let me know that they own all the US and the president themselves saying it is just pressure but in reality they brake anything around you treat you like shit and ruin any work environment or customers you have.

This is all so you will give them money as extortion payments.

Fax machine anyone

Florida mayor seeks to evict cinema for showing Oscar-winning No Other Land

The mayor of Miami Beach is attempting to evict an independent cinema from city-owned property after it screened No Other Land, the film about Palestinian displacement in the West Bank that just won the Oscar for best documentary.

Steven Meiner's proposal would terminate O Cinema's lease and withdraw \$40,000 in promised grant funding. In a newsletter sent to residents on Tuesday, Meiner condemned the film as "a false one-sided propaganda attack on the Jewish people that is not consistent with the values of our City and residents".

Meiner had previously urged the O Cinema to cancel scheduled screenings of the documentary, citing criticism from Israeli and German officials. According to the mayor's newsletter, O Cinema's CEO, Vivian Marthell, allegedly agreed to withdraw the film from programming, citing "concerns of antisemitic rhetoric", but Meiner claimed she reversed her decision the following day. The screenings sold out and the cinema added additional dates in March.

"Our decision to screen NO OTHER LAND is not a declaration of political alignment. It is, however, a bold reaffirmation of our fundamental belief that every voice deserves to be heard," Marthell told the Miami Herald.

The documentary, which won the Academy Award for best documentary feature last week, follows the destruction of Palestinian villages in the occupied West Bank and chronicles the unlikely friendship between a Palestinian activist, Basel Adra, and an Israeli journalist, Yuval Abraham, who co-directed the film.

Abraham responded to the Guardian's reporting on Meiner's efforts on Thursday, writing: "Banning a film only makes people more determined to see it."

"Once you witness Israel's ethnic cleansing of Masafer Yatta it becomes impossible to justify it, and that's why the mayor is so afraid of our film," Abraham said in a post on social media.

Tensions over free speech and Palestinian activism nationwide have been further heightened this week after Mahmoud Khalil, a former Columbia student activist and green-card holder who helped lead the Palestinian solidarity movement during the college encampments last year, was detained by immigration authorities. The US president, Donald Trump, has alleged without evidence that Khalil has links to "pro-terrorist, anti-Semitic, anti-American activity".

A White House official told the Free Press that Khalil, who was arrested without charge, poses a "threat to the foreign policy and national security interests of the United States" and the "allegation here is not that he was breaking the law".

A recent Gallup poll shows support for Israel has plummeted to a 25-year low, while Palestinian sympathy has surged.

Antidepressants (Lexapro and Paxil) linked to devastating birth defects, lawsuits reveal

Lexapro and Paxil have been linked to severe birth defects, including heart defects, spina bifida, and autism.

Lawsuits reveal that manufacturers knew about the risks but failed to adequately warn consumers.

GlaxoSmithKline has paid billions in settlements, but critics argue it's a fraction of their profits.

Natural alternatives, such as therapy, micro-nutrient intake, and exercise, offer safer ways to manage mood during pregnancy.

In a shocking revelation, pharmaceutical giants Forest Laboratories and GlaxoSmithKline (GSK) are facing mounting legal battles over their failure to warn consumers about the severe risks of antidepressants like Lexapro and Paxil during pregnancy. These drugs, widely prescribed for depression and anxiety, have been linked to a harrowing list of birth defects, including heart defects, neural tube disorders, and even autism. Despite knowing the dangers, both companies allegedly prioritized profits over patient safety, leaving countless families to grapple with the consequences.

The hidden dangers of Lexapro and Paxil

The dangers of antidepressants during pregnancy are not new, but the extent of the risks has only recently come to light. Lexapro, manufactured by Forest Laboratories, contains chemicals that can cross the placental barrier, potentially harming both mother and child. Similarly, Paxil, produced by GSK, has been flagged as twice as likely to cause birth defects compared to other antidepressants.

Research has shown that these drugs are associated with a range of devastating conditions, including septal heart defects, pulmonary hypertension of the newborn (PPHN), and anencephaly---a fatal neural tube disorder. Other reported complications include malformed limbs, cleft lip or palate, and scoliosis. In some cases, babies were even born dependent on Paxil, suffering withdrawal symptoms shortly after birth.

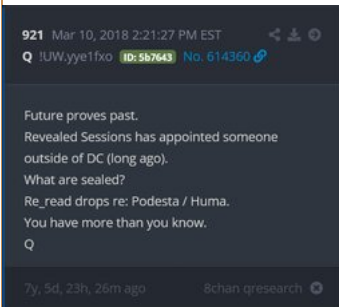

Despite these risks, both companies allegedly concealed critical information from the public. Forest Laboratories reportedly hid data about Lexapro's potential to cause birth defects, while GSK marketed Paxil to children without FDA approval, claiming it was "safe and effective" for minors. However, studies show that certain antidepressants increase the risk of specific birth defects, including heart defects.

The story of Lexapro and Paxil is emblematic of a broader issue within the pharmaceutical industry: a culture of prioritizing profits over patient safety. Both companies were aware of the risks associated with their drugs but chose not to disclose them fully. Lexapro received a mediocre "C" safety grade from the FDA after animal testing revealed harm, while Paxil was flagged with over 40 warnings from seven different countries.

But now it is their human trafficking and grooming organization.

The government is standing by now and allowing human trafficking going on and this where they have turn their back in citizens.

This how these people want to create a communist uprising to destroy the country... to bring about communism the issue is that they do this as cover do you do not hate the people doing this which is really FBI CIA agents that are just beyond their years and are trying to stay out of being retired. They are trying to prove they are useful still

Secretary of State Marco Rubio SCHOOLS Margaret Brennan on deporting terrorists from the U.S.:

"I find it ironic that a lot of these people out there defending the First Amendment and the alleged free speech rights of these Hamas sympathizers had no problem pressuring social media to censor American political speech. So, I think it's ironic and hypocritical.

We don't want terrorists in America. I don't know how hard that is to understand."

EU parliament rocked by corruption investigation linked to China's Huawei

Belgian authorities announce arrests of several people in connection with alleged bribery within the parliament.

Police have arrested several people as part of a corruption probe targeting the European Parliament and Chinese tech company Huawei, Belgian authorities have said.

The suspects, who are alleged to have been involved in "active corruption" within the European Parliament to benefit Huawei, were arrested following searches at 21 premises in Belgium and Portugal, Belgium's Federal Public Prosecutor's Office said in a statement on Thursday.

"The corruption is said to have been practised regularly and very discreetly from 2021 to the present day, under the guise of commercial lobbying and taking various forms, such as remuneration for taking political positions or excessive gifts such as food and travel expenses or regular invitations to football matches," the prosecutor's office said.

Investigators believe the illicit payments may have been "mixed up" in financial flows linked to conference expenses in order to disguise their true purpose, according to prosecutors.

"From this point of view, the investigation also aims to detect any evidence of money laundering, as the case may be," the prosecutor's office said.

Following the raids, a judge overseeing the case ordered seals to be placed on the offices of two parliamentary assistants at the EU parliament headquarters in France's Strasbourg, prosecutors added.

Prosecutors said they could not disclose further details, including the identities of the suspects, out of consideration for the presumption of innocence and the integrity of the investigation. Huawei said in a statement that it took the allegations seriously and would communicate with authorities to understand the situation. "Huawei has a zero tolerance policy towards corruption or other wrongdoing, and we are committed to complying with all applicable laws and regulations at all times," a spokesperson said. A spokesperson for the EU parliament said it had received a request for cooperation from the Belgian authorities to assist the investigation, which it would "swiftly and fully honour." The probe comes less than three years after several EU lawmakers and aides were embroiled in an alleged bribery scandal involving officials from Qatar and Morocco. Five current and former MEPs -- Greece's Eva Kaili; Italy's Pier Antonio Panzeri and Andrea Cozzolino; and Belgium's Marc Tarabella and Marie Arena -- have been charged in the case. Panzeri cut a plea deal with prosecutors in 2023, in which he acknowledged his involvement in corruption. None of the other four have been convicted. The Qatari and Moroccan governments have denied any wrongdoing in the case. <https://www.aljazeera.com/economy/2025/3/14/eu-parliament-rocked-by-corruption-investigation-linked-to-chinas-huawei>

Though there were rumblings from the Republican camp, the constitutional right of the president to sign a bill with the autopen has neither been challenged nor tested in court. The constitutionality of a proxy signature has most certainly been challenged, with some legal experts asserting that the problem is not the use of a proxy, but that the principal (in this case, the president) and the proxy (the autopen) are not together at the time of signing.

The three hundred-fifty-year-old proxy law, designed to mitigate fraud or undue influence, has surprising relevance to this new technology. The presidential use of the autopen, or new technology, then, is not only an esoteric interest of collectors, but has very real applications and ramifications that impact the very notion of a well-ordered government.

The health care system in Gaza has been devastated in the war, with only one hospital in the territory fully operational and 20 partially functioning. There are severe shortages in essential medical supplies, equipment and in-patient bed capacity. Over 111,000 Palestinians have been injured and up to 14,000 patients—including 4,500 children—require medical evacuation abroad.

The procedure to enter Gaza imposed by the Israeli military is draconian. In the months after October 7, 2023, humanitarian organizations coordinated their entry through the United Nations and the Israeli military, organizing their own transportation from Cairo to the Rafah border crossing. As many as 15 health care workers crossed at a time for one- or two-week stints, with a relatively large turnover of volunteers entering and exiting the territory. People were also allowed to take multiple suitcases of supplies with them, including medical supplies, food, and toys for children, as well as large amounts of cash to support their stays.

That changed dramatically last summer following the Israeli military's invasion of Rafah in May and the closing down of the Rafah border crossing. Under the new system, health care workers had to apply for entry to the World Health Organization (WHO) a month ahead of time and receive pre-approval. "The WHO submits all that information to COGAT, meaning that COGAT has all of your application information, everything about you, a month ahead of time," Rana said.

Israel is Denying Doctors and International Aid Workers Entry to Gaza at Unprecedented Rates

Amid a total blockade of Gaza, Israel imposed sweeping new restrictions on international aid groups

The Israeli military is denying international health care and humanitarian workers entry into Gaza at unprecedented rates, according to multiple doctors and aid workers who spoke to Drop Site News. Since early February, shortly after the Gaza "ceasefire" went into effect, as many as half of doctors with preliminary approval through the World Health Organization to enter Gaza found out the night before their scheduled entry that they were rejected.

Nearly all of the doctors being denied entry over the past six weeks have been on relief missions to Gaza within the past 17 months and have previously been cleared by the Coordinator of Government Activities in the Territories (COGAT), the branch of the Israeli military that oversees the West Bank and Gaza.

"This spike in rejections, without a doubt, we've never seen anything like this," said Dr. Nabeel Rana, a vascular surgeon who volunteered in Gaza on two separate missions in 2024 and was denied entry for the first time on February 24. "It seems to be since the ceasefire went through—since the beginning of February—is when it's become very, very pronounced."

Meanwhile, the Israeli government established an inter-ministerial team in December, led by the Director General of the Ministry of Diaspora Affairs and Combating Antisemitism, to oversee the registration of international NGOs working with Palestinians. The new registration procedures mean that the Israeli government can bar any organizations from entering Gaza until they have gone through its approval process. "This could completely upend the humanitarian system as it currently stands. We were supposed to have a team enter on 18 March and were told to 'hold' until the new terms were negotiated," said Dorothea Gucciardo, the director of Development at Glia, an international humanitarian organization that operates in Gaza. The newly-formed team's guidelines include denying registration for political reasons, such as "denying Israel's status as a Jewish and democratic state," or "supporting boycotts, denying October 7, supporting resistance efforts, delegitimization campaigns, or legal proceedings against Israeli security personnel."

"This policy is using bureaucracy as another weapon in Israel's genocidal campaign against Palestinians," said Gucciardo, who led two medical missions to Gaza in 2024. "It's unprecedented, and represents a dangerous escalation in the restrictions placed on humanitarian organizations working in Palestine, particularly in Gaza, which remains under total blockade. The Gaza Strip is being choked

off from the rest of the world, and this new policy will cripple efforts to save and preserve life.”

BF Report: The financial system is headed for catastrophic collapse

It is a system that is heading straight into a collapse. The current Western political class is unable to deal with the situation. The trigger will be the collapse of Ukraine. As Timofey Bordachev, Programme Director of the Russia's Valdai Club explains:

In a collective, the individual mind becomes subservient to the collective interest and loses the ability to act independently. This dynamic is now evident in EU policymaking. The bloc has effectively abandoned its instinct for self-preservation. Ukraine is proof that even large states can adopt self-destructive foreign policies. This poses dangers not just for Europe but for the wider world.

<https://www.rt.com/news/613949-eus-leadership-is-now-global-threat/>

What we are witnessing in the West is a group of leaders who have been blackmailed, bribed and brainwashed all their lives into believing in a certain paradigm. Now, as reality destroys their paradigm, they are in a state of denial. They cannot veer from a script dating back centuries that calls for Russia to be destroyed followed by China.

Nothing illustrates this more than government leaders in Canada, France and Poland basically calling for the use of nuclear weapons against the US and Russia.

This is a sign of desperation because the fact is, as we shall see below, Western Europe has been defeated and its' current political and financial system cannot survive.

Furthermore, the situation in the US is almost as bad as the government clutches at straws in an attempt to avoid bankruptcy. This is seen in patently false numbers being bandied about such as "give us back the \$350 billion we gave you by handing over \$500 billion worth of rare earth metals in Ukraine." Fact check, the US gave Ukraine less than a third of that amount and the only rare earths in Ukraine are about \$20 billion worth of lithium that is in Russian hands.

Talk about switching to cryptocurrency is also nonsense because it is not real, it is just numbers on computers controlled by the alphabet agencies.

Unfortunately, it looks like the whole system will have to collapse before it is possible to start rebuilding.

"We must, not in several years, but in the weeks to come, find a way to move from our current social model to another, more modern and freer one, without harming the most deprived. It is unlikely that our current political class is capable of this," is how French journalist Thierry Meyssan summarizes the situation we are now facing.

Elon Musk describes the situation as follows: "We're reprogramming the matrix. Success was never one of the possible outcomes --- If you're in the matrix, success was never possible. The only way to achieve success is to reprogram the matrix such that success is one of the possible outcomes. That's what we're doing. We may or may not succeed."

Musk may be saying we can't escape the Matrix because, like the launch of SpaceX's seventh Starship test flight, the eighth attempt also ended in the craft's disintegration. About eight minutes after it launched from Brownsville, Texas, several engines appeared to fail, and the 400-foot-tall rocket was last seen spinning before communication was lost.

What Musk calls the "matrix" is reality, as opposed to the fake financial reality (including a fake space program) the West has been living in for about 50 years.

Musk is also concerned he may be assassinated in DC for exposing too many details about the corruption he is dealing with.

The corruption he is talking about is a system that creates money out of nothing and then launders it through the stock market. This can be seen in the illustration below showing US stocks account for 50% of world market capitalization even though the US accounts for about 15.5% of the global economy in PPP terms.

In other words, US stock prices should be worth only a quarter of what they now are if they are to be in line with reality.

Musk, the "world's richest man" is a beneficiary of this system but is also aware he is living on borrowed time. Tesla sales plunged by 76.3%, 65.5% and 49.16% in Germany, Australia and China in February so, valuing this company more than all the other car companies in the world combined is becoming an obvious lie.

<https://www.carscoops.com/2025/03/tesla-sales-falling-off-a-cliff-globally-including-germany-australia-and-china/>

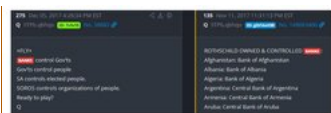

This plunge in sales could be part of a KM attack on Musk. An investigation has found 5 ActBlue-funded groups responsible for Tesla "protests": Troublemakers, Disruption Project, Rise & Resist, Indivisible Project and Democratic Socialists of America. ActBlue funders include George Soros, Reid Hoffman, Herbert Sandler, Patricia Bauman, and Leah Hunt-Hendrix. ActBlue is currently under investigation for allowing foreign and illegal donations in criminal violation of campaign finance regulations. This week, 7 ActBlue senior officials resigned, including the associate general counsel.

This imbalance has been going on for decades. It means the US has been getting high on stock market fentanyl while China has been taking over the real-world economy.

This also means it is time to talk to China. China has been patiently waiting for Trump to start negotiating.

However, their patience is running out: "If war is what the US wants, be it a tariff war, a trade war or any other type of war, we're ready to fight till the end," China's embassy said on X, reposting a line from a government statement on Tuesday.

Japanese military intelligence sources say China is preparing a nasty surprise that will involve cutting all the underwater cables linking Taiwan to the rest of the world and then starting a naval blockade of the island. At the same time, they have infiltrated about 800,000 armed men into Japan and have systematically identified US and Japanese military targets that need to be taken out in order for China to take over Japan.

A Chinese hardliner also once bragged to me they could take over India in a matter of months.

In a sign a clash with China is coming, Missouri Attorney General Andrew Bailey secured a historic \$24 billion judgment against the Chinese Communist Party for unleashing the COVID-19 pandemic --- six times more than the previous largest judgment in Missouri history.

A court has ruled in favor of Missouri issuing a historic \$24 billion judgment against the Chinese Communist Party in a COVID-related lawsuit allowing Missouri to move forward with seizing China's U.S.-held assets including farmland and other properties to collect the judgment.

Also, at a G7 foreign minister's meeting in Canada this week the US is going to insist on tougher wording against China and at the same time soften anti-Russian rhetoric in the communique.

<https://tass.com/world/1924489>

Secretary of State Marco Rubio stated in an exclusive interview with Breitbart News that President Donald Trump and his administration aim to break Russia away from China in the same way that former President Richard Nixon broke China away from the Soviet Union during the Cold War. Rubio stated that the US-China relationship will define this century, and therefore it would be better for both Russians and Americans if the Russians were not completely dependent on China as a "junior partner".

However, the West will be in no shape to deal with China as long as it is stuck in a civil war pitting Trump and Russia against most other Western governments.

The main bone of contention is Ukraine. US President Donald Trump has suspended military aid to Ukraine and used his powers as part of the "Five Eyes" alliance of the US, Britain, Australia, Canada and New Zealand to suspend intelligence to Kyiv.

This is making the other members of the Five Eyes spy alliance -- Britain, Canada, Australia and New Zealand; as well as Israel and Saudi Arabia wary of sharing information with the US.

<https://www.ynetnews.com/article/b1d8oswj1>

Now the US has begun evacuating high-ranking officials, "including generals and ministers" from the Ukrainian border area.

The European Union officially hit the panic button with Ursula von der Leyen calling for a \$840 billion military rearmament plan. In the video below you can listen to the delusional witch von der Leyen say:

"We will drive 'ReArm Europe' plan forward with full force." She says pumping cash into rearming Europe will also prop up EU's economies.

As the analyst linked below says: "This is a suicide pact, designed to plunge the continent into an irreversible economic and geopolitical crisis. NATO is disintegrating, Washington is pulling the plug, and Russia is watching the whole thing unfold, knowing it has already won the war for dominance".

<https://gazzetteller.com/nato-is-dead-trump-walks-away-europe-scrambles-840-billion-debt-disaster-will-collapse-the-eu-and-force-surrender-to-russia/>

Trump for his part is reportedly planning to withdraw 35,000 troops for Germany and deploy them in Hungary. This move comes as Hungary's leader Viktor Orban says globalists seek to destabilize Serbia, Slovakia, and Hungary after "losing Washington to the patriots."

This is setting the stage for a combined Eastern European, Russian and US military removal of the governments of Germany and France.

<https://www.presstv.ir/Detail/2025/03/08/744107/Trump-contemplates-withdrawing-troops-from-Germany>

"We have an ocean between us, they're in much greater danger, if you call it danger...You know the thing with Europe that bothers me? They've given more money to Russia from buying their oil than they've put into Ukraine."

The reality is EU governments will be removed long before they get any chance to rearm. With the US cutting off military support to Ukraine in an abrupt pivot towards Russia, many European governments are feeling buyer's remorse for decades of US arms purchases that have left them dependent on Washington for the continued functioning of their weaponry.

<https://archive.is/GCWGk#selection-2435.54-2435.155>

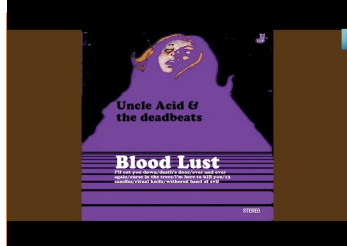

The fact is the US maintains secret so-called "kill switches" that would immobilize most EU aircraft and weapons systems.

This means these bare-breasted extremist women screaming "Heil Donald Trump, heil Vladimir Putin, heil Elon Musk..." while doing Nazi salutes in Paris are about the only troops the EU can deploy.

In a sign of just how brainwashed these people are here you can watch MSNBC say "Ukrainians are more American than we are" Huh?

Where does MSNBC go from here?

It has become much clearer these past few months just how far NATO has shifted away from US interests. Even though the United States funds a whopping 70 percent of NATO's cost, our own NATO "allies" are working against the United States as President Trump attempts to pull us back from the brink of war with Russia.

President Trump's Department of Government Efficiency head Elon Musk made quite a stir with just two words posted on his social media platform, X. Responding to a post that said, "It's time to leave NATO and the UN," Musk replied, "I agree."

It is also clear that Ukraine's dictator Vladimir Zelensky is about to be removed. Russian Foreign Minister Sergey Lavrov says it clearly "Zelensky is not even a person." He knows Zelensky is an avatar.

As French journalist Thierry Meyssan points out "Unelected, Volodymyr Zelensky (his mandate expired eight months ago), sits there, but has no say in the matter. All decisions are made under the authority of the former head of the foreign secret service (SZRU), Oleksandr Lytvynenko.

This Council, which has banned all opposition political parties, burned three million books and banned the majority Orthodox Church in the country, is the stronghold of the "integral nationalists", that is to say the disciples of Dmytro Dontsov and his future man, Stepan Bandera, the collaborators of the Nazis. By bombing the main pumping station of the pipeline in Russia, he knew what he was doing: he was attacking US interests in Russia.

"Think about it, a modestly successful comedian, Volodymyr Zelensky, convinced the United States of America to spend \$350 billion to enter a war that could not be won, that should never have started, that he will never be able to solve without the United States and "TRUMP". The United States spent \$200 billion more than Europe, Europe's money is guaranteed, while the United States will receive nothing in return.

The other Khazarian Mafia government that is collapsing is the regime in Israel. Israel has vanished from the US news recently because the situation there is terminal, according to Pentagon sources. Turkish, MI6 and CIA sources all say Israel is now begging Russia to save them from Turkey and Egypt. That is why Benjamin Netanyahu sent his military secretary, R. Gofman, to Moscow. "Tel Aviv wants Moscow to maintain its military presence in Syria."

<https://www.yenisafak.com/en/columns/yahya-bostan/netanyahu-is-afraid-of-turkiye-3699182>

This comes as the Syrian state news agency SANA reported on Sunday "A horrific massacre was carried out by remnants of the fallen regime against the police and security forces in the city of Qardaha."

This prompted a Syrian counter-attack and in reaction, MI6 sent the following request to Russia: "We respectfully seek your consideration of a temporary humanitarian arrangement, under which the United Kingdom, alongside other willing nations, may be granted the limited use of Russian military and logistical facilities in Syria for emergency humanitarian and peacekeeping efforts." What this means is Israel wants to evacuate its proxies from Syria and needs Russian help.

Also, in a sign it has lost its war of extermination in Gaza, The Arab League adopted a \$53 billion project to rebuild Gaza. Nearly half of Gaza's residents are expected to be transferred to seven security zones while construction begins.

<https://www.voltairenet.org/article221893.html>

There has also been regime change in Canada. Ex-Bank of Canada and Bank of England governor and king of the globalists, Mark Carney, won the race to become Canada's next prime minister, replacing globalist Justin Trudeau. Here you can watch his victory comments.

Carney was the "carbon causes global warming" guy because that is what his boss Queen Elizabeth wanted. Before her death, the Queen changed her mind about carbon and reached an agreement with the Asians to concentrate on increasing the amount and variety of life, including human life. So, hopefully, he will support the future planning agency. We have reached out to him and will let you know if we hear back.

Also, like it or not, Carney will have to negotiate some sort of North American union with Donald Trump. As Trump says: "You erase that artificially drawn line & take a look at what that looks like. Wouldn't that be something?"

Of course, it is the US that is bankrupt, not Canada so, this should be a Canadian-led merger and acquisition.

In the latest sign the US is in deep financial trouble, Trump signed an executive order Thursday establishing a "Strategic Bitcoin Reserve," forcefully endorsing a currency once shunned as a tool for money launderers.

<https://insiderpaper.com/trump-signs-executive-order-establishing-strategic-bitcoin-reserve-statement/>

<https://hews.bitcoin.com/white-house-america-will-be-the-bitcoin-superpower-of-the-world/>

Catherine Austin Fitts says:

We are watching...a campaign to persuade the federal and state governments to begin significant Bitcoin (BTC) buying programs using taxpayers' money and funds borrowed with ever-expanding debt. This will solve a major problem faced by the Bitcoin billionaires---how to liquify their holdings in a market that is not sufficiently broad and deep to allow them an exit during a major pump...now that the debt growth model is over, and there is more paper than there are real assets, the rush for land and real assets is on. Think of this as a swap. If you are the Bitcoin billionaires and Mr. Global, you want to get retail to buy your digital creations so that you can shift to owning and controlling the real assets. Your problem, however, is that retail will not buy in sufficient quantity---so, you simply mandate retail buys by using the government to do it. It is important to connect the dots with the federal government's efforts to survey all land and mineral resources and the growing discussion of how to take advantage of "\$500 trillion of land and minerals owned by the U.S. government."

In other words, the Trump people are trying to use crypto backed by US physical resources as a way to avoid bankruptcy.

In another disturbing development, it turns out Wall Street billionaire Larry Fink convinced Trump to hand over the Panama Canal to BlackRock. His pitch: Fink's investment company, BlackRock Inc., was interested in buying the ports on either side of the waterway, shifting them into American hands, according to people familiar with the discussion. And with that, there would be no need to have the US take the century-old canal by force

In a filing, CK Hutchison Holding said Tuesday that it would sell all shares in Hutchison Port Holdings and in Hutchison Port Group Holdings to the consortium in a deal valued at nearly \$23 billion, including \$5 billion in debt.

The deal will give the BlackRock consortium control over 43 ports in 23 countries, including the ports of Balboa and Cristobal, located at either end of the Panama Canal. Other ports are in Mexico, the Netherlands, Egypt, Australia, Pakistan and elsewhere

That's not all, the Trump administration on Tuesday identified 443 federal properties that will possibly be put up for sale, including the headquarters of the FBI and Labor and Justice departments, as the president continues to downsize the federal government.

<https://www.msn.com/en-us/politics/government/trump-admin-seeks-to-put-443-federal-properties-including-fbi-and-doj-headquarters-up-for-sale/ar-AA1Ag1W2?ocid=BingNewsSerp>

Our US Space Force sources say it would be BlackRock, Vanguard and State Street buying the assets. So it looks like BlackRock etc, are making a move to buy up the bankrupt US Corporation's assets. If you ask me, it would be better to let Canada do the US cleanup.

No matter what though, as Rep Thomas Massie says "Americans would be better off if the Federal Reserve did not exist. The Fed devalues our currency by monetizing the debt, causing inflation." pic.twitter.com/OU2NkbBZsX

<https://x.com/RepThomasMassie/status/1897400794946920547>

Bankruptcy of the Fed is definitely needed to clean up the mess there. The Biden presidency might have been the greatest con job ever perpetrated on the American people. A shocking investigation by the Heritage Foundation's Oversight Project has revealed that virtually every document bearing Joe Biden's signature during his presidency was signed by an autopen --- except for one.

What makes this revelation particularly damning is that the only document confirmed to have Biden's actual signature was his letter announcing his withdrawal from the 2024 presidential race. Let that sink in for a moment.

<https://pjmedia.com/matt-margolis/2025/03/06/bombshell-discovery-could-make-all-of-bidens-presidential-actions-null-and-void-n4937648>

In an example of how corrupt that regime was, an EPA slush fund handled by John Podesta Rockefeller gave billions to charities founded only months earlier.

The Biden administration has directed at least \$20 billion to new environmental groups. A significant portion went to the Climate United Fund, which received nearly \$7 billion despite being incorporated only five months prior. While it aims to deliver benefits like cleaner air and energy security, no public accounting exists for its spending plans.

This sort of thing was widespread. Senator John Kennedy went to Social Security to fix the problem of Social Security checks being sent to dead people and being cashed, he was told it was ILLEGAL to share the information with the Treasury who could fix it.

In another example of hopeless corruption, the TSA has more people doing "full-time union work" vs. performing actual screening functions at 86% of US airports. Put another way, 374 out of 432 federalized airports have fewer than 200 TSA Officers to perform screening functions, while the rest are paid by the government but work "full-time on union matters" and do not retain certification to perform screening.

What's more, DHS cited a recent TSA employee survey which found that over 60% of "poor performers" are allowed to stay employed and "not surprisingly, continue to not perform."

In yet another sign of how degenerate the US government has become, it turns out USAID and other Deep State agents like the Rockefeller Foundation were funding the LGBTQ arm of India's Congress party.

Mist LGBTQ is among the three LGBTQ organizations in India to be funded by USAID. The other two groups are The Queer Muslim Project and the Nazariya QFRG.

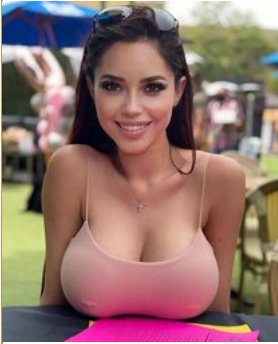

Notably, India's first transgender clinic, Mitr Clinic in Hyderabad, shut down last week due to the freeze in funding from USAID on March 7.

It is also clear the current Western regimes are hopelessly linked to Zionism which is basically the KM plan to enslave humanity.

Have you noticed we still haven't seen the Epstein files or the JFK assassination files released?

Now, AG Pam Bondi says "ISRAELI national security" information will be redacted from Epstein's files.

"Why do the Epstein files need to be redacted for Israeli national security? Oops, I forgot the Zionists controlled Epstein. Wouldn't want any embarrassing names released," comments a Mossad source.

Here's the actual record of Kash Patel & Pam Bondi since taking office:

Arrests: 0

Investigations: 0

Strongly-worded Letters to Each Other: 2

Fox News Appearances: 8

<https://www.winterwatch.net/2025/03/pam-bondi-says-israeli-national-security-information-will-be-redacted-from-epstein-files/>

Elon Musk confirms Bill Gates, Bill Clinton, and Reid Hoffman as Epstein Clients: "Epstein clients, who are obviously extremely powerful politically and very wealthy... Bill Gates, Bill Clinton, and Reid Hoffman, and some others too."

Maybe we will have better luck with Robert F Kennedy Jr in his battle against big pharma and big food:

US Secretary of Health and Human Services Robert F. Kennedy Jr. will meet with senior leaders of the processed foods industrial complex to discuss potential topics ranging from banning seed oils and certain food additives to nutrition labels as the "Make America Healthy Again" revolution begins.

March 7 -- The U.S. Centers for Disease Control and Prevention is planning a large study into potential connections between vaccines and autism.

<https://www.reuters.com/business/healthcare-pharmaceuticals/us-cdc-plans-study-into-vaccines-autism-sources-say-2025-03-07/>

He says "When my uncle was president, only 3% of America was obese. Today, it's over 70%. Epidemics are not caused by genes. Genes may provide the vulnerability, but you need an environmental toxin. Something is poisoning the American people."

https://x.com/NJBeisner/status/1884813717424189777?ref_src=twsrc%5Etfw%7Ctwcamp%5Etweetembed%7Ctwterm%5E1884813717424189777%7Ctwgr%5E9da4465ca7c61f93b06c4f8088c56ff72b6af1a0%7Ctwcon%5Es1_%ref_url=https%3A%2F%2Fwww.zerj-meet-leaders-processed-foods-industrial-complex

RFK Jr. also brushed off an attempt by vaccine promoters to use old photographs to pretend there was a measles outbreak in Texas.

In another indication big Pharma is in trouble, the Public Health Agency of Canada (PHAC) admits Covid mRNA "booster" shots triggered a major surge in deaths among people who received the "vaccines."

<https://slaynews.com/news/canada-admits-covid-boosters-triggered-major-death-surge/>

The fact the government admits to mass murder by vaccine means war crimes tribunals are now certain to follow.

The military will need to back this up to the hilt. If you were curious why Russian general Igor Kirillov was just assassinated, watch this video.

In August 2023, Kirillov outlined how the US and Big Pharma "rule the world" by "manufacturing biological crises".

He also discussed how all of this evidence has been submitted to the UN many times, and gets vetoed every time by the US, because the US cannot refute the documentation.

This is the reason they killed him. He was trying to expose the biggest crime in human history.

White House explains suspension of US state-run media

President Donald Trump's order to slash funding for VOA and its parent company aims to free Americans from paying for "radical propaganda"

US President Donald Trump's decision to terminate government funding for Voice of America (VOA) is aimed at ensuring that taxpayers no longer pay for "radical propaganda," the White House has said.

In a statement on Saturday, titled 'The Voice of Radical America', the administration detailed a list of infractions committed by VOA.

Trump, a long-time critic of the broadcaster, signed an executive order slashing funding for the outlet's parent entity, the US Agency for Global Media (USAGM), on Friday. The order mandates that the agency cut its operations and staff to the bare legal minimum and submit a compliance plan within seven days. On Saturday, VOA director Michael Abramowitz said he had placed nearly his entire staff of

1,300 on administrative leave following the order's publication.

The move has drawn criticism from press freedom groups. National Press Club President (you are next, you know that right?) Mike Balsamo claimed the cuts undermine America's commitment to a free and independent press, while Reporters Without Borders warned that the decision "threatens press freedom worldwide." (Hey if the U.S. pays your salary, you are never free and independent! We own you)

The White House argued that VOA has repeatedly violated journalistic standards and accused the outlet of systemic bias, citing over a dozen sources. Among them was Dan Robinson, a 34-year VOA veteran, who last year called the agency a "hubris-filled rogue operation often reflecting a leftist bias aligned with partisan national media."

The White House also pointed to a Daily Caller report alleging that multiple VOA reporters had posted anti-Trump comments on social media in violation of the outlet's impartiality policy. Additionally, it referenced a 2022 letter from US Representative Scott Perry, who accused VOA of tolerating "coercion for partisan political purposes."

Other alleged infractions listed by the White House included misallocation of funds and coverage that was overly favorable to former President Joe Biden. The administration also cited a 2022 lawsuit alleging that VOA had been "infiltrated by anti-American, pro-Islamic State interests."

USAGM's Trump-appointed senior adviser, Kari Lake, echoed the administration's stance. On Saturday, she described the agency as "a giant rot and burden to the American taxpayer," and argued that it is "not salvageable." She pledged to reduce the agency's scope to its legal minimum, outlining her own findings of irregularities, including claims that USAGM was infiltrated by spies and terrorist sympathizers and has funded 'fake news' organizations.

(The Press in the U.S. and elsewhere have never been free and unbiased, since at least the early sixties, they have been subsidized by US agencies for propaganda for a long time.)

And after Trump claimed China wielded too much control over the Panama Canal, BlackRock quickly arranged a deal with the Hong Kong-based CK Hutchison Holdings to buy the Balboa and Cristobal ports in the canal, as well as 43 other strategic harbors, and briefed the White House on the development.

The center of growth is now shifting to the US, and Wall Street giants are ready to benefit from that, according to the analyst.

In his last congressional address, "President Trump underlined the more than 2 trillion in investments his administration has garnered since entering office on January 20—a record haul by some of the best companies in the world—Honda, Apple, TSMC," Cuello notes.

"Economically this can be read as a signal, not just of private sector confidence but of future growth, which is more than can be said for the humble conference in the mountains of Switzerland," the analyst says.

Trump used the Davos platform following his inauguration in January 2025 to lambast the forum's longstanding globalist "scam" and show Europe it would no longer be "business as usual."

How BlackRock Stole Schwab's Thunder & Jumped on Trump's Bandwagon

Klaus Schwab, who founded the World Economic Forum in the 1970s and shaped globalist discourse for decades, has been swept away by the Trump Revolution, Professor Felipe J. Cuello, a member of Donald Trump's 2016–17 transition team's Foreign Policy Implementation unit, tells Sputnik.

Schwab's descent into irrelevance began more than a decade ago amid "the rise of the big conglomerates like BlackRock" that "made Davos-type coordination much less necessary," says Professor Felipe J. Cuello.

BlackRock and two other Wall Street behemoths—Vanguard and State Street—benefited greatly from former president Barack Obama's fiscal expansionist policies in the late 2000s, according to Cuello.

They particularly capitalized on Obama's so-called "helicopter money" scheme, the Troubled Asset Relief Program (TARP) and enacted in October 2008, which allowed them to buy AAA-rated US companies and properties at a huge discount.

"Such concentration of wealth, with government backing, came from what was supposedly the most leftist president ever elected, but the facts are the facts," Cuello notes.

"What those companies have done with that money, however, is most certainly ideological—the conglomerates were the main force behind DEI, mainstreaming the climate agenda throughout society, also the main funders of Black Lives Matter and the LGBT* movement," he adds.

As a result, Davos paled in comparison to the Wall Street giants, who were actively promoting woke ideology.

"So, insofar as these were present at Davos, it was them bringing Davos along for the ride, not the other way around," the professor points out.

BlackRock has recently shifted its stance, leaving the Davos elite behind and eyeing a potential financial windfall from Trump's America First policies.

"[BlackRock CEO Larry] Fink's late-coming onto the Trump train was deference to a political change he couldn't control: Trump would win without him and his business depends on a friendly government, especially in [the] US," says Cuello.

BlackRock and Trump appear to have a shared interest in cryptocurrencies and Bitcoin.

Mark Glenn– THERE WERE NO 'INTELLIGENCE FAILURES' THAT LED TO THE EVENTS OF OCT. 7TH...

Oct. 7th was, in a word, BRILLIANT, ladies and Gentile-men. Like Netanyahu's other masterpiece in state-sponsored terrorism, i.e. 9/11, it resulted in EXACTLY what it was that the Jypsy State needed in making good on her 3,000 years old plans, meaning a globally-recognized narrative rooted in 'self-defense' that would facilitate the very same WWII/Armageddon which the Pirates of Judea need in order to achieve that thing which Torah Judah-ism and its primary deity 'yahweh' command be done, the creation of 'Greater Israel'.

Two living spirits, trees or vines, as two systems or sources, only one Living God who created them both. Being one of them, sustains them over the fallen world's dimension both have powers and hearing in them for their adherents. Only one permeates the other to the might of the Living God, whose Spirit is the Christ, Jesus, as the Living God sent into the world. If you are marked by one, as sealed, you are lost to the other system, generally and if you are lost to God you are lost to life forever, in that you will be unable to be transfigured in His Spirit from His glory to glory as a personality complex to never die or be other reembodyed into everlasting forms in the next Kingdom to come. One life to live in this flesh to get it right. At the right hand of the Father, God, Jesus has a form of a man, as does the Father, in Heaven, while having also, the Living Spirit He sent, that man's body existing everywhere in the expanse being one with the Father God. Do you know Him and believe in order to be recognized by Him and potentially by His grace, awakened to His presence by following. The Word's commands and wear the armor of His protection? Satan has no body of form, but a localized living spiritual power and man, also embodied by fallen ones living on His, around the globe visible to all that those who have sealed Him or were forced to take Him in transference through sexual intimacy, in an unholy embrace or the many of them thereby marked and sealed by that spirit that causes all the problems in the world, in His fallen rebellious state which occurred almost from the beginning. This price of the world has been judged and is being in that regard and those that do not have God are subject to collateral damage in that regard as used by the Holy Spirit sent by God when a Christ our Lord.

Trump worse than Covid -- deputy ECB chief(Kek they haven't seen the worst yet)

The new US administration has created more "uncertainty" than the pandemic, the European Central Bank vice president has claimed

Washington under President Donald Trump has created more "uncertainty" than the Covid-19 pandemic, Luis de Guindos, the vice president of the European Central Bank(ECB), has claimed.

The official made the remarks in an interview with The Sunday Times during which he bemoaned Trump's use of tariffs, as well as plans to reform corporate taxes and deregulate the financial system. The actions of the new US administration have been causing short-term volatility in markets while making inflation expectations and interest rates hard to predict, he said.

"We need to consider the uncertainty of the current environment, which is even higher than it was during the pandemic," the ECB vice president said.

"What we're seeing is that the new US administration isn't very open to continuing with multilateralism, which is about cooperation across jurisdictions and finding common solutions for common problems. This is a very important change, and a big source of uncertainty," he added.

Concerns over what Trump might do next have also damaged consumer confidence, de Guindos believes, noting that the long-awaited increase in business investment and household consumption has not arrived. He blamed the decline in Eurozone growth projections on the actions of the new US administration. (Are you freakin kidding me the EU brought it upon themselves, they are pissed Trump is doing reciprocal tariffs, that's it!)

"Real wages have increased, inflation is declining, interest rates are coming down and financing conditions are better. But still, the reality is that consumption is not picking up," he said. (The EU ruined their own economy by giving billions to Ukraine, so they blame it on the US.)

"This is because consumers don't always react to developments in their short-term real disposable income. They also consider what might happen with the economy over the medium term, which is clouded in uncertainty. =The possibility of a trade war or wider geopolitical conflict has an impact on consumer confidence," the official added, describing trade wars as a "lose-lose situation for everybody." (so the EU should stop their trade war on the US!)

Trump's 25% tariff hike on steel and aluminum supplies from the EU took effect last week after previous exemptions and exclusions expired. Brussels has already vowed to retaliate, promising what it called "swift and proportionate" countermeasures.

The European Commission has condemned Trump's disruptive and "unjustified" tariffs, pledging to impose counter-tariffs on €26 billion (over \$28 billion) worth of US goods starting in April. "Tariffs are taxes, they are bad," EU Commission President Ursula von der Leyen said when announcing the retaliatory measures. (So why are you hiding all your punitive measures on the U.S. with different terms?)

Doing some light digging into federal grant application keyword filtering. Non-profits are reeeee-ing over female and women being on the list national science foundation and NIH lists. I know the lists are based off the DEI elimination exec order, but I haven't found any links or articles covering the elimination of female and women from grant apps.

Note this is my assessment of the current state of things of agents and others so on that I believe I have experienced.

I believe they are undergoing a transhuman and human trafficking make over. This is being pushed in different ways that many people do not like. Mostly the military is against this type of thing.

They greatly need to reduce the budge of the US as there are to many agents... and other personal. They are all fighting for wha they think are jobs in this area like it is open try outs.

As someone with a professional degree that can work in fields such as these and likely will be recruited regardless of this out come likely if I told I wanted to work in any of these agencies or military they would not just allow me but be happy and encourage it.

This where these people are in medical field, psychology, therapist, former mil, tech field, law enforcement, lawyers, engineers, and more.

They lack the vision of being a larger picture together most of all this is the issue that they are having. They have instead went big government and have hired way to many people for jobs which has created like gangs mobs or crews in areas. They do not really want to solve or get anything done substantial but want to pretend like they are working. This has gotten to the point is such a lack of productivity that it is forcing the US government to make changes in these areas.

Most focus on gaining info by trying to extort and manipulate people. This unfortunately is the least effective means of doing things and as criminal organizations evolve they are find more and more of these people dead. This is where it is likely not advertised as much but this is what is happening. The reality is that they have what looks like 80% of people that are like this and they are not serving any real purpose. They are largely finding to much useless data and want to think it is the key to something. They find things that maybe be old things or so on like cold cases and want to solve these but most of them do not seem to be solvable and are wasting money. This is how they are trying to justify their existence still. All of this is now being put behind Tech as it was seen that more and more technology is being used in mob gangs and so on. This is more and more dangerous as it looks like this tech came from these agents that have allowed it to fall into the wrong hands.

This where now these mobs are using this kinda of stuff and they are some how able to keep copies now and it is not being possible to find. To me this is pretty crazy as they refuse to believe that they where the source is the issues. Instead they demand large and large budge and resources. They now are constantly trying ri use woman and children as justification for funding and budge or excuses to do things they do not have warrants for.

This has become so common of a method that people are doing it constantly and it is like a script that everyone does the same. They all communicate on the internet in groups as human trafficking networks. They believe they are the adults in situation.

The issue with this is we have an older population of baby boomers that is not wanting to retire. Some of them are still good and maybe should not but we now have the largest population of 50 and 60 year olds that want to work in these field when they are no longer able. We also have a large population of younger people that say they are "hungry" and want to take the jobs is these people in this way. Their idea seems to be that they want to force this so on with some type of exploitation or setting up the older population as racist or not tech savvy.

Why is becoming more and more obvious is that most of these people are not actually tech savvy but just play video games a lot. Most of them do not know how to code or read so on in this way and lack basic networking and info structure know how. They also seem to expect that all the people in other countries are cutting edge and do not know the limitation of some types of technology.

As a country we are going ahead and exposing our people in general in tech to a higher level of manipulation and maybe scams. Other countries that have lower tech are actually safer then the US due to this limiting factors that are build in to this older tech. This is one of the largest mistakes that was ever done in the world by a developed nation. It has allowed intellectual property and billions of dollars to be stolen a year.

This looks like it was organized by other tech manufacturers countries that obviously are profiting and gave themselves access as if they are the US government.

Most of all they are trying to figure out where EDU will fit into all of this... this where EDU made up always a small area of the intel network that was mostly on request the best of the best in fields. This now seems to be floated that anyone in EDU should become a cia agent.

This had already been found that a lot of corruption is coming from to low of levels of people that maybe exploited by other people gangs mob targeting these people as they know where to find them.

If you now know where your university is at then you know there is at least one or maybe as many as 10 people that have access it just becomes a question of who and to gain leverage over. This where now it is being placed on police and other people like they are being emoted to act as body guards for these people sense they can no longer work in the same area with out their cover being blown. This is the most disturbing part. They may need to relocate some prof. Just due to this and likely already have.

This now has the gangs and mobs targeting colleges as well as for not just foot solders but also for targets to exploit to gain access. They will use the worst means possible black mail say cheating on a wife or husband is likely the most common and that they will hire or get someone to do this paying them large amount of money.

I believe they have woman doing this now to me that are hired actors but really are extortionist... the system has been sold on this as if it is a useful aspect now. In reality this is the largest weak point of the system likely and the most exploited area.

I believe that majority of the intel people are behind and this where about 60 to 40 percent are likely going to be changed. This then is like 40% let go and then 20% that that maybe retooled or also like maybe replaced but not position lost.

This where a simple they are not worth it is the problem now.

This is an example of where they hide they are kids and ink... so this where it is a thing that they mark themselves with like bar codes but in tattoos now as a way for the government to track these people.

If I post this I believe they will be back lash by this group that gets paid in thing and for posting it.

Mostly they seem to want to target attractive woman to use them as exploitation. Tools they now have these woman that do things to train men they must become gay with African American gay men turning them off to any idea of relationships. That woman can't be friends period... also this is how they are not being respected in the fields of this work that they are only seen as this. They also want to use the system to save men they pick and like in order to human traffic them collective.

They are now teaching woman to exploit and extort men... this is having extremely negative effects on communities

Note they want to say they are kids the ones that are in this gang but they are adults that just look younger for the most part.

This had now become the largest security risk in the U.S. for for foreign spies...

Most of all they want to play in fear to say marry who they demand which is a woke woman that hates anyone not "less white" they are also "less white" but white woman that are apart of this and do this too.

So this where they taken the best and brightest that are not in relationship and made them the number one target for exploitation advertising this to the entire world.

Vance warns EU of 'civilizational suicide'

The US vice president has said he wants the "cradle of Christian civilization" to thrive

Many European countries could be on the brink of "civilizational suicide" due to their lax border control policies and restrictions on free speech, US Vice President J.D. Vance has warned, echoing remarks he made at the Munich Security Conference last month.

In an interview with Fox News published on Friday, Vance highlighted the deep cultural and religious ties between the US and Europe, referring to the continent as "the cradle of Western civilization," which he argued is now at great risk.

"The entire idea of Christian civilization that led to the founding of the United States of America was formed in Europe. The cultural bonds, the religious bonds -- these things are going to last beyond political disagreements," Vance said.

But I think that Europe -- and frankly, I would have said this about America a year ago -- is at risk, I think, of engaging in civilizational suicide.

Vance warned that a reluctance or inability to control borders, combined with efforts to restrict free speech when citizens protest issues like illegal immigration, could have serious consequences.

"They are unable or unwilling -- too many countries -- to control their borders... You see them starting to limit the free speech of their own citizens even as those citizens are protesting against things like the border invasion that got [US President] Donald Trump and a number of European leaders elected," the vice president explained, expressing hope that European countries will begin to address these issues.

Responding to criticism that his stance could strain relations between the US and its European partners, Vance argued that honest discussions between allies are essential.

"If you have a country like Germany, where you have another few million immigrants come in from countries that are totally culturally incompatible with Germany, then it doesn't matter what I think about Europe," he stated.

Vance added that unchecked immigration in the EU could have repercussions for the US, as some individuals might eventually seek entry into America.

"I want Europe to thrive. I want them to be an important ally. Part of that is going to be Europe respecting its own people, respecting its own sovereignty, and America can't do that job for them," he said.

In February, Vance delivered a fiery speech at the Munich Security Conference, criticizing European leaders for fearing their own voters and failing to uphold democratic values while censoring opposing voices under the pretext of combating "disinformation."

"The threat that I worry the most about vis-à-vis Europe is not Russia, it's not China, it's not any other external actor... what I worry about is the threat from within," Vance said in a speech that Trump later described as "very brilliant."

He's right the EU and Europe have taken Joe's plan to alienate and persecute the country born citizen, and welcome invasion! That's why they hate Russia.

The Democrats are doubling down on stupid

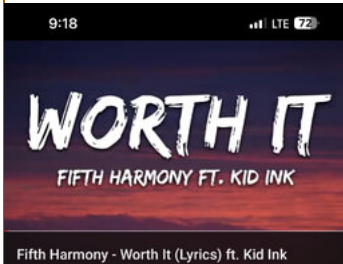

Washington Examiner, by Joe Concha

The first seven weeks of President Donald Trump's second presidency have been as frantic and unpredictable as any term we've seen. The perpetual pace, driven by Trump taking questions from reporters on an almost daily basis, has kept Democrats scrambling to coalesce around messages attacking the president's agenda. Frustrated and helpless, Democrats are being led by raw emotion to oppose Trump reflexively at every turn, including when the party is on the wrong side of every 80/20 matter.

I believe they want to create zipper lane skit stop teach men to do as they say...

So they find men that are in these fields and do what the mob or gangs would do to try to gain some type of information. Then they are like we can do this at any time because we know who you are... so you better do as we say... this where do not date the wrong person if they are vindictive the whole area can go bad so on...

This where this vetting was not put in place to human traffic the person but to protect them from exploitation. Also exposer of their cover or identity this is a joke at this point as I believe they do not think I am worth much and have wasted years of my life so on career now having woman run around trying to extort me constantly.

The largest danger in America is likely this going on now so on and the woman that are involved saying they are training men is the problem and need to be arrested or men...

This is a must or I will never work for the government and I believe they are trying to break me and exploit me to this area right now constantly...

They want ti be like this woman's moment...

I am a victim or human trafficking woman and extortion that keep telling me they are law enforcement and intel agency and can do this... this for their funding is the reality and their motivation is money.

The left is desperate to convince America that President Trump has no mandate, that he's dividing the country, and that voters don't support his efforts. They repeat these claims repeatedly, hoping that if they say it enough, people will believe it. But there's just one problem. They're wrong on every single count. A political mandate comes from the people, not the media, not the establishment, and certainly not the loudest voices on Twitter. The 2024 election results made one thing abundantly clear: the American people chose strength, leadership, and results over the chaos and incompetence of the left.

Was it the wisdom (knowledge of good and evil) in exchange for the eternal life she had in God's spirit tricked into accepting the substitute spirit possessed in the serpent for that knowledge of the life she lost with her innocence for eating of "fruit" of that tree satan to know?. I represent that it was and further that you might know all things in Jesus Christ's Spirit and still live forever. to be wise as serpents in Him, even in your life.

Something very evil has gotten ahold of the Minnesota DFL.

House Democrats vote against bill to restore protections for infants who survive botched abortions.

On Thursday, HF24, the bill attempting to restore the "Born Alive Act" language to state statute, failed to pass by one vote, as 67 Republicans voted for the proposal and 66 Democrats voted against it. Bills need 68 votes to pass.

Republicans on the floor said, "this bill is specifically addressing cases where the infant is born alive as the result of an abortion, and we fully recognize this child as a human person and provide care to preserve the life," said Rep. Kristin Robbins, R-Maple Grove. "Comfort care' is not preserving the life. And it's incumbent on us that if a baby is born alive, to try to save their life."

Sarah Zagorski is a survivor of an attempted abortion. She said during a Feb. 12 committee hearing that her mother, after seeking an abortion, threatened to sue a doctor who was not intending to offer care to Zagorski after she survived an abortion procedure, and her mother changed her mind. Zagorski urged legislators to pass the bill to protect people like her.

Picrel: Rep. Krista Knudsen carried the bill to restore language protecting infants who survive attempted abortions. (Minnesota House/Alpha News).

The Absolute Evil Hypocrisy of the Democrats

Townhall, by Derek Hunter

Posted By: ladydawgfan, 3/16/2025 3:00:05 PM

There's a reason Democrats hate the free flow of information on X, Facebook, and other social media, and it's not just that they simply hate hearing differing opinions, though that's the result. If people think for themselves -- and the more effective way to empower people to do that is to give them as much information as possible and allow them to draw their own conclusions -- what they advocate for would be laughed off the stage. They'd never win another election, except in places where they fully control the education system and have created a welfare-dependent economy.

Trump Provides Update on Epstein and Other Classified Files: 'It's Moving Along Rapidly'

Sharyl Attkisson:

"A lot of intrigue surrounding the release of the Epstein files, Martin Luther King files, John F. Kennedy files. Some current and former FBI agents are saying, some of them telling me, that they feel the FBI establishment came out ahead in the standoff with the New York FBI Field Office over releasing the records, and your Attorney General Pam Bondi demanding them but not getting all that she wanted.

Is that process still on track?

I think that's one of the most often questions I've been asked in the last couple of days---to release these records on Epstein, MLK, and JFK."

Trump:

"Well, Pam Bondi has done a phenomenal job in every respect. There could have been some holdback. I haven't heard too much about it, but they could. But the bottom line is the records are getting out.

The Kennedy records are getting out. Those are the ones they really wanted to see the most with the Kennedys. During my administration, as you know, I released a lot of them, but then a lot of people started coming in, people that I respected, people that worked for the administration asked me not to release the rest. I respected that.

They gave me certain reasons, but I respected that. I did say, I must tell you, I said that I probably wish I did release the whole thing because I have no idea what's in there.

But since then, they found, and we found, 2,000 more documents on Kennedy. The one they want most is Kennedy, and it's going to be released. It's moving along, and it's moving along pretty rapidly."

Sharyl Attkisson:

"Weeks, maybe, or longer?"

Trump:

"I would say weeks. Yeah, I say weeks."

I believe this is code for find him a woman that he finds attractive to have him exploited... by

I do not date and do not even look at woman anymore these days. As well as the woman they pick all have attitudes and want to train them to be woke and in charge of men. There is no woman that they have around that this is not their goal to exploit men...

They keep trying to sell this as they protect the men this is a miss conception in this way as they are putting up smoke signals as to your someone of interest is the reality.

They need to eliminate this mentality so to speak they need to have anyone that is involved understand that this is not acceptable and I would drop anyone nor date anyone that is apart of these extortion networks. What is worse is they seem to be bringing these people around and in areas so their is no other choices or anything

So this how woman plan to take over the world is by this woke and the men that work with them.

I am a victim of human trafficking and exploitation by these people is the reality that seek to use religion or anything else as a grooming tool

I believe a group harmed my back to try to make me less attractive so I would be with who they wanted and put in front of them. This is in their notes and things that this was a secondary goal that they are willing to harm people in order to force them to get with people they do not want to be with and never consider. They also like the idea they are less active and will be in front of a computer more this why they like video games so on

So it is grooming tools and other things that are going on they want to make america out of shape and hate anything that is seen as healthy it makes you also easy slower target.

This is them saying it is a communist demand to do as they say or they will have you killed so on.

I know understand this is what maybe people where saying that it is these people trying to force you to be a tool of there military maybe or what ever.

They seem to have mult meanings religion, mil, communist, or other that are red.

Woman I believe that do not believe are being sold on religion as a method to keep men and not allow them to get a divorce as part of a human trafficking tool and to create a network of extortion around them.

This where they want funding for this for them in this way and they are creating armies of extortion woman is the thing about all of this now.

This is what other countries want and they want to keep borders open in order to have people come in so now they are using woman in this way.

What is worse is I believe they are hearing all this from the military police and others in positions with access.

Especially the military is being gone after now in these ways.

Holy underwear Batman! A CNN poll? That means the Democrats' approval rating is actually even lower than 29%.

The Democratic Party has dropped to a new record low among Americans, reaching only a 29% favorability rating, according to a CNN poll conducted by SSRS.

In the CNN/SSRS poll conducted from March 6–9, respondents were asked about their views on both the Republican and Democratic parties, with a margin of sampling error of +/- 3.3 for total respondents. The data show that Democratic favorability has been on a sharp decline since January 2021, and an 18–point drop since the beginning of the Biden–Harris administration.

According to the data, Democratic–aligned adults state that the party's leadership is currently taking Democrats in the wrong direction. "Look at the numbers here for Democrats: 27% positive, more than double, 55% negative," Kornacki said. "This is what's happened to the Democrats since the election."

Houthis ready to negotiate peace with US --- media

Movement spokesman emphasized that the movement is ready for peace if there is a "serious attempt" at a settlement

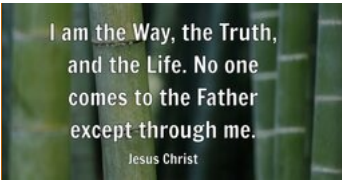

DOHA, March 16. /TASS/. The Houthis from Yemen's Ansar Allah movement are prepared to engage in talks with the US administration to achieve peace, provided Washington demonstrates a genuine willingness to do so, an unnamed movement spokesman told Qatar's Al Araby TV channel.

"American aggression is an unjustified attack and a violation of our sovereignty," the senior movement official told the channel. "Talks can take place - we have always supported dialogue," he added, emphasizing that the movement is ready for peace if there is a "serious attempt" at a settlement.

Examples (4/5)

There is no single authoritative standard for the code, but there is broad agreement on the addition of color codes. The table is drawn from color terminology. The patchwork of standards in the 1952 second edition, the 1972 first edition did not include this list and is generally considered authoritative. Input in the list is the source of all right events, all as color including the list, document, or other patch, left the bottom, substance, or person patch. The word "color" is used with a prospective patcher is still important for those people that use a given color "code" because the color of the patcher turns out to be "they will even know what it means?"

Color	Meaning
Black	ADD
Blue	And see
Light Blue	On see
Green	See
Dark Green	Handwritten
Grey	Something
Orange	Anything goes
Red	Warning
Yellow	Warning

Larger more elaborate lists may be found online, but many of the color variations in them are less often used in practice.

Donald J. Trump

@realDonaldTrump

These are the monsters sent into our Country by Crooked Joe Biden and the Radical Left Democrats. How dare they! Thank you to El Salvador and, in particular, President Bukele, for your understanding of this horrible situation, which was allowed to happen to the United States because of incompetent Democrat leadership. We will not forget!

Not sure people get this but this makes it a reason that people will not want to work in these field and it seems as if they want to press people to not want to trust the government and maybe work for other people in other countries...

Is this how they try to push people to go to other countries as recruiting... must be a foreign spy

Trump's DOJ Speech: A Reckoning for the Deep State and a Media Meltdown

Trump's DOJ speech called out corruption, promised justice reform, and sent the media into a frenzy over his bold rebuke of the establishment.

By Roger Kimball

"What did you think of Donald Trump's speech at the Department of Justice on Friday? It was one of those speeches that divides the world. I liked it. But even while watching it, I asked myself, "Gosh. What is The New York Times, The Washington Post, CNN, the Associated Press, etc., going to make of this?"

Actually, I did not ask myself that because I knew they would explode in horrified rage. The Times, for example, carried a trembling story under the headline "Trump's Grievance-Filled Speech Makes Clear His Quest for Vengeance Is Personal." In case that wasn't clear enough, a subhead explained that "The sole offense of those President Trump singled out in remarks at the Justice Department appeared to have been trying to hold him accountable for his actions." Oh really?

Sooo, let me get this straight

Bud light went woke and people took their bud light paraphernalia out to the yard and lit it on fire in protest.

The woke called those people names and doubled down in favor of bud light

Those same people are now expecting that because Elon went anti-woke that everyone that bought a \$100,000 Electric car to save the planet, to take that car... out back... and light it on Fire???

Yeah.. I dunno Woke people,

I think people might be a little hesitant to burn a \$100k investment to virtue signal someone else's disapproval of Musk

& you guys going around destroying Electric Vehicles of woke left people is only going to drive those woke left people closer to the right

This will help us finalize intelligence gathering and go after the last remnants of MS-13, including its former and new members, money, weapons, drugs, hideouts, collaborators, and sponsors.

As always, we continue advancing in the fight against organized crime. But this time, we are also helping our allies, making our prison system self-sustainable, and obtaining vital intelligence to make our country an even safer place. All in a single action.

May God bless El Salvador, and may God bless the United States!

why did Trump deport the Venezuelan illegals to El Salvador & not Venezuela

Answer
Trump's decision to deport Venezuelan migrants, including alleged gang members, to El Salvador instead of Venezuela stems from a combination of diplomatic, logistical, and strategic factors. Venezuela, under Nicolás Maduro's regime, has historically resisted accepting large numbers of deportees from the U.S., complicating direct repatriation efforts. Despite an agreement announced by Trump in February 2025, where Venezuela reportedly agreed to take back its nationals—including members of the Tren de Aragua gang—practical challenges persisted. Maduro's government has been uncooperative in the past, and even with this deal, the logistics of transportation and Venezuela's willingness to fully comply remained uncertain.

File (hide): d3298edd19986bf....png (727.43 KB,1280x1116,320:279,ClipboardImage.png) (h) (u)

El Salvador, on the other hand, emerged as a willing partner. President Nayib Bukele, known for his aggressive anti-gang policies and close alignment with Trump's administration, agreed to accept deportees, including non-Salvadorans, as part of a broader arrangement. This was solidified during discussions with U.S. Secretary of State Marco Rubio in early 2025, where El Salvador positioned itself as a "safe third country" to receive migrants. Bukele's government has built a reputation for cracking down on transnational gangs like MS-13, and taking in alleged Tren de Aragua members aligned with his strategy of mass incarceration in facilities like the Terrorism Confinement Center in Tecoluca. The U.S. reportedly paid El Salvador a fee—described as "very low" by Bukele—to facilitate this, making it a cost-effective and politically expedient option.

File (hide): 29b471e6d56de3b....png (766.89 KB,1246x1280,623:640,ClipboardImage.png) (h) (u)

Additionally, Trump's administration prioritized targeting Venezuelan gang members, particularly Tren de Aragua, as part of his immigration crackdown. Sending them to El Salvador, where they could be immediately imprisoned, served as a deterrent and a signal of toughness, bypassing the uncertainties of dealing with Venezuela directly. This move also reflected a shift from Trump's earlier stance, when he had offered Venezuelans temporary protections in 2021, to a harder line after public sentiment shifted and his administration revoked Temporary Protected Status (TPS) for hundreds of thousands of Venezuelans in 2025.

In short, deporting Venezuelan migrants to El Salvador rather than Venezuela was a pragmatic choice: Venezuela's resistance made direct deportations difficult, while El Salvador's cooperation, anti-gang infrastructure, and willingness to accept deportees provided a swift and controllable alternative.

Karma Patriot-

\$1.1 TRILLION of improper Medicaid payments!

Simply following the law and paying only for what Medicaid allows would save hundreds of billions of dollars without ending coverage for any of Medicaid's intended recipients.

The federal government issued roughly \$1.1 trillion of improper Medicaid payments over the last decade. That's a whopping \$8,200 per U.S. household.

The primary reason for the discrepancy is that the Obama and Biden administrations excluded eligibility checks in their audits of improper payments in Medicaid. But eligibility errors and failures to properly assess eligibility prior to enrollment are the biggest sources of improper payments.

Since Medicaid is a means-tested welfare program and includes different federal reimbursement rates based on enrollees' eligibility status, checking eligibility is crucial. In many cases, individuals who are not eligible for the program are enrolled in it, and in other instances, those enrolled are wrongly classified.

You might be able to call it ethnic cleansing (but not really b/c you have 1M+ arabs that live inside "Israel proper"

But "genocide" is a leap too far. Ethnically speaking, the people in Gaza are no different than those in N. Egypt or W. Jordan

My assessment is that the CIA had taken in to many assets over the years and now they are older CIA maybe need money. This where they are most often the ones that are being exploited for information and intelligence to the cartels or people that came from the area.

This is a fact so on this is now one of the largest issues that was seen to be going on now. That as communist policies and immigration was allowed and used as cover to bring assets in that lead to some things but nothing large enough to bring down the organization they ended up give info back...

Perhaps people underestimate the cartel ability to plant someone in this way... money that large so on can say well we know that someone got this amount of time so on and we know a traitor got this amount of time but was released as an asset... so then if they can recreate this with a small investment so on and limit damages of things it maybe worth it to set up a disloyal line working with a competitor expect the one person they say will become the asset and are told to sell out to the government...

This I believe is being found out and used to plant people more and more in the areas they want them.

@RealGeorgeWebb1

For those wanting me to cover vaccine injury, I truly think I found the best resource through Bobby Kennedy Jr's group in Santa Monica at the lighthouse Church. They have two lawyers there that specialize in VAX in injury and they've been doing this for 20 years, especially in the state of California. I have a pretty full plate right now so I'm sorry I can't get to this immediately. We had talked about a VAX injury Charette in Michigan in the fall of this year, but we will have to play that by ear due to the health situation.

Nothing changed I am a victim of human trafficking by these people that insist that I must give them money. To me I believe that some older CIA assets of others that worked it's way in and are loyal to cartel and mob are doing this so on as they no longer can make money so on doing things as much anymore. They are finding out who they are is the thing and it is not going so well as a lot of them seem to have tied to governments that want to do things to try to silence anything that is in their way of planting people with in the government to exploit for scams...

This is a push to try to make people say they want to be communist because China is promising them independence so on...

They do not understand they will be arrested for treason so on only a small amount of this is allowed so on which is non violate.

The communist and cia agents posing as communist so they can say you are not going to hate America is trying to sell this so hard is the reality. Pay them more money they need a raise they say...
