Kate brown you don't give two shits and it's obvious by your facial expressions. Yes I live here and many many people I know have lost everything. I'm only 30 miles from mill city one of the hardes hit towns. Haven't seen ONE tanker plane dropping water or even heard of one! Yes we've had a few dumb shits start fires in lower areas but we all ready had fires then on Sunday night a storm with 70+ mph winds rocked the whole west side of the mountains and the fires raged outa control. If you don't live here and haven't been through fire season here you don't know because you most likely don't ever hear about it til something like this. If you live in a mountain state then you get it.

Fire comes to eagle creek

People asleep people in aware think ing it s just the power they have lost . It's not normal to see this light in the woods it's not so easy to see your life burn to nothing.

Evacuate . I lay on my bed thinking about all those people trying to hold the line .

The glow of red the sky dark with smoke . If theres a chance I pray the fire will stop before it comes even closer to me.

It's not far off in my mind I hear the crack the pop of Douglass fir . The wind picks up crashing trees an falling down onto a friends house .Shes all right an her family stay somewhere else . The fire breathes an will it end what can make it stop ? How hard is it we humans make fire but cant put it out . They call it human error. We the people of this planet with only one moon live through another night. People with hate cover our streets screaming an fighting over who's right . In the end we will see. Defund the police these people yell as they set fires an looters fill there arms with stolen goods . Why does this matter an gives them this right . Freedom of speach ? The cross walk bares a cross when someone was shot as rioters cheer as another building is burn to the ground .

Protester or looters an

Thiefs no wonder they want to defund the police . .

It is better to believe that He (Jesus Christ) is and find out that He is, then to believe that He is not and find out that He is. Repent and accept the Gospel of Christ and be saved (1 Corinthians 15, KJV Bible). Seek Christ for His grace instead of being a partaker of His wrath.

Very important message, please read!

(1) I appreciate this channel for providing latest global crisis updates!

(2) Every-day new and worst conditions are happening as everyone observed. Let's ask(see) why now?

(3)The world will be upside down within the next 2 to 4 years, unfortunately! Get ready for it! All world leaders, top media's, top Universities and important secret services received pages of documents (7 messages several pages) from God some years ago to their post and emails, through Monastery fathers, who prays 24 hours. I suddenly found the documents and wondered the contents, God ordered leaders to release the message to their people, so that the people can repent and be ready, because God doesn't wish to loss anyone. The message content was a warning of the coming punishments because the world sin & atrocities have reached to maximum, but none of them want to release rather they laugh and ignored.

(4) Some of the important things happening from the document are; Different natural disasters like, ground crisis, strong winds, Antarctica ice melting and sea water rising, snow up to human height, famine or hunger, huge emergencies, like transportation e.t.c., military explosions including chemical and biological.

(5) The reason is that the following bible verses time;

Rev 20:6

Blessed and holy is he that hath part in the first resurrection: on such the second death hath no power, but they shall be priests of God and of Christ, and shall reign with him a thousand years. This bible word is going to happen very soon, which is why God sent a message several times to the world, but world leads are arrogant, so they tried to hide this secret, they will definitely release when God punishment continues. Remember Egyptian pharaoh, when God sent the message by Moses, he was arrogant and said who is God? I don't know God and I don't release Israeli then when punishment started to apply he listened and beg Moses. This generation leaders are similar.

(6) Now is judgement and punishment time. I know this message is nonsense to many of u, but wether you like it or not it is God message, u will see and remember this when things get worst. Covid-19 is the start and worst punishments to the world will continue! The message is from God not human philosophy!

(7) Only few people will pass the coming punishment, those honest, kind and loving. Unfortunately, bad people won't pass, which are millions!

(8) The solution is simple and easy, just be good, stop atrocities, repent your sins to the almighty God and store Foods that can stay longer before things get complicated!

(9) English translated God messages are available to those interested. You can find on YouTube by searching Yene Tube or let me know for PDFs.

Email me for PDFs to fure2018@gmail.com

(10) Finally, Thank you for your time and Good luck! It might be disturbing message, but ask God for confirmation and to let you pass the coming hard time!

She's a big reason we are having such horrible fires, there is arson involved, and she has caused horrible issues with being able to log our forests to keep them healthy and lessen the damages caused by wildfires. Her fake morose over lives and property loss is absolutely a cringe fest, she doesn't care about Oregon and it's people, and we all know it.

I came from Ukraine 20 years ago and the BIG difference I saw that in woods and forests there are dead dry trees and bushes that no one removes, unlike in Ukraine once it's fall it has to be used for firewood or other. Everybody knows this summer was mild this is not a coincidence I'm sorry Otis Oregon is on fire you got to start asking questions. 22 brand new fires popped up last night 58 popped up in Washington most of these are being listed says county Land santiam fire PGE powerline we're not having a storm we haven't had any lightning nobody's out camping why are these fire starting brand new in a different location suddenly? It doesn't ever happen it's never happened when we know more about fire danger than any time ever. I don't need the media day or anybody else to tell me how I fire starts I know two weeks ago I was up in the santiam woods and it was no restrictions they didn't even have a fire ban till Friday it's September and there was still unrestricted burning I'm not falling for this s*** I know who owns PGE and anybody with half a brain will look up "California fire Anomolies" and they will also get actual PDF for agenda 21 and read it and not listen to what people tell them it says. I don't know how steel melts, concrete brick-and-mortar Burns and trees are untouched in areas

Let me see if I have this right. Portland is in Oregon. yup got that right. Dumbocratic liberal state? Got that right. Hmm,, California burning, liberal, dumbocrat. Did they say record breaking? Yes they did. Seems to be some kind of trend here. Hell what do I know, I don't"support the PEACFULL!!!!!! BLM or ANTIFA, so I'm just stupid, a racist, bigot pig or some kind of xenophobe. You like destruction, God lets you have all you can handle, and more. Good luck, let it burn, that's what they want to do, let them have it. Burn baby burn, burn it all down.

didn't antifa say they would burn the state down?? and didn't the mayer or governor say somewhat the same thing that blm and antifs should burn things down. seems kind of strange that this many fires would all start in the same day and the forest service is showing that all the fires in western Oregon were man made, something to think about, put the puzzle together and see what you come up with.

a mayer and mayer who don't care about the public in Portland are not going to care about people out of Portland.

This is what happens when liberal policies take over and allow no partial thinning or brush cutting in our forests. These so called "do gooders" think they know the best by letting the forest alone. Lawsuits for selective logging and thinning has caused this. They are nothing but idiots running Oregon.

<https://www.nbcnews.com/tech/security/twitter-takes-down-washington-protest-disinformation-bot-behavior-n1221456> You might be hearing claims the antifa threatened to burn down the suburbs.

They did no such thing. Identity Evropa created a fake Antifa_USA group and had IT issue the call to action to burn down the suburbs. The account was fake and it was figured out a Far right wing white nationalist group was attempting to sow disinformation to blame the Antifa

That twitter post you witnessed was false flag.
