1) Yesterday, the DeepState rolled out @AOC to pitch the Green "New" Deal to the American people

But is it new? Present at the announcement was Senator Ed Markey, who also spoke and addressed the press.

2) Thinking that this could not possibly be the Waxman-Markey Bill that was stopped in the Senate in 2010, being repackaged and renamed "the Green New Deal," I revisited the bill and noticed some stark similarities.

Waxman-Markey bill (Left) Green New Deal (Right)

(IPCC) of the UN and European Assessments

Didn't our President take us out of the Paris Accord?

The Dems don't care who the American People elect. The agenda must go on

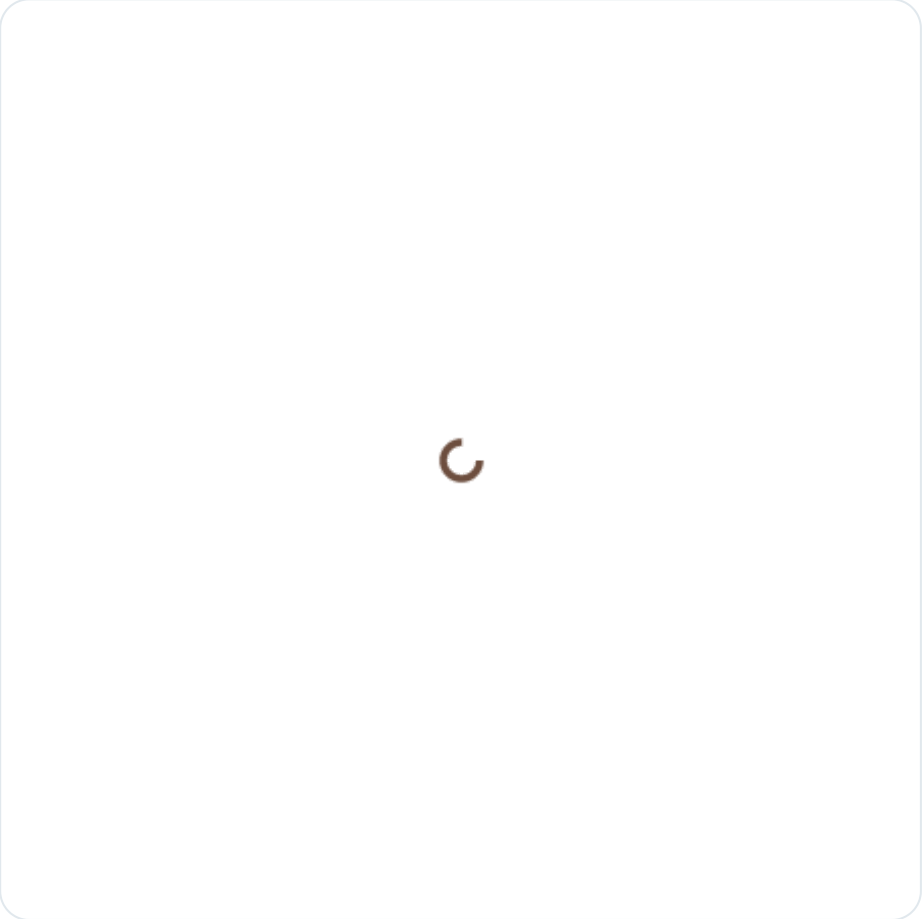

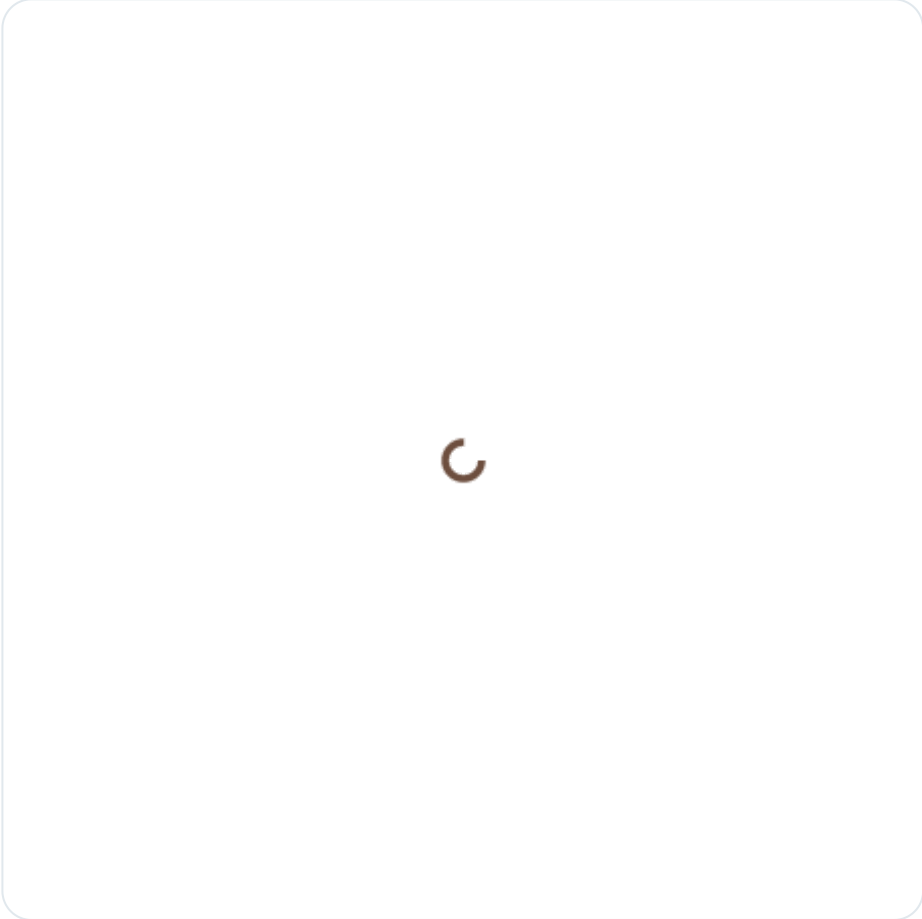

Retrofitting every building in the Country. Establishing control over the power grid. Offering tax-funded grants.

5) Why the push to get this done in 10 years?

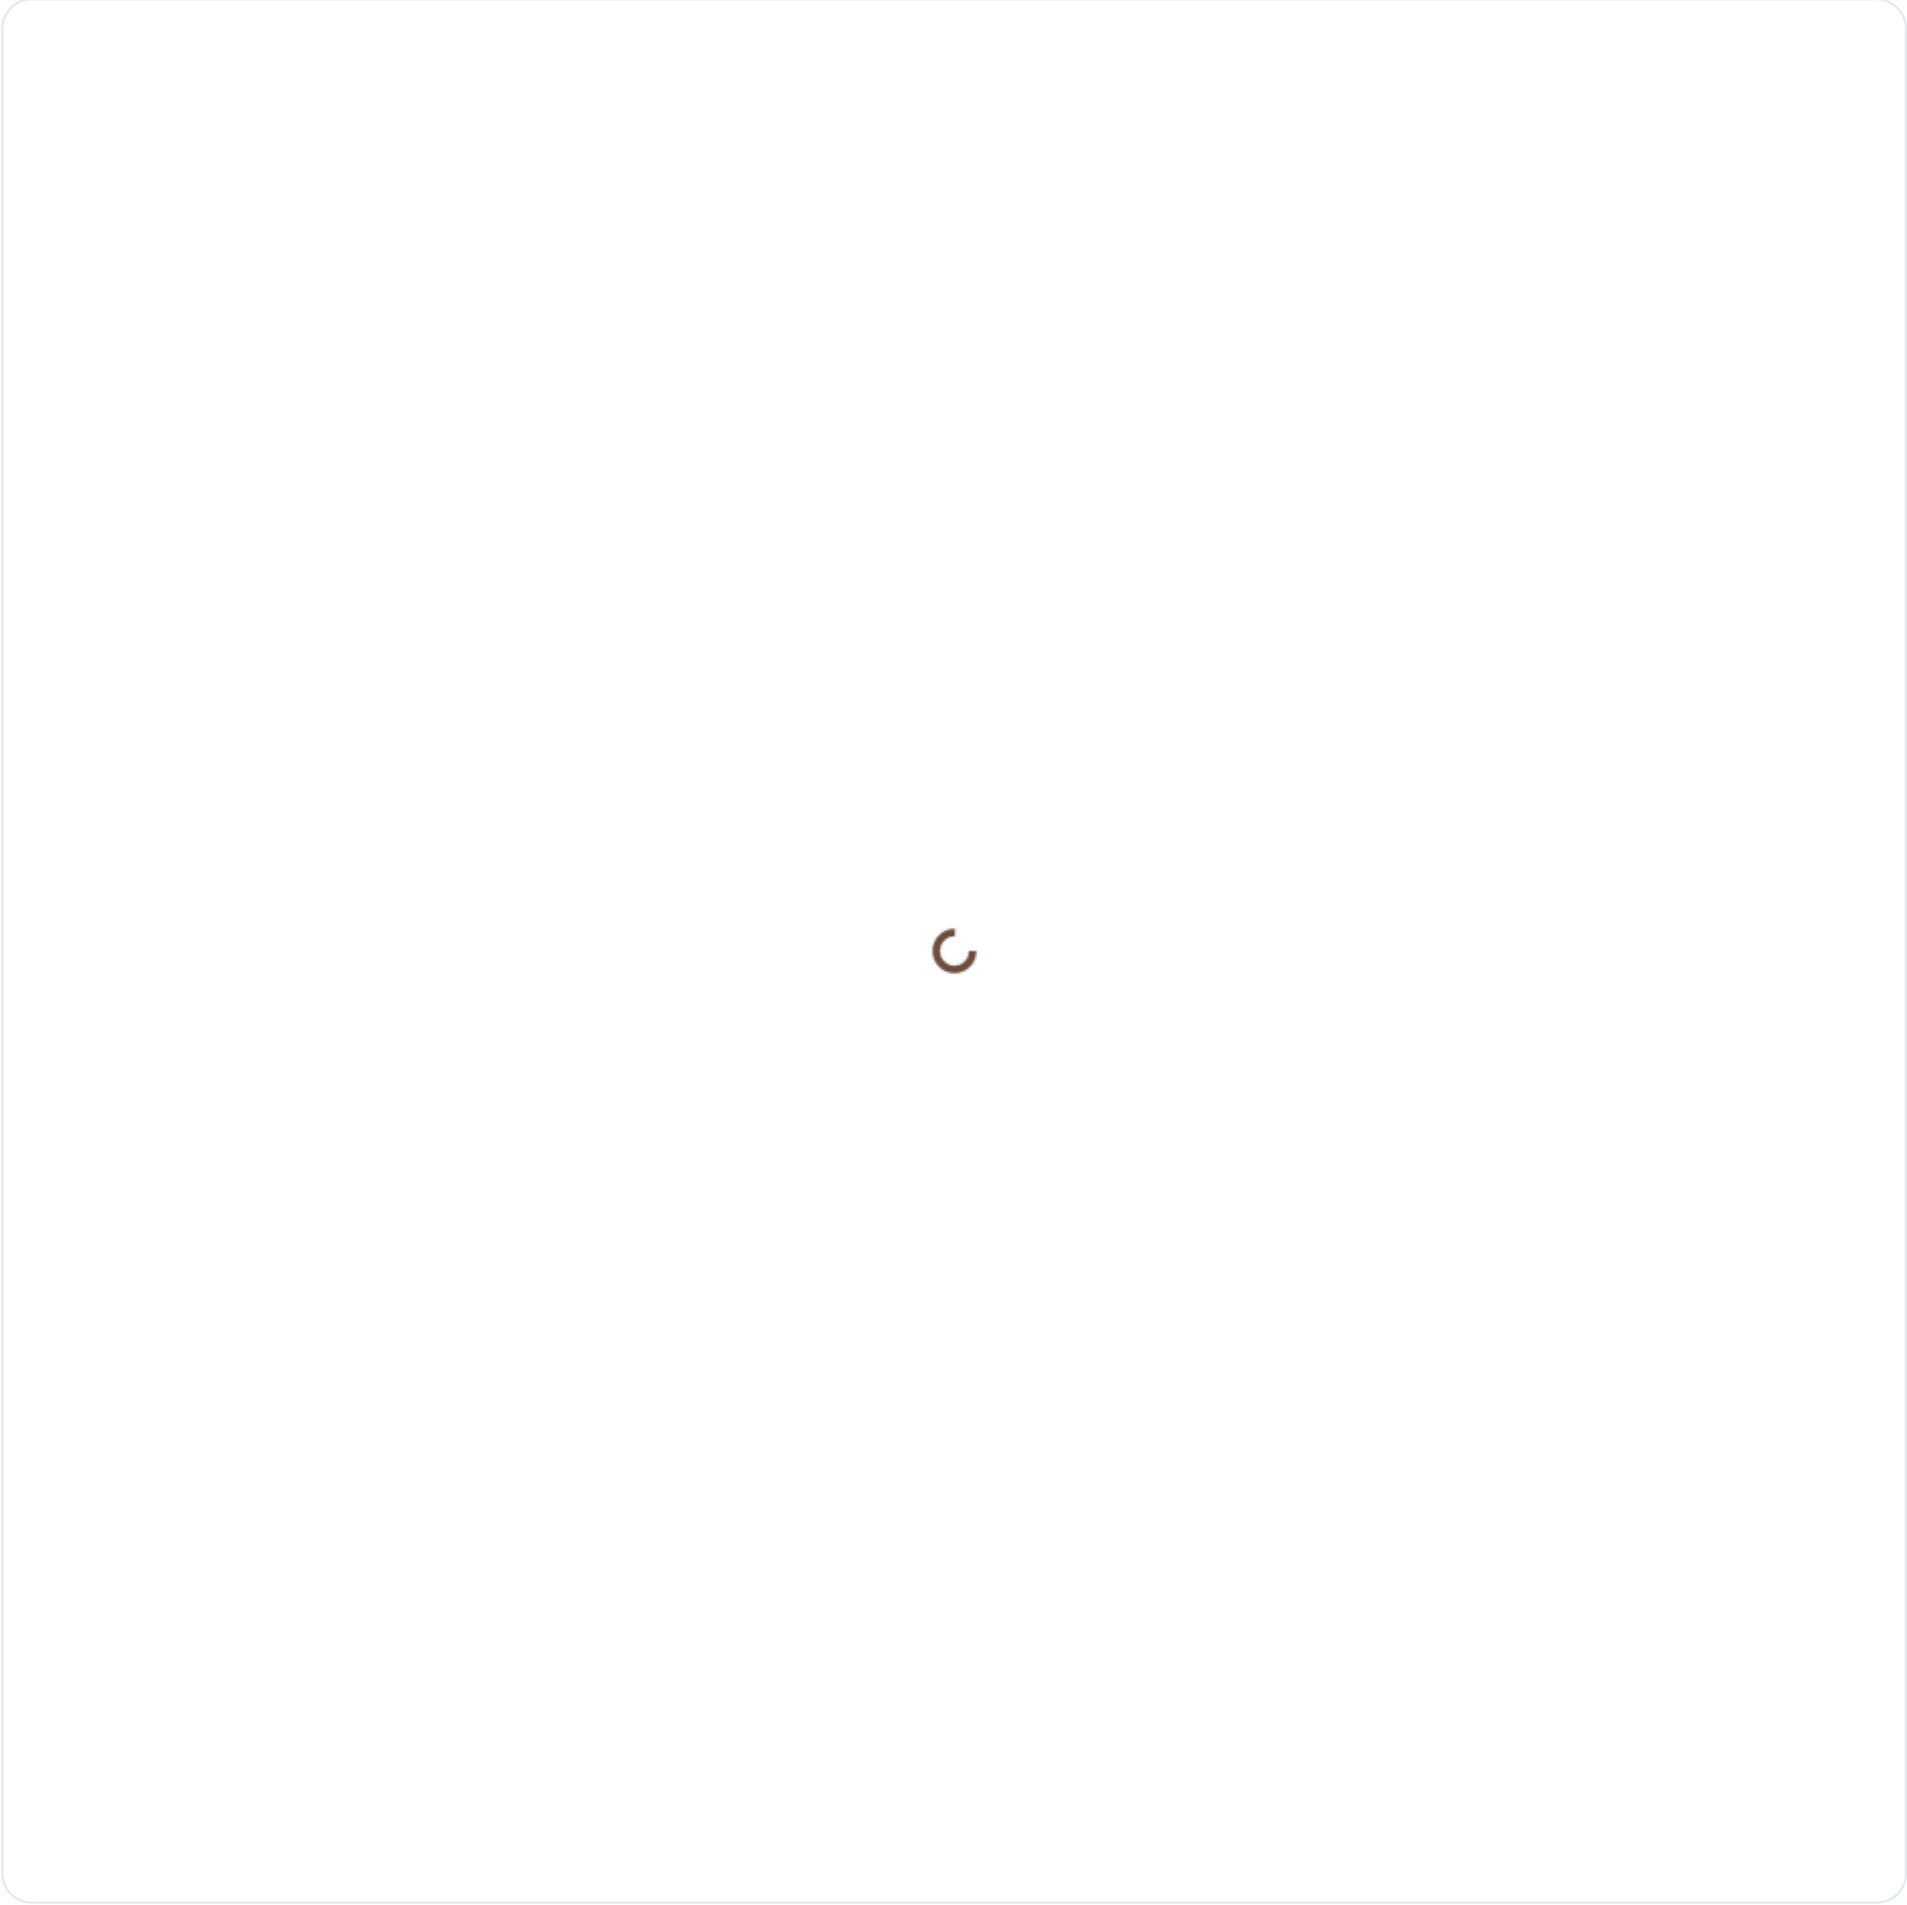

President Trump's election has stalled the DeepState's goals.
The Global pact spent years planning and have tons of money on this

Many of the traitors in Congress have vested interest in pushing socialism and Gov't control on energy

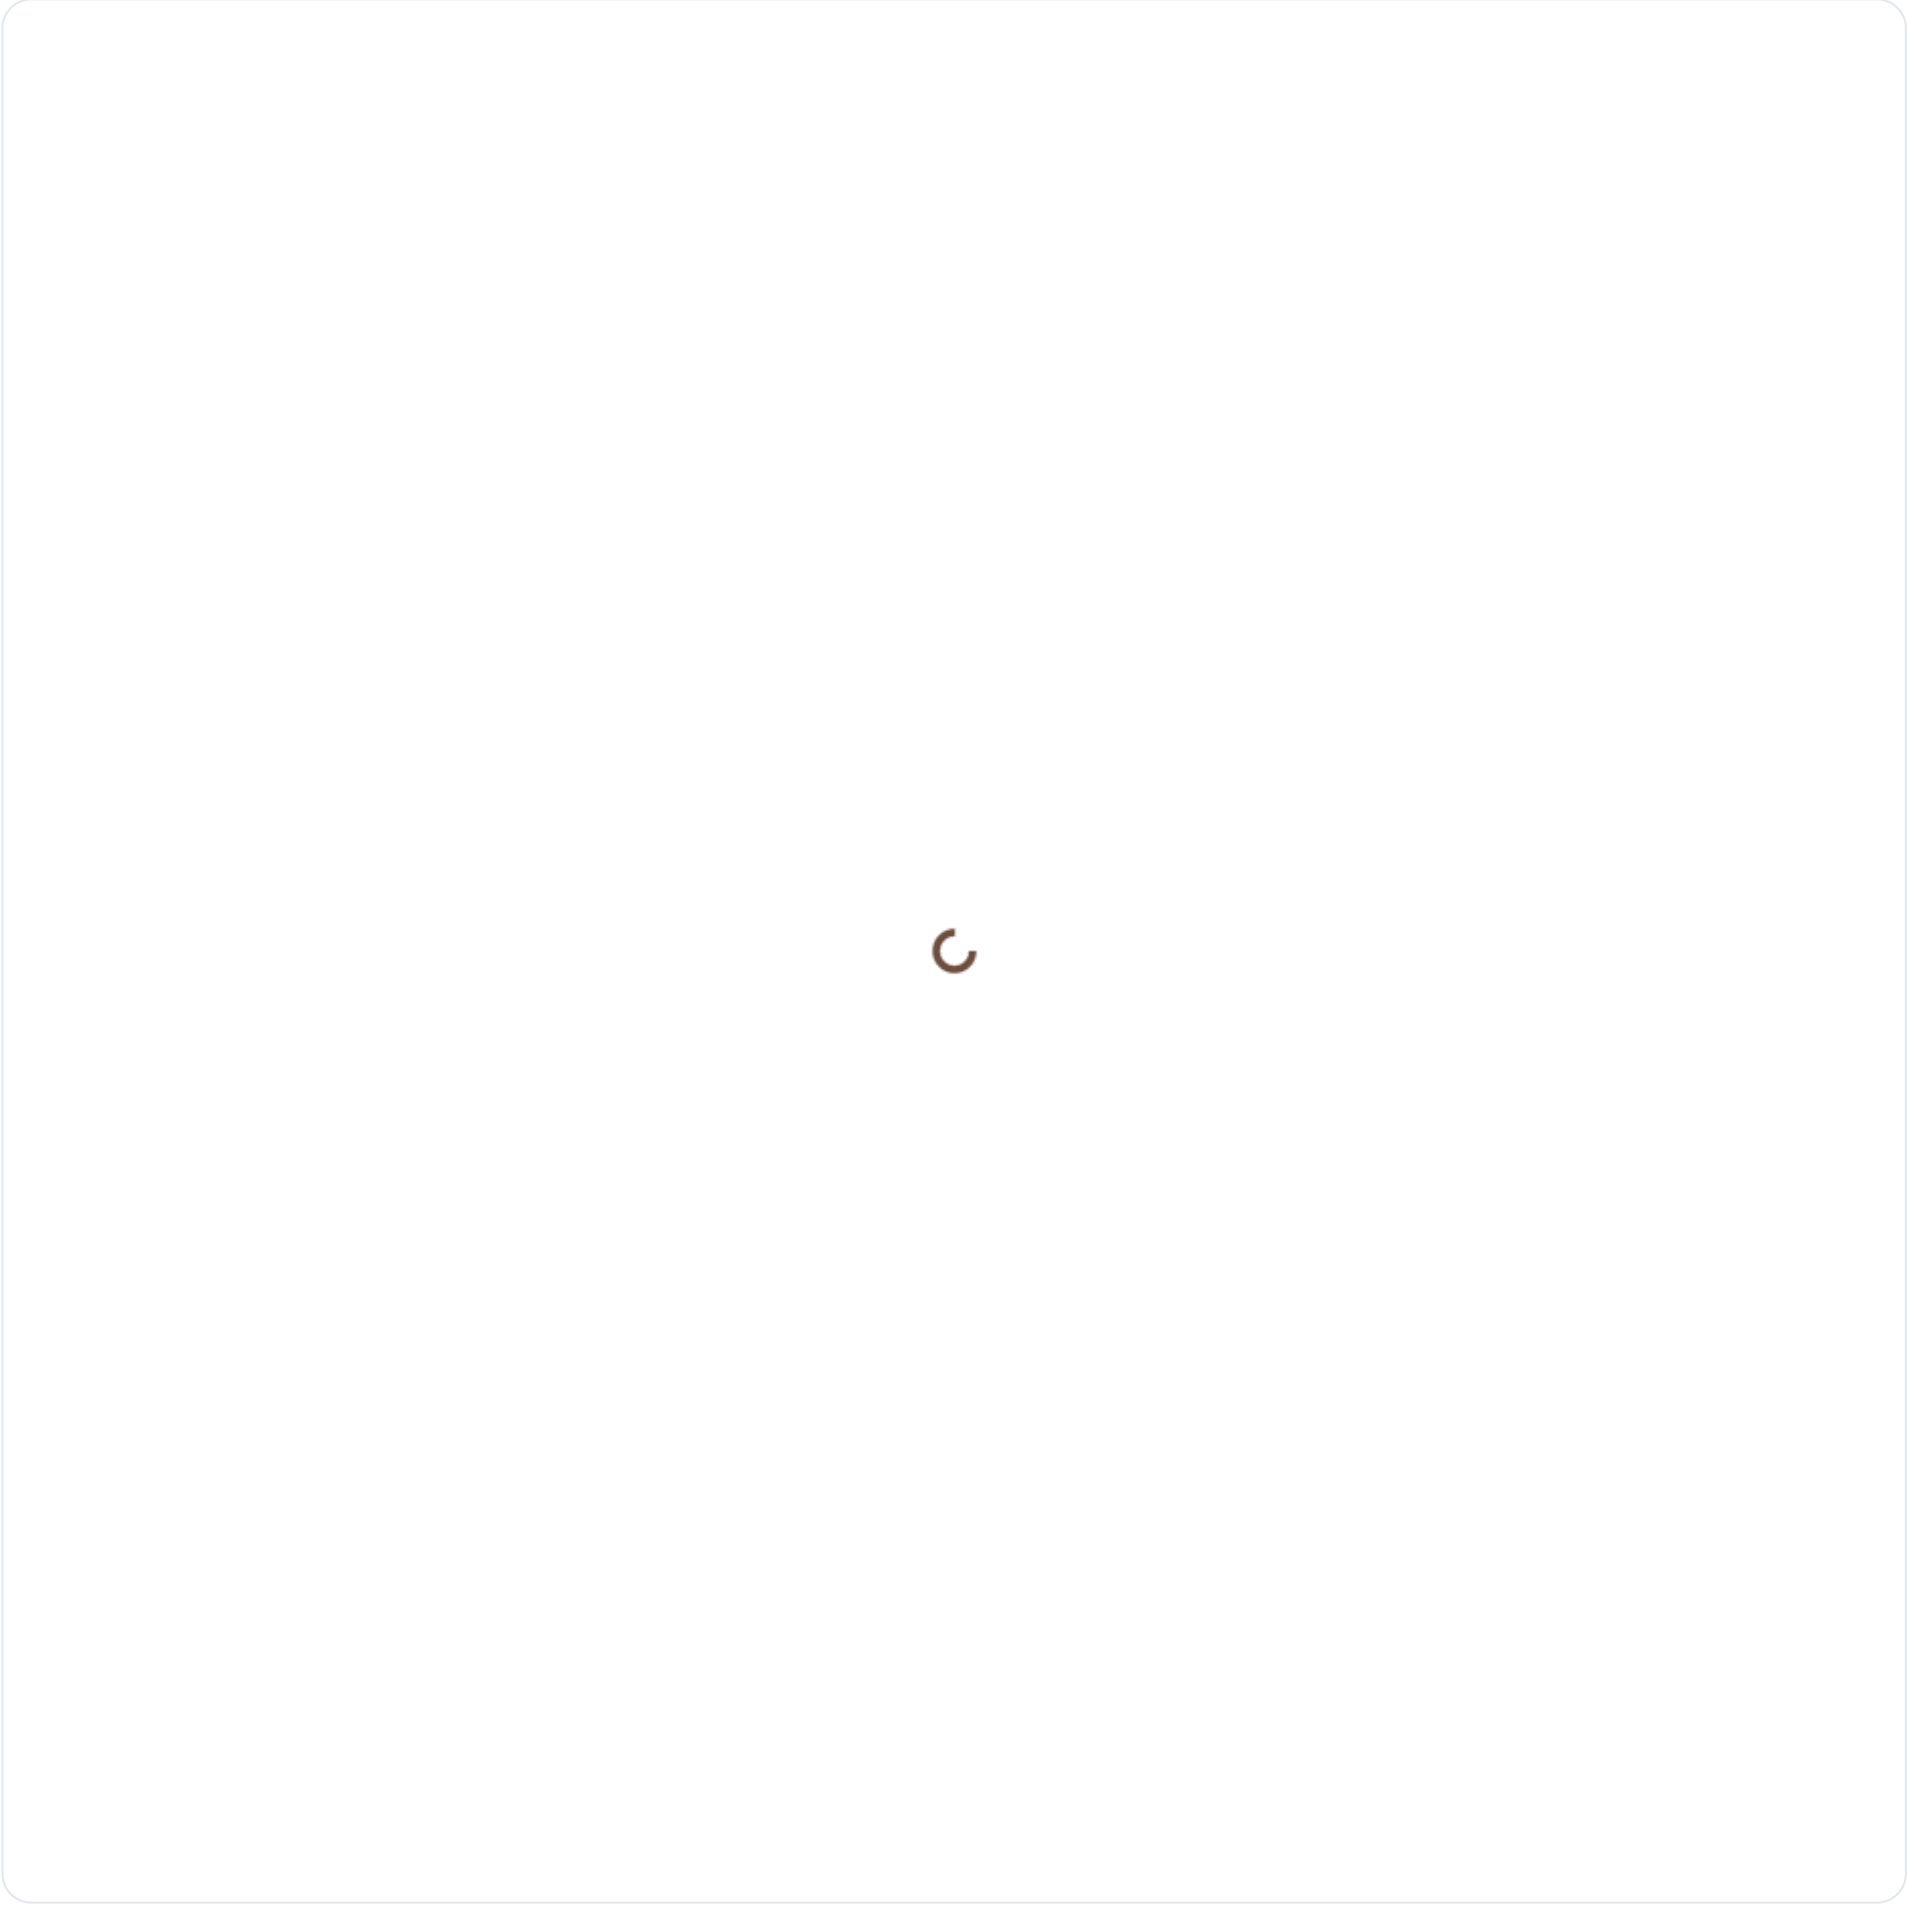

6) In classified cables leaked by Wikileaks, Nancy Pelosi planned a CODEL to Shanghai where she discussed the Waxman-Markey Climate bill with the Chinese. The bill, which was in transition in Congress at the time, was stopped in the Senate

What is Pelosi & Markey doing in China?

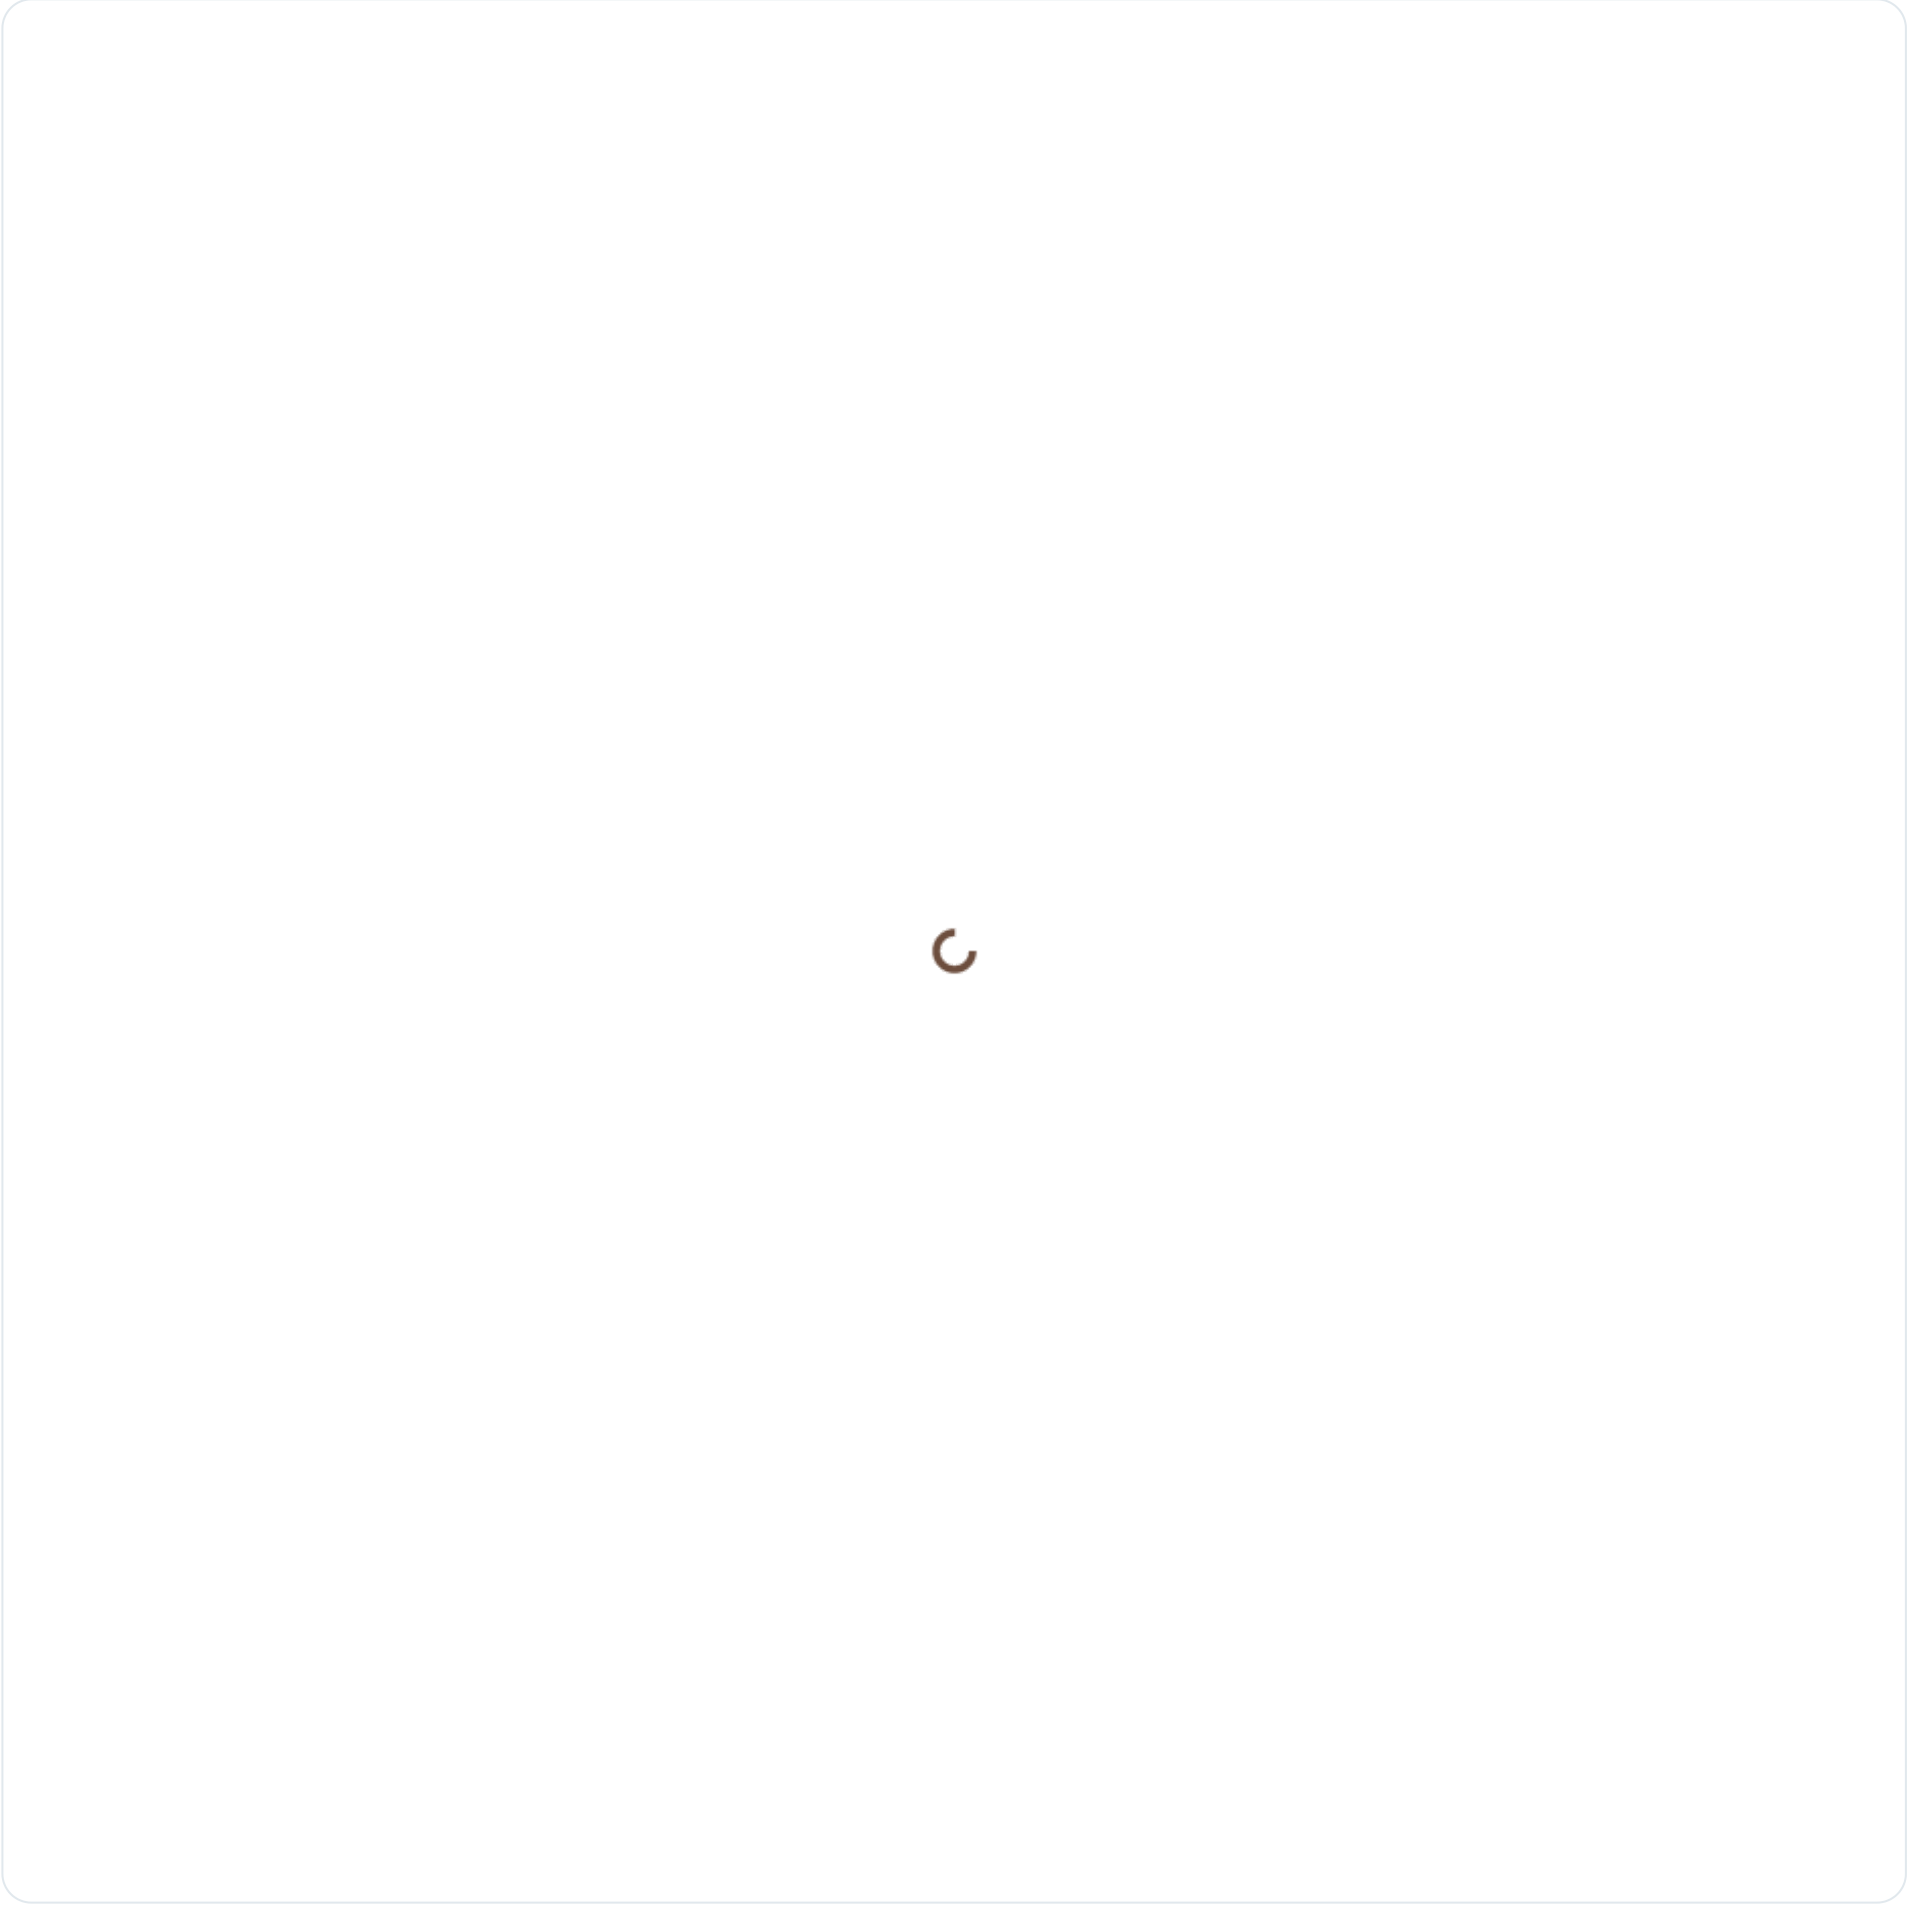

In another classified cable leaked by Wikileaks, then Congressman Ed Markey has a conference told EU Commission officials and reports that the Senate could vote on the legislation prior to Copenhagen on September 29, 2009.

7) After the SOTU, Dems initial talking points were President Trump is threatening the Party and his speech was divisive. The next day members of the party began parroting "he didn't address climate change!" It struck me odd as Stacey Abram's rebuttal didn't mention "climate"

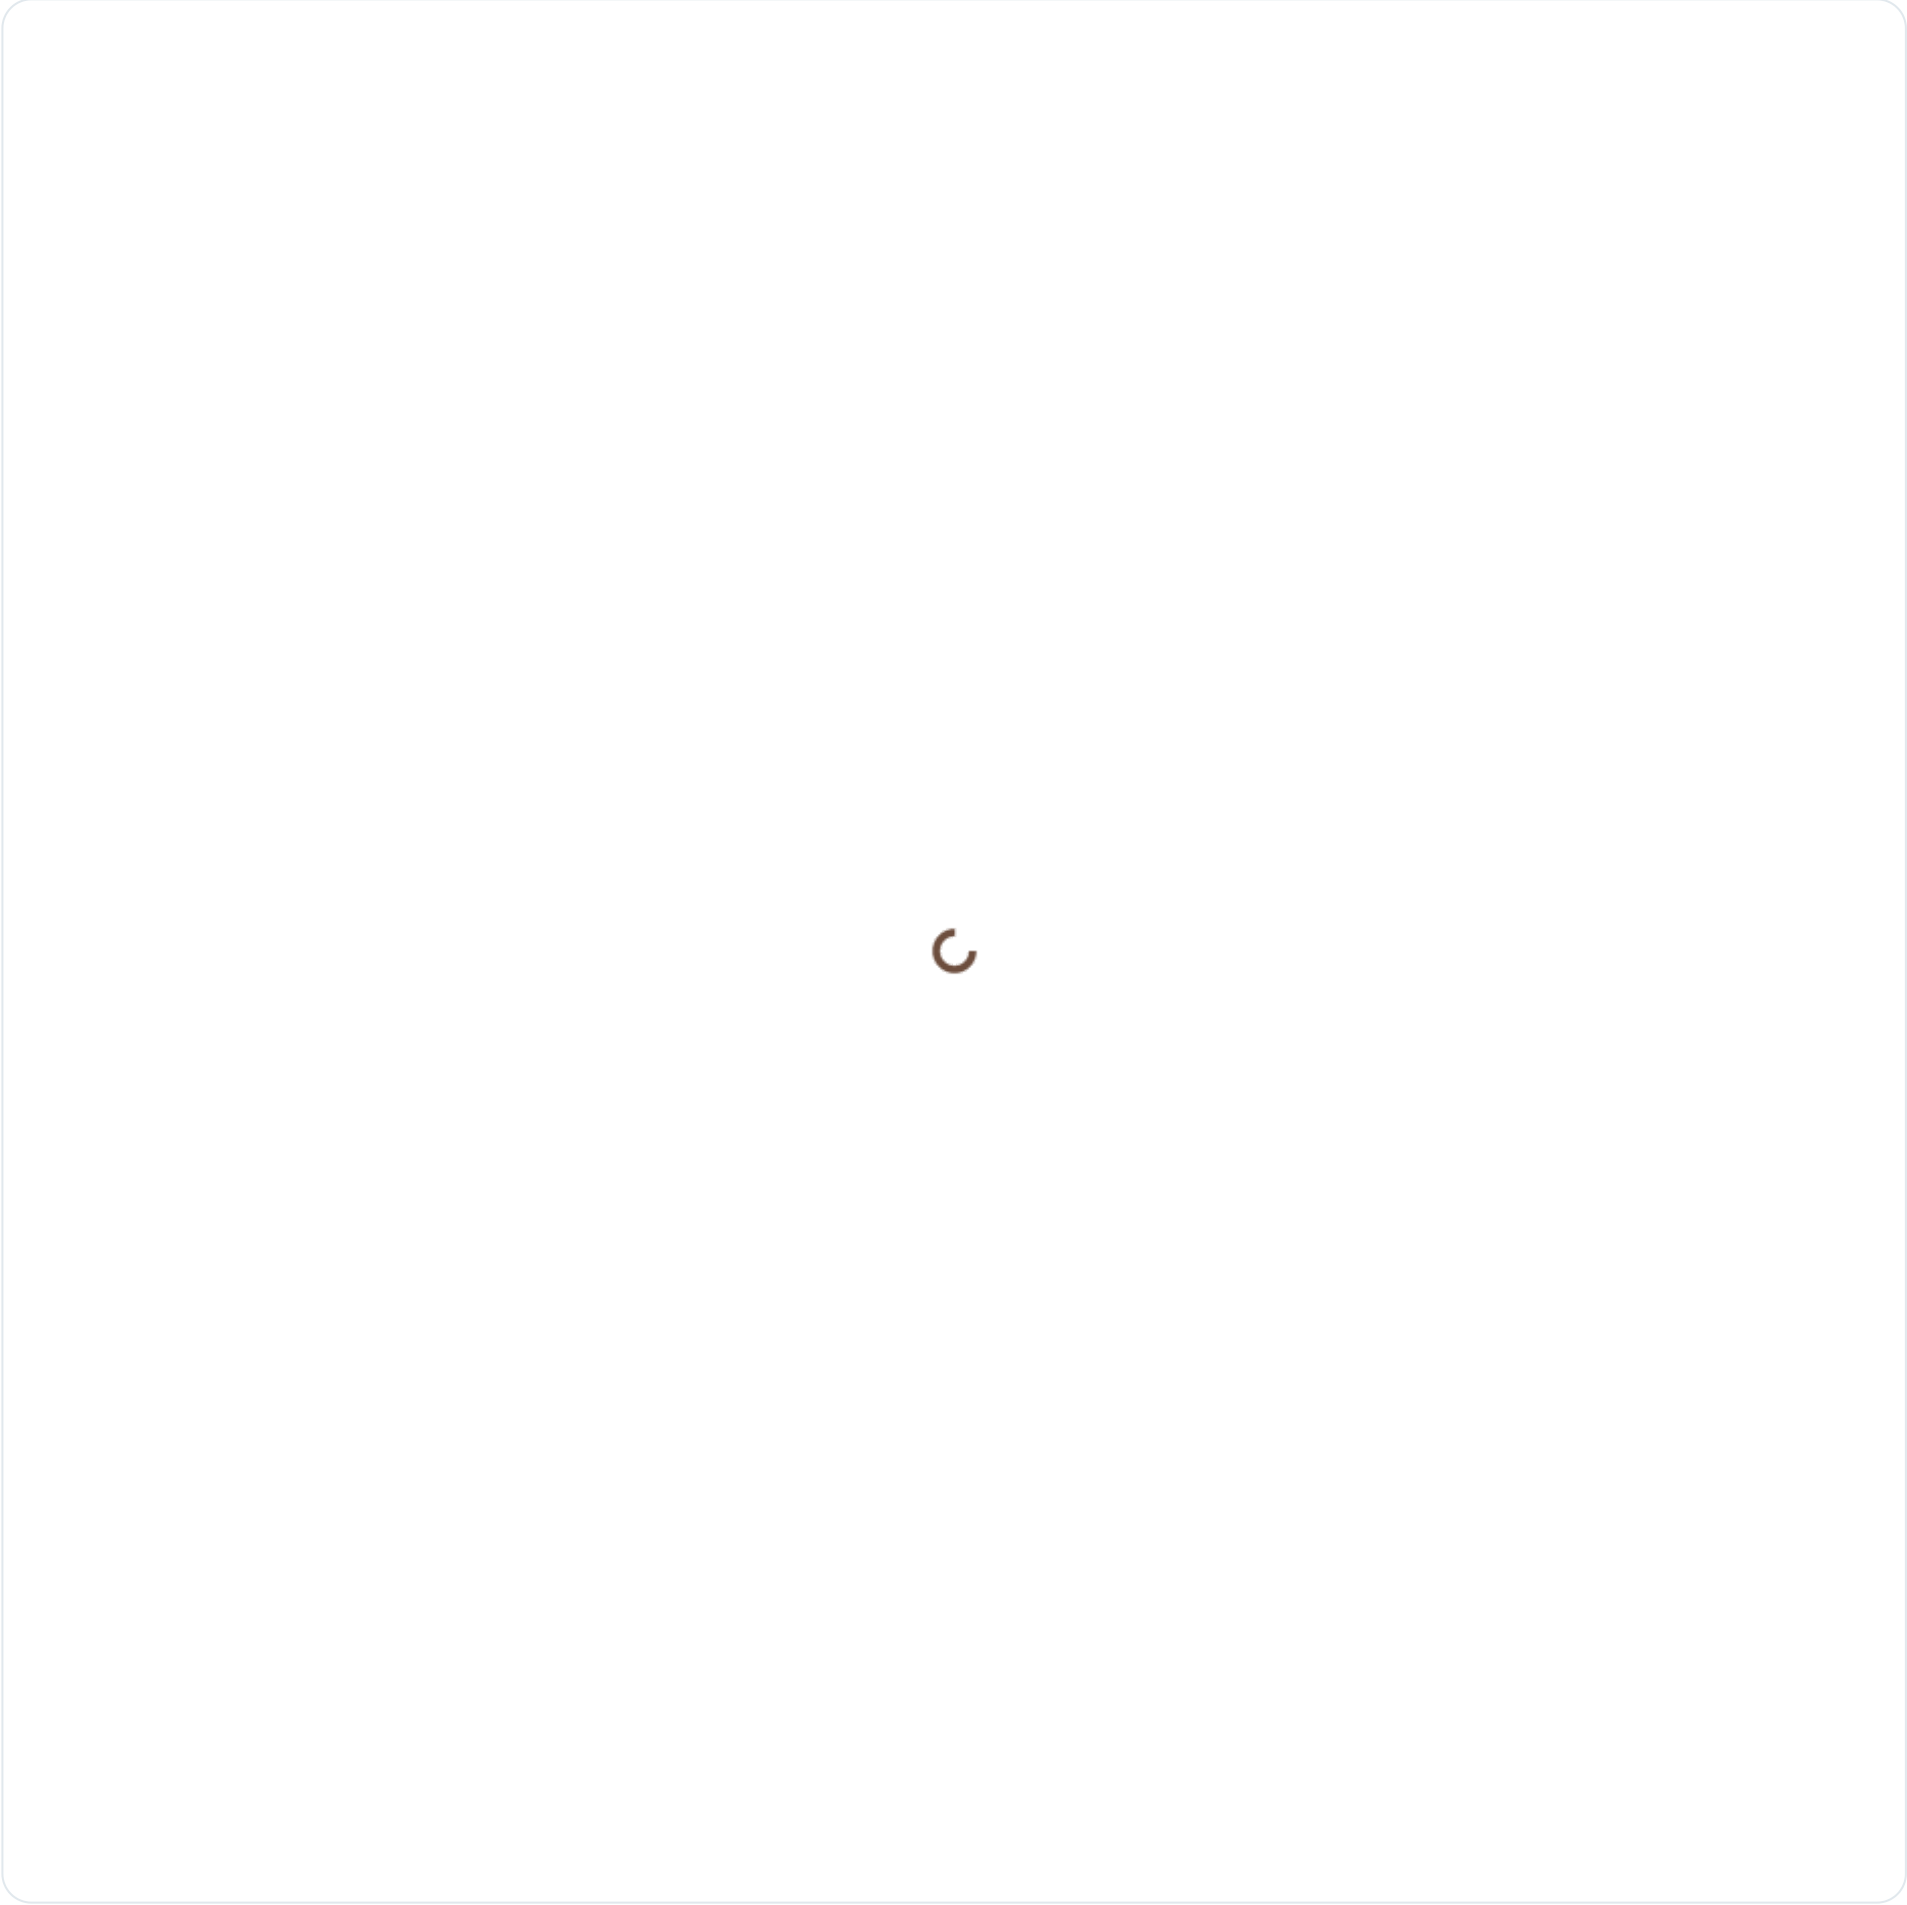

8)President Trump declaring at the SOTU that we will never be a socialist country was effective, likely forcing a shift in strategy by Dems.

Essentially, the Dems are saying The American People will not get a wall unless socialism is accepted, hence Pelosi's desire to cooperate

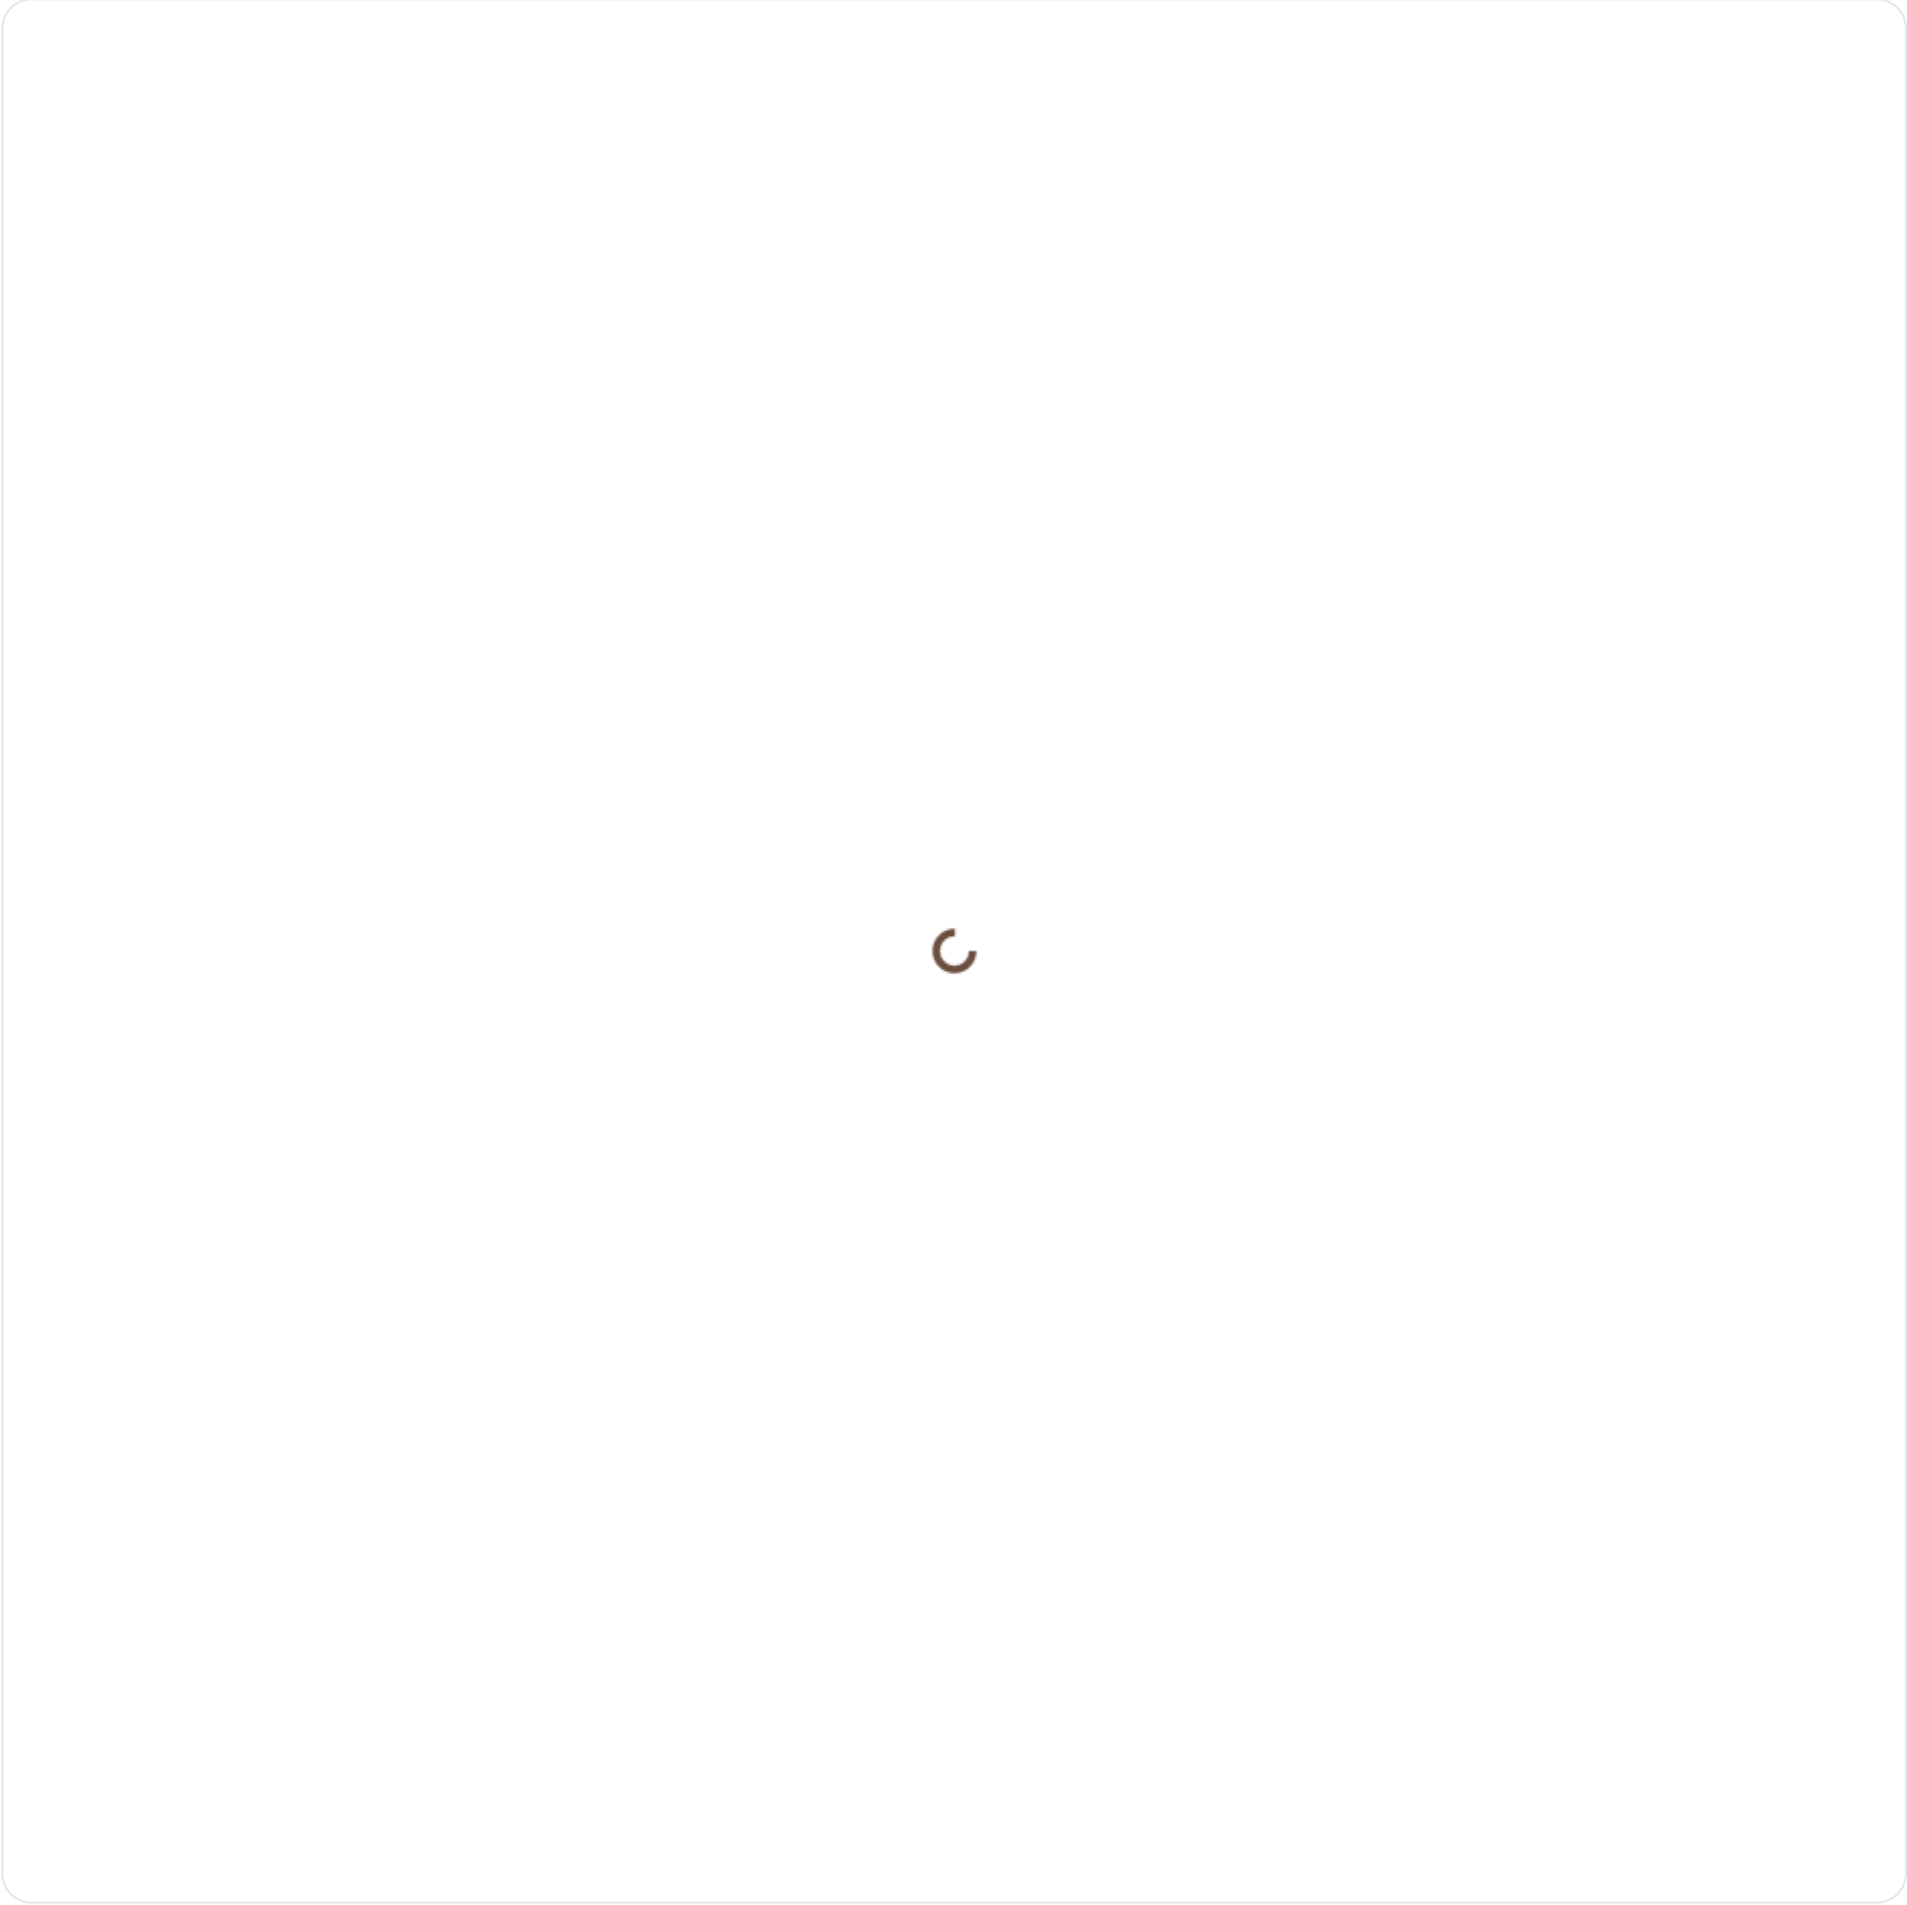

9) What we're watching is a showdown between who the American People elected, and the crime syndicate known as the Democrats

The introduction of the bill is also a way of signaling to China to hold off the President. Sellouts in Congress are still looking to do business

10) The Shutdown meant much more than it appeared. It handicapped the Dems in their First month. HR1 was introduced on the day they were sworn in

Mandatory voter registration on Campuses and online voting. Congressional Redistricting.

11) Presidential Inaugural expenditure disclosures. President and VP taxes disclosure

To put mildly, another Shutdown is likely. The Dems aren't working for the people anymore. They serve foreign and corporate masters

Pelosi will likely offer Wall only for Climate Bill

When the American People fully understand how this country was sold, nothing will stop the obvious reaction. The Swamp is more than its definition. There are agents that are specifically placed in Congress to help pass legislation that sells the country's resources.

Their campaigns are managed and financed by the same shadowy entities that have been trying to destroy the Republic for decades.

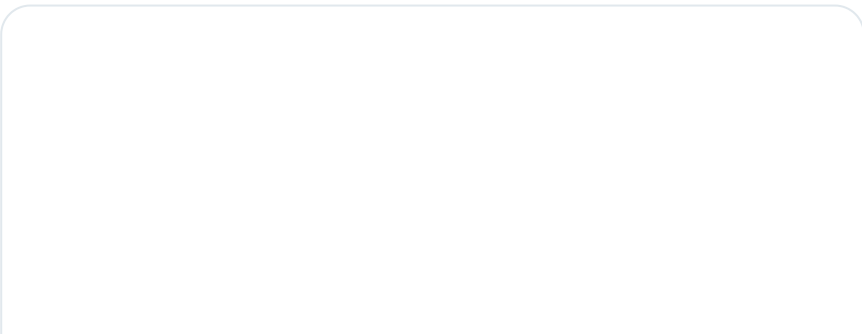

Alexandria Ocasio-Cortez didn't spend a week in congress but

- 1) We won't get every #DeepState operator out of Congress
this November however consider this. Who is the biggest fish
caught up in the Congress leaking scandal so far? That's right
- A 20 year Senate Staffer named James Wolfe.
- 2) Let me give you an overview of the Senate & House
Operations - There is an approximate 25 to 1 ratio between
Senators/Congressmen and their Staff. That means for every
Elected Representative in Congress there are about 25
UNELECTED staff that are career employees.

1. Kanye West is making massive headlines due to his recent
support of Trump. But we need to go back a few years and see
this in a larger and altogether more frightening context. It's a
story that clearly demonstrates the evil methods of the
#DeepState.
2. Kanye's conservative leanings are not new. Aside from a
rap artist, he's advocated issues similar to those that made
#MLK a target of the Left. School choice, personal
responsibility in the black community and entrepreneurship.
