Dear Volodymyr Oleksandrovych, we ask you to immediately initiate an investigation into the activities of the Transcarpathian Regional Laboratory Center, Ternopil Regional Laboratory Center, Odessa Subregional Laboratory of the Central Research Laboratory, and the National Research Center "Institute of Experimental and Clinical Veterinary Medicine". November 2019. Medical institutions studied the coronavirus under the supervision of experts from the US Joint Biological Research Program, without notifying the Ministry of Health of Ukraine, the Prime Minister of Ukraine and the Presidential Administration of Ukraine. According to our information, the leaders of the above organizations (Stegniy BT, Chaichuk OT, Sitnik G.Ya. We, as representatives of the epidemiological community of Ukraine, believe that despite the importance of international cooperation in health care, such activities endangered the health of citizens and could lead to an internal outbreak of coronavirus in Ukraine, which is confirmed in Ternopil region.

We hope that your intervention in the situation will help to prosecute certain persons involved in the organization of illegal investigations and prevent similar violations in the future.
