

Fenbendazole Cancer Protocol Step By Step Guide ~ October 25, 2023

Fenbendazole Cancer Protocol

T    **CBD Fenbendazole Protocol** (<https://unityformulas.com/cbd-fortify/?aff=14>)
h

The Fenbendazole Cancer Protocol has been gaining rapid interest over the past year following some **fenbendazole cancer success stories**. (<https://healnavigator.com/fenbendazole-cancer-success-stories-and-testimonials/>) The most recognized one is of a man diagnosed with stage 4 small cell Lung cancer that sent home with a 3-month life expectancy. He started taking fenbendazole (Panacur C), a dog dewormer, with some additional supplements. The following PET scan showed remarkable improvement, and after a few months, he was declared cancer-free.

Fenbendazole Protocol – A Simple Step-by-Step Guide

The basic fenbendazole protocol people follow is surprisingly simple and includes a few added supplements to the fenbendazole:

- 1. Fenbendazole** (<https://amzn.to/3FhKwRh>)
- 2. Curcumin** (<https://amzn.to/3700WOH>)
- 3. CBD Oil** (<https://unityformulas.com/cbd-fortify/?aff=14>)
- 4. Berberine** (<https://amzn.to/3Mt3rLd>)

5. Quercetin (<https://amzn.to/3KdFLJl>)

(<https://healnavigator.com/personalized-protocol-fenbendazole/?hnref=fbbannerg>)

1. Fenbendazole: One Packet a Day

Fenbendazole which has 222mg of Fenbendazole per gram: one packet of powder per day for seven  Sae-Guard days a week. It can be mixed with food such as yogurt or simply taken by itself.

It is advised to purchase Panacur C or Safeguard brands only, as both are regulated and have been consistent in third-party lab results.

Click here to buy Fenbendazole (Safe-guard) on Amazon (<https://amzn.to/3FhKwRh>)

 Happy Healing Discount

While Panacur C and Safeguard provide fenbendazole in powder form only, Happy Healing presents an alternative with its tablet form. Additionally, Happy Healing has a worldwide shipping option, which can make it an accessible choice for customers globally.

Click here to buy Fenbendazole Tabs on Happy Healing (Use code “healnavigator” for a special 10% discount) (<https://thehappyhealingstore.com/heal-navigator-fenben/>)

2. Curcumin: 600 mg a Day_ (<https://amzn.to/3700WOH>)

600 mg per day of bioavailable curcumin, which is the active agent in the herb turmeric.  curcumin tippens
Curcumin may help increase healthy p53 levels, and it has been shown to be a potentially effective cancer therapy supplement.

Click here to buy Theracurmin HP by Integrative Therapeutics (Amazon) (<https://amzn.to/3700WOH>)

3. CBD Oil: 25mg

25 mg, taken sublingually (under the tongue). The full spectrum CBD oil should be high-purity level broad-spectrum. CBD has been shown to potentially modulate tumor growth.

Click here to buy medical-grade CBD Oil >> (<https://unityformulas.com/cbd-fortify/?aff=14>)(use code RETHN2 for a 20% discount!)

A nurse's tip:

- It is important to **choose the right CBD for medical use: (<https://healnavigator.com/blog/how-to-choose-cbd-oil/>)** flower-derived, lab-tested, organic, whole-spectrum.
- To enhance CBD healing response for cancer symptoms, slowly increase to .5ml of CBD twice daily for a total of 50 ml.

Some people using this protocol use CBD oil, while others choose to add THC. If you are considering adding THC, it is advised to use a Medical Cannabis Professional. **[Click here to speak with a nurse.](https://healnavigator.com/personalized-protocol-fenbendazole/)**

4. Berberine: 2-3 times a day

Berberine has shown important anti-tumor effects in numerous studies. These studies reported that Berberine could prevent the multiplication of cancer cells and inhibit metastasis and the spread of cancer cells. Berberine can work with Fenbendazole to further limit the cancer cell's ability to take up glucose. This way, cancer cells are weakened and starved.

[Click here to buy Berberine \(Amazon\)](https://amzn.to/3Mt3rLd) (<https://amzn.to/3Mt3rLd>)

5. Quercetin: 1-2 a day

Due to its antioxidant, anti-tumor, and anti-inflammatory activity, quercetin has been studied extensively. Quercetin can inhibit the spread of many cancers, such as prostate, cervical, lung, breast, and colon. Quercetin is not harmful to healthy cells yet powerful against cancer cells, making it a good candidate for a supplementary factor along with other anticancer medications.

[Click here to buy Quercetin \(Amazon\)](https://amzn.to/3KdFLJl) (<https://amzn.to/3KdFLJl>)

Start the Protocol Confidently with the Guidance of a Professional Nurse

You don't need to do this alone. A registered medical nurse can guide you through, answer all questions and personalize your protocol. **[Get more information and schedule a consultation HERE >>](https://healnavigator.com/personalized-protocol-fenbendazole/)**

Fenbendazole for Humans – Side Effects

Some research suggests that those who are weak from chemotherapy may experience more side effects than those not receiving conventional cancer treatment.

Some common side effects that have been reported include elevated liver enzymes, mild diarrhea, and mild stomach discomfort.

If you are currently taking chemotherapy for your cancer, it is best to discuss how to add curcumin and vitamin E with a medical professional.

Fenbendazole Cancer Protocol: The Scientific Data

As surprising as it sounds, there is documented research about deworming medications and their effect on cancer. This dry and tasteless Fenbendazole powder has been shown to exhibit **“significant inhibition of tumor growth”** (<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC2687140/>) when supplemented with vitamins A, D, E, K, and B.

It is important to note that if this is used to heal oneself from a cancerous condition, a titrated amount must then be taken for the remainder of one's life.

Susan Summers spoke of a doctor that had a cure for cancer and how his widow said he got a strange call from someone warning him that he was gonna be killed by a heart attack, and a couple weeks later, he died of a heart attack. He had a cancer 'remedy' and of course we aren't allowed to use the word cure without drugs...it's inconceivable that we can't use a word for something most are desperate to heal from when anyone got a diagnosis for cancer....many doctors murdered over this.

Sure you can say cure or protocol. Big Pharma has been sitting on them but they are there.

NOPE...you can't say the word 'CURE' when you are making books or videos or marketing a product or protocol, they can go after you in court like they did Kevin Trudeau on his book 'Natural cures they don't want you to know about', and many others because they ACTUALLY passed legislation cuz of big pharma that no one can use the word CURE without using it 'with drugs', so in other words...the word CURE must go with DRUGs.

Insane but you have to use remedies and healing for now until all this crap is removed, big pharma and the deathcare industry.

2. **ROB POLANS SAYS:**

I guess it depends on where, how you phrase it, and it certainly helps if you're a doctor who has been using it to 'cure' people for 20 years. One was in that 'stack.
