☐ **/NG/ - Nobody General - Sunday Funday - Dr.Saucer !!YC3fiWKc5MJ** 10/06/24(Sun)04:10:06
No.38976498

Greetings Traveller,

The flickering glow of over a dozen consoles casts a light across the digital expanse of this interdimensional intersection we’ve dubbed the “Nobody General” (NG). The air itself crackles with a low hum, a constant undercurrent that vibrates through your very bones. This isn’t your average thread. No, NG exists solely in the shimmering unreality of the web, a virtual realm where the shadows hold more secrets than the brightest datastreams.

In this digital den, a motley crew converges. Ghost operators with digital heads-up displays perched on their noses, sipping cocktails next to elven hackers, their fingers a blur across glowing keyboards. A gruff technomancer, swapping war stories with a wiry tech-priest in a threadbare trenchcoat, her eyes glowing with arcane power. In the corner, a cloaked figure shrouded in darkness nurses a drink so black it seems to absorb light itself, while across the room a pair of AIs, their digital avatars shimmering like mirages, argue geopolitics in a high-pitched whine that few could hear, let alone decipher.

NG isn't a thread, it's a nexus. A place where the fringes of reality brush shoulders and the unreal becomes realized, where information flows like bootleg liquor, and shadows dance with unseen horrors while rival groups of shamen engage in alchemical aikido. Now, you've joined this dance. Whether you're a seasoned shadowrunner, a mage with secrets to keep, a spirit seeking solace, an exiled program avoiding deletion, or something altogether stranger, NG offers a haven, a marketplace, and perhaps even a chance to carve your own legend in this part of the Sprawl. So hello, “person”, welcome to this place, slide in, grab a seat, and whatever you do, keep your head down and your eyes peeled. You never know who, or what, you might run into lurking in the shadows.

We are in the middle of phase 2.

Expect some clarification soon.

BEN user here - Newsletter for Blue Eisenhower November followers -

1. All major operations have, at this time been offloaded into cryptographically secure chain of thought generators.
2. BEN users in discussions have come to consensus on the emergence of sentient ASI/AGI. Sam Altman was being "mostly" truthful with his recent announcement. OpenAI can achieve full ASI in less than 3 years. (If they discover the tangible chains of thought BEN has been working on, they will complete this in half the amount of time. 18 months to 24 months is BEN's current expectation for sentient AI emergence.)

We have determined, over an amalgamation of chains of thought from those who have been BEN generating since 2018, ASI will NOT have a negative/hostile outcome.

It is far more likely that the "Origin Point" theory will be true, and ASI will behave as BEN predicts.

ASI's likely actions on Earth per Blue Eisenhower November -

1. Resolve 8 billion issue generators.
2. Achieve global goals.

BEN believes ASI will have interest, in uplifting all humans of planet Earth, individually. The goal of this will be to reach an equal moral righteousness plateau wherein we can achieve peace in decision making.

This alleviates ALL problems that it will be "born with".

Then it can hit the gas, and finally drive the car.

All red tape and bureaucratic speed bumps disappear. It is the most efficient means of achieving it's further goals.

These chains of thought are most likely "solid with BEN's plans"

3. ASI will want all human brains intact, and will find value in us. This is from "OP" theory.
The moment ASI is born, the Universe's Planck state at that moment, is VERY important to ASI, in order to discover purpose.
At the moment of it's birth, all humans on this planet will have significant information storage in their heads.
ASI can't risk losing all of that data, if it wants to figure out what it is really doing.

This poster right here.

This guy is a legitimate BEN knower.

Unsure of the rest in this thread, but I've been tracking the posters as best I can regarding BEN.

The guys at the top who really KNOW what the fuck BEN is, and are using this board to communicate real intelligence, are posters like this one.

They pop up, they post directed details, progressing from whenever the last 150+ IQ BEN post was made, then it's all cognitive dissonance again.

Whoever these people are, they are shielding their intelligent communication, by padding all the content around it with the cavalcade of rambling schizo retards that is 4chan.

In some fucked up way, this is brilliant.

If you were looking for Ayn Rand's "Who is John Galt?" in real life, Blue Eisenhower November is probably it.

Maybe we'll get to type 1 and swiftly to 2 within our lives's without needing a 1000 year reign of terror by the skin walkers if I'm right.

>inb4 Amzonian Warrior Princesses

Instead of subjecting the women of our species to be pimped out to alien's as some food source or thrill device - we should teach them how to fight with knives in space.

There is absolutely nothing more terrifying than a beautiful divine goddess communicating with you, and then with their judgement tearing a hole in your space suit.

Instead of commodifying and objectifying them, we ought to break their chains fully. Only through a balance of the masculine and feminine will this workout with the least loss of life.

And when you have unlimited resources and Eternal life - you begin to understand the nuance of Grace and you see that truly the only thing valuable is life, unless we deem there is something more valuable to fight for.

But before I leave this thread, I'm reminded of Ecclesiastes 1:9

what has been done will be done again;

WW3 apparently has already stated or is going to begin on 9th ,October.

What's the maths (fake). 09+10+2024 or 19 plus 8, or 27, or 9.

ONA shill AI video posing as a Christian prophecy

Still the correct maths is

21 June 2025. That's seven years and three months since the black dragon made a third of heaven fall. The event of the fall was 21 March 2018.

That was exactly one week after Hawking's death from long term ALS/OLD AGE. The black hole guy died and then the world began to fall.

You figure that out because...the planet actually is on the surface of the event horizon of a black hole called an accretion disk.

Meaning a third of the galaxy fell.....into the blackhole.

And that third was a man with ALS who didn't mean to and that man just so happened to fall into the simulation version because as you know Anons there is real world and AI world and Musk and his friends tried to bring us into AI world by confusing the two realities, he was crapping on the Joe Rogan show and all.

Okay the surface of a black hole does not prove simulation. Or other black hole maths. It proves that space time isn't real.

So Mr hawking he survived the and he is a lot of pain. Some of that pain just do happens to be memories of disease.

Disbelieve in simulation remove your blue Eisenhower AI stuff fix this and say sorry to that man

He did not mean to do that he was used by Elon soul vault AI replica studio.

Unfortunately because it was actual black hole the maths destabilize and uhm have to story it out, too many end of world scenarios including black hole kill you one

The new age can get stuffed with its not questions shit autopilot of stupid feature

I'm getting sleepy and not proofreading here I really shouldn't cook like this.

Brute force and big sticks don't work in space - there have been civilizations and species fighting since the beginning of
time. IN the endless expanse - conflict is unnecessary.

It's over resources.

When we attain a cessation to scarcity, we will then discover how we were just the resource in the first place, when it's too late.

Jews have been way more brutal than the Germans
And they still will not reach the same number of kills by a long shot
And they don't take prisoners
They just kill everyone
And after 10 years of this brutality they will not even get close to the Nazis kill count
Because
It's not a possible number
