Subject: URGENT ATTENTION

Good afternoon,

I am writing the Government as I'm deeply concerned for my family, friends and the population of Australia.

"The only thing necessary for the triumph of evil is for good men to do nothing."

There needs to be an immediate stop and then investigation into the mass murder taking place in Australia at the hands of Government and Corporations with the Covid-19 "Vaccine" roll out.

In 2021 there has been 1 death from Covid - 19 in Australia and that was on 13 April 2021.

Herd immunity and many therapeutics have been shown worldwide to effectively treat Covid - 19.

According to the Therapeutic Goods Administration:

COVID-19 vaccine weekly safety report - 24-06-2021

Since the beginning of the vaccine rollout to 20 June 2021, the TGA has received 318 reports of death in people who have recently been vaccinated.

<https://www.tga.gov.au/periodic/covid-19-vaccine-weekly-safety-report-24-06-2021>

One wonders why the reporting of these deaths is being suppressed in the Australian mainstream media? Surely such alarming figures is front page news?!

These figures do NOT go into the long-term medical problems these "shots" have caused from severe side effects. This is the tip of a very large iceberg. No right-thinking person can ignore this data.

Failure to act would make all parties involved complicit in crimes against humanity.

The "experimental", or "provisionally approved" as it's called in Australia, "vaccine" itself is in violation of Article 32 of the Geneva Convention. Under Article 32 of the 1949 Geneva Convention IV, "mutilation and medical or scientific experiments not necessitated by the medical treatment of a protected person" are prohibited. According to Article 147, conducting biological experiments on protected persons is a grave breach of the Convention.

<https://ihl-databases.icrc.org/ihl/INTRO/380>

The "vaccine" is in violation of all 10 of the Nuremberg Codes which carry the death penalty for those who

seek to violate these International Laws.

https://media.tghn.org/medialibrary/2011/04/BMJ_No_7070_Volume_313_The_Nuremberg_Code.pdf

The “vaccine” fails to meet the following five requirements to be considered a vaccine and is by definition a medical “experiment” and trial:

Provides immunity to the virus

This is a “leaky” gene-therapy that does not provide immunity to Covid and claims to reduce symptoms yet double-vaccinated are now 60% of the patients requiring ER or ICU with covid infections.

Protects recipients from getting the virus

This gene-therapy does not provide immunity and double-vaccinated can still catch and spread the virus.

Reduces deaths from the virus infection

This gene-therapy does not reduce deaths from the infection. Double-Vaccinated infected with Covid have also died.

Reduces circulation of the virus

This gene-therapy still permits the spread of the virus as it offers zero immunity to the virus.

Reduces transmission of the virus

This gene-therapy still permits the transmission of the virus as it offers zero immunity to the virus.

The following violations of the Nuremberg Code is as follows

Nuremberg Code #1: Voluntary Consent is Essential

No person should be forced to take a medical experiment without informed consent. Many media, political and non-medical persons are telling people to take the shot, it’s safe and offer no information as to the adverse effects or dangers of this gene-therapy. Countries are using lockdowns, duress and threats to force people to take this vaccine or be prohibited to participate in free society under the mandate of a Vaccine Passport or Green Pass. During the Nuremberg trial, even the media was prosecuted and members were put to death for lying to the public amongst many of the doctors and Nazis found guilty of Crimes Against Humanity.

Nuremberg Code #2: Yield Fruitful Results Unprocurable By Other Means

As listed above, the gene-therapy does not meet the criteria of a vaccine and does not offer immunity to the virus. There are other medical treatments that yield fruitful results against Covid such as Ivermectin, Vitamin D, Vitamin C, Zinc and boosted immune systems for flu and colds.

Nuremberg Code #3: Base Experiments on Results of Animal Experimentation and Natural History of Disease

This gene-therapy skipped Animal testing and went straight to human trials. In mRNA research that Pfizer used a candidate study on mRNA with rhesus macaques monkeys using BNT162b2 mRNA and in that study all the monkeys developed pulmonary inflammation but the researchers considered the risk low as these were young healthy monkeys from the age of 2-4. Israel has used Pfizer and the International Court of Law has accepted a claim for 80% of the recipients having pulmonary inflammation from being injected with this gene-therapy. Despite this alarming development Pfizer proceeded to develop their mRNA for Covid without animal testing.

Nuremberg Code #4: Avoid All Unnecessary Suffering and Injury

Since the rollout of the experiment and listed under the CDC VAERS reporting system over 4,000 deaths and 50,000 vaccine injuries have been reported in America. In the EU over 7,000 deaths and 365,000 vaccine injuries have been reported. This is a grievous violation of this code.

Nuremberg Code #5: No Experiment to be Conducted if There's Reason to Think Injury or Death Will Occur

See #4, based on fact-based medical data this gene-therapy is causing death and injury. Past research on mRNA also shows several risks that have been ignored for this current trial gene-experiment. A 2002 study on Sars-Cov spike proteins showed they cause inflammation, immunopathology, blood clots and impede Angiotensin 2 expression. This experiment forces the body to produce this spike-protein inheriting all these risks.

Nuremberg Code #6: Risk Should Never Exceed the Benefit

Covid-19 has a 98-99% recover rate. The vaccine injuries, deaths and adverse side-effects of mRNA gene-therapy far exceed this risk. The use of "leaky" vaccines were banned for agriculture use by the US and EU due to the Marek Chicken study that shows 'hot-viruses' and variants emerge making the disease even more deadly. Yet, this has been ignored for human use by the CDC knowing fully the risk of new deadlier variants emerge from leaky vaccinations.

Nuremberg Code #7: Preparation Must Be Made Against Even Remote Possibility of Injury, Disability or Death

There were no preparations made. This gene-therapy was approved under an Emergency Use only act, skipped animal and human trials and forced on a misinformed public.

Nuremberg Code #8: Experiment Must Be Conducted by Scientifically Qualified Persons

Politicians, media and actors claiming that this is a safe and effective vaccine are not qualified. Propaganda is not medical science. Many retail outlets such as Walmart, drive-through vaccine centers are not qualified to administer experimental medical gene-therapies to the uninformed public.

Nuremberg Code #9: Anyone Must Have the Freedom to Bring the Experiment to an End At Any Time

Despite the outcry of over 85,000 doctors, nurses, virologists, epidemiologist the experiment is not being ended. In fact, more attempts to change laws to force vaccine compliance, mandatory and forced vaccinations are being pushed through, and experimental 'update' shots are planned for every 6 months without any recourse to the surmountable amount of deaths and injuries already caused by this experiment. Hopefully this new Nuremberg Trial will put an end to this crime against humanity.

Nuremberg Code #10: The Scientist Must Bring the Experiment to an End At Any Time if There's Probable Cause of it Resulting in Injury or Death

It is clear in the statistical reporting data that this experiment is resulting in death and injury yet all the politicians, drug companies and so called experts are not making any attempt to stop this gene-therapy experiment from inflicting harm on a misinformed public.

Also of concern is the work Christine Massey which I've linked below:

Australian Government Department of Health has no record of a "COVID-19 virus" isolated from any human
<https://www.fluoridefreepeel.ca/australian-dept-of-health-has-no-record-of-covid-19-virus-isolation/>

I expect a written response and explanation as to why the Australian Government is engaged in this criminal activity against its own citizenry and what it is going to do about it?

What law is being used to give authority to Australian State Governments to act under emergency use?

Is the Commonwealth of Australia operating under Admiralty law?

And if so, why would the law of the 'sea' have any standing on Sovereign Australian Land for Men and Women of this sovereign land?

As Australia is behind the rest of the world in its roll out of the shots I have attached the EU reports (**EudraVigilance**) of death and adverse reactions to the experimental shots to show how damaging they really are over the longer term.

The Government is to serve the people not Corporate and self-interests!

Regards

Craig Cannock

The EudraVigilance database reports that through June 19, 2021 there are 15,472 deaths and 1,509,266 injuries reported following injections of four experimental COVID-19 shots:

15,472 Dead 1.5 Million Injured (50% Serious) Reported in European Union's Database of Adverse Drug Reactions for COVID-19 Shots

The European database of suspected drug reaction reports is EudraVigilance, which also tracks reports of injuries and deaths following the experimental COVID-19 "vaccines."

The European database of suspected drug reaction reports is EudraVigilance, which also tracks reports of injuries and deaths following the experimental COVID-19 "vaccines."

A subscriber from Europe recently emailed us and reminded us that this database maintained at EudraVigilance is only for countries in Europe who are part of the European Union (EU), which comprises 27 countries.

The total number of countries in Europe is much higher, almost twice as many, numbering around 50, although there are some differences of opinion as to which countries are technically part of Europe.

So as high as these numbers are, they do NOT reflect all of Europe. The actual number in Europe who are reported dead or injured due to COVID-19 shots would be much higher than what we are reporting here.

COVID-19 MRNA VACCINE MODERNA (CX-024414)

COVID-19 MRNA VACCINE PFIZER-BIONTECH

Subject: Re: URGENT ATTENTION

Good Afternoon,

I have yet to receive any kind of reply from the government to my 28 June 2021 letter/email wherein I show clearly that these shots for Covid-19 are deadly. I note now the TGA have changed the language they use so they can obfuscate the numbers by now claiming "The TGA has received and reviewed 335 reports of deaths in people who have recently been vaccinated..." So how many were not reviewed yet? This is clearly trying to hide the true figures.

<https://www.tga.gov.au/periodic/covid-19-vaccine-weekly-safety-report-01-07-2021>

Things have further deteriorated wherein we now have government trying to implement Marxist/Fascist

measures; all people are to be tracked everywhere we go, where a mask everywhere. This is exactly what the Nazi's did in world war 2 where the people were required to carry papers and show them where ever they go. Papers please!

So now if I do not accept the mark and play along I cannot buy or sell, sounds biblical. Accept the Government rules which are not supported with any research other than that which is funded by the very people pushing this worldwide Marxist reset!

Are you on board with this communist takeover of our free nation?

Perhaps you'd like to explain to me the follow documentation from the West Australian Government website which states the Australian Military is involved in using poisons on the public?

This is Crimes Against Humanity:

Public Health Act 2016 (WA) – **Instrument of Authorisation – Authorisation to Supply or Administer a Poison [SARS-COV-2 (COVID-19) VACCINE – Australian Defence Force] (No.2) 2021**

Guidance

An authorisation by the Chief Health Office under the s. 197 and s.198 Public Health Act 2016 (WA) to authorise relevant Australian Defence Force employees to supply and administer the COVID-19 Vaccine.

<https://www.wa.gov.au/government/publications/public-health-act-2016-wa-instrument-of-authorisation-authorisation-supply-or-administer-poison-sars-cov-2-covid-19-vaccine-australian-defence-force-no2-2021>

<https://www.wa.gov.au/sites/default/files/2021-05/210305->

Further investigation shows the entire covid gaslighting on the public is based on manipulated data. Old people die and dying with Covid is not dying of Covid

As at **3pm on 04 July 2021**, a total of 30,757 cases of COVID-19 have been reported in Australia, including 910 deaths, and approximately 423 active cases.

The median age of deaths is 86 years (range: 27 to 106 years).

<https://www.health.gov.au/resources/publications/coronavirus-covid-19-at-a-glance-4-july-2021>

The TGA has no data to show the efficacy or safety with these shots. Subsequently the Government cannot provide any data to even show the Covid-19 virus or any variant has even been isolated in a lab. This approval process has never been used before and clearly states the data isn't yet available but the Government wants to pressure the people of Australia to take a shot which may very well kill them to protect them from a virus that only kills old sick people.

COVID-19 vaccines undergoing evaluation

6 July 2021

Before any COVID-19 vaccine is approved for use in Australia, it will be subject to the well-established and rigorous assessment and approval processes of the Therapeutic Goods Administration (TGA), part of the Department of Health.

The TGA has received applications and is assessing preliminary data for the following COVID-19 vaccines using the **provisional pathway** and rolling review procedures.

Sponsor	Name	Type	Further information	Regulatory status
Bioclect Pty Ltd on behalf of Novavax Inc	NVX-CoV2373	Protein vaccine	Provisional determination notice	Under evaluation
Janssen-Cilag Pty Ltd	Ad26.CO2.S	Viral vector	Provisional determination notice	Provisionally approved on 25 June 2021
Pfizer Australia Pty Ltd	BNT162b2 [mRNA]	mRNA	Provisional determination notice	Provisionally approved on 25 January 2021
AstraZeneca Pty Ltd	ChAdOx1-S [recombinant]	Viral vector	Provisional determination notice	Provisionally approved on 15 February 2021

All COVID-19 vaccine applications are being treated with the greatest priority as part of the Department of Health's response to the pandemic. Under normal circumstances, TGA's assessment (for both provisional and general registration) begins once all information to support registration is available. For COVID-19 vaccines, the TGA has agreed to accept rolling data to enable early evaluation of data as it comes to hand.

Many of the large-scale clinical trials that will provide evidence of safety and effectiveness are still progressing and these results will be provided to the TGA as they become available. The TGA will also evaluate quality data (such as how the vaccines are manufactured).

It is a sad state of affairs when our Government ignores the people and refuses to provide any reply to this kind of serious issue.

I will not consent to tyranny. I will not even consider complying until which time the Government answers all my questions and I will rely on these emails as evidence in Court should I be held to any account by the authorities for my non-compliance.

Good Afternoon,

It is clear by your failure to respond that you are aware of the non-existent in many cases/gaping holes in the science and data to support experimental mRNA shot roll outs and are KNOWINGLY experimenting illegally on the Australian population. Which as stated previously constitutes crimes against humanity, which carries the death penalty for those found guilty of such.

It is absolutely appalling that the NSW premier today announced an expansion to the roll out of the experimental mRNA shots to include children, those who have done this will be held to account for what can only be described as a pure EVIL decision.

Can you please explain why the Australian Government is KNOWINGLY engaging in policy that increases excess mortality?

As the country is being manipulated into further lockdowns I would now bring your attention to this research:

ABSTRACT

As a way of slowing COVID-19 transmission, many countries and U.S. states implemented shelter-in-place (SIP) policies. However, the effects of SIP policies on public health are a priori ambiguous as they might have unintended adverse effects on health. The effect of SIP policies on COVID-19 transmission and physical mobility is mixed. To understand the net effects of SIP policies, we measure the change in excess deaths following the implementation of SIP policies in 43 countries and all U.S. states. We use an event study framework to quantify changes in the number of excess deaths after the implementation of a SIP policy. We find that following the implementation of SIP policies, excess mortality increases. The increase in excess mortality is statistically significant in the immediate weeks following SIP implementation for the international comparison only and occurs despite the fact that there was a decline in the number of excess deaths prior to the implementation of the policy. At the U.S. state-level, excess mortality increases in the immediate weeks following SIP introduction and then trends below zero following 20 weeks of SIP implementation. We failed to find that countries or U.S. states that implemented SIP policies earlier, and in which SIP policies had longer to operate, had lower excess deaths than countries/U.S. states that were slower to implement SIP policies. We also failed to observe differences in excess death trends before and after the implementation of SIP policies based on pre-SIP COVID-19 death rates.

As a continuation of the evidence, I provide the following forensics which shows via patent research the corporations and entities involved in the development of the SARS CoV 2 (Covid-19) plus varying instances and the mRNA bioweapon 'vaccine' currently being illegally tested/forced on the Australian and Global Populations and the deep links between both applications owners.

Changes to CDC RT-PCR
for SARS-CoV-2 Testing

Audience: Individuals Performing
COVID-19 Testing

Level: Laboratory Alert

After December 31, 2021, CDC will withdraw the request to the U.S. Food and Drug Administration (FDA) for Emergency Use Authorization (EUA) of the CDC 2019-Novel Coronavirus (2019-nCoV) Real-Time RT-PCR Diagnostic Panel, the assay first introduced in February 2020 for detection of SARS-CoV-2 only. CDC is providing this advance notice for clinical laboratories to have adequate time to select and implement one of the many FDA-authorized alternatives.

In preparation for this change, CDC recommends clinical laboratories and testing sites that have been using the CDC 2019-nCoV RT-PCR assay select and begin their transition to another FDA-authorized COVID-19 test. CDC encourages laboratories to consider adoption of a multiplexed method that can facilitate detection and differentiation of SARS-CoV-2 and influenza viruses. Such assays can facilitate continued testing for both influenza and SARS-CoV-2 and can save both time and resources as we head into influenza season. Laboratories and testing sites should validate and verify their selected assay within their facility before beginning clinical testing.

Please provide a detailed response as to why this data is being ignored and lives are being lost directly as a result?

The forensic report of Dr David Martin shows all the patents for SARS-COV-2 and also for the technology that is now in the so called 'vaccines' so it is no surprise the government cannot isolate the alleged virus as that would show a link to the patented biological agents and would show government malfeasance.

None of these testing procedures have been completed. The Australian Government is KNOWLINGLY experimenting on the population.

DR. ALROY-PREIS: **So there are two major concerns.** One is that the Delta variant is 50% more infectious than the previous, the Alpha variant, which was 50% more infectious than the original one. And we still have a third of our population that is not immunized or has not been recovered. We have a large children population. And so that is obviously concerning. **The other point is that we are seeing about 50% of the people who are infected right now are vaccinated, fully vaccinated individuals. And so that is obviously of concern. Previously, we thought that vaccinated, fully vaccinated individuals are protected. We're now see- we now see that the vaccine effectiveness against disease is roughly 40%. It still remains high for severe disease. But we are seeing diminished protection, especially for people who have been vaccinated earlier.**

Since the beginning of the vaccine rollout to 1 August 2021, over 12.4 million doses of COVID-19 vaccines have been given. In this period, the TGA has received 210 reports of deaths following immunisation – 109 have been reported for the Pfizer vaccine, 94 for the AstraZeneca vaccine and seven where the vaccine was not specified. Most of these reports (93%) were

The present invention provides compositions and methods comprising a chimeric coronavirus spike protein.

Abstract

The emergence of severe acute respiratory syndrome coronavirus (SARS-CoV) and Middle East respiratory syndrome (MERS)-CoV underscores the threat of cross-species transmission events leading to outbreaks in humans. Here we examine the disease potential of a SARS-like virus, SHC014-CoV, which is currently circulating in Chinese horseshoe bat populations¹. Using the SARS-CoV reverse genetics system², we generated and characterized a chimeric virus expressing the spike of bat coronavirus SHC014 in a mouse-adapted SARS-CoV backbone. The results indicate that group 2b viruses encoding the SHC014 spike in a wild-type backbone can efficiently use multiple orthologs of the SARS receptor human angiotensin converting enzyme II (ACE2), replicate efficiently in primary human airway cells and achieve *in vitro* titers equivalent to epidemic strains of SARS-CoV. Additionally, *in vivo* experiments demonstrate replication of the chimeric virus in mouse lung with notable pathogenesis. Evaluation of available SARS-based immune-therapeutic and prophylactic modalities revealed poor efficacy; both monoclonal antibody and vaccine approaches failed to

Unfortunately it appears it is those we should be able to trust the most who are putting us in the most danger.

The population needs to be told the truth and those perpetrating or covering up these crimes need to be held to account. All restrictions need to be lifted immediately and those guilty need to confess their crimes and face judgement.

Blood-placenta barrier

The placental barrier is indispensable in maintaining pregnancy, as it mediates the exchange of nutrients and metabolic waste products, exerts vital metabolic functions and secretes hormones [67]. A recent review suggested that the placenta does not provide a tight barrier against the transfer of nanoparticles to fetuses, specifically against the distribution of carbonaceous nanoparticles to and in the fetus [42]. It was suggested that rGO and gold particles (diameter of 13 nm) are barely present or are absent in the placenta and fetus in late gestation after intravenous injection [44, 68]. However, other reports showed that transplacental transfer does occur in late gestational stages [69, 70]. Much attention had been paid to the developmental toxicity of nanomaterials, and reports showed that many nanoparticles did cross the placental barrier and strongly influenced the development of embryos [71–75]. But studies of the exposure to graphene materials through the placenta barrier are deficient, and how these particles transfer to embryos should be evaluated in detail in the future.

What is being done to stop the media and Government lying to the public?

As previously stated,:

It is a sad state of affairs when our Government ignores the people and refuses to provide any reply to this kind of serious issue.

I will not consent to tyranny. I will not even consider complying until which time the Government answers all my questions and I will rely on these emails as evidence in Court should I be held to any account by the 'alleged' authorities for my non-compliance.

Now is YOUR chance to self-correct.

Head Of WHO Origin Probe Team Admits Communist China Ordered Them What To Write In Report

So, the Washington Post is reporting that the head of the WHO origins investigation team now says they essentially got dictated by the Chinese officials what possibilities could be included in their report on virus origins, and with what conditions. [washingtonpost.com/world/2021/08/...](https://www.washingtonpost.com/world/2021/08/...)

In its report released earlier this year, the WHO-China team said it was "very unlikely" that the virus, officially named SARS-CoV-2, could have accidentally leaked from the Wuhan Institute of Virology or another facility in the Chinese city where infections were first found. The joint team of researchers said it [would not recommend further investigation](#) into the issue.

A discussion of whether to include the lab-leak theory at all lasted until 48 hours before the conclusion of the mission, Ben Embarek told the Danish reporters. In the end, Ben Embarek's Chinese counterpart eventually agreed to discuss the lab-leak theory in the report "on the condition we didn't recommend any specific studies to further that hypothesis."

Also, the WHO team lead considers researcher getting infected in the field in the "likely" category—as a mix of "lab-leak" and direct infection—and also says there could have been human error but "the Chinese political system does not allow authorities to acknowledge that."

Ben Embarek said one similar scenario, in which a lab employee inadvertently could have brought the virus to Wuhan after collecting samples in the field, could be considered both a lab-leak theory and a hypothesis of direct infection from a bat, which was described as "likely" in the report.

"A lab employee infected in the field while collecting samples in a bat cave — such a scenario belongs both as a lab-leak hypothesis and as our first hypothesis of direct infection from bat to human. We've seen that hypothesis as a likely hypothesis," Ben Embarek said.

In further comments during the interview that were not included in the documentary but were incorporated in an account by the Danish channel TV2 on its website, Ben Embarek suggested that there could have been "human error" but that the Chinese political system does not allow authorities to acknowledge that.

"It probably means there's a human error behind such an event, and they're not very happy to admit that," Ben Embarek was quoted as saying. "The whole system focuses a lot on being infallible, and everything must be perfect," he added. "Somebody could also wish to hide something. Who knows?"

Daniel Andrews and China

Victorian Labor MPs have gone to China at least 25 times over the past four years, racking up close to \$1 million in travel bills as part of Premier Daniel Andrews's pursuit of closer ties with the communist nation. Since Labor's 2014 election victory, Mr Andrews has made no secret of his desire to court China as a trade, education and cultural partner, and has personally led four delegations there at a cost of almost \$300,000 to taxpayers.

<https://jamestown.org/program/reorganizing-the-united-front-work-department-new-structures-for-a-new-era-of-diaspora-and-religious-affairs-work/>

OCAO is part of the regime's United Front Work Department (UFWD), described by the U.S. government's China Economic and Security Review Commission as "working to co-opt and neutralize sources of potential opposition to the policies and authority of its ruling Chinese Communist Party."

The report asserts:

"It is precisely the nature of United Front work to seek influence through connections that are difficult to publically [sic] prove and to gain influence that is interwoven with sensitive issues such as ethnic, political, and national identity. [...] The goal of "overseas Chinese work" is to use ethnic, cultural, economic, or political ties to mobilize sympathetic overseas Chinese communities—ideally of their own accord—to advocate for the interests of the CCP and marginalize its opponents. The UFWD teaching manual directs operatives to win overseas Chinese over to the CCP's side by emphasizing "flesh and blood" ties to China with the goal of securing political, moral, and financial support for the CCP."

WHO Insider Blows Whistle on Gates and GAVI

<https://www.youtube.com/watch?v=nSRgPkO3abY>

Gates still pulls a lot of strings at the WHO. He negotiates and signs contracts on behalf of different countries, acting as the unelected middle man in deciding which vaccines or pharmaceuticals will be purchased by them.

In October 2019 The WHO, Gates Foundation, Johns Hopkins ran a simulation of an SARS outbreak - they literally game planned the pandemic.

The Event 201 scenario

October 2019 in China - Event 201 simulates an outbreak of a novel zoonotic coronavirus transmitted from bats to pigs to people that eventually becomes efficiently transmissible from person to person, leading to a severe pandemic. The pathogen and the disease it causes are modeled largely on SARS, but it is more transmissible in the community setting by people with mild symptoms.

A helper cell for producing an infectious, replication defective, *coronavirus* (or more generally nidovirus) particle cell comprises (a) a nidovirus permissive cell; (b) a nidovirus replicon RNA comprising the nidovirus packaging signal and a heterologous RNA sequence, wherein the replicon RNA further lacks a sequence encoding at least one nidovirus structural protein; and (c) at least one separate helper RNA encoding the at least one structural protein absent from the replicon RNA, the helper RNA(s) lacking the nidovirus packaging signal. The combined expression of the replicon RNA and the helper RNA in the nidovirus permissive cell produces an assembled nidovirus particle which comprises the heterologous RNA sequence, is able to infect a cell, and is unable to complete viral replication in the absence of the helper RNA due to the absence of the structural protein coding sequence in the packaged replicon. Compositions for use in making such helper cells, along with viral particles produced from such cells, compositions of such viral particles, and methods of making and using such viral particles, are also disclosed.

It is a sad state of affairs when our Government ignores the people and refuses to provide any reply to this kind of serious issue.

I will not consent to tyranny. I will not even consider complying until which time the Government answers all my questions and I will rely on these emails as evidence in Court should I be held to any account by the 'alleged' authorities for my non-compliance.

Now is YOUR chance to self-correct.

Eight weeks ago, Australians weren't that interested in the vaccines to an exotic foreign disease. Back then, only 7% of the population were fully vaccinated, and now, viola, it's 21% of the nation ([which is a quarter of all adults](#)).

By letting the virus leak in to a [Limo Driver, who could have been protected with a \\$50 Hazmat suit](#), and then being too slow to act, the Premier of New South Wales has lit a fire under the rush to vaccination, not just in NSW but indirectly across the rest of Australia, since nearly every state has now been infected with a Covid strain that has a post-mark from Sydney. By trying to do a minimalist response, she ensured maximal type of lockdown. **Big Pharma must be delighted. The CCP too.**

What does Moderna say on its website:

mRNA Platform: Enabling Drug Discovery & Development

Our Operating System

Recognizing the broad potential of mRNA science, we set out to create an mRNA technology platform that functions very much like an operating system on a computer. It is designed so that it can plug and play interchangeably with different programs. In our case, the "program" or "app" is our mRNA drug - the unique mRNA sequence that codes for a protein.

We have a dedicated team of several hundred scientists and engineers solely focused on advancing Moderna's platform technology. They are organized around key disciplines and work in an integrated fashion to advance knowledge surrounding mRNA science and solve for challenges that are unique to mRNA drug development. Some of these disciplines include mRNA biology, chemistry, formulation & delivery, bioinformatics and protein engineering.

QUESTIONS PRESENTED

QUESTION NUMBER ONE: Did the United States of America err in not granting a juris prudential exception. See 28 U.S.C §§ 1291, 1292 in order to avoid having to consider the following, which would necessarily obligate another set of Congressional Hearings akin to the Church Hearings in 1973 whereby the CIA had to omit the existence of MK-Ultra? Which it declared abandoned.

ANSWER TO QUESTION NUMBER ONE:

With regards to Estaban Santiago (Mass-Shooter at the Ft. Lauderdale Airport), for which this AMICUS BRIEF was filed; and other Mass-Shooters that have made similar claims of being victims of U.S. Sponsored Mind Control with a history of Military Training – Are their CONSTITUTIONAL RIGHTS TO DUE PROCESS BEING COMPROMISED and Should the following not be GRANTED?

- 1. VICTIMS OF U.S. SPONSORED MIND CONTROL TECHNOLOGIES OPERATED BY OPERATIVES, AGENCIES, AND OR IN DIRECT PARTNERSHIP WITH UNITED STATES MILITARY, LAW ENFORCEMENT AND OR INTELLIGENCE AGENCIES OR INTERNATIONAL COLLABORATIVE ARE ENSURED THEIR CONSTITUTIONAL RIGHTS**

QUESTION NUMBER TWO. Is PRO SE PETITIONER STAN J. CATERBONE, his father Samuel P. Caterbone, Jr., and his brother Samuel A. Caterbone VICTIMS OF U.S. SPONSORED MIND CONTROL TECHNOLOGIIES who Suffered Incidents and Violations of Civil, Constitutional Rights of Non-Consensual Experimentation paramount to TORTURE?

1. **ANSWER TO QUESTION NUMBER TWO: YES.**

QUESTION NUMBER THREE – Did PRO SE PETITIONER STAN J. CATERBONE fall victim to a CRIMINAL/CIVIL Conspiracy while engaging in Whistle-blowing Activities in the ISC/CIA International Arms Dealer Scandal in 1987 which continues to today that now has manifested into a cover-up and obstruction of justice case of mass proportions.

(57) ABSTRACT

Generally described, the present application relates to a system and method for processing input to control a set of functions and features. More specifically, however, the present application relates to user devices that can be controlled through brain activities or similar actions. In an illustrative embodiment, **brain activities are monitored through electroencephalography (EEG)**. Through EEG, input waves that can be appropriately monitored can be sent to a virtual assistant. **The virtual assistant can decipher the number of signals coming and determine a correct output such as a function or feature to be manipulated.** In the implementation presented herein, features and functions of a smartphone can be manipulated. Other types of user devices can also be controlled, such as in-vehicle systems, head units, televisions, tablets, computer, laptops, etc.

Mind-Controlled Virtual Assistant on a Smartphone Device

Mind control system for human interfaces

Abstract

The present invention relates to a mind control system for controlling a human using a brain wave map and a genetic map. According to the present invention, the mind control system comprises: a nano-electronic chip (NEC) inserted or attached to a human body to transmit and receive a wireless signal; at least one nano-biosensor (NBS) for transmitting an electrical signal generated from the NEC to nerve cells and human cells, and embedded or connected to the NEC for sensing biometric information; and a main super computer (MSC) for transmitting the wireless signal to the NEC to arbitrarily control the nerve cells and genes of the human body, and also used in wired Internet. According to the present invention, a cranial nerve can be controlled such that the physically handicapped can perform an intended action. Also, the mind control system of the present invention is expected to be used for a trading means and a financial transaction including confirmation of personal identification.

Physiological effects have been observed in a human subject in response to stimulation of the skin with weak electro-magnetic fields that are pulsed with certain frequencies near ½ Hz or 2.4 Hz, such as to excite a sensory resonance. Many computer monitors and TV tubes, when displaying pulsed images, emit pulsed electromagnetic fields of sufficient amplitudes to cause such excitation. It is therefore possible to manipulate the nervous system of a subject by pulsing images displayed on a nearby computer monitor or TV set. For the latter, the image pulsing may be imbedded in the program material, or it may be overlaid by modulating a video stream, either as an RF signal or as a video signal. The image displayed on a computer monitor may be pulsed effectively by a simple computer program. For certain monitors, pulsed electromagnetic fields capable of exciting sensory resonances in nearby subjects may be generated even as the displayed images are pulsed with subliminal intensity.

Moderna

USA Today acknowledges with Fauci is his having been “a co-reviewer of a vaccine platform Moderna is working to improve”, as indicated by a 2019 Shareholder Letter. This refers to a review of vaccine technologies Fauci coauthored that was published last year in the journal Nature Reviews Immunology.

<https://web.archive.org/web/20200913054217/https://www.modernatx.com/moderna-blog/moderna-2019-shareholder-letter>

Although USA Today doesn’t mention it, the same letter, under the subheading “Partnerships”, mentions having \$187 million in funding from grants, with a footnote reference. The footnote specifies that the grants are from the Biomedical Advanced Research and Development Authority (BARDA), Defense Advanced Research Projects Agency (DARPA), and the Bill and Melinda Gates Foundation.

BARDA operates under the Department of Health and Human Services. DARPA is a research and development agency of the Department of Defense.

That both Fauci and Gates have close ties to Moderna is no secret.

A search immediately turned up a page published in March on the website of the NIAID, which operates under the National Institutes of Health (NIH), announcing the beginning of a phase one clinical trial for Moderna’s COVID-19 vaccine. The webpage notes that Fauci’s NIAID is “funding the trial.”

Furthermore, Moderna’s candidate vaccine “was developed by NIAID scientists and their collaborators” at Moderna.

The page quotes Fauci saying that the trial was “an important step” toward developing “a safe and effective vaccine to prevent infection with SARS-CoV-2”.

A page from Moderna’s website listing the Bill & Melinda Gates Foundation as a “strategic collaborator”, with the foundation having “entered a global health project framework agreement” in January 2016 “to advance mRNA-based development projects for various infectious diseases.”

In 2009, Pfizer became one of the first companies to participate in the Advance Market Commitment (AMC), a pioneering partnership between Gavi, the Vaccine Alliance, the Bill and Melinda Gates Foundation, and donor governments to make vaccines available to infants and children in least-developed countries. Further, Pfizer partnered with Gavi and UNICEF to provide humanitarian relief to Rwanda and Gambia, enabling these governments to launch an additional national immunization program.

Since March 2010, Pfizer has been working with Gavi, an international organization that brings together public and private sectors to create access to vaccines for infants and young children through the AMC. The AMC provides vaccines to the world’s most resource-constrained countries on an accelerated, affordable, and sustainable basis. Nicaragua was the first Gavi-eligible country in the developing world to launch an immunization program under the AMC. By December 2011, 16 countries launched an immunization program under the AMC.

3. Law of War

As the Australian Government is a Private Foreign Company we need to address its **War Crimes** under the appropriate statutes.

US Department of Defense Law of War Manuel

<https://dod.defense.gov/Portals/1/Documents/pubs/DoD%20Law%20of%20War%20Manual%20-%20June%202015%20Updated%20Dec%202016.pdf?ver=2016-12-13-172036-190>

11.3.1 End of Occupation. Belligerent occupation ceases when the conditions for its application are no longer met.⁸¹ In particular, as discussed below, the status of belligerent occupation ceases when the invader no longer factually governs the occupied territory or when a hostile relationship no longer exists between the State of the occupied territory and the Occupying Power.⁸²

Belligerent occupation ends when the Occupying Power no longer has effectively placed the occupied territory under its control.⁸³ For example, **an uprising by the local population may prevent the Occupying Power from actually enforcing its authority over occupied territory.** Similarly, the Occupying Power's expulsion or complete withdrawal from the territory would also suffice because the former Occupying Power generally would not be able to control sufficiently the occupied territory.

11.4 LEGAL POSITION OF THE OCCUPYING POWER

Military occupation of enemy territory involves a complicated, trilateral set of legal relations between the Occupying Power, the temporarily ousted sovereign authority, and the inhabitants of occupied territory.⁹² The fact of occupation gives the Occupying Power the right to govern enemy territory temporarily, but does not transfer sovereignty over occupied territory

11.5 DUTY OF THE OCCUPYING POWER TO ENSURE PUBLIC ORDER AND SAFETY

The authority of the legitimate power having in fact passed into the hands of the Occupying Power, the latter shall take all the measures in its power to restore, and ensure, as far as possible, public order and safety, while respecting, unless absolutely prevented, the laws in force in the country.¹⁰¹ This principle has been recognized as customary international law.¹⁰²

11.6 PROTECTION OF THE POPULATION OF AN OCCUPIED TERRITORY

Under the law of belligerent occupation, the Occupying Power has certain duties with respect to the population of an occupied territory, including protected persons under the GC.

11.6.1 General Protections, Including Humane Treatment, of the Population of an

Occupied Territory. **The population of an occupied territory, like other protected persons under the GC, are entitled, in all circumstances, to respect for their persons, their honor, their family rights, their religious convictions and practices, and their manners and customs.¹⁰⁷ They shall at all times be humanely treated, and shall be protected especially against all acts of violence or threats of violence, and against insults and public curiosity.**

Other provisions for the humane treatment of protected persons set forth in Articles 27 through 34 of the GC apply to the population of an occupied territory. For example, women must be especially protected against any attack on their honor, in particular against rape, enforced prostitution, or any form of indecent assault.¹⁰⁸ Reprisals against protected persons and their property are prohibited.¹⁰⁹ The taking of hostages is prohibited.¹¹⁰

In addition, protected persons in occupied territory shall have every facility for making application to the Protecting Powers, the ICRC, the National Red Cross (Red Crescent, Red Lion and Sun) Society of the country where they may be, as well as to any organization that might assist them.¹¹¹

11.6.2 Overview of Additional Protections for the Population That Are Specific to Occupation. There are a number of protections for the population of occupied territory that are specific to occupation. For example, specific provision exists for the protection of children in occupied territory.¹¹² Specific constraints exist on the authority of the Occupying Power to punish protected persons, direct their movement, or compel them to perform labor.¹¹³ Provision also is made with respect to: (1) food and medical supplies of the population; (2) public health and hygiene; (3) spiritual assistance; and (4) relief efforts and consignments.¹¹⁴

11.7.1.1 Enforcement of Obedience. The Occupying Power's enforcement of obedience must comply with the law of war. For example, measures prohibited by the law of war, such as collective punishments, acts of torture, or reprisals, may not be used.

U.S. Government Counterinsurgency Guide

<https://2009-2017.state.gov/documents/organization/119629.pdf>

Insurgency is the organized use of subversion and violence to seize, nullify or challenge political control of a region. As such, it is primarily a political struggle, in which both sides use armed force to create space for their political, economic and influence activities to be effective. Insurgency is not always conducted by a single group with a centralized, military-style command structure, but may involve a complex matrix of different actors with various aims, loosely connected in dynamic and non-hierarchical networks. To be successful, insurgencies require charismatic leadership, supporters, recruits, supplies, safe havens and funding (often from illicit activities). They only need the active support of a few enabling individuals, but the passive acquiescence of a large proportion of the contested population will give a higher probability of success. This is best achieved when the political cause of the insurgency has strong appeal, manipulating religious, tribal or local identity to exploit common societal grievances or needs. Insurgents seek to gain control of populations through a combination of persuasion, subversion and coercion while using guerrilla tactics to offset the strengths of government security forces. Their intent is usually to protract the struggle, exhaust the government and win sufficient popular support to force capitulation or political accommodation. Consequently, insurgencies evolve through a series of stages, though the progression and outcome will be different in almost every case.

Counterinsurgency (COIN) is the blend of comprehensive civilian and military efforts designed to simultaneously contain insurgency and address its root causes. Unlike conventional warfare, non-military means are often the most effective elements, with military forces playing an enabling role. COIN is an extremely complex undertaking, which demands of policy makers a detailed understanding of their own specialist field, but also a broad knowledge of a wide variety of related disciplines. COIN approaches must be adaptable and agile. Strategies will usually be focused primarily on the population rather than the enemy and will seek to reinforce the legitimacy of the affected government while reducing insurgent influence. This can often only be achieved in concert with political reform to improve the quality of governance and address underlying grievances, many of which may be legiti-

DIVOC - Digital Infrastructure for Vaccination Open Credentialing

Brief

Open-source digital platform for large-scale digital vaccination credentialing programs. Built for India scale, used already for COVID vaccination in India, addresses other future vaccination scenarios, digital credentialing, and beyond.

DIVOC is purely an open source software (not a hosted platform/service) built with strong technical design, privacy, and security principles. It is built as generalized, configurable, and extensible software so that adopters can use it for themselves, on their preferred cloud, configure/extend the way they want, and rapidly roll out vaccination using a digital backbone.

As previously stated,:

It is a sad state of affairs when our Government ignores the people and refuses to provide any reply to this kind of serious issue.

I will not consent to tyranny. I will not even consider complying until which time the Government answers all my questions and I will rely on these emails as evidence in Court should I be held to any account by the 'alleged' authorities for my non-compliance.

Frank Lowy

Fifty days before 9/11, Larry Silverstein's [Silverstein Properties](#) and Frank Lowy's [Westfield America](#) secured a 99-year lease on World Trade Center Buildings One, Two, Four and Five. Silverstein already owned [Building Seven](#), aka the Salomon building. The Port Authority of New York and New Jersey handed over control of the World Trade Center to Silverstein and Lowy on July 24, 2001, [an "historic" agreement](#) and "one of the largest privatization initiatives in history."

[Lowy leased](#) the shopping concourse area called the Mall at the World Trade Center, made up of approximately 427,000 square feet of retail floor space. Silverstein [and Westfield America](#) insured the complex for \$3.55 billion, but after the attacks of September 11 lodged a claim for \$7.1 billion on the premise that each plane collision constituted a separate act of terrorism, doubling the payout. Most people know about "Lucky" [Larry Silverstein's part in 9/11](#) and his dubious [connections](#) to Binyamin Netanyahu et al, but not much has been reported on Lowy, so let's have a look.

Lowy's fondness for banking is not limited to the U.S. [He's a board member of the Reserve Bank of Australia, Australia's central bank, which is the Australian version of the American Federal Reserve system and issuer of Australian banknotes.](#) Lowy served a ten year term as director of the RBA.

In 2001 he was the Associate International Chairman of the [Israel Democracy Institute](#), and in 2003 he set up the [Lowy Institute for International Policy](#), an international think tank devoted to foreign affairs, a meddlesome endeavor which won him the Woodrow Wilson Award for Corporate Citizenship in 2005 (aptly enough it was [Wilson who signed the Federal Reserve Act](#)). That same year, the Institute moved into its permanent home in Sydney's CBD which was formally opened by Australia's

Prime Minister and [Lowy's good mate, John Howard](#). Lowy joined Howard and Bill Clinton on a romantic "evening Sydney Harbour cruise" when Clinton visited Australia in 1996 ([source](#)), and is the "[dubious donor](#)" of approximately \$100,000 to Bill's William J. Clinton Foundation. One of [Lowy's many lawyers](#) is Robert Bennett, who defended Clinton during the Monica Lewinsky fiasco.

Frank Lowy (far right) with Bill Clinton and Australia's Foreign Minister Alexander Downer

Other good friends of his include Israeli prime minister [Ehud Olmert](#) and [media mogul Rupert Murdoch](#), who has [his own murky connections to 9/11](#) and who provides ideological support and political cover to the genocidal Likud Party of Israel in his broader role as one of the high overseers of the global mega-campaign of trans-corporate post-9/11 perception management. With a centralised mass media monopoly engineering a psycho-social zeitgeist favourable to the ongoing "war on terror" agenda, the status quo continues unabated in the absence of effective public resistance.

Furthermore, Lowy is a founding member of the International Advisory Council of the pro-Israel [Brookings Institution](#) in Washington. According to [Wikipedia](#), "Brookings is generally considered one of the three most influential policy institutes in the U.S." The aforementioned Martin Indyk, former vice chairman of Lowy's Institute for National Strategy and Policy and former U.S. ambassador to Israel, is also a [Director at Brookings](#). You can read about Indyk [here](#).

But Lowy's penchant for meddling in world affairs doesn't stop there. Lowy was vice president of a publication called the [Australia/Israel Review](#) (AIR), whose parent body is the [Australia Israel Jewish Affairs Council](#) (AIJAC), the [Australian equivalent](#) of its U.S. counterpart, [AIPAC](#). The AIR is a right-wing Zionist publication whose editor, Michael Kapel, was [forced to quit in '98](#) after the magazine published stolen membership lists of the [One Nation party](#), an Australian nationalist political group. And in 2004, during a parliamentary inquest into the closing of an illegally built shopping centre, Lowy was [very open about using his influence](#) to sway New South Wales premier Bob Carr on Middle East policy while denying that he'd used it to his advantage on the matter of the shopping centre:

His three sons: Peter Lowy, [co-CEO of Westfield Corp with his brother](#) Stephen, [sits on the board](#) of the [Simon Wiesenthal Center](#) and is chairman of the board of the [University of Judaism](#), which has

been renamed the American Jewish University after its merger with the Brandeis-Bardin Institute. Peter publishes the *Jewish Journal* which [glorifies him](#) in return:

*Last Thursday night, at a banquet at the Beverly Hilton Hotel, the [University of Judaism] celebrated its 60th anniversary by honoring [Peter] Lowy. Mayor Antonio Villaraigosa was there, and **President Bill Clinton and Gov. Arnold Schwarzenegger** sent their best by video.*

Peter is an important man in the U.S.: he [chairs the Homeland Security Advisory Council](#), serves on the [RAND Corporation Executive Committee and Board of Trustees](#) and still finds time to serve Israel through the Washington Institute for Near East Policy (WINEP) as a [member of the Executive Committee](#). He's [described](#) as a "deep-pocket contributor" to both the Democrat and Republican parties.

David Lowy is manager of the Tel Aviv-based [Ion Asset Management](#) and CEO of the family's LFG Holdings which has [millions of dollars of investments in Israel](#), and Stephen Lowy, co-CEO of Westfield, is [chairman](#) of the [United Israel Appeal](#).

Frank Lowy has a [long history](#) of tax evasion. In 2008 it was revealed that he and his three sons had [hidden \\$US68 million](#) from the Australian Tax Office (ATO) and the IRS in a secretive Liechtenstein bank (Liechtenstein Global Trust, or LGT) through a complex network of shell companies and offshore trusts. The money was channeled via various [dodgy transfers](#) into the [Luperla Foundation](#)'s account at LGT set up in May 1997 by the Lowys and Israeli lawyer Joshua Gelbard. Luperla was dissolved for "undisclosed reasons" by Frank Lowy in late 2001, around the time of 9/11, with Lowy claiming that the funds were "distributed for charitable purposes in Israel". He refused to reveal details of the supposed charities, and internal LGT documents showed that in fact the [funds were transferred](#) to Bank Jacob Safra in Switzerland.

Former senator Bill Heffernan claimed in Parliament on the 19th of October 2015, that he had a police document that lists 28 prominent people that includes a former Prime Minister and current judges that are suspected of being pedophiles.

<https://commonwealthofaustralia.org/bill-heffernan-former-prime-minister-a-pedophile/>

https://www.youtube.com/watch?v=rG9cEbj_qo0

There is enough detail in Senator Heffernan's allegations to make them very credible. Some of the details are:

1. The list *"formed part of police documents that had been "signed off" by Gary Crooke, QC, the former senior counsel assisting NSW's Wood royal commission into police corruption in the 1990s. Mr Crooke declined to comment when contacted by Fairfax Media on Tuesday."*
2. The list includes a former Australian Prime Minister, judges, members of the legal fraternity and others.
3. *"Every Commonwealth attorney-general since Philip Ruddock had seen the list".* This seems to have been confirmed by Philip Ruddock and Former Labor Attorney-General Mark Dreyfus.
4. Senator Heffernan *"accused former royal commissioner Justice James Roland Wood of refusing to investigate lawyers who had allegedly attended a Kings Cross "boy brothel".* ([Click here to read more](#))
5. The name of the club was Costellos and was a known "boy brothel" attended by members of the Sydney legal fraternity. ([Click here to read more](#))
6. Former Royal Commissioner Wood denied the allegations by Senator Heffernan, but not outright. *"Mr Wood could not recall if the alleged list had been raised at the 1995 commission but said: "I reject that we failed to investigate anyone that fell within our terms of reference."* That is a very weak denial by Mr Wood and allows him plenty of wriggle room to change his story later down the track if needed. He had personally interviewed 792 people who were victims, Mr Mullighan said he had referred 170 people with information about 434 alleged Pedophiles to police, who arrested two suspects and reported 13 others.

PM rules out Royal Commission into child sexual abuse

Prime Minister John Howard has rejected calls for a judicial inquiry into child sexual abuse in Australia.

The Government has tried unsuccessfully to gag Opposition leader Simon Crean, who has raised question after question on Dr Hollingworth's fitness for the office.

"Is a person who has acted unfairly and unreasonably and inappropriately on complaints of serial child sex abuse ... an appropriate person to be Australia's Governor-General?" he said.

Mr Howard says they may be the findings of the Aspinall report but they do not have the status of a judicial review.

The Opposition has tabled the report and asked Mr Howard to support a Royal Commission into child

sexual abuse in the broader community.

The Prime Minister says that would only line the pockets of lawyers.

Kevin Rudd, once a firm China sceptic, has become Australia's first (former) prime minister to openly consort with the ruling Communist Party's United Front Work Department (UFWD).

In October 2018, he was greeted as a "rock star" according to a report in the AFR at the United Front-sponsored Australia-China Future Forum.

Now he's downplaying concerns over Chinese influence in Australia.

Rudd said it was "kind of crazy to overreact and to get into reds under the bed land, to get into yellow peril land" regarding warnings from Australian security chiefs about Chinese influence. It's hard to fathom a former prime minister describing credible information about the Chinese government trying install operatives in Australian Parliament as an "overreaction."

Good Afternoon

Why is the Australian Government continuing to ignore the mountains of evidence presented?

End the Genocide Now.

Vaccinations need to stop immediately; evidence is sufficient to cause an immediate halt until data can be assessed and presented to the public.

Crimes Against Humanity.

As a continuation of the evidence, I add the following forensics:

The UK government just reported the following data, tucked away in their report on variants of concern:

Out of the 742 deaths, 402 were fully vaccinated. 79 had received one shot. Only 253 were unvaccinated.
402 deaths out of 47 008 cases in vaccinated; 253 deaths out of 151 054 cases in unvaccinated.

The report also made one other important admission:

- has started to recover as case numbers fall and capacity expands
- Delta variant accounted for approximately 99% of sequenced and 98% genotyped cases from 25 July to 31 July 2021
- PCR cycle threshold (Ct) values from routinely undertaken tests in England show that Ct values (and by inference viral load) are similar between individuals who are unvaccinated and vaccinated.
- the UK Genotype to Phenotype Consortium reports new data relating to VUI-21.IIUI -01 (R 1 621). There is evidence of reduction in pseudovirus

In other words, getting vaccinated to protect others is not true!

STATEMENT OF FEDERAL SUPPORT

This invention was made with government support under Grant No. U54AI057157 awarded by the National Institutes of Health. The government has certain rights in the invention.

FIELD OF THE INVENTION

The present invention relates to methods and compositions comprising a chimeric coronavirus spike protein for treating and/or preventing a disease or disorder caused by a coronavirus infection.

SUMMARY OF THE INVENTION

In one aspect, the present invention provides a chimeric coronavirus spike protein comprising, in orientation from amino to carboxy terminus: a) a first region comprising a portion of a coronavirus spike protein ectodomain that precedes the receptor binding domain (RBD) as located in a nonchimeric coronavirus spike protein, of a first coronavirus; b) a second region comprising a coronavirus spike protein receptor binding domain (RBD) of a second coronavirus that is different from said first coronavirus; c) a third region comprising a portion of a coronavirus spike protein S1 domain as located in a nonchimeric coronavirus spike protein immediately downstream of the RBD, contiguous with a portion comprising a coronavirus spike protein S2 domain as located immediately upstream of a fusion protein domain in a nonchimeric coronavirus spike protein, wherein said third region is of said first coronavirus; and d) a fourth region comprising a portion of a coronavirus spike protein from the start of the fusion protein domain through the carboxy terminal end as located in a nonchimeric coronavirus spike protein of a third coronavirus that is different from said first coronavirus and said second coronavirus.

The German and American media [is trying] to bring war to the people in Europe, to bring war to Russia. This is a point of no return, and I am going to stand up and say it is not right what I have done in the past, to manipulate people, to make propaganda against Russia, and it is not right what my colleagues do, and have done in the past, because they are bribed to betray the people not only in Germany, but all over Europe. . . I am very fearful of a new war in Europe, and I don't [want to see] this situation again. There are always people who push for war, and this is not only politicians, it is journalists too. Teen mental health hospitalizations rise by 57% during lockdowns in Victoria – state report

The Weekend Australian obtained a secretive 16-page report from the Victorian Agency for Health Information on Saturday – which was marked confidential and to be destroyed if received by an unauthorized person – revealing that the youth mental health crisis is worse than previously thought.

An average of 342 Victorians under the age of 17 were admitted to hospital each week, according to the report, which used data from between April and May of this year. This is a worrying 57% increase from the same time period in 2020. **On average 156 teenagers per week were also admitted to hospital for self-harming**

or expressing suicidal tendencies, the report claimed – an 88% increase from the year prior.

Ambassador Alexander Downer lied about the launch of the Spygate scandal

Nunes told Maria Bartiromo on Sunday Morning Futures that Downer lied about giving the Papadopoulos information to the Australian Ambassador in the U.S. Joe Hockey to launch the spying on the Trump campaign.

Republicans on the House Intelligence Committee have recently set their sights on the State Department and

its role in early stages of the investigation of the Trump campaign. According to Strassel, the concern is that information from Downer about Papadopoulos was not passed through the proper intelligence community channels prior to the FBI's opening of its investigation.

In addition to handling information about Papadopoulos, State Department officials also circulated reports compiled by Christopher Steele, the former British spy who authored an anti-Trump dossier on behalf of the Clinton campaign and DNC.

Chinese state-owned newspaper confirms Landbridge's military ties

China National Defence newspaper reported on September 2 that Landbridge was among 29 companies which established people's armed militia units in Rizhao, an important port city in Shandong province. The units are there to provide transport, logistics, equipment maintenance, combat readiness and healthcare support for the PLA, the newspaper said.

Landbridge owns and runs a port in Rizhao, which is home to the biggest navy training base in China.

Hillary Clinton: We Created Al Qaeda

TRANSCRIPT of VIDEO

"Let's remember here... the people we are fighting today we funded them twenty years ago... and we did it because we were locked in a struggle with the Soviet Union.

"They invaded Afghanistan... and we did not want to see them control Central Asia and we went to work... and it was President Reagan in partnership with Congress led by Democrats who said you know what it sounds like a pretty good idea... let's deal with the ISI and the Pakistan military and let's go recruit these mujahideen.

"And great, let them come from Saudi Arabia and other countries, importing their Wahabi brand of Islam so that we can go beat the Soviet Union.

"And guess what ... they (Soviets) retreated ... they lost billions of dollars and it led to the collapse of the Soviet Union.

"So there is a very strong argument which is... it wasn't a bad investment in terms of Soviet Union but let's be careful with what we sow... because we will harvest.

"So we then left Pakistan ... We said okay fine you deal with the Stingers that we left all over your country... you deal with the mines that are along the border and... by the way we don't want to have anything to do with you... in fact we're sanctioning you... So we stopped dealing with the Pakistani military and with ISI and we now are making up for a lot of lost time." (HILLARY CLINTON)

Gillard, Bishop & Hillary

Australian governments, both Labor and Coalition, have thrown more than half a billion dollars in foreign aid over the past few years at a pair of "charities" associated with US Democrat powerbrokers and acolytes.

Our annual aid to the Clinton Foundation began with John Howard in 2006 pledging \$25 million over four

years. That was in the Bush era. Our aid was to be [matched by the Foundation and used for HIV/AIDS work in PNG, Vietnam and China](#). Funding peaked at \$10 million in 2012-13 and continues. Australia is the single biggest foreign-government source of Clinton Foundation funds.

Fittingly, our new \$140 million commitment to GPE was made at [a five-star EU-hosted](#) jamboree in Brussels for 800 freeloaders from 91 countries. Other donors included the Islamic Development Bank (\$US400m). We all know how keen orthodox Islam is on girls' equity and intellectual empowerment. [5] A new private donor is "Dubai Cares" – and maybe it does, but under sharia law, unlucky women in the United Arab Emirates [6] get flogged 80-200 lashes for premarital sex. A half-dozen unluckier women in the UAE [have been stoned to death for adultery](#) during the past decade.....

(57) **ABSTRACT**

A method is provided for acquiring and transmitting biometric data (e.g., vital signs) of a user, where the data is analyzed to determine whether the user is suffering from a viral infection, such as COVID-19. The method includes using a pulse oximeter to acquire at least pulse and blood oxygen saturation percentage, which is transmitted wirelessly to a smartphone. To ensure that the data is accurate, an accelerometer within the smartphone is used to measure movement of the smartphone and/or the user. Once accurate data is acquired, it is uploaded to the cloud (or host), where the data is used (alone or together with other vital signs) to determine whether the user is suffering from (or likely to suffer from) a viral infection, such as COVID-19. Depending on the specific requirements, the data, changes thereto, and/or the determination can be used to alert medical staff and take corresponding actions.
