

United Nations; Sustainable Development, World Health Organization, World Economic Forum and UNDRIP come to Alberta and Canada.

Index;

1. UN Sustainable Development comes to Canada
2. UN/WEF agenda comes to Alberta
3. UN Sustainable Development, WEF, Digital ID, Digital Currency
4. Danielle Smith, UCP & Climate Change
5. UCP taxpayer funded climate change agenda.
6. Carbon Capture
7. UNDRIP
8. Alberta's connection to an Architect

These global organizations are working against the best interests, prosperity and liberty of all Canadians.
[Links embedded throughout.](#)

1. UN Sustainable Development comes to Canada.

Stephan Harper, 2015 UN/WEF Davos Summit; “[Thank you Professor Schwab](#) for that kind introduction, I also want to thank you particularly for the invitation to speak here that you extended to me earlier this year. But more than that, Professor, you have made the World Economic Forum an indispensable part of the global conversation among leaders in politics, business, and civil society. And in the face of continuing global economic instability, the opportunity this gathering provides is now more valuable than ever.”

Stephen Harper's Conservative's brought to Canada:

- 2007, WHO International Health Regulations
- 2009, Sustainability Act (UN Sustainable Development)
- 2013, “Bail-In Regime” allows banks to use customer deposits to bail banks out
- 2015, Paris Climate Accord; UN Sustainable Development

“The International Health Regulations are binding on the WHO and 196 countries, including Canada. The IHR, which came into force in 2007, requires countries to work together for global health security.”

Bail-In-Regime; Former Governor of Bank of Canada and Former Governor; Bank of England Mark Carney stated that depositors funds would not be secure under the new bail-in regime....saying that customer deposits will not be protected.

Harper signed Canada onto the UN Paris Climate Agreement; “December 12, 2015, [Canada and 194 other countries reached the Paris Agreement](#), an ambitious and balanced agreement to fight climate change...Stephen Harper committed fossil-fuel rich [Canada to end all production and use of carbon-based energy.](#)”

https://www.oag-bvg.gc.ca/internet/English/att_e_43947.html

Harper was sending CPC Ministers to the WEF Davos summits, “[The Ministers will also lead several sessions related to WEF's](#) theme: The New Global Context.” ‘A world in search of a new order....’

John Baird, [World Economic Forum Annual](#) participant was one of those CPC Ministers - Baird was new CPC leader [Pierre Poilievre's](#) campaign Chair.

2. UN/WEF agenda comes to Alberta

“FORTE works by retraining citizens to reach the United Nations Sustainable Development Goals as part of its ongoing partnership with the WEF.”

2021, FORTE's CEO and WEF Global Shaper stated that our government is “moving very quickly to re-skill and train people for the green jobs to replace ‘unsustainable’ industries such as coal mining, beef farming, logging and oil & gas...How do we reskill oil and gas workers and people in unsustainable industries?” Asked CEO Nat Ware.

November 18, 2022; FORTE continues to lobby/work with the UCP government and Alberta's latest Premier, Danielle Smith.

May 11, 2021 is the first public record of FORTE working with the Alberta UCP Government. Since then, FORTE has been working with several government departments.

Wellington Advocacy Inc has made extensive efforts on FORTE's behalf. Wellington Advocacy's staff are longtime inner circle political operatives of Stephen Harper, Jason Kenney and Ontario Premier Doug Ford. [WA Board member Ray Novak is a twenty year Harper](#) top political operative, as well as business partner in Harper & Associates. An organization with connections to eighty political parties around the world.

<https://open.spotify.com/episode/6WzEgnPka6L2AUd7dixdOe>

3. UN Sustainable Development, WEF, Digital ID, Digital Currency, Central Digital Currency.

In 2021, the Alberta UCP partnered with Trudeau on Digital ID 2021; “ATB Financial, is collaborating with the Government of Canada to provide the technology platform to support its [National Digital Trust Service proof.](#)”

*ATB is owned by Albertans. ATB is currently governed by the United Conservative Party Government of Alberta.

Alberta Premier Danielle Smith states her position on global Central Digital Currency:

“Is there Going to Be a [Central Bank Digital Currency](#)? Almost Certainly.” My dears...I acknowledge your fears, but I would ask you to soldier on...I can imagine a few ways that shifting to a central bank digital coin could bail the government out of the mess it has created...What about a Financial Transactions Tax? The **World Economic Forum** compendium document on digital currencies released in November 2021

shows a central bank digital currency is where the central bankers of the world are moving and it has already started in China...”

In 2014, the **Alberta PC's were actively working with the WEF**; “The (Alberta) WEF meeting was announced in a press release during (Progressive Conservative) Premier Redford's trip to the annual WEF summit...The event would be a first for Alberta. The government and the WEF would work together to develop a program on energy and climate change talks.”

Wildrose leader Danielle Smith: “The postponement of a prestigious [World Economic Forum](#) session planned in Alberta for late April is ‘highly embarrassing’”

4. Danielle Smith, UCP & Climate Change

Danielle Smith, 2022; “I talked about how the science wasn't settled on climate change, and I can tell you, I've come around full circle on that. I am now probably the first and early adopter of thinking that we can hit a net zero target and we can get there faster than anyone anywhere else.”

UCP 2021; “Alberta is committed to significant emission reductions ‘in line’ with the country's climate obligations, including Canada's Paris Agreement pledge to cut its emissions by 30 per cent.”

5. UCP taxpayer funded climate change agenda.

December 2022, UCP aligned with Ottawa's climate change lunacy and tripled Alberta's Industrial Carbon Tax. “[Alberta's tax on industrial carbon dioxide emissions will triple by 2030](#) in order to keep pace with the federal carbon pricing schedule, according to an order in council issued Thursday outlining sweeping changes”

In 2021 Alberta UCP committed Alberta to falling in line with the climate change taxpayer funded agenda; “Alberta is committed to significant emission reductions ‘in line’ with the country's climate obligations, including Canada's Paris Agreement pledge to cut its emissions by 30 per cent.”

The UCP signed Albertans on to; carbon pricing, Net Zero, Carbon Capture, 30% emission reductions, etc. An Alberta 30% carbon emissions reduction in carbon pricing terms, means a bounty of new taxes for the UCP, and higher costs and taxes for the consumer. Cost increases always make their way to the end user. Always.

CPC leader Pierre Poilievre ran in favor of carbon taxes multiple times in his career;

“These aren't Liberal talking points, this is the Conservative record, direct from their platforms and statements.”

“Investigate a cap-and-trade system that will allow firms to generate credits by reducing smog-causing pollutants,” the platform stated on page 34.

“Just last September (2022)...all the way back to Poilievre's first election in 2004...in 2011, 2015 and 2019, the Conservative Party ran on capping emissions for large polluters through regulation, a method of reducing emissions that puts a hidden cost on consumers by putting the cost on business. In 2021 it was

a full-on consumer carbon tax...[It was a horrible policy, but Poilievre ran on it.](#)"6. **Carbon Capture - 70% Taxpayer Funded Fraud.**

6. Carbon Capture

70% of Carbon Capture projects costs are funded by the taxpayer.

The UCP and the Trudeau government partner on spending \$31.25 billion of taxpayer funds, with much of that speculated to go to Alberta UCP Carbon Capture lobbyists - in direct subsidies and tax credits.

UCP Government \$30 billion in taxpayer funded Carbon Capture subsidies.

["Alberta is asking Ottawa to commit to \\$30-billion](#) in spending or tax incentives over the next decade to spur the building of large-scale industrial carbon capture projects."

Who holds the Carbon Capture Patent?

Calgary company Carbon Engineering LP, with **David Keith** being the company's founder. Keith is a Board member, and an individual who's been at the absolute global forefront of the climate change fraudulent nonsense.

Carbon Capture patent [US8119091B2](#)

David Keith;

- UN/WEF major contributor
- Coauthor 2001 IPCC Third Assessment Report
- Lead author 2005 IPCC Special Report on Carbon Dioxide Capture.
- May 2005, Liberal Prime Minister Paul Martin appoints D. Keith to the Canadian government's Sustainable Energy Science and Tech. Strategy.

CNRL's founder Murray Edwards partnered with Bill Gates in funding the startup of Calgary, Alberta company Carbon Engineering Ltd.

"Carbon Engineering is funded by several government and sustainability-focused agencies as well as by private investors, including [Microsoft founder Bill Gates and Oil Sands financier N. Murray Edwards.](#)"
The World Economic Forum is a supporter.

David Keith is also behind **solar geoengineering**.

Video, David Keith; [A Case for Integrating Solar Geoengineering](#)

Carbon Capture Billionaire Lobbyists to Alberta Politicians & Premier.

Murray Edwards also founded and is Chair of the Board of the **Alberta Enterprise Group**. AEG is a very politically connected Alberta lobby organization. [Danielle Smith was named President of Alberta Enterprise Group in 2021](#) and began advocating for Net Zero, carbon pricing and carbon capture.

Wellington Advocacy is a member of AEG.

Danielle Smith also has another Alberta billionaire supporter lobbyist in **Michael Binnion**. Carbon Capture lobbyist [Michael Binnion is a 'great' friend of Stephan Harper and 'close' friend of Jason Kenney.](#)

Joe Oliver, former [Federal CPC Member of Parliament](#) and Minister Harper sent to annual WEF summit. Oliver serves on the Board of Directors of a business interest of Michael Binnion.

7. UNDRIP

UCP implements action on UNDRIP. "[Action on UN Declaration on the Rights of Indigenous Peoples](#)

The Alberta government is committed to renewing its relationship with Indigenous peoples based on trust and respectful engagement."

UNDRIP is a component of the **UN global agenda**. A divide and conquer tactic of the UN which governments will promote as reconciliation. It is the furthest thing from that.

Recap; Alberta UCP active on UN Agenda 2030: Sustainable Development

- UCP align w/Trudeau on climate change fraud; UN Agenda 2030
- UCP working directly with WEF organization in FORTE
- UCP partner with Trudeau on National Digital ID
- UCP implement action on UNDRIP

8. Alberta's connection to an Architect

Former Chief of Staff to **Jason Kenney**, **Jamie Huckabay**, from 2010 to 2015, was the [Vice President at the Gerson Lehrman Group](#), a global organization-think tank, based out of New York city. During that time, Huckabay worked with the following individuals on the Board of Directors of GLG:

- **Joseph Stiglitz**, Former **Senior advisor, President Bill Clinton**, co-chair of the **High-Level Commission on Carbon Prices, WEF** since 1995. Involved in **IPCC**, as well former **Chief economist at the World Bank**.
- **Barack Obama's** campaign manager, frm
- **Hillary Clinton's** campaign manager, frm
- **Democratic National Committee Chairman**, frm
- **CEO of Pfizer**, frm
- **Ambassador to China**, frm

Joseph Stiglitz, Wanted: A **Global Green New Deal**. "[We will have to change many aspects of how we live](#), how we organize our economies, our cities, and our transportation, energy, housing, and food systems." "Stiglitz argues that we need to move away from fossil fuels to renewable energies."

Dr. Jordan Peterson speaks to Digital ID, central world government and a social credit system:

"It is 'highly probable' that Western countries will usher in an automated social credit system without anyone even noticing."

"Do you think what we did during covid could usher in our version of a social credit system?" - Reporter

"[Oh yes, definitely...](#) They won't even notice it. You can't believe how much people don't know...It's like, wouldn't it be nice if the central government, who is woke-oriented and makes carbon dioxide remediation the priority, knows exactly what you spend on everything so they can target you taxwise with precision...Once the machines can lock you out, oh, you are in such trouble." - Dr. Jordan Peterson

[“Gov. Ron DeSantis said policies coming out of the World Economic Forum are ‘dead upon arrival in Florida at a Tuesday press conference.”](#)

“They do this thing in Davos...all of these elites come in, the World Economic Forum, and basically their vision is – they run everything and everybody else is like a serf – a peasant. They’re going after energy, ESG and all of these other things,”

“Underlying a lot of that is the CCP. Xi Jinping is really kind of the puppet behind the curtain on a lot of this stuff.” - Florida Governor Ron DeSantis

That is the summary of how the UN Sustainable Development agenda, otherwise known as The Green New Deal, otherwise known as The Great Reset came to our Nation and our Province.

To put it plainly, the United Nations Sustainable Development agenda is all about global totalitarian control; The New World Order. Full Stop.

Thank you so much for taking the time to review this information. Please feel free to share this. If you’d like to see a presentation in your community, please do not hesitate to contact me.

UN Agenda 2030 Sustainable Development. All around the world the United Nations, World Economic Forum, World Health Organization have been working with politicians, governments, bureaucrats, bankers and business, enacting a plan to restructure Western Democracies. Including Canada and Alberta.

Trudeau, Notley and Singh aligned with the global agenda, as have conservative politicians. Elected representatives in Alberta and Canada must immediately be challenged on this treasonous betrayal. The UN Sustainable Development agenda, WEF, WHO, Digital ID, central bank digital currency, government controlled digital currency, Net Zero, carbon pricing, et al - all of that must be banished from our Province and Nation.

If Western Democracies fall so too does liberty, freedom and prosperity.

God Bless those who defend truth, justice, accountability and freedom.
