Danish soccer star Christen Eriksen collapsed during the Euro 2021 playoff match today

Inter Milan player Eriksen, 29, dropped to the ground at the Parken Stadium shortly before half-time, leaving players from both teams in clear distress; English referee Anthony Taylor called medics on to the pitch and Eriksen's **heart was restarted and he underwent prolonged CPR treatment**, which saved his life.

---

### UPDATE — REGARDING THE VACCINE

There are conflicting reports regarding whether Eriksen was vaccinated.

An Italian sports site reports he has NOT been vaccinated — “He did not have Covid and was not vaccinated either. At this moment, Eriksen is under the guidance of the Danish medical staff.”

**But the team cardiologist confirmed he got the Pfizer Vaccine 12 days ago.**

**Michael Tyler**  
@Michael52018513

Inter Milan Chief Medic and Cardiologist confirmed that Christian Eriksen received the Pfizer vaccine 12 days ago. He spoke an hour ago on Radio Sportiva from Italy.

This looks definitive: a leading Italian football (soccer) site ran an interview May 18 the chief doctor of Inter Milan, where Eriksen played.

**Dr. Thomas Binder, cardiologist, Switzerland**

Thank God Christian Eriksen is o.k!

Heat and dehydration increase the risk for the occurrence of vaccine-induced thromboembolism and physical stress increases the risk for the occurrence of ventricular tachycardia / fibrillation in the context of vaccine-induced myocarditis, which is highly likely the case here.

Hopefully, they will suspend the European Championship, so that we will not see more life-threatening side effects of the unnecessary, ineffective and unsafe serial experimental mRNA and DNA injections against SARS-CoV-2 than goals at this European Football Championship.

Make no mistake about it, the primary mission of the CDC and FDA is to optimize how much money pharmaceutical companies will extract from each American before we die. This goes far beyond covid vaccines, but they surely shed light on the darkness of the machine. No cancer cures will ever be allowed as long as the mind boggling profits from chemotherapy continue to be allowed.

6,000 people died during that time, that also had the vaccine. In most cases, you cannot determine causality. Sure, I'll give you that all medication will produce a serious reaction in SOMEONE. Aspirin has killed people. People have caught Covid and died, yet a California county found that at least 20% of their recorded Covid deaths were NOT caused by Covid. "Informed consent" would show the pros and cons of what you're shooting down. Since the mRNA GMO-jabs are untested, no health professional can say with certainty what they are or are NOT capable of.

You go ahead and "wait and see".

If you look at it as the Chinese, and the powers that be here, unfortunately the communist so-called democrats – want to "exterminate" as many true Americans as possible so they can replace "us" with people who will vote communist/democrat forever. That's why the indoctrination of our young has been their main goal, and successful. It's all about the take-over of our America the Beautiful. I worked in San Francisco for many years and with many Chinese. I will admit, they weren't my friends, or my favorites. Please Lord, do not let them take over our America the Beautiful.

3 otherwise healthy people have been dying every day, just in the USA, after getting covid inoculated.

Soccer players are some of the best conditioned people in the world. This picture of health was almost killed by "the shot" because it messed with his heart. Yet, TPB keep pushing it as "safe and effective". More people have died from being covid inoculated in the last 7 months than all of the people that died from any inoculation in the last 20 years. That's according to .gov's own stats.

Gotta make you make wonder what the ulterior motive is, especially with Bill Gates, the eugenicist, being involved in pushing the "everyone should be inoculated" meme.

So besides the fact that no one really knows how this vaccine appeases the god of moloch with its concoction of injected dead fetal matter or how it could permanently change or damage our DNA or how people are suddenly dying were still told to shut up and blindly trust the science. The mark of the beast could likewise be rolled out as a process and when world has no clue you could be forced to worship the beast without truly understanding what's happening. WHEN you force people to take the vaccine I yell out my body my choice. If you change the human body through multiple injections is it possible through conditioning to make it easier to worship satan? Get the people to destroy their own souls through a planned crisis? This is pure evil genius. If you take the vaccine to keep a job, to travel or to stay in the military etc. You could possibly be operating under the beasts authority. Remember the bible says no one can buy or sell anything without taking the mark. Clearly this medical planned epidemic is conditioning people very effectively.

It basically notified me that according to the state immunization record system, my son has not been vacc. for COVID and it is safe ...blah. and I should locate the nearest available site to get the shot. The letter is making statements of prevention that the makers of the vaccines clearly didn't say The makers tell you point blank there is no approved vaccine to prevent COVID-19. They issue a disclaimer, basically I can't suit them if I or my cold gets sick. Yet my health department is making up their own statement that has not been evaluated by the FDA. My child is not under the threat of death for me to get him an emergency authorized use shot.

**-OGRE-**It's now known (publicly) that the spike proteins go other places in the body. Not just at the injection site.

There's a reason that Pfizer was worried about the proteins going other places in the body. They knew that there could be severe reactions to it.

That being said, there's no way of knowing who it's going to effect.

Nobody should take the vaccine\* PERIOD.

If you already had COVID-19 and recovered, you should absolutely NOT get it, there's no logical argument for it.

### Subjectofussa

It is an obvious conclusion to make, healthy people do not need their heart restarted on the field unless something serious is going on.

This is all one big clinical trial. With no consequences for big pharma.

### Rhino

Totally called that when I saw it earlier. Guy this fit...had to have received the vaccine. Poison! Bet they link it to myocarditis...but with no explanation. 🤔🤔🤔
