Curriculum Details

Curriculum type : Local

Curriculum planning

Curriculum is designed according to children's developmental needs, daily experiences & learning interests. Through interactive learning, children develop cognitive skills, good characters & positive learning attitudes.

We will follow the "Kindergarten Education Curriculum Guide" (2017) to plan curriculum. Children of nursery classes will not be asked to write, and there will not be mechanical copying exercises and drills on calculation.

Learning / Teaching approach & activities

Thematic, project learning & whole language teaching approaches are adopted. Each class is conducted by non-Chinese & Chinese teachers. Students learn through various theme activities, play, storytelling and role playing, etc.. Working with others via group plan activities and playing cooperative games help students experience and understand the importance of team work and thoughtfulness, thus, resulting in a sense of joy and success. Activities include field trips & visits.

Assessment of children's learning experiences

Continuous & comprehensive assessment in cognitive, language, physical, self-care, social, emotional & aesthetic developments.
