I desire direction & instruction in the material world,  
I desire wisdom & understanding in the metamaterialistic world of many names (the supernatural, the metaphysical, the paranormal, the godhead, origination, the garden of eden, our pandora's box, etc.)  
"Do not love the world or anything in the world. If anyone loves the world, love for the Father is not in them."

Afrocuban santería teach us to stay away from her and her influence. She was a orisha with great powers and control over the mortal world but her greed and desire for more made her fall from God's good grace. She's part of the cycle of life and the wheel of destiny but everyone of her followers will be cursed.

Any deal with her condemn your soul and your reincarnation cycle will be heavily disturbed.

Have you seen Mexico? Those fuckers are mere dogs killing each other for her pleasure, if you support her and her dogs you're evil trash deserving to be kicked out of the reincarnation wheel.

May you find peace in this lifetime because it could be the last.

Santa Muerte is another entity, nothing to do with Afrocuban santería.

>Have you seen Mexico? Those fuckers are mere dogs killing each other for her pleasure

Yet the Mexican capital is getting gentrified by American expats who feel safer there than in New York for some odd reason. Not everything is the US-MX border towns. That's where the drug money is, and it is a very lucrative industry that indirectly might feed you or someone that you know without ever realizing it.

And it is not just Mexicans having fun. US Army Rangers, Mossad/IDF "Rouge" officers, and many other former military members turned mercs sell themselves to the game to feed their families. I even met two old East German veterans in a town south of Roma Texas back in 2006.

The Oskar Dirlwanger Division came back spicy level Z of hot hot, and they had some fun and almost got away with implementing the Bandit State utopia a decade ago.

And hopefully after November a Balcanization can occur so we can keep my Aridoamerica scaring hipster first worlders out and keep it medieval with the Rio Bravo Bandido state. If Uncle Sam just let Aridoamerica go Madmax the migration problem ends in less than a month and you or a family member might get a cheap organ transplant that could save your lives covered all by Medicare.

Mexicans are retarded for making death into a saint. The 1 Corinthians 15 calls death an enemy of humanity.
