

ABIGAIL C. FRYE

A Personal Note from a Double Dawg
December 3, 2020

Those who know me or know of me know this— I vocally support Kelly Loeffler and David Perdue for US Senate as Georgia's Republican Nominees. Their campaigns are working NIGHT AND DAY to hold the US Senate. I know and am friends with hard working individuals who are running both campaigns — they're freedom loving capitalists. They hate big government. They love the dawgs. They want to do right by Georgians.

But here's the problem— and here's what we're finding as time passes—the Dominion Voting Systems, used throughout the state of Georgia, are unreliable. They are riddled with fraud. Through them, it is impossible to ensure that the vote YOU casted for the candidate YOU chose was *actually* counted for that candidate. This issue was brought to light in the November 2020 general election. If nothing changes, this same issue will permeate into the January 5th, 2021 Senate Runoff races.

Our team and other teams across the nation are in a legal fight to fix the fraud (arising through the Dominion Voting Systems and other means) **well before** Georgia's January 5th runoff election. We are working around the clock to demonstrate how the facts, married with the law, conclusively prove that the results of this election cannot stand. Americans are confused, frustrated, and disheartened. Many have asked me what to do and how to proceed—I've written a few personal thoughts below.

1. We have a time critical obligation to demand that our Georgia Leaders investigate this fraud. They work for YOU! Give them a call. Write them a note. Share what you have seen and ask that they DO something about the way this election was conducted. Georgia leaders have the power to call a special session to review the fraud and take action— ask them to do so. If there is no fraud, there is nothing to hide. Your voice matters and we are in this together.
2. Make a PLAN to vote and **vote for the Republican Nominees for US Senate, David Perdue and Kelly Loeffler**. Cast your ballot by paper— filled out and submitted in person— or vote ON Election Day, January 5th—that way, there is time to FIX the fraud and ensure your vote is actually counted for these nominees.

This time in our history is bigger than party politics, and it is bigger than candidate preferences—it goes to the core of **who we are as Americans**, and the freedoms we treasure in our sacred right to vote.

I am writing this on my own, as a personal note. Georgia will always be home to me. Many of my fondest memories, dearest friends, most challenging and transformative experiences, and greatest opportunities of growth took place in Georgia. I strongly urge you to support the Georgia Republican Nominees for Senate, while standing firm for fraud-free and honorable elections. We are better together. Stronger together. More powerful with a unified voice.

In humility, truth and freedom,

Abbie
