

*I had a good life. I love my life in fact but what will be happening is for the best. The genocide crusade I'm calling it. the next best thing it is. It will be like the next big bang. The reason I'll be doing this is because of the government. The government is poisoning us. trying to kill us. but I figured it out people are infected from the government by a virus trying to kill us. Me and my family are the only ones not infected. They do not know what I will be doing. In the meantime I'll be making bombs, and mustard gas. I will be having fun planning this. I've been learning a lot from these other mass killers. The Virginia Tech shooter, the Halle Synagogue shooter, post Arthur shooter Eric and Dylan and more. I can't say how much I have wanted to do this. But it will be soon. I wish just to kill five of those virus infected jew bastard hostiles. They are called hostiles. I will not be killing kids under the age of 13. I will not be harming elderly people over the age of 60. I will not be harming pregnant people. the kids didn't do anything wrong therefore not infected. elderly people are too weak to hurt others. Pregnant people. I mean come on it says it in the name. I have 3 destinations and I'm planning to go. High School. a supermarket. Or a church. Where it's the most infected. The USSR will rise again, saving us from the Jew government. The Jews are the reason why you are infected. Non Infected People on 8kun and 4chan have helped me see this. I hope others not infected join me in the Genesis crusade. Help me kill others. Help me kill the jew government bastards. I am not a fucking neo nazi. I am a real soldier. I am a hero. The one to rise again to help kill. To help to build a civilization for people like me. Help me brothers. Help me kill the government bastards and bring real people back*
