The first CVG threads were started here in December by argiglowbro who then maintained those threads for months. There is still a CVG thread right now. Currently being maintained by a Ukrainian flag.

The same flag that started the CVG threads took my remote viewing on the dam in China and started a dam general full of "evidence" the CCP will use to blame America for the collapse of the dam. Why do they need an alternative story? The Mandate of Heaven is something the Chinks believe in--and disasters, such as what is about to occur with that dam are messages from "heaven" that the CCP no longer has that mandate. They have been running that dam general and gleefully providing evidence that the US is going to cause the dam to collapse. This pissed me the fuck off, thankfully both the archives and 4plebs have evidence that I've been talking about this event (which I first saw in 2007) for a long time. The flooding will weaken the dam, but a earthquake will finish it off and millions of Chinese people will die. I don't find that "funny" and watching that happen before my eyes was incredibly painful as a human being. Finding this being used as propaganda and lies--when the dam breaks, there WILL be fingers pointed.

CCP runs this board now. Earlier this week Jannies banned hundreds of /pol/ tards for posting in a criminal hunt thread in which ONE PERSON (probably a Jannie) posted a (KAY) post that the criminal we were hunting had made on (KAY) admitting his role in the crime. When I came back, I found the board completely under the control of the CCP. The exact same threads that were here when I went to bed, are here this morning, they are being repeated ad nauseum. Things we SHOULD be discussing, (such as the 60 minutes story on Julian Assange) are quickly buried.

The dam is going to break, but it was always going to happen. CCP needs someone else to blame it on. OH< HAI /pol/.

Chinks have always worn masks. Air pollution in China is horrific and mask wearing is a part of their culture. I believe /pol/ was used as a "evidence depository" knowing we'd spread it far and wide. We did.

The virus is real, but for "some reason" the severity of the virus was mitigated in the US. Well, I know how they did it, but it's pointless to even try to explain. Mask-wearing does work to slow the spread, but I believe it should be a personal choice. No one should be bullied for NOT wearing or wearing a mask.

Whether or not round 2 is severe depends on the effectiveness of the "mutation". We were told to expect a more devastating mutation out of Brazil. We got so many convenient "drops" didn't we? We also know that there has been some kind of "action" in Brazil, and whether or not it has to do with "putting down" the planned mutation? We will have to wait and see. Oddly the reports of the Chinese woman who had so kindly offered to man the CHAZ sanitation station, have been memory holed. The Chink involvement in Floyd, also memory holed.

Chinks, Israel, Soros---5 eyes cooperation. The battle continues.

They shoved that virus onto us--we tried to alert people-the MEDIA kept saying it was a nothingburger. They only changed their tune, immediately after Trump first spoke publicly about the virus. That Trump was being lied to in his security briefings about the virus is clear by his statements. But he may also have known about this via Looking Glass and knew that the virus would be mitigated in the US by means you'd never, ever, believe.

It was an attempt to get Trump to mandate things via FEDERAL action and tromp on state's rights. He refused. Thus the blue states were the most draconian. They tried again via the nigger movement to force him to violate state's rights. That's why CHAZ removed autonomous from their name as it gave Trump LEGAL right to intervene. They removed AUTONOMOUS and permitted the rioting to continue, hoping to provoke a reaction. /pol/ pissed everyone the fuck off by refusing to engage all the FBI nudging to violence, as did everyone else with half a brain. Including the president. Now the fucking CCP mayor of Seattle is left holding the bag and her private security force has been exposed. #CCPrunsPol

I love how the niggers are under the impression that this movement is out of "love" for them.

>can't go to church

>can protest shoulder to shoulder spitting / spraying screaming for hours on end.

Which group, in the face of a "dangerous virus" is being protected?

Oregon

>only white people have to wear masks

I kek'd

Which group was told via the chinks that Black people are immune? (remember Chinks HATE niggers). Did we see niggers celebrating on twatter that finally a disease that would kill all the white people has come? Yes, yes we did.

But what actually happened?

>majority of deaths are niggers

So extrapolating the data, who is Oregon actually protecting with their "whites only" mask law?

>niggers have to be the most fucking stupid people on earth.

>YEAZHA only white people have to wear masks

IF a new mutation of virus was spread among the protesters (as indicated by the chink at the sani station in CHAZ) I think it stands to reason that the governments encouraging this "largely peaceful protest" were indeed doing so in an attempt to rid themselves of the useless eaters

Were they successful? Only time will tell. EVERY hand on the REL statue was white aka Jewish. Jews along with their useful idiots China are helping run the CHAZ, They are also entwined with

>Thousand Currents (Rosenberg)

>Thousand Talents (Lieber)

>BLM (white commie kike whose name I forget)

>Sunshine (more white commie kikes too many to list)

Keep it up--things are only going to get worse. There isn't anything they won't do to stop November 3, 2020. NOTHING. Get meat.

I know this is /pol/ and anything longer than 5 minutes taxes the brain...but these three videos SHOULD give you a look at what is ahead if you're paying attention. I noticed it right off, and as far as I know, none of the channels are linked, they're just finding the same information.

Amazing Polly mad lab (how is the Floyd incident linked to the closure of meat packing plants? you're not even going to believe this shit).

Remember this one?

Look, Gates et al have NOT backed down on their "vaccine" hunt, and you'd think they would considering the current virus is not that great a threat and considering in 18 years no vaccine for SARS has ever been found. Melinda Gates said just the other day that it was most important to vaccinate indigenous and black populations. WHY are they still yapping as if we NEED a vaccine?

Remember what we discovered re infertility and the virus?

>get virus, become infertile.

>don't get virus but have sex with a man who did have it. Become infertile.

I personally am not going to drop my guard. I feel sneaky shit in the background and since Gates et al are still endlessly yapping about a vaccine, that tells me there's something more on the table. I admit that it is entirely possible that the mitigation technique used to tamp the first wave down to a dull roar can and likely WILL be used for the second wave. However, people are still going to get this and die. Is it wrong of me to hope that the plan to pass it among protesters is successful?

There is no downside to wearing a mask tho. As long as people who are closely interacting all wear one. Because we lack the agency to force people to do it, plain surgical masks that are meant to contain germs of the surgeon and protect the patient, simply won't work if everyone doesn't wear one. Rather than bitch about people who do, or don't wear a mask, choose to wear a mask that protects both incoming and outgoing, and that is at least a minimum of N95.

I have zero issues with people not wearing a mask. I will continue to wear one when I go to a place where a shit ton of others go--IE the grocery where I saw, with my OWN fucking eyes, an elderly chink woman at the grocery licking her hands & spent an hour picking shit up and setting it back down. The only reason we didn't have a massive outbreak in my area wasn't for lack of trying, but likely the inefficiency of the virus to live as long on surfaces as one hoped. Please note, in all my years living where I do, I have never, ever seen a mainlander Chink elder.

>t. lived in HI and know the difference.

Maybe the virus was inefficient, maybe the global mitigation was efficient, I have no idea, but I do think that they're going to "try harder" the second time around. Bill Gates is banking on it.

Want another fun link?

Al Waleed and Bill Gates? owned the Four Seasons hotel within the Mandalay Bay where the Vegas shooting took place. That we have been lied to about that entire incident is evident in the local Sheriff's first presser where he is literally surrounded by FBI just waiting to pounce on him should he say anything slightly out of line. We all know that was a bullshit mostly from the leaked photos of dead Paddock, who is shown with his bloody head and a puddle of blood, dead on the carpet, with UNBLOODIED bullet casings laying on TOP of the blood from his head indicating that whatever shooting at the crowd that happened, happened long after Paddock was dead. Then, there is Las Vegas John-RIP

I have been posting about AI via my remote viewing for a while now. Q is AI. Whether or not Q has been "decoupled" from the Lord and Master mode to "helper" mode...only time will tell. I can't tell. One day it seems "incoming"information says YES it has been, the next day the "incoming" says no, it has not been. The vaccine was meant to home in on the brain stem where the virus hides out. But I also saw that the virus they GOT was NOT the virus they were intending. I have ID'd the man I believe is responsible for setting loose THIS virus, but that information keeps getting buried.

Proof that when the virus was released THEY were expecting a particular virus?

>Pope angrily slaps hand of Chink woman in Rome in January

>Bazos sells off mass quantities of stock and then mandates hiring of food cart delivery drivers, then bugs out to NZ.

>Israel announces "yay, good news, we have a vaccine for this virus", then they discover oh shit, we actually don't have a vaccine for THIS virus.

My virus man, in his sick head, actually did the world a favor. I found the man I "saw" in my RV of this, and as far as I am able to dig on him, he matches exactly what I've seen. I need a few more proofs but finding information on his background is hard.

tldr the virus that got released was NOT the virus they were prepared for. My virus guy used the base virus that Lieber provided the Chink lab. Once China realized that the "wrong" virus was released they in turn purposefully set the Wuhan residents upon the world.

Right now the ZIONCHINKS are still very much in control of the narrative. I've never tried to "find" Lieber, he was arrested, but where he is now? I have no idea. Academia is 100% kikes, they are running the narrative via the media. They knew full well that killing a nigger on camera would be a spark, Chinks were ass deep in that. 10/10 guaranteed.

Here's an odd thing. I never, ever fail to "find" someone I'm looking for--until recently. I have helped with crimes, etc on the sly because I can tell if a person is dead or not from a photo, energy never dissipates, it merely changes form. Usually I can follow an energy "trail" to its conclusion, that's how I find bodies. (I don't do that anymore because I've decided that karma plays a strong role in wrongful convictions after a devastating incident where I not only found a body I wasn't looking for, I found the one I WAS looking for, and the innocent man in prison for that murder--bro talk about glad I am careful with my identity...they will never "find" that body because they are heavily invested in the convicted man remaining the guilty party. Because my finding that was a real danger to me, (because of who was implicated) I have completely stopped this activity. HOWEVER I have tried my hardest to "find"

>Epstein, and I simply cannot "find" him

>George Floyd, I simply cannot "find" him

>Charles Liber, same--maybe he's in a place that is shielded from outside energy. I do not know...

>Shi-cannot find her

>Man who released the virus? Can't "find him".

Make of that what you will. I have never, ever faced this situation before. I was LOOKING for my own edification to see if I was correct about Epstein--and even now, I have no fucking idea.

Bro, I have to stay clear of Q AI. Mostly because Trump only spoke on the virus after I went to Qresearch & unloaded on them for not alerting the public. FOUR DAYS LATER Trump gave his first presser. I do not know how I feel about that. Unlike the qtards, I simply cannot, nor will I take "a side" & start touting any party line. I will not take an oath, I will not say, one way or the other if Q AI is decoupled, and I will not be manipulated by anything. I am what I am. But I'll tell you this for free, a few weeks ago I was sure I'd be arrested for stuff I posted, & I think the only reason I have not been, is because no one ever believes me.

I get Q, but I also know what Q is, what the intention of Q was, and I know without a doubt that the effort to keep EVERYONE off balance & not knowing what to believe, is being played against EVERYONE.

>Trump won't win

>Trump WILL BE IMPEACHED

This mindfuckery is being done to both sides. Why do you think an angry mob attacked CNN? CNN not only "lies to us" they also "lie to them".

If I were to take a guess, I'd say that due to the impossibility of foreseeing all possible outcomes when a timeline shift happens, that BOTH sides are doing battle using Looking Glass. Something that happened to me, personally would scare if out of anyone, as it did me, & as I keep going over this "event" it often becomes a struggle to hold on to any level of sanity because what happened could not possibly have happened, yet it did.

I won't shut up. I am pissed AF over the dam general that was started as a pro CCP psyop after I posted my remote view (from 2007) about the dam breaking along with a new China in Focus video discussing the flooding which was, to me a red flag on the timeline. The efforts to place "evidence" that the US caused the flooding and hence the dam to break is happening right now, on /pol/ and to me, this isn't a fucking troll. I SAW millions of dead bodies in 2007 & to say that fucks you up is putting it mildly.

>Trump won't win

>Trump WILL BE IMPEACHED

This mindfuckery is being done to both sides. Why do you think an angry mob attacked CNN? CNN not only "lies to us" they also "lie to them".

If I were to take a guess, I'd say that due to the impossibility of foreseeing all possible outcomes when a timeline shift happens, that BOTH sides are doing battle using Looking Glass. Something that happened to me, personally would scare tf out of anyone, as it did me, & as I keep going over this "event" it often becomes a struggle to hold on to any level of sanity because what happened could not possibly have happened, yet it did.

I won't shut up. I am pissed AF over the dam general that was started as a pro CCP psyop after I posted my remote view (from 2007) about the dam breaking along with a new China in Focus video discussing the flooding which was, to me a red flag on the timeline. The efforts to place "evidence" that the US caused the flooding and hence the dam to break is happening right now, on /pol/ and to me, this isn't a fucking troll. I SAW millions of dead bodies in 2007 & to say that fucks you up is putting it mildly.

AH, I am RV ANON, and I see what I see. Everything I saw in a horrific series of "visions" has come true. The shift in the timeline happened in 2015. And not only can I prove it, I can PROVE it. Something as large as stone henge doesn't just "disappear". It was literally never there.

I've had you amateur RV tards try to slam me before.

PNW is going to be completely removed from the map. I saw this in 2007 as well. The timeline shift means that the "great sickness" I saw following the Cascadia, Juan de Fuca, and Gorlock rupturing and the subsequent tsunami, did NOT happen in the same order. The tsunami that happens will indeed re-shape the entire west coast. That tsunami was also difficult to "view".

You seem to be an institutional rather than natural RV, which is sad because Institutional RV people are severely limited in scope. Also, when working with timeline shifts one has to re-orient oneself to the timeline via events. To me the wulfu was that timeline orientation, the dam breaking, and it IS going to break, is another.

When the dam breaks in China, those in NZ need to head to the high ground. The fun part of this is that the elite have "safe havens" in NZ. Which are not so safe...

Oh good, the niggers in nearby niggertown have just started their fireworks again, in the rain.

I am most certainly NOT one of "you"...lol I am way more than you and kind of feel sorry about your limitations.

Same "human" events happened, but because of the timeline shift the response was different, and thus the outcome has been different. IE War with Turkey, Syria, etc...kikes lost bigley on that because Trump was cucking the war monger Bolton who was 100% unaware he was being cucked.

Natural events, however--the order of those are not to be confused by human directed events.

Sorry, whatever you are, is sadly "I took a class in RV and I learned how to see what is in pictures".

KEK, there's been a lot memory holed. The virus that did get released fucked the Chinks up one side and down the other. It happened before they've admitted it and it's been in the US long before and the deaths attributed to pneumonia. That data is in the Peak Prosperity video where normal in that timeframe in previous years are compared to deaths 2019- forward. There is a notable increase in deaths, indicating that the Wuflu was here, was active and killing people long before they admitted it.

When I see the man releasing the virus, it's an amazing trip into a sick mind. Chinks were caught off guard completely. They mandated vaccines on December 1, 2019 and I suppose they thought at the time they'd quickly have a vaccine ready.

>>265186763

LOL every, single, time. I know-but take comfort at least, that no one believes me, and by the time they realize that I was right, it will be too late. Sometimes things are meant to happen.

Karma's bitch tho--and once you've outlived your usefulness, I certainly hope you have an escape plan.

>>265187370

Yeah, and oddly I just warned him of exactly that. When they're done with the useless idiots, the useless idiots are always, always the first to be lined up and executed.

>>265188418

I realize that truth is painful, but let me call up a statistic for you regarding the reason WHY the US military had to drop their official RV studies.

>they accepted normie volunteers

>those normie volunteers ended up in insane asylums, like we see the retards playing with that new app without realizing what it is, and even if they had the skills to understand it, it would still make them insane.

Fact, you're kindergarten and don't realize it. But that's OK. You've not posted a single hit--but ok you're the pro. Imagine having to take a class to even get a teeny bit of forward thinking. Sad.

The only people who are still doing RV work (and making big money) are those with certain DNA combinations. Anyone can do a little, as the app has proven. Understanding it, that takes something more than taking a few classes and confirming yourself by finding what you expect to find.

I don't need to copy you. I just see what you are see your limitations and am happy to keep silent about it. But you just can't help yourself. You attack me any time I post. Kindergarten. But you won't realize that until it's far too late.

You do you. Nothing you say or do is going to change what is happening. Whether or not a mutation escapes from Brazil depends on other events which have not yet been determined. (the winner I mean)..not in this timeline. Remember, jr. same events, different responses, mean different outcomes. RV in one timeline does not apply to others. We had a timeline shift of epic proportions in 2015. Whether or not the fresh attempts to get that "great sickness leading to vaccine" actually happening, depends on several forerunning events.

Sorry you are unable to see that. maybe some more classes can help? Right now, only natural events and responses to such are printed in stone because the earth has had quite enough of our bullshit (again).

Just curious, when do you see the origins of this current "conflict" among humans?

There is NOTHING carved in stone about this virus. NOTHING and the main indicator of that is the ongoing efforts and pressers and endless yacking of Bill and Melinda Gates re-developing a vaccine. Don't you find that odd?

I hope you're not depending on your "mad RV skillz" to make important life decisions.

The virus was mitigated in the US (and the globe) can you RV it and tell me HOW they did it? I'll wait.

Now that the dust has settled a bit, we know better don't we? this is a nothingburger of overblown proportions, which allows governments to increase their hold on society.
While at the same time allow for mandatory vaccine which will cost us millions of dollars to develop, and will "sadly" have secondary effects on us, probably fertility related. But it's necessary to "end the isolation, don't you want to end the quarantine, anon?" ... it will be mandatory anyway.
As most of us will still deny it even if free, they will probably have to resort to more fearmongering or even maybe release a true lethal virus (at least focused on a few small farms and so) in order to justify it.
Even normalfaggots are dubitative about the vaccine and Bill Gates and so on (but they still are weak minded that's why a little push from government and they may surrender)

Let me explain some of your points.

First, the effect of the wuhan flu is not single-variable but multivariate.

Climate (summer/winter) and air quality affects the prevalence of covid19.

China has too much polluted air to breathe. They used masks since a long time because of this.

Their people eat trash food and inhale the unhealthy air, that's why they died from this new virus in a very high quantity (maybe hundreds of thousands of deaths).

They lied about THEIR numbers.

The next move from them was ensure that the rest of the globe has the (to them very lethal) virus. Else they would be left behind economically speaking.

Thus, they shilled hard in the WHO to let people migrate freely. (January early and middle).

The next move was to use their chink slaves worldwide to spread disease as much as they can, so the world is even with them. Thus Europe on February-March. At this point, the spread is irreversible.

Europe had a relatively bad year of flu, although not the worst, but the air quality in Europe is much better than China. Also they eat more healthy than chinese subhumans.

Only because of old age, many europeans have a few thousand deaths (which is not end-of-the-world). Chinks noticed their virus was not as lethal as in China (guess what... air quality... etc) but they continued their fearmongering so the rest of the world self-isolate.

Now: while most countries have passed the critical months of effect and we now know it was a nothingburger, our corrupt politicians are anyway into it for the increased control and powers they can have while on a pandemic.

This is also in the best interest of the chinese people, as the world in chaos and fearing of the chink flu weakens every chinese competitor.

This is all the story, and many of the most important variables explained.

Not every day someone has enough time to educate the ones like you that have double digit IQ and fish memory.

Yeah I take high dose vitamin C and vitamin D as best practice. Data shows that helps. Sleeping well-that's another issue. I have altered my schedule to sleep only after 4 am. Otherwise, all I'm doing is biting my nails & waiting to see who comes out on top. I am very mystified by this new "I AM RV ANON" who is posting completely contrary to how I have ever posted. I would never tell anyone what to do. I collect IRL data & compare it to what I "see". For myself being immune comp't from their last go at me, back then I didn't know how to get off here without being "recycled" I do now, thus I can guess that the last thing "they" would want is me dead. I was most disturbed by seeing my work twisted into the dam general, the same day I posted it the threads started. To me, this is not a game. Most people will never see the consequences of that.

To say that I find it becoming a game disturbing? this is not Pelechan or even coronachan. Those people are some of the poorest, most oppressed people on earth & while their end might be a relief, for them, watching it is soul destroying, seeing people use it as a point of propaganda & cheering? It's not fun. If I saw this dam breaking via natural means in 2007, suffice it to say that the AI also knows, thus it is a battle of whose propaganda is going to be most believable.

if I had to guess why the Fake RV dude is shoving NO MASKS & trying to force people to believe? it is because the CCP knows they are on borrowed time & want to get something kicked off against the US before. I do not see success or fail yet. BUT they most certainly did try (re what I've said about the protests). Time, I guess. Whatever you choose to do, you do it. Listen to that voice inside of you. Many people moved away from the PNW coast, including a NA tribe. Individuals decide their fates, no matter what mandates governments issue. You will never see me posting in a way that tells anyone else what to do, which is why Fake RV anon is Fake.

Yeah I take high dose vitamin C and vitamin D as best practice. Data shows that helps. Sleeping well-that's another issue. I have altered my schedule to sleep only after 4 am. Otherwise, all I'm doing is biting my nails & waiting to see who comes out on top. I am very mystified by this new "I AM RV ANON" who is posting completely contrary to how I have ever posted. I would never tell anyone what to do. I collect IRL data & compare it to what I "see". For myself being immune comp't from their last go at me, back then I didn't know how to get off here without being "recycled" I do now, thus I can guess that the last thing "they" would want is me dead. Headlines tell the tale. The exact timeframe the Media flipped.

If I had to guess, they figured "well this isn't the virus we were expecting, but let's see if we can work with it". That's the energy I get around the flip. Virus was real, virus was dangerous, a world-wide mitigation took place using a science that would blow most minds. It did work to keep it from getting "bad" here in the US. They have indeed regrouped, they HAVE tried to release another more--virulent version, they HAVE done it to blacks and snowflakes that they used only as mechanisms to spread. What I don't know yet, is if this was "caught", if this new version will also be FAIL. I do not believe they will have time to try it a third time before the earth shifts the bed.

>>265193152

Hey Jr. Why aren't you answering me?

>please tell the class, how was the virus mitigated world-wide?

>can you please tell the class with your (cough) advanced RV skillz, who released this virus, and why?

>can you please tell the class why you are doing something so unethical as to force post, with the nastiest energy I've seen in years, that no one should wear a mask and the virus is fake. You can't so you won't. Why are you so offended that certain populations are choosing to wear masks?

the symbol scares you, it should, if you know what it is. I am fairly patient, preferring to let LARPers do their thing, but one thing I am not patient with is someone pretending to be me, and trying to force people do to something. Agenda stinks as agenda.

Can't wait until you start LARPing on the aliens. Should be interesting af.

Logic 101

>Gates et al are still developing and shilling for a vaccine

>for what? the virus is mitigated

>>265193320

>fertility related

yep, and there is a reason I warned my rez back in 2010.. and Melinda Gates just said outloud that the first people to be vaccinated should be Indigenous people (re the rez) and black people, read niggers. And there it is.

yeah no...they did intentionally release the post infected Wuhanians upon the world but that was because they were butthurt. Not even the chinks were expecting THIS virus.

>Israel gets a virus
>Chinks get a virus
>5-eyes get a virus

crazy guy says NOPE, you get MY virus.
NO one, not even the chinks were ready for this when it happened. LOL I was looking deeper at their initial confusion, trust me there were a lot of calls that went like this.

>Hello, kikes/ WTF is this shit
>What the fuck do you mean chinks?
>5-eyes, they were werent ready WTF?

LOI there was enough finger pointing back biting and NO YOU, happening once the Chinks figured out what was going on. China absolutely released the Wuhanians upon the world, ON PURPOSE because they thought someone did it to them. Someone did, but not who they think.

Yeah I hear you. But the AI as you are describing it, isn't what I'm talking about. I use the term AI because I don't have another word for intelligence that is both a program and not a program. This is nearly impossible to describe in words, but imagine a neural network that every human on earth is "connected" to via one of those nifty virus sized batteries/transmitters/recievers that Liber was busy inventing. Kind of like a Black Mirror episode, that freaked me the fuck out, I was like WTF how do they know.

China has already implemented and are using many of the aspects of that AI as far as humans can. Meaning strict social programming and compliance. This will make it easier to connect their population. Again, freaking black mirror. Human activity being production.

The AI I see is past, present, future,--I simply do not have words. It is a net, network, a system of total control. UNcoupled from the "control aspect" it could be an amazing problem solver for humans, coupled? it will be, literally, the boss of everyone that is stupid enough to get that vaccine.

SOME aspects of their plan that I saw, have already been KO'd. The virus was supposed to also be the means of introducing a world crypto currency by force. That this was interdicted, does give me hope, but I am an observer. There were counterfeit bills contaminated with the virus spread among populations most likely to spend them. See the nigger Floyd, and his "positive" wufu test. I think that the mitigation efforts actually Ko'd that. There was also a container full of contaminated single dollar bills found and stopped before it reached people.

Take as bits and pieces, nothing means much on it's own. But Floyd, counterfeit bills, positive test...chinks right on the scene. Israelies on the scenes as riot agitators. BUT from all appearances they continue to fail.

LOL I'm not you, I am RV ANON, and I've been posting my stuff for years here. I get banned all the time, the latest, Monday. I am sort of surprised I didn't get banned for exposing Raz the first night we all met him. And there is no fucking way in HELL I am giving you anything that can reveal my code words so you can further LARP as something you clearly are not. If you had even the slightest talent, you'd be posting screenies of posts with dates far far in the past---but you can't & I'm not giving you access to mine.

What was the code word I used in that post that will bring that up immediately? LOL they let me run it. Good, it served its purpose. I get banned all the fucking time here. What code words did you use over at qresearch to alert the eyes to some dangers? you are a fucking FAIL LARP, your ethics are pathetic. I would never ever pretend to be YOU & use a bane post as evidence that I'm anything other than what I am. I use code words bro-let's see your original thread? Because not once, not ever have I EVER used my shit to start a thread. Ever.

Now, tell the class, what, exactly, was done world-wide to mitigate the virus's severity?

And also explain, to the class, why you are shilling so damn hard to convince people not to wear masks, when ethically it should and must be, a personal decision.

We're waiting. Because anyone can read your posts in this thread and decide within themselves who is shoving shit unethically, and who isn't. Notice you ignored that symbol. Did it scare you? It should have.

>>265197954

Yes and no. NO ONE was expecting the virus that they got. Mitigation efforts were not undertaken until math was applied and used, and that did not happen for months. That is why China and Italy got hit so hard. I explain..

anyone shilling for or against masks, forced or not, is doing so from an agenda. People should decide for themselves. The choice vines will remain, no matter which path the virus takes.

LOL man--that was very very fail. The language that you used was clearly not me, nor would I ever ever speak that way when doing my RV posts. Unlike you, my posts are not fail. That is a level of RV FAIL so fail that I'm stunned you even posted it, unless it was to try to discredit me. Friday 12 june? Are you kidding me? LOL

You also failed to include ANY code words, and that language is so fail and so ugly and SO FAIL (lol kent state? Well you failed there dintcha? I didn't.)

Holy shit, just stop when you are ahead. There not only will not be a Civil war, there is not going to be any WORLD war.

Here's a wee hint tho re Seattle.
Seattle was originally targeted for something a bit different. /pol/ literally memed that out of the realm of possibility by talking about it so much. We made it impossible to carry out. Thus plan B was activated. Was Seattle pozzed? YES< was Seattle intended to force Trump to use force and violate state's right? BUT Seattle is still going to be destroyed. If you understood timelines and timeline shifts, you'd know that.

That post is pathetically dated 12 June. Please, at least have the good grace to be embarrassed. I certainly hope if you're "advising" anyone, it's the bad guys. HEHE I'm absolutely saving this tho, thanks.
>how to RV FAIL 101
Anyone doubting who is the real RV Anon, just have a look at his "proofs". OMG so sad.

gate funvax that's supposed to turn off part of our brain. How would we know it's clean?

Not my shop. The people that developed this are well family and have no interest in money. They were beyond that a long time ago. Remarkable stuff.

UFO stuff is fascinating. The craft from Brazil and what was in it and a few other things were shipped to Area 51. Now it seems something is monitoring the site and it seems wants their stuff and things back.

Well that was fun. All dressed up and no where to go. Guess we will give it another night. On another subject the vaccine we were testing in Brazil and Venezuela has a 100% cure rate. It provides immunity to those not infected and kills the virus in those infected. Guess it was smart to be one of the first to take it. Will know today why I was brought back here. What a hoot.
