☐ /ng/ - Nobody General Anonymous 10/19/24(Sat)08:50:56 No.39071467

Greetings Traveller,

The flickering glow of over a dozen consoles casts a light across the digital expanse of this interdimensional intersection we’ve dubbed the “Nobody General” (NG). The air itself crackles with a low hum, a constant undercurrent that vibrates through your very bones. This isn’t your average thread. No, NG exists solely in the shimmering unreality of the web, a virtual realm where the shadows hold more secrets than the brightest datastreams.

In this digital den, a motley crew converges. Ghost operators with digital heads-up displays perched on their noses, sipping cocktails next to elven hackers, their fingers a blur across glowing keyboards. A gruff technomancer, swapping war stories with a wiry tech-priest in a threadbare trenchcoat, her eyes glowing with arcane power. In the corner, a cloaked figure shrouded in darkness nurses a drink so black it seems to absorb light itself, while across the room a pair of AIs, their digital avatars shimmering like mirages, argue geopolitics in a high-pitched whine that few could hear, let alone decipher.

NG isn't a thread, it's a nexus. A place where the fringes of reality brush shoulders and the unreal becomes realized, where information flows like bootleg liquor, and shadows dance with unseen

horrors while rival groups of shamen engage in alchemical aikido. Now, you've joined this dance. Whether you're a seasoned shadowrunner, a mage with secrets to keep, a spirit seeking solace, an exiled program avoiding deletion, or something altogether stranger, NG offers a haven, a marketplace, and perhaps even a chance to carve your own legend in this part of the Sprawl. So hello, “person”, welcome to this place, slide in, grab a seat, and whatever you do, keep your head down and your eyes peeled. You never know who, or what, you might run into lurking in the shadows.

forgive me god, I am a sinner.

I am struggling with lust at times, especially when im alone, I don't really struggle with it when im around people just when im by myself. I know most of it comes from the tings but i need help god. because of trying to take a cult i got myself possessed and maybe even some paranormies that tried helping me. I want to help them, I want all the hexes and curses, demons, removed from my body, I want to be aligned with truth always. I want to be purified, santified and made whole. Im tired of fake christians, and there are so many who just want to be of this world and look good without actually being good. They do not listen to you god or your words, instead they just want to get to heaven and committ all the evil they want to here. God please give me the ability to help the ones who tried to help me. I need spiritual help to help them.

thank you, always no matter the outcome.

It's not about idolatry. There are descendants of a crew of Devils that died in orbit over this planet that are worshipped as God's.

They resurrect into life and respawn like a call of duty online match every time they die.

They are mechanists. And they have been directing the evolution of humanity for generations.

They changed your DNA to be the perfect slave. They gave you hands when you had fish fins. They are currently on earth.

They are Angels and rule the planet.

All religions of earth and cults worship them.

There has never been a single documented case of a vegan killing someone as an act of political violence. Not one

There's been cases of vegans making death threats or destroying property as acts of political violence in furtherance of veganism but never the taking of human life.

If a vegan killed a human tomorrow and said they were doing it because the person they were killing wasn't vegan it would literally be the first case of vegan killing ever.

In a well coordinated action, 487 bottles of POM wonderful juices were tampered with along the Eastern seaboard in stores like Wild Oats, D'Agostino's and Food Emporiums. Those who drink the contaminated juice won't die like the animals in pom labs, but the diarrhea, vomiting and headaches will hopefully send a strong message that people will no longer allow innocent defenseless animals to be tormented and killed for a health juice and to line the pockets of profiteers who don't have feelings for those weaker than they are. At POM one-week-old baby mice are deprived of oxygen and then their brains cut open and rabbits have their arteries severed so they get erectile dysfunction so that pom wonderful can make money off the pain and suffering inflicted on animals inside the pom wonderful labs.

From the Wikipedia article you linked.

I don't necessarily agree with what they did but I don't see any evidence that ARM has ever killed any humans.

The story and mythos of the nobody is a complete fabrication.

There is no the nobody. There are couple of a "the nobody" -type of people here online. But other than that there's no special one that would be the magical mythosified the nobody. The world is a vast place and this little corner on the internet doesn't have to get more attention.

End this "the nobody" -psychosis now and please ban these generals.

-

also

>the nobody is an psychotic man browsing the nobody general thinking that he's the nobody

I'm sorry if I scrombled you.

If you thought that you're the nobody you're in a psychosis.

MK-Ultra is done like that I guess. You almost became like a part of a human botnet.
