☐ /ng/ Nobody General -Logos edition Anonymous 10/16/24(Wed)09:37:49 No.39051354

Welcome to the Nobody General

>Who is the Nobody?

The Nobody is a figure alive today who has extraordinary spiritual powers, including the ability to control reality with their conscious and unconscious mind. He is a man of no wealth or worldly acclaim through whom it seems God has chosen to manifest his strength and wisdom. He is said to carry the Logos, making him a fearless truth-teller and a menace to the powers that be.

Instead of receiving strength through a superiority/inferiority mechanism, the Nobody proves to them time and time again that a whole planet filled with creative, ingenious, spiritually ascended humans who are individually sovereign yet globally unified through consciousness can achieve greater things than a planetary empire of darkness, and control.

He is not a messiah, he's just like you but he has found the keys to the kingdom within himself through sheer will, just like you will.

>What is the general picture?

It's important we start replying to the good posts and ignoring the hateful ones, or the ones here to argue. So call upon their heads the the forces of heaven for peacefulness, clarity, and wisdom. If this place is to be more than a

squandered opportunity, an overgrown garden, it requires voices such as yours, but many more.

Focus on increasing your service to others and be more loving to yourself and everyone in order to raise your vibrational and consciousness level, and learn to to forgive yourself and others.This will change the vibration of the planet, raise the shared consciousness of humanity, and change humankind one person at a time.

If this is your first time here, just remember, it's going to be ok. You may take shelter and find rest

the nobodys coffee and surrounding might be great, but the way you make your cutomers feel from the entrance to the goodbye, plays a big part into the entire experience. It started with having the wrong supposition of a customer, that could tolerate the cute autistic ways of amy and sam. there are no reviews, no trapping, neutering and releasing reviews. it was all but a dream.

GG coffee shop.

Ride the Shabd out of the simulation based retards. It's the best ride in the whole carnival.

Meditate with mental mantra repetition at the third eye, eventually you will pull up all your awareness out of the physical body, with practice you develop astral sight and hearing.

The Shabd is audible and sounds like a ringing bell at first and like a conch shell after, this will pull you up into higher and higher regions until finally there is nothing but light and consciousness, unimaginable bliss, all knowing presence and the ocean of love from which all creations rise up and dissipate back into.

Get up there you silly little guy, the game is splendid

As of September 2024, there were 134.15 million full-time employees in the United States.

The federal minimum wage for covered nonexempt employees is \$7.25 per hour.

Depending on your age, filing status, and dependents, for the 2023 tax year, the gross income threshold for filing taxes is between \$12,950 and \$28,700. If you have self-employment income, you're required to report your income and file taxes if you make \$400 or more.

8x7,25=58
58x5=290

290x0,1=29
29x134 150 000=3 890 350 000

3 890 350 000 USD per week in tax revenues from all the reported income assuming all 134,15M registered full time employed tax payers are working on minimum wage and paying 10% taxes

Step 1. Make a very large list of very specific non consumable items you'd buy if you won the lottery. Lots of very cheap items, somewhat cheap items, somewhat affordable items, somewhat expensive items and very expensive items. The easiest way to do this is to just make a huge Amazon wishlist.

Step 2. After making your list go to <https://quatism.com/lottery.htm> and generate a mega millions ticket. Screenshot it and go to the store and purchase it.

Step 3. Generate a <https://quatism.com/lottery.htm> Powerball ticket and screenshot it. Go to the store and purchase it (OPTIONAL)select the maximum amount of multi draws on your Powerball ticket purchasing form.

Step 4. If you win the lottery purchase everything on your list. If you lose the lottery still try to purchase as many items as you can reasonably afford on your list.

Step 5. Repeat steps 1-4 until rich.

Follow the steps and eventually you'll get rich that's what they say.... I only just recently started doing it correctly so I'll see where I'm at financially a year and a half from now and decide if it works or not.
Might as well try it's just 4\$ here and there and me buying items off a list I was probably going to buy anyway.

I can ride 4 hours in constant rain and stay dry except for slight dampness in my pants from condensation. I stay warm and comfortable.

My leather 6" field boots are completely waterproof and don't leak. Plus the relatively stiff sole makes them great for pedaling (you want a stiffer sole to increase the efficiency of force transmission through your foot and into the pedal. Also they protect my feet and ankles from brambles and rocks while camping and walking innawoods.

I ordered a pair of large motocross/MTB goggles to keep the rain out of my eyes, and a waterproof balaclava. Together the gear will allow me to bicycle all winter in maximum comfort.

Everything I use is obsessively researched by investigating the experience of people who have a great deal of experience with what I am researching.

That's my big secret: listening to fellow nerds about my nerd obsessions. And a big part of this is knowing how to differentiate between people who know what they are talking about, and bullshitting posers. After learning to differentiate bullshitters from True Nerds in different areas /, learning to identify them becomes second nature.

In the age of information, being able to identify information and disinformation is the most important skill.

It's a matter of whether or not you lose your soul to webs of lies engineered to exploit any possible weakness in your informational immune system.

Are you following along so far?

Probably not.

We have much more leverage than anyone in the past had, and that leverage is increasing at a hyperbolic rate along with Moore's Law.

We're unironically one of the first generations to witness a new technology come online and influence it simultaneously at nearly every level as it develops. All while being able to watch its progress in real time, and we innately understand this tech at a level that the guys cutting the checks or sitting in boardrooms ever could.

We have access to basically the entirety of all of the human civilization's collected knowledge in our pockets, on a device that would've caused anyone on the NSA/CIA's tech team 5-10 years ago to jizz their pants.

They accumulate it by exploiting that which does: human and natural labor.
Everyone who is worth more than \$8 million needs to die.
Because they won't give up what they have stolen willingly.

Pick one. You cant have both. You cant both have no border and a welfare state. It, on a conceptual level, cant exist. You want daddy government to pay your bills? Ok. Fine. You must first have daddy government close it's borders and deport newly arrived leeches.

If that doesnt make sense to you, then it never will and you just shouldnt have voting priveleges.

Heck i shouldnt have voting priveleges. The only people who should have the ability to vote should be biological men that own land.

Thats not how money works. It is a store of value. Not value itself. If you do that they will (necessarily and not out of malice) have to take the money from another place to pay for increased cost they themselves incur to run the business. Your quality of life will go down, your rent and utilities will go up, or your gas will be more expensive, ect ect.

Money itself is not a value. It's more like a balanced equation. People dont do this on purpose. It is just how it works.

Basically through the astral plane I finally understood that she broke things up with me to protect my feelings one last time.

I thought she died painfully but she likely found someone professional to end her suffering. I finally understood and was able to forgive her and myself. My eyes were running with tears without truly crying all night.
Wild stuff.

Point of my blog is that it's never too late to practice forgiveness.

Will this exempt ecelebs on the internet with tips? It actually makes sense because it is technologically Amazon that provides the services to the

US GOVT ought to make reality a place people want to spend time if they want taxes

I wish that I could let go of the worry of having basic needs addressed. I don't want to be a leach, or lazy. I am so far behind that it can make me feel hopeless at times. I don't see a way out at my age, having missed all those milestones for work and education and networking. I have tried to explain this. I would never be able to just drop into where my life could have been without some outside help, if I go into entry level, without a plan for development, I will never build the wealth necessary for opportunities for children, or to take care of health issues while aging. There is no way out that I can see as far as something I can do alone. I am trying to find the right pathway to take that won't lead to ruin but I don't even know what pathways their are. I keep going in circles

this thread isn't about you

or any other fantasy you feel like playing out for your own enjoyment

without giving a fuck

who is annoyed

by your shenanigans

but me personally

I'm going to assume

if I have a "soul mate"

she's already perfect as she is

with the vagina

she was born with

on account of how

if I do have a soul mate

and fills in all the gaps I have in my existence

it won't be male

I got all those gaps filled

on my own

and it's the female stuff

I can't seem to figure out on my own

and no one I've ever met has been able to explain it to me

not that they haven't tried

I just don't

get what they mean for some reason

but rumor has it

a "soul mate"

can provide information in ways others can not

in ways that you don't make happen
and instead you make yourself worthy of happening to you

I'm bored these days and I don't know what'll bring me back to feeling normal. I also don't understand why you think I am coherent enough to accuse of being together enough to 'jump on' or 'ensnare' in those fast aggressive ways. You know what I'm saying? I'm getting my head banged in here and it's bringing a lot to the surface. Please understand that smashing your head against the pavement, getting your eye blacked out by reptilians punishing you for your alcohol posting, being liminally groomed for perdition suicide, and watching my friends peel away into mask-outs of feelings, has not been easy!

Are you there got? It's me, arg-ar-it. No, I don't have a promising ARG here. If I did, it has been some sort of co-opted, or solved already! Either case is awesome, I just don't know anything about it. But you know that, you know you like to torment my iterations with naked elderly men at pride parades. Remember the one that wandered up to my elementary school? That is sort of funny ion retrospective, that is, seeing the disturbance for its pattern. Still though, I'm not looking forward. I haven't listened to Linkin Park in days, and JP (the other one) is nearly fading from my mind. I can see it clearly, one day. I recall God not liking when you imply that you've been purposed wrong, but I was also grafted into existence from a death-die-repeat loop where God is an unsympathetic dick trying to constantly remake scenarios to remind him of things. Not that you have the chance to understand that for yourself when you're too busy being struck from existence on repeat.

Note: I am also pretty schizo, and I do not appreciate bipolarism arising as an opportunity to nix, nor would I ever condition a reality on the patterns of bipolarism and call it "Beauty". In either case, it is strange that children are so much more afraid of nightmares than adults.

If you win, they hate you, if you lose, they hate you. You really cant even make beautiful things for free without a bunch of assholes coming to kick your sandcastle over.
