Little money for Ferguson, scene of rare U.S. suburban riots

By Edward McAllister and David Greising

(Reuters) - Sonya Roberts' liquor store in Ferguson, Missouri was vandalized during rioting in August and November, and with no government aid available, she is relying on Internet crowd-funding and a credit union loan to keep afloat.

"I don't know if I am going to survive past the end of the month," said Roberts, 46, whose insurance does not cover the \$37,000 worth of damage to her store on West Florissant Avenue. The roadway was the main thoroughfare for looting and arson after a grand jury last week decided not to charge a white police officer in the shooting of a black teenager.

By Edward McAllister and David Greising
December 5, 2014 2:47 PM

In Ferguson, more than 50 businesses were damaged, 19 severely, according to city records. Where business once thrived, police tape flaps in the wind. Dozens of storefronts are boarded up, while others lie gutted by fire. Many residents said they were staying away from the badly hit areas.

INSURANCE CLAIMS

The federal government has programs to ease financial distress in cities with more than 50,000 people, ranging from stabilizing economically stricken neighborhoods to disaster recovery assistance. But as a city of 21,000 people, Ferguson is too small to qualify.

The state has not helped much so far.

Nixon canceled a plan to call a special legislative session on compensating Ferguson for the cost of policing the riots after Republican legislators argued there was no need to spend on security beyond the amount in the existing state budget.

Disaster aid from the Federal Emergency Management Agency will not be forthcoming, the state was told in August, because such emergency aid does not cover acts of civil unrest, Nixon's spokesman, Scott Holste said.

The rioting in Ferguson, just north of St. Louis, caps a period of financial decline, made even worse by natural disasters. Tornadoes hit the small city of roughly 9,000 homes in 2011 and 2013. Its most recent budget, published in June, describes its recovery from the recession as "glacial".

DELLWOOD TOWN CENTER, CORRIDOR SEGMENT 3

By: John Carter

The intersection of West Florissant Avenue at Chambers Road, in Dellwood, is an important central site that has regional access and convenient connections to downtown Ferguson. Dellwood City Hall, Dellwood Park and the Recreation Center are major civic assets in this area, and Dellwood Crossing is one of the most successful retail centers along the corridor. However, older retail is struggling and Springwood Plaza has been vacant and unproductive for several years.

The HSEEP Training Course

The HSEEP Training Course incorporates exercise guidance and best practices from the HSEEP Volumes. Throughout the course, participants will learn about exercise-related topics including program management, design and development, conduct, evaluation, and improvement planning.

The HSEEP Training Course is an interactive course that allows participants to share personal lessons

Early Release-Late Openings

The course has been developed by the U.S. Department of Homeland Security (DHS) using input from Federal partners, subject matter experts (SMEs), and State and local representatives. HSEEP is a capabilities-based exercise program that includes a cycle, mix, and range of exercise activities of varying degrees of complexity and interaction. The purpose of HSEEP is to build self-sustaining exercise programs and provide a standardized methodology for designing, developing, conducting, and evaluating all exercises.

Participant Preparation

Participants need a basic knowledge of exercise design and HSEEP terminology. Therefore, participants are **required** to complete Independent Study (IS)-120 A, An Introduction to Exercises, before attending the HSEEP Training Course. The IS course takes approximately 3 to 5 hours to complete. To complete this requirement, follow these steps:

Go to training.fema.gov/EMIWeb/IS/IS120A.asp and select "Interactive Web-based Course".
After completing the modules, select "Take Final Exam".
Obtain proof of completion of the course.

Additionally, the HSEEP Training Course will briefly cover other DHS initiatives. As such, it is **recommended** that participants complete the following IS courses:

IS-130, Exercise Evaluation and Improvement Planning
IS-139, Exercise Design
IS-700, NIMS, An Introduction
IS-800 B, National Response Framework, An Introduction

The course will be held at the Sandy Hook Fire Department, address below.

Location: 18 Riverside Road, Sandy Hook CT
This event is 37 miles from you (06106).

Swedish official admits toxic 'chemtrails' are real, not a wild conspiracy theory

According to Hagberg, the sprayings, a joint endeavor by the U.S. Central Intelligence Agency (CIA) and the U.S. National Security Agency (NSA), are actually a toxic mix of chemicals, viruses, and metals that she has collectively referred to as "chemtrails."

Notice there is no blood here, even though at this point our "terrorist" has sawed the neck a few times, and more importantly, notice the position of the "victim"

Banned in Britain (oh my)

Notice there is no blood here, even though at this point our "terrorist" has sawed the neck a few times, and more importantly, notice the position of the "victim"

The "victims" position was important to notice, because if it really did happen that way, and this beheading was real which would have involved a lot of twitching and jerking, WHY IS THE SAND CLEAN EVERYWHERE BUT WHERE THE BLOOD WAS POURED? Beheadings spurt like CRAZY, WHERE IS THE MESS?

AND, A SALIENT POINT: You mean to say that puny little knife, sawing back and forth, cut the neck off as clean as the headmount on a department store dummy? WHAT A LAUGH!
