Oh no I responded to the right person

Nobody is

>downplaying the right for the shitskin to do what the fuck he pleases

If anything you cucks are arguing that white people should be able to do whatever the fuck they please with zero consequence, like fucking with some fat sikh nigger smoking a vape pen in public

If it was a white retard puffing a vape pen accosted by a nigger, you would be defending the white retard for stabbing the nigger

stop being so disingenuous you turd eating shitstain on your mothers cunt

>muh white victimhood

The nigger was minding his own business hitting a vape pen when captain save-a-ho wanted to impress his asian whore and started you know, assaulting somebody with zero valid reason.

He got what was coming to him. If you would bother to read the thread, you would know this.

Why do you think anybody cares about your stupid opinion when you openly admit you have zero clue about the thing you're opining on? Idiot.

My argument is flawless. Keep your stupid fucking hands to yourself.

The white nigger had no right to lay hands on anybody for vaping outside. Get over yourself.

why are you being so delusional about it?

if it was some nigger attacking a white nigger for vaping in front of the starshits who stabbed the nigger you would be talking about self-defense

It's almost like you're morally bankrupt, have no scruples and your ethics are pretty much exclusively tied to whatever is beneficial and convenient to you

Stay Strong. Make srue you are in the highest white locatioon in your area. Countrysides are probably totally safe. As far as cities like me... I hear the gunshots baby in my 95 percent white suburb across from an ever shrinking black ghetto... When some niggers smashed in my car and stole hundreds of dollars of electronics i was selling off, the came and fingerprinted the car... they got the guys name... but then said "we cant find him" and never contacted me again...

Around the same time, I was at the nearby gas station, two nigger boys come up with this nigger hobo and the kids threaten to attack me, they try to get me to give in and give my wallet but I ignore them and act as if they arent even there...they proceded to try to mimic smashing

in my car and windows, and elude to hurting me.. I ignored them because they are animals and I was showing dominance by not giving them any weight of my mind.

The kids wander off and the nigger hobo says i WUZNT GONNA HAVE DEM HURT YOU OR NUFFIN... and then he puts his hand out asking for money.. ... I then had the insatiable desire to kill those kids right then and there under my car but the only reason I did not do it is because I assumed they may be armed... But it shows these kids are mirroring what the jews were pumping into their culture and really were acting without actual will.. So clearly unprepared had I actually been armed..

Ive had these niggers follow me around the city, try to rape me using conditioning techniques and call me a faggot because they found me attractive... has happened a lot... had a black guy at white castle want to get my number even though i dont identify as trans.. im just this hybrid creature here to kill kikes and niggers..

But i want to see the institutions burned I want to see my marxist professor put upon the fire for betraying his race in their greatest time of need... for destroying the minds of the youth and for laughing at my face when I said America was our home.

They arent people. Its unclear what they are. We dont have the full picture until its revealed to us here soon. But obviously they are demons, or some kind of alien race that somehow got stuck in here with us... i think were sort of like in a petri dish and an ai simulation... i wrote my phillosophy final thesis on the fact that virtual experiences are the same thing as real experiences.. beacuse we experience them through the same mechanisms of sensory data... I was always aware before I was aware.. its quite fascinating.. blood remembers... the awake can never truly be asleep and the layers, when completely broken through cannot be laid back over us without severe trauma, hopelessness and invalidation.

What they do to us is cause doublethink thats what MK Ultra is... two ideas same time. Thats what the tranny thing is... im very fucking masculine mentally but i also am very androgynous and an incredibly very low T... ive outlived about 10 or so fucking faggots and that fucking queer community lashed the fuck out at me when I started to move right... I watched dozens of people desert me to .live the live of total isolation... the life of a monk... I care only about knowing and once I know, I will enact judgement upon the wicked and free those I can with what gifts I have, which is all we can do.

the trans shit is a misnomer.. thats just how we are.. were sorta fluid.. were not nigger cattle sucking shit out of cow assholes... were the more sensitive and mind oriented evolved segment of the caucasion race... I think they call it aspergers or autism, starchildren or soething? I have an intrinsic feeling that I am alien and always have and its been a large segment of my music. So in that sense I was given a message for some reason and I have and you can find it on Soundcloud at oadriax. oadriax is a word i found in the language of the angels that meant lower heavens... so, thats where we are I imagine, the layer below.

Let me lay it out. Its not THE JEWS... The Jews were a bunch of different tribes... as far as i can tell they were a bunch of wise cultured peaceful human sub species...

The Jew is eitehr some being that is foreign to this matrix or is simply some ancient homicid like neanderthal that we believed had died out.

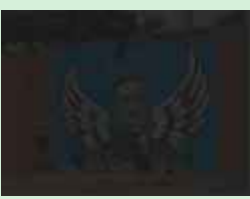

They kill and eat us, rape our children. Their nature is endless consumption. They arent human by our metric and were able to use their trickery and insane level of cruelty to put us into disassociative states of mind (something i have had) But some of us are so strong that we cant die. Because we have a mission.

Some of us were tasked with uplifting and gifting mankind with wisdom. Every movement starts small. They used money to make us aslave to them, then they took over hollywood and forced people to make movies for them because it was a big industry. We created crypto to turn their banks into monopoly money and we used the internet to guie humaity toward waking up. For instance Google intentionally made the black man white woman thing when we type white family... They wanted to wake us up to the fact that they were genociding us, replacing us with mixed race nigger cattle. Jesus was white, Israel probably doesnt even exist but clearly its under our control, something is genociding them there and they never go to war, but they have nukes, but everything we control the narrative of... we lie when we can to confuse them back.... information war ala alex jones.. Just try to help everyone. This isnt a race thing, Its not a Jew thing.. the world is uniting to kill demons.

You don't realize that your projecting your a piece of shit. Not all of us think like that and actually believe in law and order. Hiring illegals is not a loophole it's against the law. Your a brainlet for thinking my critical logically intact argument is retarded. Nice on outing yourself as a nigger.
