Jeff,

We can do the call on Tuesday July 5th at 4pm EST/3pm Chicago time. Does that work for you?

Please let me know and then will send out an email with everyone in copy to confirm and include a call-in number.

Have a great weekend.

Best,

John

Are you around next week? I am in C=C3=B4te d'Ivoire this week and was meeting with the banker who wants to set up the business below.

=20  
Would be good if we can talk next week, he can ask some question about the system, explain more his idea, hear your vision for eplata, and we see how to move forward.

Passed on the material. I will be in C=C3=B4te d'Ivoire next week also.=

The idea of the banker is that he sees a market for a technology platform that can be used to manage digital lending to this unbanked population. Guess kind of a Microfinance through a digital platform.

If you have a word version of the business plan and don't mind sending that to me I can just copy page 22-27 and send it to him.

Jeff,

Hope all is well. Mohamed arrived in Cote d'Ivoire yesterday and was meeting with a banker today who had a plan also for rolling out digital money platform. There could be some synergies. We wanted to share information on the system so they can understand better.

=20

Would it be possible for you to send me a file that has only pg. 22 - 27 where it talks about the system and technology.

=20

One suggestion would be on pg. 22 under the section "System and Technology" in the first sentence I would just have it say "Eplata has hit the ground running....." and erase the part about "Although it is a startup". We want him to read to understand the system and I think if they read the startup part as the first sentence they may get a bit nervous that their system is new and may not work, thus may not fully read the rest to understand.

John,  
I hope this email finds you well. I have attached a letter which answers your initial questions. Further, i have attached a BP for your review. Lets discuss after your review.
