☐ /ng/ - Nobody General Anonymous 10/17/24(Thu)10:02:31 No.39057687

Greetings Traveller,

The flickering glow of over a dozen consoles casts a light across the digital expanse of this interdimensional intersection we’ve dubbed the “Nobody General” (NG). The air itself crackles with a low hum, a constant undercurrent that vibrates through your very bones. This isn’t your average thread. No, NG exists solely in the shimmering unreality of the web, a virtual realm where the shadows hold more secrets than the brightest datastreams.

In this digital den, a motley crew converges. Ghost operators with digital heads-up displays perched on their noses, sipping cocktails next to elven hackers, their fingers a blur across glowing keyboards. A gruff technomancer, swapping war stories with a wiry tech-priest in a threadbare trenchcoat, her eyes glowing with arcane power. In the corner, a cloaked figure shrouded in darkness nurses a drink so black it seems to absorb light itself, while across the room a pair of AIs, their digital avatars shimmering like mirages, argue geopolitics in a high-pitched whine that few could hear, let alone decipher.

NG isn't a thread, it's a nexus. A place where the fringes of reality brush shoulders and the unreal becomes realized, where information flows like bootleg liquor, and shadows dance with unseen horrors while rival groups of shamen engage in alchemical aikido. Now, you've joined this dance. Whether you're a seasoned

shadowrunner, a mage with secrets to keep, a spirit seeking solace, an exiled program avoiding deletion, or something altogether stranger, NG offers a haven, a marketplace, and perhaps even a chance to carve your own legend in this part of the Sprawl. So hello, “person”, welcome to this place, slide in, grab a seat, and whatever you do, keep your head down and your eyes peeled. You never know who, or what, you might run into lurking in the shadows.

The story and mythos of the nobody is a complete fabrication.

There is no the nobody. There are couple of a "the nobody" -type of people here online. But other than that there's no special one that would be the magical mythosified the nobody. The world is a vast place and this little corner on the internet doesn't have to get more attention.

End this "the nobody" -psychosis now and please ban these generals.

>the nobody is an psychotic man browsing the nobody general thinking that he's the nobody

I'm sorry if I scrombled you.

If you thought that you're the nobody you're in a psychosis.

MK-Ultra is done like that I guess. You almost became like a part of a human botnet.

You're not the nobody and there's no the nobody.

its not really my or even yours problem if some people are schizoing and then ends up making schizo songs

I would though wish that they wouldn't make those kind of schizo songs anymore. Those songs are about studying the moore's third law but the thing is this with moore's third law; the equal and opposite reaction will happen in the condensate of the universe being in the black hole that it will be sucked into. It won't affect us now. The effect will be in the black hole condensate.

Everyone is racist they just dont call it a name if anyone besides white people do it and it is enforced to a verbal level for the hive mind of retards.

Let me reiterate so you can understand:

Every race and every people on earth is tribalistic. The only people who arent are white people and because of this they are being slowly genocided in their own countries. It is not a sin to want the best for your tribe. Black people do it shamelessly every single day. Stop vibe checking people for "cool guy internet points"

No one actually gives a fuck and when they do it's obnoxious. Most people have no problems laughing at themselves as long as you arent going around and killing or physically harming others, which ironically is what the other races, except whites and asians, do shamelessly.

Wow now that's really really meaningful. Stfu fed.

Im gonna copy paste my argument and if you have anything meaningful to say go ahead.

Everyone is racist they just dont call it a name if anyone besides white people do it and it is enforced to a verbal level for the hive mind of retards.

Let me reiterate so you can understand:

Every race and every people on earth is tribalistic. The only people who arent are white people and because of this they are being slowly genocided in their own countries. It is not a sin to want the best for your tribe. Black people do it shamelessly every single day. Stop vibe checking people for "cool guy internet points"

No one actually gives a fuck and when they do it's obnoxious. Most people have no problems laughing at themselves as long as you arent going around and killing or physically harming others, which ironically is what the other races, except whites and asians, do shamelessly.

It's not just fucking hilarious, or trying to humor a divine irony, but it's laughably inhumane how people of humane nature can turn out. It doesn't take much, but than just the generic consensus, in which, it internalizes the hysteria in a permeating protrusion, culturally dividing those who seek stature and those who seek thrills. I personally consider it all, to have been a lovely excuse...

I set aside my own values, as the truth of the matter is pretty clear to me, and to those who are aware of the accustomed proofs around, the savory truth is a sanctuary to any forms of demeanor directed at this troubled gentleman. He's saved a lot of lives, spared countless of struggles and chosen to affirm them all to a mysterious tag that credits his ode to the guise of all people; he doesn't just concern himself with the idea of peace; firmly enacts it in his heart.

We're talking about schizo-kids that practically were doomed to suffer in strange ways, and honestly, it's a tragedy that a global community of hardened agents with demure of hearts were forced to either sit in complicit ways to indirectly or directly form the support to cruelties

like these.
It's no wonder that everyone is shocked, and frankly, it's a situation that most... if not all... cannot muster the solemn truth of this character in an overt existential comprehension, as parlaying the uncertainties via. the ruminating and reflecting parts of the mind will make you ill mentally, and corrupt your soul eventually.

Supportive or not, none of us are truly strong enough to see him... but we can all remind ourselves, that he was stuck in a position, wherein he was presented a theatricality where he noticed defenseless, lost, ill young-lings being contorted against their will and to their own prospects in welfare. Thousands of victims spared due to this individual, and I suppose it's fair to state that the most vile and hideous thing is of his ability, and his over-arching power to accomplish these things.

The number 1 objective of feds and the jews who own them is to recontextuals, and make meaningless redirections against any argument that white people deserve to not get replaced and genocided (what they're doing right now) and they hire people like you or recruit free labor from midwits to monitor and dissuade others from feeling as though they have a right to collectivize and work towards their best interests. It doesnt even mean going around taking from others, just protecting what is your own using the only weapon that works against collectivized antagonism, collectivized unity and protection.

Why tf do they hire and recruit people with the mental and emotional maturity/capacity of thought of little 16 year old girls? They could at least be trying to give real arguments but no. It's always some variation of deflection or reframing, or just any disingenuous strategy. I claim it's because they cant actual argue against the truth, but in reality they might just be retarded.

Fuck it, I've got no reason not to fight for a better world. It's worth a shot, whether I do nothing or try and fail, things will get worse -
but if I, or we, somehow succeed, then that would be very nice.

Bas argument and idea= nonthreatening bad idea, low temperature skills not engaging

Good argument and idea= threatening idea skills engaging and demoralizing, you are over the target

Everyone is racist they just dont call it a name if anyone besides white people do it and it is enforced to a verbal level for
the hive mind of retards.

Let me reiterate so you can understand:

Every race and every people on earth is tribalistic. The only people who arent are white people and because of this they are being slowly genocided in
their own countries. It is not a sin to want the best for your tribe. Black people do it shamelessly every single day. Stop vibe checking people for "cool
guy internet points"

No one actually gives a fuck and when they do it's obnoxious. Most people have no problems laughing at themselves as long as you arent going
around and killing or physically harming others, which ironically is what the other races, except whites and asians, do shamelessly.

I truly enjoy when people make a well articulated argument against me and can prove their point of view. But they never do. And usually if they are actually trying, they dont sound out their opinion and use logic to support their claim. They just appeal to authority, not realizing that research is highly politicized and the people using the "science" dont care about the scientific method and ways to test and prove truth, they just worship authority. Like science is dope. But that's not what they do. That's not how thry draw their conclusions. It's usually informed by propaganda and then experimentation is done in a backwards fashion to get the desired result.

It can often be a surprise when one first discovers that, no matter how skillful one is or adept at one's craft, it is almost certain that, somewhere, there are others who are of equal or even exceeding skill. Whether this competition is welcomed, or whether it shall lead to antagonism, it is almost always educational.

I dont think nicotine makes them infertile. There's crack addicts who can have babies. It isnt that big of a deal. But all these newage ideologies about sustainability and equality that women subscribe to have never been about kindness. They are about genociding white people and havung men and women work for money in a corporate environment, getting treated like replacable parts rather than working out of love for eachother and the wellbeing of their own homes and families. If women werent in the workforce and we didnt have open borders, they would necessarily have to pay men twice as much so women can have the time and energy doing the things they love to do. That's not to say there arent some exceptional women who genuinely want to do great things, but it is to say that most women dont actually care about being a lawyer to uphold law and order. They care about how they are perceived by others and wearing a cute little pink suit and how other people will view her as a bossgirl. It, in most cases, can be a desire achieved without wasting all their fertile years miserable just to find out when they are 40 "oh the most meaningful

thing i could have done was get married and have a family" at which point, rather than say "i was wrong" they become embittered and cast their blame upon men. It is what it is. I dont want women to have no method of supporting themselves to get away from abuse if it actually exists, but we really shouldnt be play acting as if feminism has done anything but make women more miserable on average and made our birth rates go down, upheld by women who gaslight other women so they stay in line. It's similar to women blaming men for beauty standards. We dont make those. Men dont actually give a shit. That's other women.

Half-off making women (and men for the queers I guess) horny and wanna fuck with you for 24 hours, EVEN IF YOU'RE IN THE MEAT GRINDER, though then some conditions will apply.

I must answer what I need this time with typed words, but that's fine. I need MORE addiction to meditation and ESP, I do it 24/7 multiple ways at once but I need MORE. I live in the meat grinder, plus decades of practice and having almost no consciousness helps (this meditation/ESP work grows it in AND YOU GET TO HELP DECIDE, just come up with ideas without my input).

You might presume I'd use "choice" the biological trait to induce my workaholicism toward ESP since 5 years old, but no...I chose addiction so I'd be more helpless to doing it more and moooore. At 75,000 hours of meditation or more I'm hopelessly addicted and yet I have no yet begun to get addicted.

This body has in it's estimate 4 years left to live and it doesn't know what else to do to find purpose besides more ESP. Messages can be coded inside otherwise meaningless words for myself and with my ok.

Design for me a fearless submissive, an angry submissive, a disgusted submissive and a lazy submissive, one each that put's submissive first and puts the other half of their personality out of their mind. That obedient.

Shoot at my head to get hit with pie, relative to the munitions thrown.

I have a habit of telling the truth, originally it had metaphysical power before I made that conditional because at 5 I realized I could out-moral everyone else until the appointed time, then change the rules, but the point is this...

I'm going to say innocent words in real life and on other platforms. I don't want or need to know anything about it but I don't want anything about me that others perceive to be anywhere near as trustworthy as I seem.

Numerology can be very useful for ESP but that's not my niche, except maybe a million different numerals...among them is 5, and 2, 3, 1...my favorite years before I quit being so small minded and quit thinking that way...now whichever year I am, whether now or a million years from now in another body, whichever second I am is my favorite. To my excellent students current and former, that can be a strength, a weakness, something too utterly predictable, or perhaps my strength is too great for it to matter...

...but it matters, for you see it at least slows down my ascension from increasing even MORE.

I cannot fear guilt, shame, regret, remorse or any negative feeling for my nuanced, open-minded rise, but that could theoretically be a weakness so I have others do that for me if it became a weakness. It was unpleasant for a long time when mind-control was first created, I hope once you're out of the meat grinder you understand to have people work hard to mind control you the smallest ammount to mind control them or someone else or both the largest amount while benefiting yourself in other ways as well...mix it up on whether it benefits them or not? Generally I always strive toward "benefit" but that's so subjective.

so you guys are just saying the nobody shows up when somethings about to happen but then nothing ever does happen and it's an ongoing joke because essentially if he's doing something, doing it ruins his own credibility. they talk about what if he becomes a somebody but he couldn't. based on what. nothing ever happens and based on the ethics you've given him something never will happen cause he can't let it happen, therefore he'll always be a nobody, even if he was a somebody, or multiple somebodies or a cat. for him to exist as described and be winning, for him that would be losing, or for them, or for whatever, the ai bot posters, luci's picture of drake with jizz on his face my point is that people talk about "what if people find them" so what, they haven't done anything and by doing what they're doing they never will. what if the person gets an ego or whatever, well then it's not the nobody. the nobody cannot as described become a somebody because those situations cause a paradox in the lore that is unfixable. it's like psycho mind murder nobody it just doesn't work.

If it's always two more weeks; if it's always nothing ever happens, then he/they won.

and they also lost.

Sad. interesting. just saving the world for the love of the game.

If it's not understandable to someone else and you aren't able to boil it down to express it, then I say you don't share it.

Issue with excuses is that you'll still display the same behavior.
A fundamental flaw.

you are the antagonist created as something to be defeated by a lazy bored god who no longer wishes to defeat you over and over again, the reason why your rule is so ridiculous is because it was never meant to be
the failsafe is that you were created so incompetent that even without doing anything you would defeat yourselves with your incompetence

that is why there needs to be no action taken to defeat you, you're a boring matchup and your rule is fleeting
