

TEEPUBLIC

<https://teepublic.zendesk.com/hc/en-us/articles/360047284753-Masks-Legal-Disclaimer-for-Customers>

Masks are not designed or intended to prevent, mitigate, treat, diagnose or cure any disease or health condition, including COVID-19/Coronavirus. Masks are intended for general public use only. They are non-sterile and are not intended for use in any clinical or surgical setting or where exposure to bodily or hazardous fluids may be expected, where the risk of exposure through inhalation is high, or near intense heat or flammable gas. Masks are not surgical masks, personal protective equipment, or filtering respirators (such as N95 masks).

Masks are intended for adult use only. They should not be used by anyone with skin sensitivities or placed on children under age 2 or anyone who has trouble breathing or who is unconscious, incapacitated, or otherwise unable to remove the mask without assistance.

REDBUBBLE

<https://help.redbubble.com/hc/en-us/articles/360042620271-Mask-Warnings-and-Disclaimers>

Masks are not designed or intended to prevent, mitigate, treat, diagnose or cure any disease or health condition, including COVID-19/Coronavirus. Masks are intended for general public use only. They are non-sterile and are not intended for use in any clinical or surgical setting or where exposure to bodily or hazardous fluids may be expected, where the risk of exposure through inhalation is high, or near intense heat or flammable gas. Masks are not surgical masks, personal protective equipment, or filtering respirators (such as N95 masks).

Adult masks and child masks are available on the Redbubble marketplace. Adult masks are not for use by children under age 13. Child masks are intended for ages 3 and above and should only be used with adult supervision.

Masks should not be used by, or placed on, anyone with skin sensitivities or anyone who has trouble breathing or who is unconscious, incapacitated, or otherwise unable to remove the mask without assistance. Masks should not be used by, or placed on, children under age 3.

CITIZENS OF HUMANITY

<https://citizensofhumanity.com/pages/mask-disclaimer>

Our masks are made from 100% cotton and are washable and reusable. We recommend washing before first use.

Please understand that our face masks are not a replacement for medical grade Personal Protective Equipment, and in circumstances where medical grade Personal Protective Equipment is recommended, you should consult a health care professional. The decision to use this mask is solely your own.

Please remember that use of face masks is not intended to replace other recommended measures to stop the community spread of COVID-19, such as social distancing, washing your hands and

refraining from touching your face. Follow the latest advice of the CDC and your own health care professionals as to how best to keep yourself safe.

MAKE THE MASKS

<https://www.makethemasks.com/legal-disclaimer>

The 3D printed mask information presented here is intended to assist the general public during the current global pandemic related to COVID-19 and the related nationwide shortage of personal protective equipment. Please be aware that this mask design is not intended to replace standard protective equipment such as N-95 masks or surgical masks when that equipment is available. The use of these 3D printed masks has not been fully tested and has not been approved by federal or state authorities. Billings Clinic, Marlin D. Richardson, M.D., Spencer Zaugg, DDS, Colton Zaugg or anyone associated with makethemasks.com, assume no liability and make no representations, warranties, or guarantees regarding the safety, efficacy, or appropriate use of these masks in any particular situation. Each facility should test each batch of masks prior to relying on them for protection. Use of this information for any purpose is at the maker's and user's own risk.

RECLAIMED STITCHES

<https://www.reclaimedstitches.com/legal-disclaimer/>

The devices sold on this site should NOT be used as a replacement for conventional and approved Personal Protective Equipment ("PPE"). The devices have not been industry tested nor has it been NIOSH approved. Any purchases or devices received do not constitute or be deemed to constitute any representation by the manufacturers, Reclaimed Stitches, or StrategyBeam and is intended for casual use only. The decision to use this device is solely your own.

We emphasize that this device has not been assessed for its comparative efficacy to prevent nosocomial infection in health care workers compared with the standard-of-care, the N-95 mask. We conducted only a limited proof-of-concept fit testing in a non-clinical environment.

THE MANUFACTURERS THEIR AFFILIATES, RECLAIMED STITCHES AND STRATEGYBEAM DISCLAIM ANY WARRANTY, EXPRESS OR IMPLIED, INCLUDING THOSE OF QUALITY, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR INFRINGEMENT, AND WILL NOT BE LIABLE FOR ANY LOSSES OR DAMAGES IN CONNECTION WITH THE USE OF THE DEVICE DESCRIBED HEREIN.

CUSTOM PINS AND BUCKLES

<https://custompinsandbuckles.com/pages/face-mask-disclaimer>

Custom Pins and Buckles is a Manufacturing company dealing in fine metal crafts and is in no way associated with the medical industry, CDC, WHO, FDA, or any other department or organization that deals in the health and safety of the American Citizens.

With the fluid change of day to day including the guidelines that govern the types of masks that will protect an individual from disease, we all know that no mask is 100% effective. We make no claims that wearing the KN95 will keep you from acquiring the COVID-19 Coronavirus, or any other virus.

We do believe that wearing any mask is better than no protection at all. Our suppliers have informed us that the China KN95 Facial Masks are crafted under the same US Guidelines as the US N95 Masks.

With that being said, we offer these mask on the "At Your Own Risk" level of purchase. Custom Pins and Buckles make no guarantees or claims for the 100% protection of these KN95 masks. This includes all literature on our site which is the sole property of the manufacturing company in China that is supplying us with these masks.

PILLOWS.COM

<https://www.pillows.com/50difama.html>

These Disposable Masks are manufactured in our certified partner factory. Our staff member visited the factory to conduct quality control on the masks we are importing and the masks from this factory have been independently tested. Pillows.com is selling Respirator Masks for personal, construction and industrial use. Pillows.com is not marketing them for medical use and Pillows.com is not responsible for any introduction of these masks into any medical system.

WALMART - FACE COVERINGS - MAIN PAGE

https://www.walmart.com/browse/health/face-coverings-masks/976760_3386211

"Face coverings. Explore our wide assortment of non-medical-grade masks. Shop now. *This is a non-medical-grade cloth face mask and is not intended as a replacement for medical-grade personal protective equipment to stop the spread of COVID-19." The product makes no claims of antimicrobial protection antiviral protection, particulate filtrations, or infection prevention or reduction. This is not an FDA-approved product. This product is authorized only for the declaration that circumstances exist justifying the authorization of the emergency use of medical devices, including alternative products used as medical devices, during the COVID-19 outbreak.

WALMART - ORIENT HONEST FACE MASKS

<https://www.walmart.com/ip/10-ct-Pack-Disposable-3-Ply-Face-Masks/459279944>

Recommendations (from the package)

This product is not intended for use as a surgical or medical mask

This product does not prevent the transmission of any disease to the wearer

WALMART - 3-ply EAR LOOP FACE MASK

<https://www.walmart.com/ip/3-Ply-Earloop-Face-Mask-25-ct/397294933>

This face mask is not a surgical face mask which provides liquid barrier protection and should not be used in a clinical setting where the infection risk level through inhalation exposure is high. This face mask should not be used for antimicrobial or antiviral protection or related uses or used for

infection prevention or reduction or related uses. This face mask should not be used as a respiratory protective device or for high risk aerosol-generating procedures. This product has not been FDA cleared or approved. The product has been authorized by FDA under an EUA for use as source control by the general public as well as by HCP in healthcare settings as to help prevent the spread of infection or illness during the COVID-19 pandemic.

TURMERRY

<https://www.turmerry.com/pages/face-mask-disclaimer>

Please understand that our cloth face masks are not a replacement for medical grade Personal Protective Equipment, and in circumstances where medical grade Personal Protective Equipment is recommended, you should consult a health care professional. The decision to use cloth mask is solely your own. Our face masks are not “medical” items or devices or Personal Protective Equipment (PPE). It is illegal to make a “medical” claim if a product is not approved as a medical product by FDA or NIOSH.

All our face masks do not replace a particulate filtering N95 or any other NIOSH or FDA certified masks used in healthcare settings and should not be used when caring for those with COVID-19. Please remember that use of face masks is not intended to replace other recommended measures to stop the community spread of COVID-19, such as social distancing, washing your hands and refraining from touching your face. Follow the latest advice of the CDC and your own health care professionals as to how best to keep yourself safe.

Be mindful when wearing masks if you have lung disease, like emphysema, or chronic heart disease. Stop using this product if you notice difficulty breathing while wearing it. If you have a medical condition, this face mask may not be appropriate for you.

We also do not accept returns for opened or tried out or used masks for the safety of all. Children should be supervised by an adult at all times when wearing a face mask to ensure safety. By choosing to wear the face masks we sell at [turmerry.com](https://www.turmerry.com), an individual acknowledges and assumes all risks, known and unknown, associated therewith.

CONTROLTEK

<https://shop.controltekusa.com/3-ply-blue-disposable-face-mask.html>

Wearing a mask can not completely eliminate the risk of infection, illness, or disease.

CANADIANSHIELD

<https://www.canadianshieldppe.ca/products/3-ply-procedural-mask>

Please note that procedural face masks are not a replacement for medical grade Personal Protective Equipment and that this procedural mask is not intended to replace other recommended measures to prevent the community spread of COVID-19. Procedural mask coverings are an additional step to help slow the spread of COVID-19 when combined with every day preventive actions, including

frequent hand washing and physical distancing in public settings. It is recommended that you follow the latest advice and guidelines as outlined by relevant health authorities, including the CDC and the Government of Canada. Non-medical masks should not be placed on children under the age of two; anyone who has trouble breathing; or anyone who is unconscious, incapacitated or otherwise unable to remove the mask without assistance.

AGOLDE

<https://agolde.com/pages/mask-disclaimer>

Please understand that our face masks are not a replacement for medical grade Personal Protective Equipment, and in circumstances where medical grade Personal Protective Equipment is recommended, you should consult a health care professional. The decision to use this mask is solely your own.

Please remember that use of face masks is not intended to replace other recommended measures to stop the community spread of COVID-19, such as social distancing, washing your hands and refraining from touching your face. Follow the latest advice of the CDC and your own health care professionals as to how best to keep yourself safe.

BUNDARRA

https://www.bundarra.org/products/unicorn-fields-kids-face-mask?_pos=5&_sid=428e01487&_ss=r

This product is non-medical grade and is to be used for personal use only. It is not a replacement for following appropriate social distancing guidelines and practicing good hygiene. Regarding the usage of these masks we make no medical claims.

HOMEMADE MASKS FOR HOMETOWN HEROES

<https://www.aurora.ca/en/town-services/resources/Documents/COVID-19/HM4HH-Mask-Disclaimer.pdf>

These masks are in no way, intended to replace any equipment approved by Health Canada or otherwise, including, but not limited to, N95 masks. These masks do NOT treat or prevent the spread of COVID-19 or otherwise and are not to be used when working with infected people, unless they are used over top of a N95 mask. These masks are to be used only as a backup to frontline workers when they are faced with a shortage of personal protective equipment ("PPE"). Please see Health Canada's guidelines on what PPE is required for healthcare professionals.

Z SUPPLY

<https://zsupplyclothing.com/blogs/all/the-reusable-face-masks>

Please be advised that these are non-medical masks and are NOT replacements for medical grade personal protective equipment, but will help reduce the need for you to buy masks needed by

healthcare workers. They do not guarantee full protection against COVID-19. We recommend you practice the safety guidelines mandated by the CDC and your healthcare professionals.

MASKS OF LOVE WNC

<https://www.masksoflove.org/disclaimer.html>

Masks of Love provides non-certified face masks to health care workers and members of the general public. Face masks are provided without warranty or guarantee of their effectiveness for any purpose. Masks of Love face masks are intended for use on a voluntary basis and only as an alternative to NIOSH certified PPE (personal protective equipment) as described in the Center for Disease Control Crisis Capacity Strategy, specifically its Strategies for Optimizing the Supply of Face masks, when NIOSH certified PPE is not available.

Children should be supervised by an adult at all times when wearing this face mask to ensure safety. By choosing to wear this face mask, an individual acknowledges and assumes all risks, known and unknown, associated therewith.

Non-certified masks should not be considered PPE, since their capability to protect the wearer is unknown. Caution should be used when considering this option.

SMIRK MASKS

<https://smirk.co.za/wp-content/uploads/2020/04/SMIRK-MASK-DISCLAIMER.pdf>

Please understand that our face masks are not a replacement for medical grade Personal Protective Equipment, and in circumstances where medical grade Personal Protective Equipment is recommended, you should consult a health care professional. The decision to use this mask is solely your own. Please remember that use of face masks is not intended to replace other recommended measures to stop the community spread of COVID-19, such as social distancing, washing your hands and refraining from touching your face. Follow the latest advice of the CDC and your own health care professionals as to how best to keep yourself safe.

CALI CHIC

<https://www.calichic.com/mask-disclaimer/>

Masks are not designed or intended to prevent, mitigate, treat, diagnose or cure any disease or health condition, including COVID-19/Coronavirus. Masks are intended for general public use only. They are non-sterile and are not intended for use in any clinical or surgical setting or where exposure to bodily or hazardous fluids may be expected, where the risk of exposure through inhalation is high, or near intense heat or flammable gas. Masks are not surgical masks, personal protective equipment, or filtering respirators (such as N95 masks). We recommend washing before first use. The decision to use this mask is solely your own.

Please remember that use of face masks is not intended to replace other recommended measures to stop the community spread of COVID-19, such as social distancing, washing your hands and refraining from touching your face. Follow the latest advice of the CDC and your own health care professionals as to how best to keep yourself safe.

AINSLIEWEAR

<https://www.ainsliewear.com/products/fabric-face-mask>

Fabric masks are not intended to replace medical or surgical masks. Use at your own risk and only when surgical masks are unavailable. Wearing a mask does not replace other important public health control measures such as hand-washing, social distancing, covering your cough, and cleaning surfaces.

ETSY

<https://www.theverge.com/2020/4/5/21207986/etsy-cloth-face-masks-covid19>

Etsy sellers have sold hundreds of thousands of cloth face masks in the past few days, the company says, and demand is likely to outstrip supply soon now that the Centers for Disease Control and Prevention (CDC) has shifted its guidance on wearing such masks in public.

"We hope that increasing the availability of fabric, non-medical grade face masks from Etsy sellers will allow more medical and surgical masks to reach the people who need them most: front-line health care workers," Etsy CEO Josh Silverman said in a statement Friday.

But while Silverman encouraged sellers to consider making the masks, a set of guidelines for sellers stresses that making medical claims about the masks is against its rules, and, advises sellers not to use the words "coronavirus" or "COVID-19" on their individual listing pages.

"Don't use this language anywhere in your listing, including in the title, description, tags or listing photos," Etsy wrote in a post on its Sellers Handbook. "Listings with medical claims may be flagged by shoppers and removed from the site. Shops that repeatedly have items removed could be suspended."

The CDC released new guidelines Friday recommending that people in the US wear homemade face coverings to help prevent the spread of the coronavirus. US Surgeon General Jerome Adams said during a press conference at the White House that the agency is advising people use "simple cloth coverings to help people who may have the virus and do not know it keep from transmitting to others."

The most effective masks to filter out droplets in the air that may transmit the virus are the N95 respirators used by health care providers, which are in gravely short supply. The cloth masks may reduce the amount of particles spread by people wearing them but they're not meant to replace the N95 masks. Some experts suggest that wearing a cloth mask is better than nothing. "If you put something in front of your face, it's going to help more than not," virologist Julian Tang told *Wired*.

BUMBLITO

<https://bumblito.com/collections/face-mask>

This face mask is not intended to replace medical-grade Personal Protective Equipment (PPE). In circumstances where PPE is recommended please consult a medical professional before using this mask as a substitute. We do not claim that this mask will protect from contraction of any virus. Face coverings are recommended as an additional protection against illness but are not meant to replace any other protective measures recommended by the CDC including social distancing, washing your hands, and refraining from touching your face. According to the CDC "cloth face coverings should not be placed on young children under age 2, anyone who has trouble breathing, or is unconscious, incapacitated or otherwise unable to remove the mask without assistance."

TIDELANDS HEALTH

<https://www.tidelandshealth.org/masks-for-a-cause/>

This cloth face mask is not a surgical face mask that provides liquid barrier protection. This cloth face mask should not be used (1) in a clinical setting where the infection risk level through inhalation exposure is high; (2) for antimicrobial or antiviral protection or related uses or uses for infection prevention or reduction or related uses; (3) as a respiratory protective device or (4) for high-risk aerosol-generating procedures. Tidelands Health makes no warranties, either express or implied, that the face mask prevents infection or the transmission of viruses or diseases.

- The product has not been FDA cleared or approved
 - The product has been authorized by FDA under an EUA for use as source control by the general public as well as by HCP in health care settings as to help prevent the spread of infection or illness during the COVID-19 pandemic
 - This product is authorized only for the duration of the declaration that circumstances exist justifying the authorization of the emergency use of medical devices, including alternative products used as medical devices, during the COVID-19 outbreak, under section 564(b)(1) of the Act, 21 U.S.C. § 360bbb-3(b)(1) unless the authorization is terminated or revoked sooner.
-

I CAN'T BREATH MASKS

<https://icanbreathe.com/pages/disclaimer>

I Can Breathe!® Inc. masks are not NIOSH approved for occupational wear.

Repeat: I Can Breathe!® Inc. makes no scientific claims regarding the effectiveness of each mask. The wearer determines if it helps. Consult with your physician or health care provider.

The masks on this Web site have not been submitted for NIOSH (National Institute for Occupational Safety and Health) certification. The masks are not recommended for occupational protection.

WASHABLE FACE MASKS

<https://www.washablefacemasks.co.uk/disclaimer/>

All of our products are designed to filter particles from the air by using the main fabric body as the filter. The fabric that we use is not an approved PPE product, and is not an N95 approved product for the prevention of viruses such as Covid-19 or SARS.

THE MASK FASHION BLOG

<https://maskfashionblog.com/important-disclaimer/>

Health measures that work for some people might not necessarily work for others. Different people have different levels of sensitivity, and as such might require different levels of protection and different types of masks to protect against the same type and concentration of substance. Also, the wrong mask at the wrong time, or a mask improperly used might do little to protect you from what you're trying to avoid, and in some cases may even make your exposure worse. Furthermore, no mask is capable of protecting against an offending substance 100% and is no substitute for complete avoidance of the substance.

Please consult your doctor when deciding whether and how to incorporate a mask into your health routine. When using a mask, make sure you carefully read instructions on the mask package as to the proper wearing and use of the mask, including cleaning instructions, when to stop wearing it or when the filter needs changing.

AIRE MASKS

<https://www.airemasks.com/disclaimer/#.X0KwPCSYXDc>

Aire Masks are certified by the Indian National Laboratory of Ministry of Labour. One has to follow the guidelines for wearing the mask correctly as well as the guidelines for care and maintenance of the mask as explained on the website and packaging. Air Masks and the manufacturers are not responsible for incorrect use of the face mask and safety of the Aire face Mask.

Our mask is not a replacement for medical care. It is a preventive solution. It does not protect 100%. The Aire Face mask is not a medical mask but is second in the line of protection. Our face masks are not a replacement for medical grade Personal Protective Equipment, and in circumstances where medical grade.

Personal Protective Equipment is recommended, you should consult a health care professional. N95 filter protects 95% and N99 filters protect 99%.

JC MASKS

<https://jcmasks.com/pages/legal-disclaimer>

This product is not a medical device, does not protect against virus-sized particles, and does not seal around the nose and mouth. It should not be placed on young children or anyone who has trouble breathing or otherwise unable to remove the face covering without assistance.

CARE PLUS

<https://www.careplus.ie/wellness/321-wearing-face-masks-q-a>

Experts say that wearing a cloth mask will not protect you from getting sick as it does not have the capabilities to prevent you from inhaling microscopic virus particles, but they can help prevent the spread of the disease by those with the virus.

The benefit of wearing a mask is similar to the benefit of coughing or sneezing into your elbow. This is to protect people around you if you are infected but do not have symptoms.

A cloth face covering is not intended to protect the wearer, but it may prevent the spread of virus from the wearer to others. This would be especially important if someone is infected but does not have symptoms.

WHITE KNIGHT PRODUCTS

<https://www.wkep.com/facemasks>

These products do not provide virologic or bacteriologic protection.

THE MINGLE MASK

<https://theminglemask.com/pages/disclaimer>

The Mingle Mask is a non-medical mask. Since the conditions and methods of assembly and use of the Mingle Mask are beyond the control of MINGLE MASKS FOR ALL, INC. ("the manufacturer"), the manufacturer expressly disclaims any and all liability arising from any assembly and use of the Mingle Mask.

MY MASKS

<https://mymasks.com/pages/medical-disclaimer>

MyMasks face masks are not medical devices or personal protective equipment (PPE). They are for personal use and are not intended for use by health care professionals or for use in hospitals or health care facilities.

These reusable face masks should not be used

- (1) in a clinical setting where the infection risk level through inhalation exposure is high;
- (2) for antimicrobial or antiviral protection or related uses or uses for infection prevention or reduction or related uses;
- (3) as a respiratory protective device, or
- (4) for high risk aerosol-generating procedures.

MyMasks makes no warranties, either express or implied, that the face mask prevents infection or the transmission of viruses or diseases.

MASKS OF HOPE

<https://www.masksofhope.org/masks-disclaimer>
