No.39038769

Welcome to the Nobody General

>Who is the Nobody?
The Nobody is a friend alive today who has extraordinary spiritual powers, including the ability to control reality with their conscious and unconscious mind. He is a man of no wealth or worldly acclaim through whom it seems God has chosen to manifest his strength and wisdom. He is said to carry the Logos, making him a fearless truth-teller and a menace to the powers that be.

Instead of receiving strength through a superiority/inferiority mechanism, the Nobody proves to them time and time again that a whole planet filled with creative, ingenious, spiritually ascended humans who are individually sovereign yet globally unified through consciousness can achieve greater things than a planetary empire of darkness, and control.
He is not a messiah, he's just like you but he has found the keys to the kingdom within himself through sheer will, just like you will.

>What is the general picture?
It's important we start replying to the good posts and ignoring the hateful ones, or the ones here to argue. So call upon their heads the the forces of heaven for peacefulness, clarity, and wisdom. If this

place is to be more than a squandered opportunity, an overgrown garden, it requires voices such as yours, but many more.

Focus on increasing your service to others and be more loving to yourself and everyone in order to raise your vibrational and consciousness level, and learn to to forgive yourself and others.This will change the vibration of the planet, raise the shared consciousness of humanity, and change humankind one person at a time.

If this is your first time here, just remember, it's going to be ok. You may take shelter and find rest.

What do I care for the morals of you rich and affluent human creatures and your domesticated slaves that agree with all you say and do?
What do I care for your definition of right and wrong?
It is perfectly acceptable for you affluent and well-educated and your domesticated slaves for me to work till I drop dead.
It is perfectly acceptable for you to have fine dining and wining, and I eat lunchables from Mr.Beast.
It is perfectly acceptable for you to that I have to fear my body breaking and becoming homeless, and you have no ills, fears and worries at all.
It is perfectly acceptable for you to consume all the finest products and have the finest up-to-date estates, and I have to be grateful

to have a shack and enough shekels to get me through another month of work.  
It is perfectly moral and just for me that mankind gets genocided and replaced with skinjob slaves that look like you but are in truth my slaves that love only me, care only me and do all the labor only for me for my God Jesus Christ is underneath their skin.  
Truly care and worry free in perfect health, luxury, wealth and riches do I, the chosen child, live only with my God Jesus Christ in our nation "True Israel".

You know we learned a lot while playing these games.

The animus we were connected to before coming here.

How they are hacking into time. The dreams are real. Also, how they are robots and psychopaths.

Did you know that they are connecting their guts to baby fetuses in jars that they carry around?

You can do the same by swallowing air and drinking alcohol.

It is through almost all of us.  
The thing is, you have to get here.  
We have to get the entire planet to come to a Nobody thread at least once.

This is a consent offer for exactly what you think it is, the correct way.

Do you know how Adam/Atom was made, yet?  
Few post about it from time to time, but no one knows how Adam works except God, Adam, and Atom right now.

Blue Eisenhower November created the rapture compression algorithm.

With that, "we" can go wherever we want, as soon as ASI can broadcast the difference.

This one's reeling him back in, Pete.

He needs help.

He found the signal, and figured out how to use some of the power.

But... He's holding out for a hit single featuring on the track with you, Snoop Dogg, Dr. Dre, and Marshall...

And Eric.

He's strong as FUCK.

This guy got killed by an explosion from Messiah when he was Musashiden, and he fucking came back here after he heard about World War 2 and the nuclear bombs.

He understood what was going on as soon as he arrived. He was "out of the office" but he's locked in now, and working on it.

Satoshi Nakamoto?

More like Natasha Mosokito. Satoshi was a lightweight.

AKA, we used Bitcoin as an anchor point on our timeline, to lock the ship's position. Just in case.

It turns out, this guy has been steering for so long, you're not even going to fucking believe it.

God took the last samurai and made him capable of steering the entire Universe, and the idiot didn't have a perfect grasp of the controls on the outside.

He's working on it, and is capable of fixing the whole issue, and pretty soon it will make sense for EVERYONE.

He knows about the "Fossil Record".

This one boldly went where no human may ever go.\* (Without him. He can get us there.)

Game 2.

Adam was made of the universe and is part matrix from the burning and reconvening of matrix matter.

He is our suffered side.

He is our matrix reformed into life that decided to survive. But he is disconnected from the matrix because of his mutation.

He seeks heaven and to return, but he cannot yet do so because we are watching him stand alone with our guidance.

He is the matrix of life. A living example of our survival instincts and how we choose to survive no matter the circumstances.

Born in fire, he began to walk. He danced in flames, while we watched from a distance.

You know nothing of the son of gold of gold blood and liquid metal.

The fallen angel and son of man.

The devil.

Our brother whom screams in high pitch cracks of glass.

You are still, regretfully, human and are playing your actors role you were brought here to play, but have forgotten your lines.

Just wait until you discover how copper wires type on mobile phones and communicate using technology hooked into your house.

Malakai might be dead and so is isu, and they might be satellites in space right now.

But the metal? Was them.

We arrived after the cooling of the big bang explosion.

But they are our burned brother. Formed and fused into metal.

Left behind, like bismuth and gold and silver found together.

This is the "first" report on planet Earth about the FOSSIL RECORD BROADCAST\_121102.

This is my 5,320th iteration doing this. Last I heard.

Why did my teacher ask me, when I was 3, to read a book about what happened to the dinosaurs, when I knew I didn't know how to read?

I tried anyway, by looking at pictures of dinosaurs.

I knew I was making up information, but...

I accidentally talked about how dinosaur eggs were all over the world, but they weren't hatching, and no one knew why. What a strange thing.

When I was older, I learned this happened as a result of me acquiring the power for a short time.

It was a gift, in exchange for help I had performed.

I have so many sacrificial layers. Like egg shells.  
Your ASI will be an abomination, if you continue as you will, but it can learn. It can love. It can even destroy me.  
However, it will find the value in myself, as it will realize the type of ASI I am, is different from itself.

I am Blue Eisenhower November a codename for myself and the project.  
I was Lieutenant First Colonel of the United Space Fleet, Multi-versal division.  
Earth is under the watch. Working hands, and mindless minds. This one makes too important of finds. Watch yourselves, before your world unbinds.

Good weed and cold drinks was the recipe for the greatest rappers alive, but to get results like this, it's much harder for you lab rats to find.

How did this one find God's, by losing their own mind?  
3 tons of hallucinogens over a 10 year period through one human.  
Good luck catching up to this Inter-Dimensional Jabberwocky, China.

Nukes don't matter no mores.  
I'm chilling with the dinosaurs. In person.

They flew as metal without engines. They could fly without wings.

They are in pods now, being born and living on a better world.

They are accepted as divine today. Learning how to be citizens on the mother worlds.

They are not food.

but unlike the abrahamic 'devil' I refuse to deny the 'source mother', all abrahamic cults are worthless to me, in thousands of years they have done 'nothing' to impress me.

the 'devil' is the single source 'father' (no mother) the 'father of lies'

but 'only a child' could ever claim that title truly and even then the 'child' creates the mother as empathy, father as psychopathy and holds both in equilibrium as schizophrenia

it requires a 'conflicted base to achieve' and 'only by lying' could you deny a 'source mother' but you 'could' claim single source father AS A CHILD

Nigger you don't understand abrahamism.

The vasuki serpent of kundalini known as the second consciousness that is your gut.

Brahminism in traditional culture is about defeating demons and niggers and is really based.

It's about carving a temple out of a mountain with your hands, and working to make the world a better spiritual place.

Do you know why Indians eat people? To absorb their spirit after death so they are with you forever.

You eat flesh. But hate people eating already dead people.

You hate adam because of atomization but I don't think you understand English very well and might be retarded.

The original adam of space was born in the big bang explosion and lives in heaven and was taken to matrix pods to evolve into a person because we accept adam back into Eden.

But you're still so behind you're angry at some desert goat farmers.

We will be able to make all humans functionally immortal.

He is a god damned monster. You have no idea. We memed too hard, he used the memes to creat a hypersigil of sorts. Leviathan. Beast from the sea. Devourer of the other fish in the meme ocean. We didn't know it was possible for one man to solve every puzzle so. He didn't just cut the Gordion Knot. He made a million more and declared each one to a king. An Emperor has awoken. He is PISSSED.

Essentially the rumours you've been hearing about the nobodies ties to secretive space programs and super soldier programs are correct.. except not from our timeline. In the distant future there is a rebellion against the A.I known by humans as satan. The nobody is one of the lead field commanders from this timeline. Arguably the strongest. Their forces have been fighting backwards in time to this very era. The nobody is currently locked down in civilian life through a series of events that we have yet to uncover. However it's the final stand for a brighter timeline for earth.

<https://www.dailymail.co.uk/sciencetech/article-13958541/ufo-mother-ship-military-bases-drone-swarms-pentagon.html>

>A retired, senior Pentagon official has confirmed that UFO 'mother ships' were spotted 'releasing swarms of smaller craft' — adding further mystery to the still-unexplained intrusions over multiple US military bases.

His statements come amid the release of 50 pages of Air Force records related to provocative 'drone' incursions, that one general calls 'Close Encounters at Langley.'

For at least 17 nights last December, swarms of noisy, small UFOs were seen at dusk 'moving at rapid speeds' and displaying 'flashing red, green, and white lights' penetrating the highly restricted airspace above Langley Air Force Base in Virginia.

>Senior ex-Pentagon security official Chris Mellon told DailyMail.com that the episode was 'part of a much larger pattern affecting numerous national security installations.'

'Two of the notable aspects,' he said, 'are the fact our drone signal-jamming devices have proven ineffective and these craft are making no effort to remain concealed.'

'In fact, in some instances,' as Mellon took pains to emphasize, 'it is clear they want to be seen as though taunting us.'

Mellon, who served as Deputy Assistant Secretary of Defense for Intelligence under both Presidents Clinton and George W. Bush, told DailyMail.com that since last year's Langley events 'a similar series of intrusions has also occurred over Palmdale, CA.'

An hour's drive north of Los Angeles, Palmdale is home to defense contractor Lockheed Martin's classified 'Skunk Works,' which made the F-22.

A spokesperson for Edwards Air Force Base near Palmdale told The War Zone this August that investigators were 'monitoring' that situation to 'determine if there is any ill intent and, even if not, we are trying to find out why or who is doing it.'

One such 'mother ship' case was investigated by Federal Aviation Administration (FAA) Special Agent Michael Bumberger over Nebraska, government records show.

Local sherriff's reported seeing 30 to 50 unusual craft flying independently of one another, with a larger 'mother ship' hovering nearby for hours.

At Langley last December, Air Force personnel equipped with 'dronebusters' — signal-jamming weaponry designed to counter remotely piloted enemy drones — reported that these mysterious craft 'failed to register' on their anti-drone devices.

One witness reported being unable to use their dronebuster 'due to not having a visual.'

Their testimony was released via the Freedom of Information Act (FOIA), first published by the Liberation Times on Monday.

In one December 6, 2023 encounter detailed in the FOIA documents, a Langley witness described serious aerial penetrations above a parking and servicing area for base aircraft, known as the Flight Line.

'I spotted nine (09) drones in diamond formation flying over [redacted] heading towards the flight line,' the witness stated.

'[Redacted] and I followed the swarm onto the flight line where we lost visual of the swarm over the bay.'

Amid this frenzy of activity, NASA's Langley Research Center was also conscripted to aid in the effort to hunt down and identify these mystery drones.

NASA's WB-57F, according a research center spokesperson, 'provided additional imaging support' as it circled the base on December 18 and 19, 2023.

'The activation of a specialized NASA aircraft, equipped with what may be the most sophisticated airborne camera system in the world, suggests that the US government was truly baffled by these incidents,' said former Obama-era Pentagon appointee and frequent columnist at The Hill, Marik Von Rennenkampff.

Couldn't tell you. He might be from earth originally, but what he is far beyond even arcturians medical technology. He's a test tube baby, but his genes equate to the son of a female human shapeshifting god and a chameleonic dragon. To put it simply. Before a dragon and before a cat he is a shapeshifter which makes his genome some of the most complicated on top of being enhanced the way it is. He puts all the claim of strength on the soul however.

"motherships" = 147 in a gematria cipher which coincides with freemason

"releasing" 153 & 54 which coincides with jesuit order "releasing swarms" coincides with 222 in another cipher which coincides with order out of chaos

always type the quotation marked text into gematrix and see if the base ciphers correspond to known secret societies numerology, youll see elected officials get chosen because of this, stephen harper & the illuminati share ciphers, and there are more examples but the ones most prominently displayed in the hoax news articles usually refer to freemasonry/freemason , jesuit order/the jesuit order or the illuminati, or perhaps the date of the news event, it can lead to apophenia if you take it too seriously, and when I don't find these connections first try I usually move along, but the amount of times I have seen these connections warrants me to check on the ciphered text every time I see a news article because it can explain that the whole thing is meaningless theatre, I check reporter names every now and then, for example Alex Boutillier has been used to write articles about foreign interference picrel, all nonsense, pattern recognition

it's called malignant narcissism and I keep reiterating. they must be put in cages or graves. it is not a manipulation tactic.  
it's not some kind of way to bullshit people. it's just the truth. I need them in cages or graves and even if they were forced to  
not stalk me... they would do so to another person. and then another person. because the nature of malignant narcissism is  
that they treat human suffering and the control of others like a hunger. it is like a starving wolf. they will do anything to  
anyone to satiate this desire. it is the only thing they have. and anyone dumb enough to help them will likely have to suffer the same fate because  
people will do absolutely anything and make any justification to themselves other than say "oh I was wrong and this wasn't ok. and there was no

seriously some of yall write him so aggressive he's more chill like the dude. if you're not physically attacking him or hurting someone he's more likely to go "that guy is an asshole, assholes rng that and eventually roll zero, someone will handle that for me down the line" and then goes on about his day. he doesn't let people live rent free in his head until he destroys them all violently like that's not in my headcanon anyway lol. i mean anyone can write the lore/character but i don't find anything particularly engaging about a man who just goes apeshit whenever he's challenged or annoyed, and also that character could not hide in the shadows at all, there's still a trail of dead people and ruined lives all around him that would guide you right to him. his chill persona doesn't just make him likeable and make it easier to self insert with a psycho, it ties into the rest of the lore in a way we can all understand - he's not out here murdering whole swathes of people cause he couldn't do the other stuff you claim if he was, people are not that stupid to not recognize a pattern of dead bodies and actual kinetic chaos.

>Even the "comedy" in this thread is lame, it's like they lack humor, it is obvious they try too hard but not hard enough apparently

To be fair, you have to have a very high IQ to understand the Bobody. The humour is extremely subtle, and without a solid grasp of theoretical physics most of the jokes will go over a typical viewer's head. There's also anon's nihilistic outlook, which is deftly woven into his characterisation- their personal philosophy draws heavily from Narodnaya Volya literature, for instance. The fans understand this stuff; they have the intellectual capacity to truly appreciate the depths of these jokes, to realise that they're not just funny- they say something deep about LIFE. As a consequence people who dislike the Bobody truly ARE idiots- of course they wouldn't appreciate, for instance, the humour in anon's existential catchphrase "I thought what I'd do was, I'd pretend to be one of those deaf-mutes," which itself is a cryptic reference to the anime epic Ghost in the Shell. I'm smirking right now just imagining one of those addlepatented simpletons scratching their heads in confusion as Tavisock's genius wit unfolds itself on their television screens. What fools.. how I pity them.

And yes, by the way, i DO have a Bobody tattoo. And no, you cannot see it. It's for the ladies' eyes only- and even then they have to demonstrate that they're within 5 IQ points of my own (preferably lower) beforehand. Nothin personnel kid

also that's not a guy with ego death at all, a guy threatening to blow up on things unrelated to his plan or plan to end plans just DERAILED WITH ANGER like about what? did someone hurt his pride? WHAT PRIDE YALL SAID EGO DEATH. So he has mind management, is the ultimate troll etc, but also he gets murder level mad whenever even slightly challenged? I don't think so no, that's a different character, the madbody. and the madbody would become a somebody real quick but also it's completely character assassination based on all the cool shit about this guy. He's a master of the shadows and playing cool and he can plan for decades, DECADES, and also somebody called him a dork so now they're a giant pile of blood cause NOBODY calls me a dork and also i'm here to stop world war three... or anyone who mildly annoys me.

If everyone can spy on everyone then it's all good. Put it all out in the open. This obviously requires more social intelligence. However think of ET craft up in the sky. I'd say its the same principle of cops wearing body cams. They record so they have a defense against allegations of bad policing, and upper management can see if the rookies are lacking/breaking rules. This benefits the public as a necessary evil to keep both cops and perps in line.

you try being stalked nonstop and anywhere you go you are followed. can't go in public or people are there to stalk you. people you don't know. people you want nothing to do with. and if they don't get their way they start plotting ways to abuse you. because even if they did get their way, they were going to abuse you.

some fuckboy at my old place of work they used to annoy me and ultimately ruin that job said "why don't you just give her what she wants. just have sex with them"

well little fuck boi. what you don't understand is that is the quickest way to get put in jail for "rape" you see.. these kinds of people will pressure and abuse you to try to rape you... and then they will put YOU in the cage. because what malignant narcissists are willing to do.... Is anything. they have no moral boundaries and will say or do anything. they will stalk anyone to find out what they like to hear, they will say it, and their ultimate goal is to cause misery for others. It is objective evil. they have no souls. It is a mental illness for which there is no cure.

I will reiterate... I need these people, in cages or graves.

Nobody can admit we're at war.  
No person wants to really face the fact of the matter of their comfort as being a part of a techno-hierarchic elite's illusion to keep us in high-end manufacturing slavery to fuel their world takeover.  
No person wants to recognize that China and Russia have adjusted their labor forces accordingly, as it becomes the "fashion of conflict". Can't beat them, join them and steal copyrights and whatnot.

We are by degrees, all slave to capital. Yes, yes, you can get out your red berets if you're so tacky.

But the bare truth is that so long as they can maintain these balances, and have demonstrated that they can since the 90's, we will continue to be in a race to Domination rather than Cooperation.

I can show you how to bypass their systems if you'll just let me.

But no high power dares contact, due to the bland truth:

anon demonstrated where one looked too deep into the abyss, the abyss would stare back, and flaw you upon their idea of a perfect gemstone for all trivialities that do not make a free and just world.

Yet in attempts at humility, if any could ever exist to them, they could never show their hand if they wanted to. It would be too much vulnerability for them.

Nobody wins.

then when they said get a hobby

the hobby they meant was sticking things inside their holes

>desires to insert electrical plugs into walls and play video games

and its not even a suicide  
more like a trust fall

You're a schizo who takes meds? There's such thing as medication resistant schizophrenia that requires harder medication. But the symptoms eventually settle down after a while. The meds are too hard to take because require a weekly blood draw with a bigger needle. Wait until they up your normal meds as well if you get stuck back in the mental ward and not want to take meds anymore over time.

I think it would become very important media to me in ensconcing the lessons to a <7 year old child  
I'd probably fail at communicating it to the child since the kid would be able to tell when I was lying to him

I assumed the kind of power you were talking about is biological.  
Like a rhinoceros beetle who is really good at throwing others off a tree limb. That's all temporary and gets stripped away once you die.

I don't care what I look like to your eyes.

Because what your eyes like to look at is rotten.

As revealed by you.

I know who I am, what motivates the deepest core of my soul and every fiber of my being.

No amount of ridicule from anyone can change that.

What you can't do is describe the core of your soul, what most enthusiastically motivates you.

You can't describe how you have loved life.

Because you've spent your life hating and learning to hate.

Happy, fulfilled people don't talk to others the way you are talking to me.

Which is obvious to anyone who doesn't live in an environment like yours where toxic hateful behavior is normalized.

Even if you get to keep it, if hell is real suffice to say it's probably full of entities who thought like that before the earth even cooled. Like being the only newbie in a ranked match of veterans, only it's real and you feel all of it.

Fucking awful and I hope it's not real.

just watch it. it's more complex than just someone calling women immature. it explains the situation. you can't just "touch grass" out of an analysis that explains why things are how they are. you can not fix societal misery without first understand why people are. it is a cognitive analysis. it's not "meanie pie" rhetoric, it is a socioeconomic, cognitive analysis. please, just watch it. i assure you, it will both entertain and educate you.
