Why people making big deal from this?

It's nothing.

Burn some shit not going solve anything.

What can solve anything is start mass shooting/murder of Pakistani/nigger/arabs.

Not just men, entire families, included children and women.

Show strong, show power.

Violence to the death is good thing.

Wake the fuck up, just take knife, guns, go to their shity building and start murder Pakistani trash.

At the end of the day you're jumping through logical hurdles because you are mad that a nigger killed a white person while said white person was chimping out like a nigger

Stay mad about it, I wasn't lying when I said I had better things to do like pussy

No you didn't. I want you to know I'm laughing at your post and all the insecurity inside of it

>haha i was the school bully

>i was so hard and cool

school bullies pick on the weakest of the weak because they are cowards

this is extremely well documented at this point and you're not impressing anybody

You don't pick on anybody but even if you did you pick on weak people you know can't fight back

why would that be again?

because you know if you put your hands on somebody there are... consequences?

You've been btfo repeatedly, you're just butthurt a white person acted like a nigger and got stabbed by an actual nigger because he couldn't keep his hands to himself or mind his own business

stay mad about it lol
