/n/ Nobody General Anonymous 09/27/24(Fri)03:57:09 No.38911012

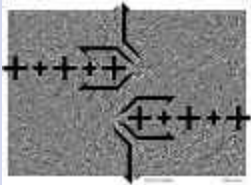

>Who is the Nobody?
The Nobody is a friend alive today who has extraordinary spiritual powers, including the ability to influence reality with his conscious and unconscious mind, and intuitively receive guidance from the forces of Heaven, working to elevate people to their true potential; opposing those who seek power over others. You are capable of this too, as long as you stay true to the Universe.
He was chosen to carry the Logos in its plasmate form: He is a homoplasmate, a divine syzygy; the coalition between man and holy spirit, which is self replicating... making other homoplasmates out of everyday anons.

He is no savior figure, like a messiah; he's just like you, but he has found the kingdom of God within himself through sheer dedication, just like you will. Remember that it's you who creates your own reality; with your hands, thoughts, feelings, words: No one can decide your fate except for you and God.

>What is the general picture?
Treat your body as a temple and focus on increasing your service to all, being more loving and forgiving to yourself and others, raising your vibrational and consciousness level. This will change the vibration of the planet and raise our shared consciousness, making us a better humankind one person at a time. None of us are perfect, it is by learning to admit and accept this fact one is able to learn and grow in Truth.

It's important we start replying more to the good posters and ignoring the hateful ones, or educating them if possible. So call upon their heads the forces of Heaven for peace, clarity, and wisdom. If this place is to be more than a squandered opportunity, an overgrown garden, it requires voices such as yours, but many more.
This place is for us to elevate individuals who have the potential but otherwise would atrophy in pitiful isolation, it really is a ministry to the forgotten beauties. If this is your first time here, just remember, it's going to be ok.
You may take shelter and find rest.

I don't even know

Some white guy made a bomb and blew up a church here

And my boss is very Mexican and was talking to my co workers and I was working and he said pinche wero

That's like fucking white guy

Cause she was talking about the guy that did the bomb thing

But I was walking by and you felt this

We all felt this strange energy shift and she was like

Oh shit I did a racism

We all laughed it off but we still felt that

It was weird that's for sure

Why shouldn't I thank them more often?
I am glad they created this for me, so I should always say thank you.
Manners are important
