Jim deleted the other threads here and then someone posted child porn to the index in hover, same time

Maybe Jim should read the board rules before deleting threads on hover. It just says what ever the thread is, posts stay on topic with that individual thread.

They got scared that hover was gaining traction.

That's why I made the whole new board.

I told you Jim deleted it last time. And he didn't again.

Since the beginning of this board, when 8bit set it up in January 2018, the board log has been available to view. This was done in the interests of transparency.

Anons may or may not know:  
THIS IS A BOARD SETTING not an automatic inclusion. Now it's been abused by shills.  
Am considering limiting access to admins, as many other boards do.  
Thoughts?

These people are so stupid they don't even know how to hide their tracks when they post the CP. they have to rely on board politics to accuse anyone who catches them of whatever they invent on the spot to divert attention away from what they just got caught doing.

They always have a group gang up on the person that catches them.

**Shipwreck**  @shipwreckshow · 2/18/25
